BOSTON, MASS., MONDAY, MAY 6, 1912

PRICE TWO CENTS

## ARCHITECTS' DINNER MOST SUCCESSFUL

Hear Excellent Talks By Prominent Men of New York.

The first annual banquet of the combined Architectural Societies took place Saturday evening at the Westminster Hotel, with a large majority of members present and a group of speakers which would be hard to equal for their prominence and the general interest of their talks.

After the menu had been served the installation of the two new presidents for the ensuing year, Mr. Horgan for the Architectural Society, and Mr. Byrne for the Option Two men, took place with fitting remarks by Mr. Harkness and Mr. Morrrows, retiring. President MacLaurin was then introduced. Above all, he congratulated the men on being in a course which offered the broadest opportunity for the general good, and, particularly to Tech men at this time with the advent of the New Technology, for he said: "The country has set itself so much to practical development that the artistic side has been greatly neglected and needs now to be built up with a firmness and vigor that will give us a great art. At this time we are just beginning to grow artistically, a fact which is most significant to architects, for the reason that their art is a thing which is ever present. No one has to go out of his way to see the results of the labors of this artist, as they do with the sculptor and painter, and this fact alone places an opportunity before every architect by which he can mold the tastes of a country in the use or abuse of artistic principles."

President Horgan then introduced Mr. Magonigle of New York as a man who is doing big things in that city. With a few preliminary remarks, in which he urged the two societies to co-operate in every way possible, for the reason that the two branches of the profession are so closely allied in actual practice and cannot be too carefully studied by any man who wants to be a success. He then stated that the subject proper of his talk was to be the "Life Beyond," that is, not in its ordinary sense, but the life beyond the close confines of the school building.

Above all, he said the architect must be thoroughly in love with his profession, have a great desire to carry out its routine beyond all else, and be willing to spend all his time in studying its never ending problems. He said if a man is not willing to put architecture above all other interests he had better drop it at once, for the architect must get much of his experience from observation of little things which happen daily and almost hourly.

In continuing he stated that the enormity of experience which a man needs is extremely hard for the young graduate to realize, and urged all to spend a long apprenticeship in the offices of other architects before attempting to practice for one's self, even placing the time limit at not less than ten years for college men, and fifteen for those who have not had the advantage of a technical course. He urged likewise that the most advantageous way of keeping alive at the same time to the broader needs of design was by the various competitions which are open to hundreds of young architects. In closing he said that every architect should always do his best, and not commercialize for the

(Continued to Page 2, Col. 1.)

## TECH WINS TRACK MEET FROM BROWN BY NARROW MARGIN OF 3 POINTS

Bartlett of Brown Biggest Point Winner, With 3 Firsts and a 2nd; Wilkins, Guething Bylund and Marceau Tech Stars.

By winning first place in the pole vault, the final event, Tech won from Brown Saturday by a score of 64 to 61, in one of the closest track meets that has ever been held at the Field. The times in the running events, with the exception of the mile, 440 and 880, were not very good, and the Brown men did all the good work in the field events. Both teams could not use their star men in the dashes. F. Burns, '15, of Brown, was laid up with a pulled tendon, and L. A. Wilson, '14, had to drop out of the 100-yard because of the same accident. Wilson's loss was keenly felt, as he will probably be unable to enter the Intercollegiate this year.

H. S. Wilkins, '14, was the star of the dashes, winning first place in the 100-yard in 10 2-5 seconds, and first in the 220 in 24 seconds. W. Marble was the fastest Brown man, taking second in the 100-yard and third in the 220-yard.

The mile was one of the big races of the meet. N. Taber of Brown took the lead at the gun and was never headed; but E. Germain, '12, pushed him hard all the way and finished three yards behind him. Taber's time was 4 minutes 26 1-5 seconds, and Germain was 4-5 seconds slower, thus breaking the Tech record.

T. H. Guething, '14, opened up a big lead at the start of the 440 and crossed the tape an easy winner without having to exert himself. The real race was for second place, between L. Hall, D. Mahoney of Brown, and C. H. Thomson, '13, of Tech, Hall and Mahoney winning out.

The 880 was the most exciting race of the meet. W. Bylund, '13, took the lead at the gun, and for a lap and a half looked to be an easy winner over P. Tucker of Brown, with E. Marceau, '12, third; but in the last 220 yards Marceau made up a ten-yard lead, and struck the tape together with Bylund, and they were credited with a tie race. The time was two minutes.

T. Huff, '14, was a good winner in the 120-high hurdles, with C. Cross of Brown second. A. B. Curtis, '15, and W. Marble of Brown were disqualified for knocking down three hurdles. Marble took first in the 220 low hurdles, with B. Munch, '13, second, and T. Huff third.

Taber again started in the two-mile, leading all the way and crossing the tape ten yards ahead of W. Waterman of Brown, and E. E. Ferry, '12. Ferry and Waterman had a spirited race for second, Waterman just winning out.

A. Bartlett of Brown was the big star of the field events, taking first in the hammer, discus and shot-put, and second in the high jump, thus winning eighteen points for his team. His heave of the shot was not so far as his performance of the week before, and his work in the discus was far below the record-breaking throw at the Hartford meet. Conway, Coach Kanaly's find of the early season, proved his worth when he placed third in the shot-put, not far behind

MacLeod. Dalrymple easily jumped to win, and Bartlett and Teeson tied for second, but the latter lost on the jump off. The pole vault proved the winning event of the afternoon, yet the height was very poor. Mangan and McLaughlin tied for second and gave a pretty competition, but the event ended in a tie, neither man vaulting over 9 feet 11 inches. It was remarkable that the final vault of both of these men was higher than that of the winner of the event. MacLeod followed closely in all the weight events with the exception of the hammer throw, when he came in third.

In regard to the meet, Coach Kanaly said: "Although the men who ran did fine work, it was more good luck than good athletics that won. If an accident had happened to one more man we would have lost, as there would have been no one to take his place. Wilson's loss was particularly felt. The great defect in the team is in the weight events, and we must have more men out for them in order to make the team a winning one."

100-yard dash—Won by H. S. Wilkins, T.; second, W. Marble, B.; third, R. Holding, '13. Time, 10 2-5 seconds.  
220-yard dash—Won by H. S. Wilkins, T.; second, T. H. Guething, T.; third, W. Marble, B. Time, 24 seconds.

Mile run—Won by N. Taber, B.; second, E. Germain, T.; third, A. Cook, B. Time, 4 minutes 26 1-5 seconds.

150-yard high hurdles—Won by T. Huff, T.; second, C. Cross, B. Time, 17 2-5 seconds.

440-yard run—Won by T. H. Guething, T.; second, L. Hall, B.; third, D. Mahoney, B. Time, 52 1-5 seconds.

880-yard run—W. Bylund, T., and E. Marceau, T., tied for first; third, P. Tucker, B. Time, 2 minutes.

220-yard hurdles—Won by W. Marble, B.; second, B. Munch, T.; third, T. Huff, T. Time, 27 4-5 seconds.

Two-mile run—Won by N. Taber, B.; second, W. Waterman, B.; third, E. Ferry, T. Time, 10 minutes 23-5 seconds.

Field events:

High jump—Won by P. Dalrymple, T.; second, A. Bartlett, B.; third, E. Teeson, T. Height, 5 feet 8 1-4 inches.

Shot—Won by A. Bartlett, B.; second, N. MacLeod, T.; third, E. Conway, T. Distance, 44 feet 2 5-8 inches.

Broad jump—Won by F. Miles, B.; second, L. Little, B.; third, J. Hines, T. Distance, 20 feet 8 1-4 inches.

Hammer—Won by A. Bartlett, B.; second, L. Metcalf, T.; third, N. MacLeod, T. Distance, 126 feet 7 1-2 inches.

Pole vault—Won by T. Greenleaf, T.; E. Mangan, T., and R. McLaughlin, B., tied for second. Height, 9 feet 6 inches.

Discus—Won by A. Bartlett, B.; second, N. MacLeod, T.; third, V. Gelb, B. Distance, 119 feet 2 1-2 inches.

Officials:

Referee—T. F. Riley.

Judges at finish—W. Walsh, E. L.

(Continued to Page 3, Col. 2.)

## ELECTION AND DINNER OF CATHOLIC CLUB

David I. Walsh to Speak at Banquet Held in Copley Square Hotel.

The Dutch room at the Copley Square Hotel will be the setting of the Catholic Club banquet this year, with the curtain rising at 8 o'clock Wednesday, May 8th. The seating of the members and their guests will mark the closing of the polls for the annual election of the officers of the club. The ballots for this election will be out Monday noon at the Copley, and are to be returned to the committee, in care of the Copley, or at the banquet. With the opening of festivities the votes will be counted and the result announced immediately after.

Louis S. Walsh and E. A. Downey are in charge of the evening's entertainment and promise a rare time to the members of the club. They have planned a totally informal affair and will try to make it a real "night off." Mr. David I. Walsh, the last Democratic candidate for Lieutenant-Governor with Governor Foss last fall, has accepted the club's invitation to speak on that evening. Mr. Walsh has just been elected Democratic delegate in the Presidential primaries, and his talk will concern the primaries.

## INSPECTION DRILL.

Government Inspection to Take Place Week From Thursday.

Now that the end of the year's work is drawing rapidly near, the Freshman Battalion is making preparations for the annual government inspection. This is to take place at the Armory Thursday, May 16. In view of this fact there will be no drill on Wednesday of that week, and the drill on this week is to be shortened to one hour and a half.

The annual prize drill of the battalion will be held on Friday evening, May 17. The first event will be an individual prize drill for six of the best men from each company; two prizes are offered in this, a gold and silver medal. The company drill will follow this, and as the three losing companies have to provide a dinner for the winners, the competition will be keen. After drill the usual festivities will be held.

The consumption of copper in the United States for 1911 was apparently somewhat smaller than in the previous year, but the amount exported was considerably greater, so that the stocks of refined copper held in the United States were materially reduced.

Have you made arrangements with the employment bureau for that summer job yet?

## THE WEATHER.

Forecast for Boston and vicinity: Monday probably fair, with rising temperature; light to moderate easterly to southerly winds.

## CALENDAR.

In Charge of S. H. Taylor, 1914.

Monday, May 5.

6.30—Biological Dinner—Technology Club.

7.45—Delegates from Wireless Society—Young's Hotel.

**LUCK OR ATHLETICS?**

Coach Kanaly's statement, which appears at the end of the Brown Track Meet in this issue, deserves more than passing notice. "It was due to more good luck than athletics that we won." Is that the way Tech men are going to let their victories be accounted for?

This statement casts no discredit upon the performers in the meet; it is a matter home to the student body as a whole. "If one more man had been injured we would have lost." When out of sixteen hundred men there are so few out for the serious business of running a good race that the loss of a single man spells disaster, it is high time that we took the matter to heart. Technology has never owed her success in track to the individual work of stars, but rather to the concerted endeavors of a well-balanced team. Under that system everything depends on the loyalty and hard work of a large squad who are willing to see their reward in other ways than having their name among the winners in the summary.

Two weeks remain before the Intercollegiate. In that time we have an opportunity to show Coach Kanaly that all the undergraduates are behind him and are willing to do their share of the work. It is useless to think of doing a whole season's work in two weeks, nor can any man expect to turn out his best performance after such short preparation. Nevertheless an abundance of competition will work wonders, and we may be sure that a man of our coach's calibre will not say he needs more men if he has no good use for them.

**ARCHITECTS' DINNER.**

(Continued from Page 1, Col. 1.)  
 sake of merely getting commissions. He should study thoroughly all of his problems in plumbing and heating, should know his construction materials to the fullest of his ability so that he is eminently well fitted to cope with every problem that presents itself, as well as answer intelligently the hundreds of questions of his clients. Above all, architects are not to forget their relation to their fellows in the profession, where, he said, the Golden Rule always exists, and all jealousies are hopelessly wanting, from the fact that true architects are working for the good of architecture generally.

Professor Lawrence then congratulated both societies on the excellent work which they were doing in supplementing the curriculum of the department, which was by reason of its intensive methods unable to introduce features such as the societies offer.

Mr. Lloyd Warren of New York was (Continued on Page 2.)

**SOPHOMORES LOSE IN ELEVEN INNING GAME**

**Waltham High Wins After a Close Game Marked By Good Playing.**

Tech, 1914, played a fast eleven inning game with Waltham High School and lost by the score of 4 to 3. The game was the best that the Sophs have played, but the luck was against them. Morrison, well supported by his team, pitched fine ball, striking eleven men out, but poor decisions at the bases cost him his chance at winning.

The Sophs outplayed the Waltham boys all through the game, and the score in the ninth inning was 3 to 1, when Morrison allowed two men to get on bases, when a single brought these two home and the score was tied. Nothing was done by either team in the tenth inning. In the eleventh, with two men gone to the bench and with two men on bases, Cobb went to bat, and after knocking the ball about the foul line a number of times he connected for a single to left field, bringing in Healey for the winning run.

**TENNIS TEAM DEFEATED.**

**Dartmouth Takes Seven Matches From Tech at Hanover.**

Technology's tennis team lost every match, both in the singles and the doubles, to the Dartmouth team at Hanover, Saturday. The team, composed of Brigham, Beckman, Fischer and Woodward, was completely outclassed in style and play by the Green team, composed of Nelson, Harmon, Gannon and Webber, which showed in no way any weakness due to the loss of former champion Fred Harris.

The summary:

- Singles.**  
 Harris, D., beat Beckman, T., 6-3, 6-2.  
 Nelson, D., beat Beckman, T., 6-3, 6-2.  
 Harmon, D., beat Brigham, T., 6-1, 6-4.  
 Webber, D., defeated Fischer, T., 6-1, 6-0.  
 Gannon, D., defeated Woodward, T., 6-1, 6-2.
- Doubles.**  
 Nelson and Harmon, D., defeated Brigham and Beckman, T., 6-2, 6-4.  
 Gannon and Webber, D., defeated Fischer and Woodward, 6-2, 6-2.

**ARCHITECTS' DINNER.**

(Continued from Page 2, Col. 1.)  
 then called to speak. His prominence in architectural circles is quite unique. He has given generously for the prizes of the Intercollegiate competition, and is now chairman of the Paris Prize of the Beaux Art Society of New York, of which he was formerly president. He considers Technology (Continued to Page 3, Col. 2.)

**FRESHMEN OUTCLASS  
TUFTS SECOND TEAM**

Yearlings Play Good Ball and Make Score in Run-Away Game, 16-8.

Tufts Second baseball team was badly defeated and outplayed by the Freshman nine Saturday by the score of 16 to 8. The game was a batting fest for both teams and was featured by the team play and field work of the Freshmen; 1915 had two home runs, made by Scully and McCaffrey, and a three-base hit, by Bauer, credited to them.

The Freshman team showed several changes in its lineup. Morse played for the first time at first base, and his work was excellent throughout the entire game. Captain McDevitt replaced Morse at left field and played well, making only one error. Howlett covered right field in good style. Baldry caught a fine game.

a work-shop, and congratulates the competitors of the recent competition, stating that he thought the reason for the fact that no mentions were given to Technology resulted from the fact that the department has had so little experience in competition. He considered the work admirable, however.

He then told of some of the French methods of training young architects in the various schools of applied design, and stated that he considered it the cause of the great advance which the French have made architecturally.

The banquet was brought to a close with the "Stein Song" and a rousing "M. I. T." followed by another for Professor Chandler.

**Printype**  
**OLIVER**  
**Typewriter**

The Only Writing Machine in the World That Successfully TYPE-WRITES PRINT.  
17 Cents a Day!

The Printype Oliver Typewriter which has crowded ten years of typewriter progress into the space of months, is now offered to the public for 17 Cents a Day!

—Offered at the same price as an ordinary typewriter—payable in pennies!

The commanding importance of the Printype is every where needed.

For who does not see what it means to make the world's vast volume of type-written matter as readable as books or magazines! The Printype Oliver Typewriter is equipped with Beautiful Book Type, such as is used on the world's printing presses.

Printype is distinguished by marvelous clearness and beauty. It dies away with all strain on eyesight which the old-style outline type imposes. Printype puts life and style and character into typewritten correspondence. It makes every letter, every numeral, every character "as plain as print."

The complete story of Printype has never before been told. Here it is:

**The Real Story of Printype**

The idea from which "Printype" sprang resulted from the success of our type experts in equipping a typewriter used in our offices to write the "The Oliver Typewriter" in our famous trade-

mark type just as the name appears on the outside of the machines and in all Oliver publicity.

The beautiful appearance and the marvelous clearness of the reproduction of our "obony" trade-mark type, disclosed the possibilities of equipping The Oliver Typewriter to write the entire English language in shaded letters!

We worked for years on the plan and finally succeeded in producing, for exclusive use on the Oliver Typewriter, the wonderful shaded letters and numerals known to the world as "Printype."

**The Public's Verdict**

That the public is overwhelmingly in favor of Printype is impressively shown by this fact:

Already over 75 per cent of our entire output of Oliver Typewriters are "Printypes."

The public is demanding Printype in preference to the old style type.

Within a year, at the present rate, 90 per cent of our total sales will be "Printypes."

Thus The Oliver Typewriter, which first successfully introduced visible writing, is again to the fore with another revolutionary improvement—Printype, the type that prints print!

**To Corporations:** The Oliver Typewriter is used extensively by great concerns in all sections of the world. Our "17-cents-a-day" Plan is designed to help that large class of typewriter buyers who want the same typewriter that serves the great corporations; but prefer the easy system of purchase. The masses want The Oliver Typewriter because it stands the test of the largest corporations.

**Meet "Printype"—You'll Like Its Looks**

Ask for Specimen Letter and "17-Cents-a-Day Plan."

Make the acquaintance of Printype, the reigning favorite of Typewriterdom. Ask for a letter written on The Printype Oliver Typewriter, which will introduce you to this beautiful new type. We will also be pleased to forward the "17-Cents-a-Day" Plan on request. Address Sales Department,
