RICHARDS TO ADDRESS COURSE III MEN

Last Meeting of Mining Engineering Society in Union Wednesday.

The last meeting of the Mining Engineering Society will be held today at 8 o'clock in the Union. Professor R. H. Richards, who has been secured as speaker for the evening, has chosen "Mineral Trips" as his address. His remarks will be of great interest to all students, especially to those interested in the mining industries.

WILL OF C. H. PRATT GIVES TECH LARGE SUM

Three-Quarters of a Million For School of Naval Architecture and Marine Engineering.

The Institute was once more the recipient of a substantial gift to aid in the construction of the buildings on the site of the latter, which were planned by Charles Herbert Pratt, a prominent Boston lawyer, who died on May 2, at Copley Square.

CHANCY HALL CLUB HASS MERRY SMOKER

Enjoyable Evening Spent By Members With Present Students as Guests.

Saturday night, at the Union, was held one of the most successful smokers of the Tech Chaucy Hall Club. The meeting was begun by a few informal remarks by H. Peck, '13, and from that time until 11 o'clock the smokers thoroughly enjoyed themselves, and there was not an idle moment in the long evening.

Mr. Kurt, principal of Chaucy Hall, was unable to be present as he was suddenly called away to Maine.

He was greatly missed by the members, who are a strictly selected group of the most satisfactory metal men of the Union.

SOPHOMORES WIN FROM FRESHMEN

First Game Marked by Errors of Freshmen and Fielding of Sophs.

Nineteen-Fourteen won the first baseball game of the series by a score of 9 to 6, at the Field Saturday. The game was poorly played by the freshmen, several costly and inexcusable errors being made. In the first inning alone, three of the Sophomore's scores were the result of hits made safe by errors, giving him a lead that was never headed.

The Sophomores played a fine fielding game, making very few errors and giving good support to Morrison, who pitched a fine game, though he did not exert himself in the slightest degree after the first inning. On account of this fact the freshmen were able to connect far more pretty hits. Caffery took the opportunity to make a name for himself by making three hits for eight bases, a homer, a triple and a single. The homer was one of the finest that have been seen at the Field.

Hughes, the left fielder and crack hitter of the 1912 team, wrenched his ankle badly in the sixth inning, which necessitated his retiring from the game. Duns was given his chance at the position, and later he was taken out and Pearly finished the inning. In the fourth inning the Freshman manager sent in a new man to take the place of Hall. The batting order was as follows:

Friday, May 17.

1.00-Baseball Practice.

10.00-Pyrotechnic Demonstration.

11.00-Mechanical Engineering Society-2nd floor, Mezzanine.

3.00-Battalion Inspection-South Armory.

5.00-Baseball Practice.

8.00-Baseball Practice.

THE WEATHER.

Shower Friday and probably tomorrow; increasing southerly winds.

CALENDAR.

Tuesday, May 11.

7.00-Pyrotechnic Society-Dinner.

4.00-Mechanical Engineering Society-3rd floor, Mezzanine.

3.00-Baseball Practice.

Wednesday, May 12.

5.00-Mechanical Engineering Society-Union.

Thursday, May 13.

3.00-Battalion Inspection-South Armory.

2.00-Cosmopolitan Club-Election of Officers-Union.

10.00-The Tech banquet.

5.00-Baseball Practice.

2.00-The Tech banquet.

1.00-Pyrotechnic Demonstration.
ANNUAL PRIZE DRILL
ON FRIDAY EVENING

Government Inspection of Freshman Battalion Thursday at Three O’clock.

On Thursday, May 16, members of the Freshman Battalion are to have a chance to show to what extent they have been benefited by their year’s work. At that time the government inspectors are to make their appearance and review the cadets. The principal event will be the Battalion parade, with Major Cole, Cadet Major Tufts, and the government inspectors reviewing the cadets. In view of this fact Major Tufts has given the men plenty of chance to practice.

On Friday evening, May 17, at 8 o’clock, the annual prize drill will take place. As this is the last time that the Freshman Battalion will assemble, every man will probably exhibit himself to the utmost. The first part of the evening will be devoted to individual pistol drill, in which six men from each company will compete. A gold and a silver medal are to be awarded to the two best men. Regular company drill follows, and the winners will be given a dinner at the expense of the other companies.

TECHNOLOGY GIFT.

tech schools, and the experiments performed with this boat which floats on the Charles have led the way in many discoveries which have increased the efficiency of watercraft.

Professor Cecil H. Peabody, ’77, is head of the department, and associated with him are Professor William Howard and Assistant Professor Harold A. Everett.

C. R. McParron has been elected president of the Penn Fencing Association. The fencing team at the University of Pennsylvania ended the season with a good showing, although they had only one veteran to start with. A record team is expected for next year.

**VACATION MONEY**

Do you really want to make money during your vacation?  
We have the best money-making opportunity for inexperienced men and women of all ages.  
Our instructions combined with energy and ambition on our part are sufficient to make it highly profitable.  
As number of openings is limited, write today to Employment Dept. P. C. Collier & Sons, Publishers of Good Books, 73 Tremont St., New York.

**SHOOT AT WALTHAM**  
(Continued from Page 2)

The following colleges have entered teams in the match this year: Harvard, Princeton, Pennsylvania, Columbia, Michigan, Nebraska and Massachusetts Agricultural College. Each college holds its shoot and the winner will probably not be known until July, as the shoot can be held any time before the end of June. The Institute is the first one to hold its shoot as the school year is almost over.

The team had expected to make a higher score, but the high wind which prevailed handicapped them to a certain extent. Also the team has not had much practice in match shooting or a chance to develop team work. Coach Williams said after the shoot that in order to compete successfully the team should be equipped with the new Springfield rifle. At present the members of the team have to use the Krags. He says that the cost would not be very much and it would greatly benefit the team. The Tech team was fourth with a score of 677 in the matches last year, and won first with a score of 791. It is probable that the Institute will come out second this year from the figures given above, although they have a chance for first place if the other teams have equally unfavorable conditions as regards the wind.

The summary:

<table>
<thead>
<tr>
<th>Total</th>
<th>Williams</th>
<th>Rutherford</th>
<th>Roodolf</th>
<th>Haslam</th>
<th>Wade &amp;</th>
</tr>
