EXAM. SCHEDULE OUT-TOMORROWS ISSUE

VOL. XXXI. NO. 157

BOSTON, MASS., TUESDAY, APRIL 30, 1912

PRICE TWO CENTS

ROOSEVELT WINS IN BIG STRAW VOTE

Wilson Is Democratic Choice—Socialists Poll But Five Votes.

Four hundred and twenty-one ballots were cast in the Presidential straw vote by THE TECH, which closed yesterday afternoon. The results are as follows:

Republican Ticket.	
Cummins	0
La Follette	4
Roosevelt	195
Taft	124
Democratic Ticket.	
Clark	19
Harmon	3
Marshall	7
Underwood	3
Wilson	61
Socialist Ticket.	
Debs	4
Spargo	1
Total Republican vote	323
Total Democratic vote	93
Total Socialist vote	5
Total number cast	421

A number of the ballots cast were not counted because of the lack of signature or the voting on two tickets.

The race during the first day of the campaign was a very close one, the result being a Taft lead over Roosevelt of three votes. La Follette received no votes on Saturday. The Republican votes, however, changed their complexion yesterday with a constant stream of Roosevelt votes. His total climbed from the 59 received Saturday till at the close of the polls it registered 195. Taft received 62 votes on Saturday, with the same number yesterday. La Follette's four votes came in early yesterday. Cummins was entirely without supporters.

There was really no contest among the Democratic voters, Wilson showing at all times a large lead over the other candidates. Clark was evidently the next in favor. The Wilson total for Saturday was 21, which yesterday was swelled to 61.

Four votes were registered for Socialist candidates. Spargo had one supporter while Debs had four votes to his credit.

SOPHOMORES WIN.

Ball Game With Tufts Dental Called After Sixth.

The Sophomore baseball team yesterday defeated the Tufts Dental team, 3 to 2, in a fast game. A brisk shower started during the game, and at the end of the sixth inning, after Tufts had scored two runs on errors, due to the slippery ball, the game was called with the score in favor of the Sophomores.

Swift pitched for the winning team and Storke caught. Cousin's three-bagger in the last inning was the feature play of the game, and helped to give the Tufts men their only tallies.

The summary by innings:

Innings	1	2	3	4	5	6
M. I. T., '14	1	0	1	0	1	0—3
Tufts Dental	0	0	0	0	2	—2

The Chemical Society had a surprise party last night.

COMBINED MUSICAL CLUBS' BANQUET

Copley Square Hotel Tonight—Elections Held After the Dinner.

The annual election and banquet of the Combined Musical Clubs of the Institute will be held in the Copley Square Hotel tonight at 6.15 o'clock, and the management feels confident that at least fifty men will be present to enjoy the excellent menu which has been arranged.

A dinner under the auspices of the Tech Show will also be held tonight, and this will probably take a few men from the Musical Clubs' banquet. Arrangements of the two organizations for their respective functions were nearly completed when it was discovered that the dinners were to come on the same date.

The Musical Club management has decided to give the dinner to the men who have so faithfully supported the clubs this year, because of the large proceeds which have been obtained from the various concerts.

CIVILS TO DINE.

Three Big Men Have Promised to Speak Tomorrow Night.

Tomorrow night the Civil Engineering Society will hold its annual dinner at the City Club. The officers in charge announce that they have procured the services of three well known speakers. These men are Lieutenant-Governor Luce, Charles T. Main, '76, and Everett Morss, one of the best known and most active members of the Corporation. Mr. Luce, who will speak on behalf of the Commonwealth, and Mr. Morss have not announced their subjects, but Mr. Main will talk on "The Work, Aim and Conduct of an Engineer."

Mr. Main has had a very extended experience as a civil engineer. He designed and superintended the construction of the Wood Worsted Mills and the smaller Ryer Mills of South Lawrence. Besides increasing the efficiency of many others, Mr. Main has recently been active in the development of many great water power plants.

The results of the recent election of officers for the coming year will be announced at the dinner.

ALL TECH SHOW MEN.

All members of the Tech Show are wanted at the dinner to be held this evening in the Union at 6.30 o'clock. Invitations are supposed to have been sent to all the fellows, but if any have been overlooked, they are expected to come anyway. As this is the last time that the Tech Show, 1912, will have a chance to get together it is hoped by the management that all will make an effort to be there.

GOLF CLUB NOTICE.

President Howlett of the Golf Club notifies all members of the club that they are not to go to Wollaston to play on Wednesday, as the Massachusetts Open Tournament will take place at that time.

TRACK TEAM MEETS BROWN SATURDAY

Brown Will Come With Strong Squad Eager to Avenge Former Defeat.

Next Saturday the track team goes against Brown in the only meet scheduled to take place at Tech Field. Great efforts have been made and interest in track has soared high after the recent slump to repeat the performance of last year, when Brown was easily defeated. The team which they will oppose has been strengthened materially by new men and the desire to wipe out last year's defeat. Coach Kanaly has his men out every afternoon carefully training to meet new demands and the compared times of the two teams promises that the contests will be close and not such a walk-away as before.

The dashes have more men entered than ever before for a long time. Wilson is again in shape after his injury and is running shoulder to shoulder with Wilkins. Hadley is following Wilkins across the tape in the 220-yard dash in close order, and both are making fast time. Guething stars in the 440, and is hard pushed by Bylund. These two men and Germain are fighting for honors in the 880, but the latter has so far kept the lead to himself.

The longer races, the mile and the two-mile, have a number of men entered from the cross-country teams, whose times are promising although not quite equal to those of the Brown men. These long races will, doubtless, be the star events of the day and the cross-country men will have to fight hard for places.

The hurdle races will also afford bitter contests between the leaders. Curtis, the Freshman, and Huff, the Sophomore, are at present showing the best form in these events.

The field events have not as good representation as the running list. In the high jump, Captain Dalrymple, followed by Hall, is jumping well up the pole. MacLeod and Alt are covering good distance in the broad jump, and Greenleaf and Mangan are vaulting the best in the pole vault.

MRS. RICHARDS HONORED.

Memorial Founded For Advance of Science.

Plans for awarding a prize of \$1000 in memory of Mrs. Ellen H. Richards, late of the Institute, for the best thesis by a woman on any scientific subject, were made by the Naples Table Association for Promoting Laboratory Research for Women, at a meeting in Wellesley last Saturday.

The association is composed of many of the most prominent women in the country interested in educational and scientific matters; among them President Ellen F. Pendleton of Wellesley.

Harvard has a new sprint man, R. Tower, of the Freshman class, who has shown up exceptionally well. He was timed at 10.15 in the handicap meet.

COURSE 4, OPTION 2, TO ELECT OFFICERS

Business Meeting to Be Held Today to Discuss Joint Dinner.

The election of officers of the Architectural Engineering Society will take place today at 2 P. M., in 42 Pierce. The men elected will serve as officers during the next year, and as other important business will come up, all men are asked to be present. The nominations will be made from the floor, but actual voting will be by secret ballot.

The matter of the joint dinner, to which all Course 4, Options 1 and 2 men are invited, will come up. This dinner has been arranged to take place on Saturday, May 4th, at 6.30 P. M., at the Hotel Westminster. Tickets are \$1.00, and may be obtained from the officers of the society. Professor George F. Swain, '77, Professor of Civil Engineering at Harvard, will be one of the speakers. Professor Swain, previous to his going to Harvard, was an instructor here in the Institute, and so is capable of talking to Tech men on familiar records. Another man that has been invited is H. Van Buren Magonigle, one of the most renowned architects in the city of New York.

PROM GOES TO CREW.

Final Report Most Gratifying to Committee.

In making their final report the Junior Prom Committee take the opportunity to thank the men generally for their support and early sign-ups, which greatly facilitated the work of financing a dance of so large an order.

The expenses have been wholly met from the proceeds and a good surplus now rests in the treasury which is being turned to excellent advantage, \$25 having already been given to the crew to make up to a degree the deficit in the finances of that activity.

TECHNIQUE COMMITTEE.

For the second time, the absence of a quorum at the Technique Electoral Committee, yesterday, caused the postponement of the election of the Art Editor and his assistants. The committee will meet again Wednesday. The chairman urges the men to make an especial effort to be present at Wednesday's meeting, as the time for action is growing short.

CALENDAR.

In Charge of S. H. Taylor, 1914.

Tuesday, April 30.

TECH MEN AND POLITICS.

The hope that we expressed some days ago has been realized. The results of the Straw Ballot, published in this issue, show that over four hundred Tech men have enough interest in the Presidential nomination to go to very real inconvenience of showing their preference in this manner. We congratulate them on so thoroughly disproving the discouraging prophecies which greeted our proposal to sound the sentiment of the student body. In what manner the choice was indicated is not in our province to discuss; in this connection only the fundamental relation between Technology men and the political questions of the day is of importance.

The time has long gone by when technically trained men of the stamp graduated from the Institute can command a leading position in the business or industrial world through their technical attainments alone. From every side is springing up the product of the night school and the correspondence school; his hard struggle against adverse circumstances has given him a dogged persistence and determination that adds much to the value of the specialized knowledge he may have acquired. Against such competition the college man must present qualifications peculiarly his own; he must be an organizer, a leader, a man who will be instinctively looked to for unerring judgment in time of emergency.

In the light of this fact then, the attitude that the undergraduate takes on the political questions of the day assures a new significance. Can the man who now never refers to a matter of public interest except to scoff, who never attempts intelligently to size up the fundamental issues, be trusted to handle the delicate problems of labor, and to guard the workmen under his charge from the influence of the demagogue?

Some say the hard work of the Institute leaves no opportunity to gain such a training. If we are worth anything, however, we will always find every moment has its demand. The successful man looks beyond the immediate task, weighs each duty in its relation to the whole, and makes a place for the things that he recognizes

RECORD CROWD AT TECH SHOW IN NORTHAMPTON

Academy Filled to Overflowing With Girls From Smith College.

Three cars and a baggage left the North Station at 3.30 o'clock Saturday, the 27th, for Northampton, containing the members of the Tech Show and the paraphernalia necessary for its production. Of the 130 men who went, 90 belonged to the Show, and the remainder were those who took advantage of the opportunity to see the last performance. At the Academy, where the show was given, all except thirty seats were sold, and more money was taken in by the theatre management that night than for any other performance of the kind in its history. Of course the greater part of the audience was composed of Smith College girls, although there were many present from Mount Holyoke College and other private schools in Northampton. It was a rather interesting fact that among the 400 in the balcony, only six were men.

The performance was given most successfully, and the fellows worked their hardest, being rewarded by many encores. That the songs met with approval was evidenced by the fact that most of the scores that had been taken were sold after the show.

The returning train for Boston left at 12 o'clock, and while a large majority of the men went home at that time, about thirty stayed until Sunday.

DEGREES IN SANITATION.

In instituting the degree of Doctor of Public Health as a reward for services in preventative medicine and disease eradication, the University of Michigan makes an interesting departure from academic traditions.

The degree admits the man who has cleared an infected region of yellow fever, reduced a city's death rate, or won any other victory of sanitation, to commencement honors on an equal basis with the one who submits a thesis on any subject.

ARCHITECTURAL EXHIBIT.

The exhibition of the interscholastic and intercollegiate art drawings entered in the recent competitions are now on exhibition in Pierce, and are well worth seeing by men of all classes. They will be left on exhibition for a few days longer, and will then be sent to Columbia. The drawings are arranged as follows: Class I problems in rooms 40 and 40A, fourth floor. Class II problems in room 50, fifth floor.

as essential. Unless a man sees broadly and clearly, his ability to accomplish results must always be directed from outside; he follows a blind path.

TECHNIQUE FINANCES.

Many Worthy Gifts of Surplus—
\$140 Still Unassigned.

E. W. Brewster, treasurer of 1913
Technique, has prepared a report of
the publication for the present year,
which is given in full below.

By vote of the Board it was decided
to give \$15 toward the expenses of
the Senior Class Day Committee, \$50
to the Walker Memorial Fund for the
purpose of furnishing the Technique
office in the proposed Walker Memor-
ial Building, and \$100 to help defray
the expenses of publishing "Concern-
ing M. I. T." if it be found necessary
and provided publication is made be-
fore July 1st, 1912. Accounts to the
amount of \$76.40, incurred at the ban-
quet given a year ago for the mem-
bers of the Board, were ordered paid.
This leaves in the treasury at the
present time \$140, which is still un-
assigned.

TECH VS. DARTMOUTH.

Tennis Team Will Meet New
Hampshire Players Saturday.

On next Saturday afternoon the
Tech tennis team will meet Dart-
mouth at Hanover. The final selec-
tion of the team has not been made,
but it will include Woodward, '12;
Brigham, '12, and Beckman, '13.

The meet with Brown, scheduled
for last Saturday at Providence, has
been postponed till May 22. The man-
agement is negotiating with Tufts
for a tournament to be played in the
near future.

As soon as the regular team is
selected the men will meet in prac-
tice a team composed of old stars
who are connected with the Institute.
This team will probably include
Parker, '11, and Blanchard.

While the entries in the spring
tournament are as large as those of
last spring, present indications point
to a smaller entry list than in the
fall tournament.

There will be no new entries in the
doubles this spring as the schedule
of games was not completed last fall.
The remainder of these games will
be played before the close of school.
The challenge list of the doubles is
composed, at present, of the follow-
ing men: Beckman, '13; Harkness,
'12; Brigham, '12; Woodward, '12;
Yeale, '13; Holmes, '13, and Haynes,
'13.

This year's singles include the fol-
lowing men: Goodwell, '13; Perkins,
'13; Haynes, '13; Haynes, '13;
Lonsdani, '13; Blakey, '13;
Foote, '15; Allen, '13; Brown, '14;
Bergen, '13, and Fischer, '12.

The management desires all men
who have games for this week to
be there if possible, as the results
will be of assistance in selecting Sat-
urday's team.

**ONE PIECE HAMMER
IN THE NEW MODEL**
Ithaca

IF you see more than one hole in a hammer you
know that extra parts are fastened to the ham-
mer whether shown or not. Our hammer is all
one piece, only one hole, no toggles or stirrups
attached.
WE have cut out all cocking levers, bars, push
rods, and hammer-stirrups and cock the gun
direct from toe of hammer.
OUR hammer travels less than half an inch,
taking only 1-32 of a second to operate.
STOCKS are not cut away for hammers or lock
plates and are dovetailed into frame to prevent
splitting and spreading.
THE speed of our lock will increase your score
at traps and kills in the field; the simple scienti-
fic construction of the gun makes it practically
fool-proof, and will last you a lifetime if you
take care of it and a good many years if you
don't.
