THE TECH AGAIN WINS FROM TECHNIQUE TEAM

Repeat Their Performance of Last Year's Prom to Make Good Claims for Championship.

Technique, true to tradition, again had the chance to play for the major league Wednesday evening in the annual game with THE TECH. According to the scorer's marks on the ground, the ballplayers scored 54 runs and Technique crossed the plate six times, but someone sat on the score and rubbed out some of THE TECHIsts, and their score may have been larger.

Groundkeeper Fillies opened the game, and the assistants brought out the long of Fillies and placed it on their throne on the third base line. As no official pitcher was ever appointed, Gibson was chosen to be the goat, and was installed in back of the pitcher. By the strenuous efforts of the serious minded persons present he managed to get a few wrenches out at first scratch.

The game started the same for THE TECH, and the way he fanned the book men was painful to see. At last his efforts proved too costly. The opposite hitter threw the ball over the fence with a glee and was safe.

SMOOTHEST TOBACCO
Like the Lawford stroke, the more you try it the more fascinating is Velvet, the tobacco. The best leaf aged over 2 years—time is the only process. Tobacco matured in this fashion is rare—it's too smooth to irritate or "bite." It's a pleasure to carry such a smoke as Velvet in your pocket—it's extremely companionable!

Full 2 Ounce Tins

COMMUNICATION.

(We invite communications from all men to the Institute on important subjects. We take no responsibility for their sentiments and do not agree that they may come in, whether they are signed or not)

Editor, THE TECH:

I wish to explain the withdrawal of the books from the Union and the reasons for such withdrawal. In a recent visit to the Union I noticed that the books on hand were all on one subject and that the Union had no literary or general literature. I felt that such a library was badly need by the many men who made the Union their resting place during leisure hours and determined to put in some of my spare time in building up such a library, starting in with a contribution of some books I had in my possession. It was my intention to add books from time to time and to endeavor to get them for the Union in a first class library in the Union, and it was my desire that I could better influence others if I proved my own care very near that any missing books have been taken away by students interested in reading them and in the absence of any announced rule that the books were to be used only in the Union and I hope that the holders will not hesitate to return them for fear of having their motives misunderstood. I also feel that it would be a useless task to build a library for the Union if the books had to be so restricted by rules that they would not be used. Every gentleman's club has a library, free and open to all. The mass having a few moments of leisure picks up a book, and when he must leave re- places it, and it would be hard for me to believe that any greater restriction was necessary in the Union. If it is, then the sooner we prove that fact and build up a public opinion in the student body which will make it extremely dangerous for those who may have any informal ideas of the ownership of property, the better, and if every book of the present collection has to be sacrificed to prove the existence in the student body of such numbers and developing the sentiment of contempt for such practices, which would be their sure cure, I will still feel that the books have been used, a useful purpose served, and be encouraged to start fresh. For Boston is no such powerful force to government as a healthy public opinion. Let such sentiments in regard to the wrong-doer as have been expressed in the editorials in THE TECH be generally held and expressed in the student body, let every man feel that such acts on his part will be promptly reported by anyone having knowledge of it, and that he will be ashamed and

(Continued to Page 3.)
ARCHITECTS' EXHIBIT.

Instead of a tea and reception, as planned by the Architectural Society for some day this week, an exhibition of the students' work in architectural design has been arranged. The display will represent the picked designs of the second, third, fourth and fifth year classes. For Friday and Saturday an attempt is being made to have shown also the designs of the recent intercollegiate architectural competition, now being exhibited at Harvard. The display of the recent European work of W. J. Robinson, '09, has also been continued.

TECH VS. TECHNIQUE.

(Continued from Page 1.)

Mother pitched for Technique, and it wasn't his fault that the Inkslingers won. He was most considerate of the other team and didn't hit a man, although he nearly got the smallest breaker in the need. Freeman caught, therefore the ball couldn't get by the catcher unless it was at least ten yards wild. Crocker and McDonald were the heavy hitters for the losers.

An inspection of past issues of THE TECH will show that Technique has not won in many years, although they have claimed to have been robbed of the game several times by the losers. Last year they lost by a score of 9 to 11 and the year before they were beaten by a score of 9 to 5, with the Bursar unjudging. In 1909 the machines piled up 16 points, but THE TECH got 17 in the same game, so they won again. The year before the Inkslingers scored 22, while the Year Book men only gathered 12, and thus it has been ever since the Institute was founded, and the games were played with a purpose and strong ball.

The teams lined up (but not at the ring, they were all bunched there) as follows:

THE TECH—Cary, 3b.; Peck, c.; Whitman, 2b.; Wall, s.s.; Thomson, 1b.; Goodell, p.; Lewis, Paris, f.; Hilton, c.f.; Hyman, Poole, r.f.

Technique—Hurt, c.; Gadsby, s.s.; Mutter, p.; Caires, 1b.; Macdonald, 3b.; Brewer, a.a.; Freeman, c.; Herriot, 1f.; Mathison, of.

COMMUNICATION.

(Continued from Page 2.)

held in conjunction by all his fellows, and he will be a brave man, if not an honorable one, who will run the risk for the value of any number of books. Establish your rules and have it well understood that it is a duty for any one knowing of their violation to report them, and that the wrong-doer must not be protected by that false sentiment that reporting of evil is itself a mean act, and it will be possible to place anything in the Union without such restrictions as a take away all the pleasure of its use. Unless that can be done, all the plans for the new and splendid students' club had better be abandoned.

The books which have been the subject of all this contention will be shortly replaced on the shelves. I hope and believe that most, if not all, of the trouble has been due to error rather than wrongful intention, and expect to see the few scattering volumes grow to a large and important library, needing no protection except rules to guard against too careless handling. I feel, however, that the matter has done good in leading to the development of that strong public opinion so ably and forcibly stated by THE TECH that will warn any student whose ideas as to the ownership of property may need revision of that sort of thing, that it is an association of honorable gentlemen and that anyone not measuring up to that standard had better seek other associates. Very respectfully,

Edwin T. Cole
Major, U. S. Army.

The American
A Most Brilliant Company of Six Hundred Danced the Field.

Among the social landmarks of Technology student life of recent years, the Junior Promenade held by the class of 1913 at the Hotel Someset last Friday night will take a prominent place. The magnificent ball was appropriately decorated with Technology and class pennants, and floral displays. Under the open balcony was a bower of flowers. The chaperones' balcony was likewise tastefully decorated. Bands and small and large everywhere in evidence and the whole combination formed a most delightful setting for the crowd of dancers.

192'.-It was a most pleasing scene. Color and vivacity were ever present in the lino balconies, which numbered five hundred. The sovereigns of the young ladies, ranging from chaste cherry to phlox, were all set out on the dance floor in black satin to the demure image of the young men. The band, effectively brought into exquisite relief against the conventional and somber backdrop of the balcony, from the balcony the whirling throng of its music and gay spirit of the occasion with a sparkle and remarkable beauty.

The eleventh dance was a moonlight dance, and it was with a gasp of delight that the dancing throng saw the face of a beautiful girl silhouetted against the moon. Presently the diffusing moonlight was removed and the pure, clear rays of the astrophotographer's flash exposed the figures. Mayor John F. Fitzgerald was singled out by the spotlight during the dance. This number was very enthusiastically encored several times.

Among the ladies present were: Misses Haslam, Haselden, Haselden, Rock, Maitland, Bartlett, Swift, Wagenfeld, Hines, Norton, Sheppard, Bulkeley, Storke, Ritrell, Hughes, Nicholls, and Knox. Among the gentlemen present were: Mr. Haselden, Haselden, Haselden, Rock, Maitland, Bartlett, Swift, Wagenfeld, Hines, Norton, Sheppard, Bulkeley, Storke, Ritrell, Hughes, Nicholls, and Knox.

Rifle Team Chosen.

Haslam Wins Medal With Score of 137.

At the recent shooting match of the Tech Rifle Club the following remarkable records were made by the six best.

Haslam, 137; Williams, 134; Rudolf, 129; Glenister, 126; Casselman, 119. Of these men as the best of the rifle team, the latter was chosen as the rifle team for the year, but other men who are showing up strongly for places in The Aeronaut, will probably assist the rifle team.

The members' medal match went to Haslam with the score of 107 out of a possible 150. The other men were 108, 109, 110, 111, and 112. The following men were members of the rifle teams: Haslam, Williams, Rudolf, Glenister, Casselman, and Glenister.

TECH SHOW.

Last Two Performances This Week.

Only two more performances of "Cæsars in Spital Week" Tech Show, 1912, will be a matter of his, but let us be satisfied with the last two before they are all gone. Quite a few choice seats still remain but the best places have gone. The Maland Auditorium, with a scale of prices slightly lower than that which have prevailed during the season, will be given to the last two performances.

To reach the theatre at Maland take the Elevated to Sullivan Square, and transfer to any Maland car. The Auditorium is very near the Square. The last performances will be held at Northampton Saturday evening, April 27th. Special excusion rates have been arranged for any of the students who care to go. Round trip, tickets including railroad fare and hotel rooms one night, $5.00. Tickets will be good for return any time the following day. Applications should be made at once as the accommodations are limited.

T. C. A. DISCUSSIONS.

The topic to be discussed this week by the T. C. A. groups is: "Should the Bar Area Be Under Perfect Control?" and this will take the place of the regular topic as announced. The T. C. A. groups hold meetings on Tuesday at 8 o'clock, in the Union; on Tuesday at 10 o'clock, in the T. C. A. Union; and on Thursday at 6:30, at 40 Rutland Square, in the secretary's room.

Interscholastic Circus coming soon at the University of California.

FRESHMEN MEET TUFTS

SECONDS SATURDAY.

Regular Practice for the 1914 Men This Afternoon at the Field.

Next Saturday afternoon, at 3:30 o'clock, the Freshmen will meet the Tufts Second team at Tufts Oval, in Medford. An interesting game is expected, as the home team has a fast, hard hitting squad.

The Freshmen have shown great improvement since the opening of the season. Although they lost their first game to Medford by a score of 21 to 1 in a loosely played contest. The next game was lost to English High by a score of 13 to 8. This second game showed much improvement in team work and made the first two opponents in the coming series with the Sophomores.

The Freshmen squad is still very small and there is a decided lack of interest on the part of the first year men.

Some men are still in the army, and none is doing good work at left field.

The following men will report for practice tomorrow: Balderley, Hall, Bauer, Scally, McCaffrey, Morse, Franklin, McVey, Thomas and Ray.

CREW SELECTIONS.

All boats made up—Practice continues every day.

According to the latest report the first crew selection is now as follows: Shurtleff, 1; Dufeld, 3; Beales, 2; Peirce, 1; Werich, 5; Short, 4; Up ham, 7; Sweet, steeple, and Worrell, coxswain. At a recent election Up ham, Short, and Worrell are the coxswains. The next game is to be played by English High.

The second crew is made up of the following men: Hale, 1; Moore, 2; Britton, 3; Duffeld, 4; All, 5; Salom, 6; Magee, 7; Goss, steeple; Rivard, coxswain.

Practice is now held daily, with the first crew at 6 o'clock, and the second crew at 4 o'clock, except on Sundays when the first crew goes to Cambridge.

All candidates are expected to be on hand today at 5 o'clock, and will be addressed by the coach and others about the work before the men.

EXTRA ORDERS.

The Prom Committee will continue to receive orders for programs until Thursday at 1 P.M. The men desiring to be listed are to leave their names at the Union. The women will be listed at the Ciga barber for blacking.
THE TECH
Published daily, except Sunday, during the college year by students of the Massachusetts Institute of Technology.
Entered as second-class matter, Sept. 15, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.

THE TECHNIAN.
The terrible steamship disaster, so fresh in everyone's mind, has left an indelible mark on the whole nation. It seems hard to credit in these days of scientific improvements that such an accident could occur. Here was a ship, to all intents and purposes, perfectly safe and built on lines which all dangers seemed to have been avoided. Speeding along through the night with her band of merry-makers and sleepers, in a second rent apart, and in an all too short four hours, lying a wreck at the bottom of the sea.
The world must learn by example to meet this sort of emergency properly. It must be addressed to the proper departments, and must be accompanied by the world's attention. The lesson should be learned by everyone. The lesson should be learned by everyone.

WILL TALK TO MINERS.
E. R. Cotton, of Boston, Will Tell of Practical Experiences.
The next meeting of the Mining Engineering Society, which will be held but once during the present year, will be held tomorrow, Wednesday evening, at 8 o'clock in the Union and promises the officers feel to be one of the most interesting and valuable to the men that has ever been given. Mr. E. R. Cotton, who holds an important position with the United Smelting and Refining Company, has consented to talk informally of his own experiences.

Mr. Cotton is exceptionally well fitted to give a talk of great interest from the fact that he has spent many years gaining a technical education in a practical way and has been connected with some of the most important developments in the mining world of recent years. His company opened new lands in Dawson, in Alaska, and much of his effort has been expended there during the past two years. He has studied the most intensive field of all. He will tell many of the interesting facts and results of the experiences which befell him while in Alaska, together with other interesting details concerning the railroad facilities which exist.
The officers have made an especial appeal to the men of the society to be present, for the reasons that they feel so much of interest will be discussed, and the fact that the meetings of the year are so near an end. Refreshments will be served at the close of the evening.

L. PINKOS, College Tailor

COMPETITIVE DRILL IN ARMY WEDNESDAY

Interscholastic Squad Manoeuvre and Freshman Review to Feature.

Plans for the Interscholastic prize drill to be held on Wednesday, April 24, in the South Armory, are completed, and those in charge expect to have a record-breaking crowd present. The Fife and Drum Corps are drilled to the minute and are able to give good music. C. W. Fry is drum major; R. G. Brown, K. F. Foster, H. Niemann and L. R. Plump are buglers, the fifes are played by P. W. MacNeill, P. A. Keefe, T. R. Johnston and W. M. Carr; and D. W. Perdue, F. H. Karp, G. R. Urquhart, Lewis, A. H. Anderson and Z. T. MacDrive are the drum majors.

The drill will commence at 3 o'clock with the manual of arms by the Freshmen Battalion. At 3:20 the competitive interscholastic drill will commence. Those who will participate will be squads from the various out-of-town high schools that have been invited to send down picked men to compete for prizes. This will take up the greater amount of time until 5 o'clock. The feature of the program will be next in order, namely, battalion review of the Freshmen, headed by the Fife and Drum Corps.

Tickets are fifty cents and may be obtained from any of the members of the Signal or Fife and Drum Corps.

RICHARDS IN DENVER.

Professor Robert H. Richards, who is in charge of the Department of Mining Engineering and Metallurgy, has left for a professional trip to Denver, Colorado. While in Denver he will confer with Mr. Frank E. Shepard, 1887, President of the Denver Engineering Works, who handles his various inventions, and will visit the Golden School of Mines.

On his return trip he will stop at Rolla, Missouri, where he received an honorary degree of Doctor of Laws from the University of Missouri in 1909, and then to Hancock, Michigan, where the Michigan College of Mines is situated.

JUNIOR PROM.

Commission for sale and service. High class and large stock for the best restaurants.

Outdoor Work

We have a lot of it to do this Summer for our three popular magazines—EVERYBODY’S, THE DELIGHTFUL, and ADVENTURE.

We prefer to have College men do this work. You can make hundreds of dollars working for us. You get nothing to do the information and you may travel together.
