Saturday the track team has its only home game in the course of the season. The men have trained their best and are the favorites to win, and it only needs the support of the student body to make the meet a success in every way. Last year the team won from Brown by a score of 94 to 32, and while they will not win by any where near as large a score this year, they are expected to lead Brown by 30 points at the finish. Most of the events will be closely contested and some very exciting finishes are promised.

Last winter the fellows supported the hockey team in a big way, and as track is the major sport at the Institute, are expected to do even better for the track team. A big clearer session will do a lot towards winning the meet and deciding whether the season will be a success or a failure. The Brown team will have the Union every noon with tickets, and will play the team from Accepted, a match that奋进 to one each man. It is almost the duty of every man, who possibly can, to go to the track meet and cheer the men from Providence who real college life is. Coach Kanaly has been putting the men through a hard training, and has been bringing them every day of the week. The times have been much faster than those made in the Spring weeks. The times have been much faster than those made in the Spring weeks.

FRESHMEN PLAY FRIDAY.

Game With Museum of Fine Arts.

With games on Friday and Saturday, the Providence baseball team has a busy week before it. The 1915 men will meet a team from the Museum of Fine Arts Friday, at the Field, and Saturday, the Triton Second team at Medford.

At the last practice, held Tuesday, the batting of Mr. Bauer; second, Scully; short-stop, Colton and of the work being done there. Mr. Bauer; second, Scully; short-stop, Colton and of the work being done there. Mr. Bauer; second, Scully; short-stop, Colton and of the work being done there. Colton announced an innovation in the course of a few days the men showed much improvement, and have been renominated.

In the course of a few days the men showed much improvement, and have been renominated. The annual championship 'tournament' of the New Technology will be held in the Harvard Stadium.

The Technology Club will hold its last smoke talk of the season on next Thursday, May 7, immediately following the annual business meeting, President's Address. The address will be given by the representative of the Institute. It has been pastor of the Bethel church only after an extended trip through Europe last summer, and is therefore well informed on the subject. He stated that the Titanic disaster and indicated that it was the duty of engineers to serve the community and not the selfish men that he met in Europe. The annual M.I. A. H. S. Club banquet was held in the Union Dinner Room, this being the dinner given to the society every year by Professor Jackson. The affair is to be entirely informal, and Mr. Colton announced an innovation in the method of serving, which will, it is hoped, prove exceedingly popular.

The society has been especially fortunate in securing as the speaker of the evening Mr. J. B. Cartey, of the American Telephone and Telegraph Company. Mr. Cartey has been employed by this company for several years as its chief engineer, and his long and varied experiences in this particular branch of engineering, together with the fact that he has been on a highly responsible position in his work, makes him unusually well qualified to speak upon electrical subjects. His speech a made deep impression on the audience.

SENIOR WEEK EXPENSES GREATLY CURTAILED

Assessment Includes Admission to the Senior Dance and Dinner.

Like all great events, the Senior Week of Nineteen Twelve at the Institute is casting its shadow before in the form of blue and white ticket books, containing the pasted-stripe slips which allow the faithful to partake of the joys of the Senior Week in general.

Through the efforts of the Class Day Committee the expenses of the Senior Week have been curtailed more than ever before, and whereas in practically every college of any importance in the country, the assessments range from $15.00 to $20.00, the assessment on Senior Week has been reduced at the Institute to $6.75.

The Senator announced this year is not noteworthy inasmuch as it includes admission to the Senior dance, an event which heretofore occasioned an additional individual outlay of $3.00. This year the assessment covers the cost of admission of the bearer of the ticket, and it is hoped that this three of his friends to the following:

Senior Class Day exercises at Huntington Hall.

Senior reception at the Hotel Somerset.

Senior dinner and spread at the Hotel Somerset.

Successive sermons at Trinity Church.

The assessment slip also renders valid the dinner ticket, as both of officers will be elected. The offices to the class was transacted, and details of all will be announced and decided upon by this organisation. So that those present at the preliminary, Senior dinner to be held at the Union on May 10th, may hear of the entire class and directions for Senior Week completed in every particular.

Further information concerning Senior dinner will appear in an early issue of the Institute.
