

THE TECH

VOL. XXXI. NO. 159

BOSTON, MASS., THURSDAY, MAY 2, 1912

PRICE TWO CENTS

TICKETS ON SALE FOR BROWN TRACK MEET

Managers Will Be in the Union Every Noon—Prospects Bright.

Saturday the track team has its only home intercollegiate meet in three years. The men have trained their best and are the favorites to win, and it only needs the support of the student body to make the meet a success in every way. Last year the team won from Brown by a score of 94 to 32, and while they will not win by any where near so large a score this year, they are expected to lead Brown by 20 points at the finish. Most of the events will be closely contested and some very exciting finishes are promised.

Last winter the fellows supported the hockey team in fine shape, and as track is the major sport at the Institute, are expected to do even better for the track team. A big cheering section will do a lot towards winning the meet, and deciding whether the season will be a success or a failure. The management will be in the Union every noon with tickets, and will be more pleased to sell two than one to each man. It is almost the duty of every man, who possibly can, to go to the Field Saturday, and show the men from Providence what real college spirit is.

Coach Kanaly has been putting the men through a hard training, and has been holding trials every day this week. The times have been much faster than those made in the Spring meet, and the outlook is very bright.

FRESHMEN PLAY FRIDAY.

Game With Museum of Fine Arts Team at Field.

With games on Friday and Saturday, the Freshman baseball team has a busy week before it. The 1915 men will meet a team from the Museum of Fine Arts Friday, at the Field, and Saturday will play the Tufts Second team at Medford.

At the last practice, held Tuesday, the men showed much improvement, and played better all-round baseball than they have this year. Manager Turner tried the first base and showed up well. The chances of the Freshmen's beating the Sophomores look better every day, and the youngsters will be the favorites if they win their next two games.

The team will line up for the Friday game as follows: First, Turner; catcher, Baldrey and Hall; pitcher, Bauer; second, Scully; short-stop, McCaffrey; third, Finks; 1. f., Morse; c. f., McIntyre; r. f., McDevitt.

MINING SOCIETY.

In the course of a few days the Mining Engineering Society will hold another meeting, at which it is expected that Professor Richards will be present to address the society. Professor Richards has been on an extensive trip through several Western States, and will return this week Saturday. During his absence he has visited many different Western universities and colleges, and has studied them with a view to embodying some of their principles and characteristics in the New Technology. At this meeting he will give an interesting account of his trip, together with his

(Continued to Page 2.)

ELECTRICALS MEET TONIGHT IN UNION

Professor Jackson's Annual Dinner to Members of the Society.

Tonight, at 6.30 o'clock, the Electrical Engineering Society will hold its next to the last meeting of the year in the Union Dining Room, this being the dinner given to the society every year by Professor Jackson. The affair is to be entirely informal, and Mr. Colton announces an innovation in the method of serving, which will, no doubt, prove exceedingly popular.

The society has been especially fortunate in securing as the speaker of the evening Mr. J. S. Carty, of the American Telephone and Telegraph Company. Mr. Carty has been employed by this company for several years as its chief engineer, and his long and varied experiences in this particular branch of engineering, together with the fact that he has been so highly successful in his work, makes him unusually well qualified to speak upon electrical subjects. He has a strong and pleasing personality and is an entertaining speaker.

At the close of Mr. Carty's address the result of the recent election of officers for the coming year will be announced.

The society expects to hold one more meeting before the close of the term, probably during the last week of school. The exact date will be announced later.

TECHNOLOGY CLUB.

Last Smoke Talk of Year and Election of Officers.

The Technology Club will hold its last smoke talk of the season on next Tuesday, May 7, immediately following the annual business meeting. Professor Thomas A. Jaggar, Jr., of the Institute, has been selected as the speaker of the evening, and will tell of the "Technology Volcano Observatory in Hawaii." Professor Jaggar chose the picturesque island of Hawaii for the establishment of an observatory because of the unusual opportunity there offered for the study of earthquakes and volcanoes. He has just returned from a trip to Honolulu and will tell in detail of the building of the Technology station and of the work being done there. The talk will be made of additional interest by the introduction of numerous stereopticon views.

The business meeting for the election of officers will be called at 7.45. Following is the report of the nominating committee:

For President, S. K. Humphrey.
For Vice-President, C. W. Doten.
For Secretary, R. S. Williams.
For Treasurer, A. D. MacLachlan.
Members of Council for three years: C. W. Bradlee, H. L. Coburn, A. D. Fuller, S. C. Prescott, W. L. Underwood.

Of these men, Messrs. Humphrey, Williams, MacLachlan, Coburn and Fuller, held the same positions last year, and have been renominated.

Bartlett of Brown is a big man with the discus, as was shown by his breaking the N. E. I. C. A. A. record with a throw of 129 feet 9-10 inches.

The annual championship tournament of the National Archery Association for 1912 will be held in the Harvard Stadium.

M. A. H. S. CLUB HAS ITS ANNUAL DINNER

Forty Men Present—Officers For Ensuing Year Elected.

Last night, at 6 o'clock, forty men met in the Union to participate in the annual M. A. H. S. Club banquet. Nine of these were Seniors at the Mechanic Arts High School, who were invited to meet Tech men and get their first ideas of Tech social life.

After the dinner a short business meeting was held. President A. J. Pastene reviewed the work of the past year and made many suggestions for next year's work. Secretary M. Paris read the reports of the society. The election of officers for the ensuing year resulted as follows: M. Paris, '14, president; M. M. Navison, '14 vice-president; C. L. Hall, '15, secretary-treasurer, and A. J. Pastene, '13, member of the Executive Committee.

Chairman Pastene next introduced Dr. Parmenter, head master of the Mechanic Arts High School, as the first speaker of the evening. Dr. Parmenter first emphasized the importance of keeping in touch with the old school and commended the Tech organization for its success in this respect. He then gave an interesting talk on the schools of Germany, France and England. Dr. Parmenter traveled through Europe last summer with a view to studying the conditions there, and is therefore well informed on his subject. He stated that the important theory of technical education abroad was specialization, and that a graduate of a foreign technical school could go no further. He said that the men that he met marveled at the fact that a graduate of a technical high school like Mechanic Arts could advance further to higher institutions like the Institute.

The next speaker was Mr. Reed, a history instructor in Mechanic Arts High School. Mr. Reed brought out points in history that were interesting because of their similarity to present-day conditions. He deplored the one-sidedness of history as it is written, and gave examples to illustrate his point. He commended the bigness of Roosevelt's act in refusing the pledge of the eight delegates-at-large in this State, saying that this indicated the kind of a man that the ex-President is. He referred to the Titanic disaster and indicated that it was the duty of engineers to serve the community and not the selfish business interests.

Major Cole was next introduced as the representative of the Institute. He commenced by telling how Roosevelt's action, referred to by the previous speaker, had made him change his convictions of a man whom he had always thought of as good-for-nothing, and emphasized that if he were elected, it would be because of his honesty with the voters of Massachusetts. He went on to speak of his work on the scholarship committee in co-operation with Dr. Dewey. He stated that if some of the men in the Institute could hear of the struggles and sacrifices that others are making to obtain an education they would appreciate the value of the training that they are getting. He spoke next of the man that comes to the Institute only for study, and gave examples of the kind of engineers that these men make. They are the standpatters of engineering and success among them is rare. He claimed that every man

(Continued to Page 2.)

CIVIL SOCIETY BANQUET HELD AT CITY CLUB

J. J. Strachan Elected President For Next Year—Interesting Speeches.

Seventy men attended the Civil Society banquet at the City Club last night, together with Professors Spofford, Robbins, Allen and Porter. After a delightful dinner Charles T. Main, '76, was introduced as the first speaker, and took as his subject the "Work, Aim and Conduct of the Engineer." His talk, which was devoted to the idealistic and ethical side of the profession, was enthusiastically received and applauded.

Lieutenant-Governor Robert E. Luce, the next speaker, was given a great ovation. He spoke on the debt the educated man owes, and his duty to elevate the standard of citizenship. His speech made a deep impression on the men.

Mr. Everett Morss, '85, presented in an interesting manner the history of the movement for the new site. He described the magnificent way in which the Alumni have responded to the appeal for aid, and expressed his belief that the New Technology will lead the technical institutions of the world.

After this talk President Powell presented to Professor Spofford the fund of \$50 subscribed by the society to form the nucleus for a library for the Summer School at East Machias. Professor Spofford received the gift with appropriate remarks.

President Powell then announced

(Continued to Page 3.)

T. C. A. TALK TODAY BY DOCTOR MARK

Will Speak on "The Survival of the Ethically Fittest" in Union Today.

At the last regular Thursday noon meeting of the Christian Association today, Rev. C. E. Mark will speak on "The Survival of the Ethically Fittest."

Mr. Mark, the pastor of the East Boston Bethel, is the successor of the late Rev. L. B. Bates, universally known to all his parishioners as Father Bates. Mr. Mark, who is a young man, was selected by his present church only after an extended search, and in the short time that he has been pastor of the Bethel he has achieved marked success, initiating many changes of method to meet the new conditions that have arisen in this neighborhood in the past few years.

CORRECTION.

The article published under the head of "Technique Finances," in Tuesday's issue, purporting to contain the treasurer's report of Technique, 1913, was in reality the report of Technique, 1912.

ENTHUSIASM.

The type of college man who would rather see a professional ball game than one in which his own college team is a contestant is often the cause of spilling much editorial ink, and more often the subject of unpublished remarks. Such a man in explanation of his attitude says readily enough that he goes to see baseball, and the chances of finding what he wants are much on the side of the professional game. That is perfectly true; the question, however, is not one of baseball science, but of taste.

Transferred to the actual business of life this attitude assumes a new and greater significance. The intelligent employer will always say that the point of view a man takes toward his duties and his fellow-workers is of as much importance as the amount and quality of the work he does. No work can be so insignificant, so humble, that the professor cannot build some of himself into it; it is the work, not that of the man for whom he is doing it. Furthermore, no man can get more than a distorted knowledge of his profession without a sincere and unselfish interest in the methods and attainments of his fellows.

A noted college president of this country has sounded the keynote of the question in his statement that one of the most valuable traits acquired at college is "the ability to lose one's self in generous enthusiasms." The opportunity is ours; we must avail ourselves of it by entering as fully as we may into the common undergraduate interests of Technology. The world-wide fame of the faculty members, the size and equipment of the laboratories cannot make the Institute secure in its position of leadership. The responsibility lies with us to make Technology a place where men will fit themselves to carry a spirit of unselfish enthusiasm into all their future work.

The issuing of the schedules brings forcibly to one's attention the nearness of Exams.

SENIOR WEEK EXPENSES GREATLY CURTAILED

Assessment Includes Admission to the Senior Dance and Dinner.

Like all great events, the Senior Week of Nineteen-Twelve at the Institute is casting its shadow before in the form of blue and white ticket books, containing the pasteboard slips which allow the faithful to partake of the joys of the Senior Week in general and the Senior dinner in particular.

Through the efforts of the Class Day Committee the expenses of the week have been curtailed more than ever before, and whereas in practically every college of any importance in the country, the assessments range from \$15.00 to \$20.00, it has been reduced at the Institute to \$8.75.

The Senior assessment this year is noteworthy inasmuch as it includes admission to the Senior dance, an event which heretofore occasioned an additional individual outlay of \$2.00. This year the assessment covers the cost of admission of the bearer and three of his friends to the following functions:

Senior Class Day exercises at Huntington Hall.

Senior reception at the Hotel Somerset.

Senior dance and spread at the Hotel Somerset.

Baccalaureate sermon at Trinity Church.

The assessment slip also renders valid the dinner ticket, as both of these tickets will have to be presented at the Copley Square Hotel in order to obtain admission to the Senior dinner.

The graduation exercises of the class are solely in charge of the Faculty.

At the Class Day Committee meeting, held yesterday afternoon, considerable business of general interest to the class was transacted, and details of all sorts are being discussed and decided upon by this organization so that those present at the preliminary Senior dinner to be held at the Union on May 10th, may hear of the entire plans and directions for Senior Week completed in every particular.

Further information concerning this dinner will appear in an early issue of this publication.

MINING SOCIETY.

(Continued from Page 1, Col. 1.)
personal observations.

At the coming meeting the new officers will be elected. The offices to be filled are those of president, vice-president and treasurer, and two members of the executive committee, one from the class of 1913 and one from the class of 1914. Nominations for these officers should be left at the Cage before May 7, addressed to L. B. Duke, or L. H. Lehmaier.

M. A. H. S. DINNER.

(Continued from Page 1, Col. 3.)
should go out for every activity that is possible, and said that it was this kind of a man that made good in the engineering world. He commended the editorial in THE TECH emphasizing this point, and finished up with an apology for his preaching, saying that this was only the third time that he had spoken in public, the other two being after the Spanish War and before the Daughters of the American Revolution.

The members then adjourned to the larger room of the Union and enjoyed piano playing and singing. The meeting broke up with a hearty cheer and the singing of "Auld Lang Syne."

The shooting of the rifle team has been making high scores lately.

Hyatt, the West Point pitcher, is to join the Detroit Americans as soon as he graduates.

Velvet

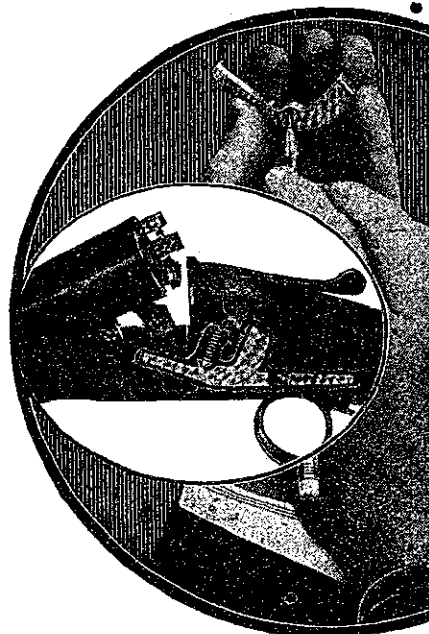

THE SMOOTHEST TOBACCO

Three men on bases and no one out! That's the thrill you get in Velvet tobacco. Did you ever fill your pipe with tobacco that has been aged in the leaf two years? Perhaps not in these rapid days—if you want to know the meaning of true mellowness and a rich, smooth flavor ask your dealer for "Velvet."

ONE PIECE HAMMER IN THE NEW MODEL Ithaca

IF you see more than one hole in a hammer you know that extra parts are fastened to the hammer whether shown or not. Our hammer is all one piece, only one hole, no toggles or stirrups attached.
WE have cut out all cocking levers, bars, push rods, and hammer-stirrups and cock the gun direct from toe of hammer.
OUR hammer travels less than half an inch, taking only 1-625 of a second to operate.
STOCKS are not cut away for hammers or lock plates and are dovetailed into frame to prevent splitting and spreading.
THE speed of our lock will increase your score at traps and kills in the field; the simple scientific construction of the gun makes it practically fool-proof, and will last you a lifetime if you take care of it and a good many years if you don't.
CATALOG Free: 18 grades, \$17.75 net to \$400 list. OUR 5-14 lb. 20 bore is a hummer—be down-to-date and shoot one.

S. A. SMITH IS ELECTED
TECHNIQUE ART EDITOR

Electoral Committee Finishes
Work at Yesterday's Meet-
ing and Dissolves.

With the election of S. A. Smith,
Course 4, as Art Editor, the 1914
Technique Electoral Committee
finished its duties yesterday. Smith
ran on the 1914 relay team in both
Field days, and is a member of the
Architectural Engineering Society.
The Art Editor has been chosen by
a competition which has been con-
ducted for the last four weeks.

The full list of Technique officers
which have been elected, one at a
time, are: Editor-in-Chief, A. C. Dor-
rance; Business Manager, D. L.
Sutherland; Treasurer, E. E. Dawson;
Athletic Editor, G. W. White; Grind
Editor, H. A. Morrison; Assistant
Business Manager, D. M. Kelley;
Class History Editor, H. Stone;
Faculty Editor, A. T. Wyman; Photo
Editor, E. C. Taylor; Society Editor,
R. Salisbury; Statistician, J. C.
Merse; Art Editor, S. A. Smith.

INSTITUTE COMMITTEE.

Regular Meeting Postponed—
Special One Held.

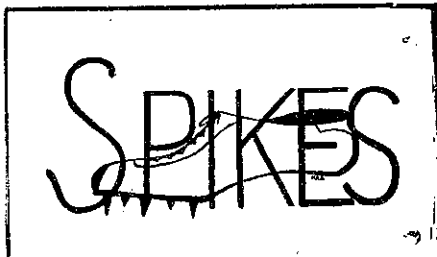

Owing to the absence of a majority
of the members the regular meeting
of the Institute Committee, sched-
uled for yesterday afternoon, was
postponed to next Wednesday after-
noon, May 8, at 4.30 o'clock.

In place of the regular meeting a
special meeting was convened. The
only business transacted was the
passing of a motion that at least \$25
be given to the Athletic Advisory
Council. The meeting adjourned at
4.45 P. M.

As the next meeting of the com-
mittee is the last one for this year,
and as there will be many important
matters to be acted on, including the
election of temporary officers for next
year, the officers desire every member
to be present promptly at 4.30 o'clock,
in Room 8, Eng. C.

CIVIL DINNER.

(Continued from Page 1, Col. 4.)
the elections of officers as follows:
President, J. J. Strachan, '13; vice-
president, W. R. Mattson, '13; secre-
tary, P. E. Morrill, '14; treasurer, C.
W. Brett, '13; Executive Committee,
A. G. Ranney, '13; F. D. Murdock, '13,
and R. B. Nichols, '13. Assistant
Treasurer, A. F. Peaslee, '14.

The Brown baseball team this year
is a wonder. Beating Penn, with Cap-
tain Nash out of the game, shows
them to be among the best in the col-
lege ranks.

Cornell has a big tennis schedule
this year and good material to work
with. In addition to the college tour-
nament they have interclass matches
and matches with the Faculty.

The triangular meet between
Brown, W. P. I. and Trinity was too
easy for the Providence men.

S. B. White, the Princeton football
hero, has been voted the "Best All-
round Man" in the school.

S. B. Wagoner of the Yale track
team has shown wonderful ability in
the pole vault.

Printype
OLIVER
Typewriter

The Only Writing Machine in the World That Successfully TYPEWRITES PRINT.

17 Cents a Day!

The Printype Oliver Typewriter which has crowded ten years of typewriter progress into the space of months, is now offered to the public for 17 Cents a Day!

—Offered at the same price as an ordinary typewriter—payable in pennies!

The commanding importance of the Printype is everywhere conceded.

For who does not see what it means to make the world's vast volume of typewritten matter as readable as books or magazines! The Printype Oliver Typewriter is equipped with Beautiful Book Type, such as is used on the world's printing presses.

Printype is distinguished by marvelous clearness and beauty. It does away with all strain on eyesight which the old-style outline type imposes. Printype puts life and style and character into typewritten correspondence. It makes every letter, every numeral, every character "as plain as print."

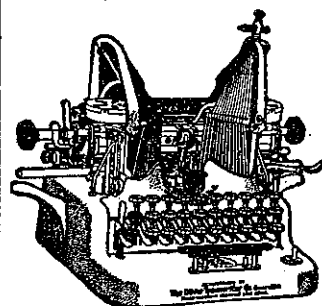

The complete story of Printype has never before been told. Here it is:

The Real Story of Printype

The idea from which "Printype" sprung resulted from the success of our type experts in equipping a typewriter used in our offices to write the "The Oliver Typewriter" in our famous trade-

To Corporations: The Oliver Typewriter is used extensively by great concerns in all sections of the world. Our "17-cents-a-day" Plan is designed to help that large class of typewriter buyers who want the same typewriter that serves the great corporations, but prefer the easy system of purchase. The masses want The Oliver Typewriter because it stands the test of the largest corporations.

Meet "Printype"—You'll Like Its Looks

Ask for Specimen Letter and "17-Cents-a-Day" Plan.

Make the acquaintance of Printype, the reigning favorite of Typewriterdom. Ask for a letter written on The Printype Oliver Typewriter, which will introduce you to this beautiful new type. We will also be pleased to forward the "17-Cents-a-Day" Plan on request. Address Sales Department,

The Oliver Typewriter Company
Oliver Typewriter Bldg., Chicago
