

THE TECH

VOL. XXXI. NO. 147

BOSTON, MASS., FRIDAY, APRIL 12, 1912

PRICE TWO CENTS

TECHNIQUE RUSH SLIPS READY FOR EXCHANGE

At Twelve-Twenty the Shanty at the Oval Will Be Thrown Open.

Next Tuesday, at 12:20 o'clock, the little window of the small shanty at the B. A. A. Oval will be opened and the first Technique, 1912, will be handed out to the luckiest of men who presents the first exchange slip.

The following rules will strictly govern the rush:

(1). The first, second, third, fourth and twentieth books will be in the leather bound de luxe edition and will be signed by President Maclaurin. The remainder will be plain copies, but those, too, will contain the President's signature.

(2). Books will be given out at the window during the rush only to those men who have exchanged the small fifty-cent deposit tickets for the larger slips good for the book itself. On no account will a book be given in exchange for the small deposit slips.

(3). Deposit slips may be exchanged for the larger ones, every day between one and two o'clock at the Union, and at the Oval on next Tuesday before the rush.

(4). Those who obtain books in the rush may have their money refunded immediately after it is over.

(5). The first gun will be fired at a quarter past twelve, sharp, and will be in the nature of a warning signal. The second shot will come two minutes after, the third follows at an interval of forty-five seconds. The starting gun will be followed at exactly twenty minutes past twelve o'clock.

All those that do not enter the rush may obtain books on presentation of the deposit slips either at the Oval Tuesday noon, or at the Union on the following days.

HOOK NIGHT CANCELLED.

Few Men Willing to Give Efforts So All Plans Fall Through.

All plans that the Hook Night Committee had arranged for a first-class entertainment for the men in the Union tonight have been called off because of lack of entries. The committee has been busily seeking vaudeville acts ever since the idea was conceived in February, but the students have responded poorly to their efforts.

The Manager of the affair succeeded in finding only four teams willing to display their histrionic talents for the enjoyment of their fellows. This number was too small to furnish a full evening's entertainment and, as a result, Hook Night has been postponed indefinitely. The committee announces that it will put on the entertainment at any time that a sufficient number of new entries signifies a popular demand for the affair.

In a six-inning game between Chelsea High and East Boston High, the latter team did not secure any hits off the schoolboy pitcher of the other nine.

Mel Shepard is expected to come to the fore again in the games in Sweden.

FINANCE COMMITTEE HOLDS MEETING

Reports from the Activities Show Clean Record For the Majority.

At a meeting of the Finance Committee, at which President Kebbon presided, the reports of the several activities represented in the committee were read and discussed. The Senior Portfolio Committee reported a smaller number of sign-ups than was expected for this time of year, and were warned that not enough recruiting had been done. The Biological Society report showed such a deficit in dues that immediate action will be necessary to enable the society to pay outstanding bills at the end of the year. The Architectural Society reported that though it was in debt at present this was due to the fact that the society has been paying up the debts left over from last year. It has been gradually gaining a clear standing, though an assessment will be necessary for a complete clearance.

Among the societies presenting full and favorable reports, the Civils, Electricals and Mechanicals were noteworthy. The Senior and Freshman classes reported, for the former, a clear record and a large balance; for the latter an insufficient number of dues paid. The other classes presented favorable reports. The Prom Committee, the Musical Clubs, and the Cosmopolitan Club all gave clear standings.

Mr. Litchfield proposed to have a report of the Finance Committee mimeographed for the benefit of each of the activities of next year. It was also proposed that an undergraduate secretary should be elected to assist the graduate secretary in his duties. Nominations and elections were held immediately, with the result that Robert Weeks, business manager of the Show, was unanimously elected. He will receive the reports of the various committees and clubs, and after inspection will refer them to the Graduate Secretary, Grosvenor Marcy, '05, who will take them to the auditing committee, composed of himself, Mr. Litchfield and Mr. Coburn. The auditors will meet on May 9, at the last meeting of the year.

At the close of the meeting Mr. Coburn invited all the members of the Finance Committee to assemble at the Technology Club for their next meeting.

The meeting was adjourned with three cheers for Mr. Coburn.

1914 TECHNIQUE.

At a meeting of the 1914 Technique Electoral Committee, Jack Morse was elected Statistician of the 1914 Technique. The meetings of the committee have been postponed to April 28, when the Art Editor will be elected from the number of men that are now competing for the position.

The University of Pennsylvania has entered two eight and a four-oared shell in the annual regatta of the American Rowing Association, to be held on the Schuylkill River in May.

There are less than two hundred Techniques left out of the big issue. Get your rush ticket today.

SUBSCRIPTION CAMPAIGN FOR NEW TECHNOLOGY

President Maclaurin Addresses Letter to Alumni—Local Committees Formed.

The active work of securing subscriptions from the Alumni of Technology has been begun today by the circulation throughout the country of an appeal for funds for an equipment that shall match the buildings which are to be erected with the splendid gift of the anonymous benefactor. In this work as in all the matters of the kind a system has been outlined and established. In the work for the increase of support from the State of Massachusetts, which was so successful a year ago, Tech took hold so scientifically that the professional politicians were amazed, and it was able to bring together the political parties to a substantial appreciation of the value of the Institute to the community and the country.

The circular which is issued today bears the names of the members of the Fund Committee, the chairman of which is Everett Morss, '85, and the secretary, I. W. Litchfield, of the same class.

The great gift to Technology has for its only restriction that it shall be used for buildings alone. The money will enable the institution to do what is almost unique in the history of education, treat the whole construction as a unit, a problem to be considered as a whole and not piecemeal.

For commensurate treatment of other portions of the work the present call for subscriptions is necessary, and the items still to be provided for include the equipment of the buildings, dormitories, adequate facilities for athletics, and the Walker Memorial, which is planned to be the social centre. Not a little will be needed for the proper treatment of the grounds, for here it is the intention of the Institute to have its campus a park, available to the citizens of Cambridge, an idea to which the waterfront along the Charles River embankment lends itself most admirably.

President Walker, whom the Walker Memorial will serve to commemorate, came to the Institute in 1881, and for more than fifteen years gave to the school his best thought and energy, sparing no effort to promote its welfare. For the erection of the Memorial it has been planned to establish one that shall benefit all the students, which shall be the students' rallying place, contain a gymnasium and other features of use to every one. Already there is in hand one hundred and thirty thousand dollars. With the New Technology in all its dignity and harmony, the Walker Memorial must accord, and for it additional subscriptions will be needed.

The campaign for funds is now begun. Already President Maclaurin has addressed a letter to every former student—nine thousand in all—whose address is known, and committees have been named. These are first a committee for each geographical district, and second, a committee for each class. These include leading men in all sections of the country.

"Now is our opportunity," writes the central committee in its appeal. "We must do our part, not only to complete the plant, but by our ex-

(Continued to Page 3, Col. 2.)

DR. W. A. TUFTS GAVE THURSDAY NOON TALK

Speaks on "The Man Behind the Gun" Before Tech Men in Union.

Dr. Tufts of the First Presbyterian Church gave an interesting talk to the men in the Union yesterday, when he spoke on "The Man Behind the Gun." He spoke in an easy and direct style and was unusually cordial to the men who were interested in meeting him personally after the regular talk was finished.

He sought to show how necessary it is for a man to realize early in his life his responsibilities to himself, and to those other people with whom his later life will be spent. He illustrated his point with a story from "Dr. Luke of the Labrador," showing that no matter how thoroughly a man may reform his habits after a dissipated youth, he has no right to fall in love later, and thus ruin more lives than his own.

"The only way," said he, "that a man can hope to deserve the praise of 'Well-Done' at the end of a long life, is to plan and live his life always with that end in view."

LECTURES FOR MEN.

Course of Interesting Talks Given Sunday Evenings.

"Facts of the Lawrence Strike and Issues it Points To" is the subject of an address which will be given by Mr. L. Deland, in Central Church on Monday evening, April 15. Mr. Deland is an experienced speaker, and his service on the Citizens' Committee which investigated the Lawrence strike qualifies him to give a very valuable talk.

The Technology Christian Association has also received an invitation for all Institute men to attend a course of talks which are to be given in the Jacoby Club Room of the Emmanuel Church, No. 15, Newbury. W. Lathrop Meeker will begin his course of lectures on "Religion as a Practical Experience" next Sunday evening at 7:30 o'clock.

Mr. Meeker is the director of the Jacoby Club, and has had much experience with young men of the college age.

The City College of New York is to have a new \$100,000 Stadium. The necessary money has been donated and the city of New York will provide the land.

The card room is not so full now that the new books help to pass away the time.

CALENDAR.

In Charge of S. H. Taylor, 1914.

RECOGNITION.

At the regular weekly meeting of the Managing Board of THE TECH, VOL. XXXI, held yesterday, an event happened which may be considered one of the most momentous which has involved any Institute activity for some time. The event took the form of a motion which read as follows: "Moved that the election of the Undergraduate member to the Advisory Board of THE TECH on Wednesday, April the tenth, by the Institute Committee, be endorsed by the Managing Board of THE TECH, VOL. XXXI. The said Advisory Board to consist of two Alumni members recommended by the Alumni Association, and one Undergraduate, who is also a member of the Institute Committee. This Board to act towards THE TECH as the Advisory Board of THE SHOW acts towards THE SHOW."

The importance of this step can be understood when it is realized that since the inception of THE TECH, thirty-one years ago, it has always been a self-governing body. Certainly it has been represented in the Institute Committee meetings by the General Manager, but it has always represented any suggestions made by this body.

The present action, then, is a direct recognition of the Institute Committee, and as THE TECH is the oldest activity in the school, this motion should have an effect on the other activities which so far have not seen fit to acknowledge the principal reasons for the existence of a committee of this kind. The Institute Committee is supposed to consist of the most representative body of men in the school, and we think it fulfills its office. Undoubtedly certain of its actions are open to adverse criticism, but what society, especially one formed of college men, does not come in for more than its fair share of hard knocks?

Now a word as to the duties of this Advisory Committee. Its members shall have access at all times to the books, and it shall be their duty to audit them. They shall be required to advise, when requested, as to the sense of certain steps; but their position will be purely one of advisers and not rulers.

We cannot help but think that the motion passed by THE TECH Board is one of paramount importance to the student body, and by its means the standard of THE TECH should be materially raised.

INTERCLASS MEET NEXT SATURDAY

Running Events Will Be Close and Records May Be Broken in the Mile.

If the weather man is generous and sparing with his rain the Interclass meet next Saturday afternoon promises to be a big success. The times will undoubtedly be better than those made last Saturday, and conditions appear that records may be broken in the longer sprints and in the high jump. The Sophomores seem to have the best chance to win, followed by the Juniors. It will be a class race for third between the Seniors and the Freshmen. Much interest is centered on the quarter-mile, as the members of the indoor relay team will fight for first place. T. H. Guething, '14, has the odds with him at present, though J. H. Bolton, '14, followed him very closely across the tape in the former meet. B. Munch, '13, R. C. Thompson, '13, and the Freshman, J. Homan, will push these two to their best.

The 880-yard run seems to belong to Guething; but W. Bylund, '13, and his classmate, R. Palmer, will make him run for record time or better. The mile will be the best and the closest of the events. E. Germain, '12, is picked to win, but calculations may be upset by the cross-country runners, A. F. Nye, '14, C. S. Lee, '14, and G. C. Shedd, '14, and the "Old Reliable," E. T. Marceau, '12.

In the field, the high jump is another event in which the record is in danger. Captain P. W. Dalrymple is in fine shape and has the first place easily. The Sophomores, L. S. Hall and E. Eberhardt, and E. Teeson, '15, are the next best jumpers, with Hall a trifle in the lead for second place. The weight-throwing contests will be rather mediocre. The shot-put will probably go to the Freshmen, for they have H. Crowell, J. O'Brien, and H. E. Hadley to throw for them, either of whom may get first place. The discus and the pole vault is a toss up for all classes.

TECH IN OLYMPIC GAMES.

Captain Dalrymple and Guething Will Try for Places.

There are two men in whom Tech will place hopes this year for the Olympic games at Sweden. Captain Dalrymple, of the Technology track team, broke the indoor record for the high jump last year with a leap of 5 feet, 11¼ inches, and Coach Kanaly thinks he is capable of clearing 6 feet, 2 inches. The recent high jump of Horine, of 6 feet, 8½ inches, out-classes anything up to date, but there are chances of changes in different classes. Dalrymple comes from Medford. He prepared at the Medford High School and the Worcester Academy, and it is only during the last year that he has done anything in the jumping line. Guething, the other star, who comes from Winchester, is the other hope. In the Canadian championship meet at Montreal last year he was timed at 49 4-5 seconds in the quarter-mile although he did not win the race.

There ought to be a record mile at the Field Saturday.

There is talk of appointing Jack Moakley coach of the Olympic team if Mike Murphy is incapacitated in any way.

ALUMNI CAMPAIGN.

(Continued from Page 1, Col. 3)

ample, to encourage others to supply the money needed for endowment. What will you give?" is the concluding phrase, putting every Tech man on his mettle to add his contribution to the great gift that has come from the business world from one whose interest in the school is derived not from having studied in it, but from a knowledge of what it has done for the interests of trade.

The Fund Committee is composed of Boston men, Everett Morss, '85, chairman; James W. Rollins, '78; Edwin S. Webster, '89; Arthur T. Bradley, '88; Frederic H. Fay, '93, and I. W. Litchfield, '85, secretary.

Among the chairmen of local committees are the following:

Akron, O.—Paul W. Litchfield, '96, 38 Marshall avenue. Superintendent of Goodyear Tire & Rubber Co. One of the most important business interests in the city.

Atlanta, Ga.—William R. Collier, '00, 58 Kennesaw avenue. Contract agent, Georgia Ry. & Electric Co.

Baltimore, Md.—Edwin F. Samuels, '99, Maryland Trust Building. Patent attorney of Stewart & Stewart.

Buffalo, N. Y.—Willard H. Watkins, '95, P. O. Drawer 57. Manager of one of the largest departments of Schoellkopf, Hartford & Hanna Co.

Chicago, Ill.—Frederick K. Cepeland, '78, 122 S. Michigan avenue. President of Sullivan Machinery Co.

Cleveland, O.—Franklin B. Richards, '84, 617 Perry-Payne Building. With M. A. Hanna & Co., coal operators.

Columbus, O.—Prof. Frank E. Sanborn, '89, 90 14th avenue. Director of Department of Industrial Arts, Ohio State University.

Denver, Colo.—Frank H. Shepard, '87, P. O. box 1802. President Denver Engineering Works.

Detroit, Mich.—Marvino Gerham, '93, 170 McDougall avenue. Secretary and treasurer Schwappe & Wilt Mfg. Co.

Hawaii.—T. Olive Davies, '94, Honolulu. With T. H. Davies & Co., Ltd. Sugar Factors.

Indianapolis, Ind.—Kurt Vonnegut, '08, 630 East 13th street. Architect; son of the well-known Indianapolis architect.

Kansas City, Mo.—Henry F. Hoyt, '97, 315 East 10th street. Of Horner & Hoyt, architects.

Lowell, Mass.—Edward B. Carney, '93. President Lowell Institute for Savings.

Los Angeles, Cal.—Samuel Storrow, '90, 310 Wright & Callender Building. Consulting engineer.

Maine—Abel M. Hamblet, '02, 13 Rumford avenue, Rumford, Me. Supt. Chemical Engineering and Operating Co.

Milwaukee, Wis.—Harry H. Cutler, '81. Vice-president Cutler Hammer Mfg. Co.

Minneapolis, Minn.—William H. Bovey, '94. Washburn-Crosby Co.; in a very important position.

New Bedford, Mass.—Charles F. Wing, Jr., '99, 36 Purchase street. With the C. F. Wing Co., one of the largest furniture firms in New Bedford.
