PRICE TWO CENTS

## SOPHOMORE FIELD DAY COMMITTEE APPOINTED

1914 Initiates Plan of Having Class Election Dinner Tech Night.

A meeting of the Executive Committee of the Sophomore class was held yesterday evening in Rogers Building, at which several matters of quite general interest were decided upon. As a result of this meeting 1914 is establishing future Sophomore classes.

It was voted that the nominations for class officers be opened on Friday, October 20th, and close on the 27th. The polls will be open for one week, closing at noon of Field Day. This arrangement will clean up all election matters by Field Day, and at the same time will not interfere with the arrangements for Tech Night and affairs at the Field by putting in an entirely new set of men just at the time when the experienced ones are most needed.

It was decided to hold the annual elections dinner on the evening of Field Day, at 6 o'clock. The results of the class elections will be announced at this dinner. All 1914 men will be in a holiday spirit, and a large number will probably turn out on this occasion who would not turn out if the dinner were held at another time. Tickets, at 50 cents each, will be on sale at the Cage after the 25th. The class can go to the theatre in a body—and for the Sophomore class, this should be the biggest day of the year, providing they win at the Field.

The Theatre Committee made their report, and it was voted to hold Tech Night at the Colonial, as was done last year. The bill there will be a brand new show, which is said to be an unusually fine attraction. It is called "The Three Romeos," and will be brought to Boston a week or two before Tech Night, so that the company may have a chance to get in trim for the big occasion.

The Sophomores will follow out the policy they carried out in not kidnapping the Freshman chairman, by trying to make Tech Night a decent sort of an affair and not the rough house it has been at some times in the past. Streamers and serpentine will be in order, but finely cut confetti, which it is almost impossible to get out of the thick carpets between the seats, will be tabooed, as will be rowdyism which interferes with the progress of the play.

It was shown that the finances of the Sophomore class are unusually good. The final effort of the Executive Committee last spring to clear up all obligations resulted in lowering the balance to \$21.00. Treasurer Owen reported at yesterday's meeting that this last deficit has been wiped off the books during the first week of this year, and at present there is little left for current expenses.

The following committee was appointed to take charge of Field Day: Paul W. Shedd, W. H. Brotherton and W. H. Price, Jr. The Dinner Committee: J. M. White, chairman; Thos. Huff and W. P. Keith.

A certain proficiency in swimming is now one of the requirements for graduation at Indiana.

## TWO POSITIONS OPEN IN THE TECH SHOW

Any Freshman or Sophomore Eligible—First Come First Served.

Competition for the assistant managerships in the Publicity Department of Tech Show, 1912, opened Wednesday, October 11. As it is feared that the notice of this competition could not have been very widespread, there is still time for men to come out for the position. Any man who wants to enter or who wishes to obtain any information concerning this department can call at the Show office any day between 1 and 2 P. M. Publicity Manager G. E. Whitwell will be present at that time to meet candidates.

Any man in either the Sophomore or Junior classes is eligible for the positions. Because of the fact that the first assistant in the Publicity Department was unable to return to the Institute this year, there are two vacancies which must be filled. To fill these places there are one of two choices which will be made. Either a Sophomore and a Freshman will be chosen, or two Freshmen will be picked. One of the two in either case will become the first assistant, and the other will be the second assistant. Thus there is a very good chance for some underclassmen to step right into a position that in years previous has been occupied only by a man with at least one year's experience in the Show work.

An Assistant Publicity Manager is not called on for tedious or irksome work. His main occupation would be the writing of articles for THE TECH or for the outside newspapers, the composing of advertisements heralding the approach of the Show to those cities which may be picked this year as the ones in which performances are to be given, and the widespread distribution of the Tech Show Poster. Thus it is seen that the position is neither confining nor yet will there be too much outside work. Moreover, the experience to be gained with an activity which involves the amount of money and the number of men which the Show does is very valuable.

This, then, is the year of double opportunity in the Publicity Department. It is the double opportunity for those in the classes of 1914 and 1915. Any one interested will report at Room B, the Union, any day at 1 P. M., but manifestly the sooner the better show the man will have of being chosen for the position.

## 1915 RELAY TRIALS.

Twenty-six men tried out for the relay team at the Field Monday. The times were fairly fast. Eight men were picked, from whom will be selected the final team, but this does not exclude the men who have not made good, as they will be given another chance. The following are the men: T. J. Barry, D. B. Baker, A. B. Curtis, B. V. Enehuske, B. E. Fields, F. F. Fulton, F. Hann, E. J. Kingsbury, B. Lapp, E. T. McBride, N. L. Medhuerst, E. Place, T. F. Spear, H. B. Smith, W. B. Spencer, W. S. Thomas and R. T. Todd.

## JACK ARMOUR TO AMUSE THE M. E. S. AT DINNER

First Meeting On Thursday Night at the Union—Miller and Riley to Talk.

The first gathering of the Mechanical Engineering Society for this year will be a dinner in the Union on Thursday evening at 6.30 o'clock. Professor Miller, the new head of the department, and Professor Riley of the department will be present and will probably tell some of their experiences. All present as well as prospective members of the course will avail themselves of this opportunity of hearing their new leader for the first time and getting in touch with his ideas.

The society is also very fortunate in being able to announce that Mr. Jack Armour of New York has consented to be present at the dinner. Mr. Armour is an entertainer of exceptional ability, and it is guaranteed that the evening will be a joyful one.

All members of Course II in the Sophomore class should be present in order to meet the upper classmen, and it is needless to say that the Juniors and Seniors will be present in large numbers. The tickets will be fifty cents, and may be secured from various members of the society in the different classes.

## JUNIOR BALLOTS MUST BE IN AT 4 P. M. TODAY

The 1913 Class Elections close this afternoon at 4 P. M. That means that all ballots are due at the Cage before that hour in order that they will be on time and be considered. The elections will probably be announced in tomorrow's TECH.

The elections are considered to be very close for the office of president and for that matter none of the offices seem to be cinched. Although the Seniors originally voted for five members to the Athletic Association, there are only two, so the ballot is correct in stating that two are to be voted for.

Members of the class should give this election their close attention as this is the most important election in the history of the class. In order to have the votes count the class dues must be paid right up to date, and if they have not been paid they may be enclosed with the ballot. All votes in by 4 o'clock!

## 1913 WILL PULL 1915 TUG-OF-WAR TODAY

All Members of Old Team Are Desired at Gym at 4.30 O'clock.

This afternoon the 1913 tug-of-war men will meet at the Gym for one of their old-time pulls. This time they will give 1915 a practice pull, and there is some question whether they can come back as did the football men. Of course it is the place of the Juniors to coach the Freshman team, and as it needs this badly, the old men are going to help.

The call has been issued for all the old men that possibly can arrange it to be on hand at the Gym at 4.30 sharp, and so the heavy weights must turn out this afternoon.

## 1915 MEETING TODAY.

Discussion of Field Day and Plans for Tech Night at Colonial.

There is to be a mass meeting of the Freshman class today in Huntington Hall at 1 o'clock. The purpose of this meeting is to stimulate to a greater degree the spirit of the class in regard to athletics as well as to the social activities. Manager Morrison of the football team will speak and endeavor to arouse the interest so that more men will turn out soon in order to get the team in good shape before Field Day. Managers Lyons of the tug-of-war team and Spear of the track team will also make urgent appeals to the men for their respective teams.

The matter of a Class tax will also be discussed. It will decide whether it shall be levied in one amount or whether the members will be assessed at intervals depending upon the condition of the treasury.

Arrangements will be made as far as possible for the 1915's part in Tech Night at the Colonial Theatre. Every one that intends to attend should hand his name in as soon as possible in order that a section may be reserved for the class.

## M. A. H. S. MEETING.

Next Thursday, at 1.30, the Mechanic Arts High School Club of the Institute will hold its first meeting of the year in 27 Rogers. At this meeting will be discussed plans for this year's work, and a member of the Executive Committee will be elected from the entering class. In particular, the probabilities of another meeting in the near future, which shall be a purely social meeting, are to be talked of. The club desires a full attendance of the nearly eighty men in the Institute who come from that preparatory school.

## CALENDAR.

Tuesday, October 17, 1911.

1.00—1915 Class Meeting in Huntington Hall.  
3.00—Track Practice at the Field.  
3.30—1914 vs. E. H. S. Relay at the Field.  
4.00—1913 Class Ballots due at the Cage.  
4.15—Mandolin Club Rehearsal in the Union.

Wednesday, October 18, 1911.

3.00—Track Practice at the Field.  
3.30—1915 vs. Lowell Textile, Foot-  
Wednesday, October 18, 1911.

TUESDAY, OCTOBER 17, 1911

Wish to commend the action of the Class of 1914 in their decision recently to hold their annual election just before Field Day, with their dinner and announcement of elections on Field Day Night, adjourning later to the theatre. This will give the officers of the Freshman year a chance to reap the results of their efforts in the preparation for Field Day. In previous years the officers of the first year have been obliged to perform all the hard work necessary for the successful carrying out of the Field Day events, while the newly elected officers got all the glory coincident with the event.

The inauguration of a training table for the Cross-Country team is a start in the right direction, and we hope that the men will report faithfully and keep in the best possible training. We understand that the team will have only a certain proportion of their meals served there daily. This will probably do a certain amount of good, but why not get the best possible efficiency by requiring the men to take all their meals at the training table? This would not be a very great hardship on any of the fellows and would certainly do a good deal more for the team than training one or two meals a day and doing as they please the remainder of the time. We hope that the Coach and the management will take this matter up, consider it seriously and decide in favor of the project.

A fund has been raised by the Alumni throughout the country to replace "Morey's" famous old student eating-house which was given up some time ago. It is planned to reproduce it in an old house on York street, one block from the college campus. The rooms in this house will be arranged exactly as the original tavern, and on the walls will be hung the same old prints and the famous table tops on which generations of Yale students have carved their initials.

## COMMUNICATION.

Unless something unexpected occurs, there will be no further Sophomore class meetings before Field Day. For this reason it devolves upon every 1419 man to feel his responsibility in helping to successfully carry out the various class affairs which are coming shortly.

One departure from past customs was made by 1914 by doing away with the Freshman dinner hazing. Another innovation is to be tried by 1914 which, if successful, will very likely become an established custom at Tech. The "elections" dinner is to be held at six o'clock on Field Day this year. If 1914 men turn out well at the Field, and at the Theatre, and particularly at this dinner, November 3rd should be a mighty big day for the Sophomore class.

The special effort made at the close of last year put the finances of the class into excellent shape. The easiest and best way to pay the class dues is to send them in with the annual election ballots. To put the class on the good financial footing desired, a good big vote will help materially.

Field Day, this year, must be a clean sweep of football, relay and tug-of-war for 1914. So far the men have turned out in fine shape. What is needed now is not so much stars as medium weight men to fill up the teams. For the efficiency of the teams, it is urgent that men who intend to try for any team turn out now. Any delay in coming out may prove disastrous when the team is put to rest on Nov. 3d. Nothing further will be said about coming out for practice. Every Sophomore knows that this is 1914's last Field Day, and if he has the right spirit he will try for some team, without any coaxing, and do it immediately.

Finally, it will be to every man's advantage that he get his seat reservation for Tech Night as soon as convenient. Reservations will be on sale during noon hours in Rogers corridor the rest of this week.

The events then, which are of particular interest to Sophomores from now on until midnight of November 3rd are these: Daily team practice; nominations from October 20th to October 27th; class elections and payment of annual dues, from October 27th till noon of November 3rd; Field Day in the afternoon on November 3rd; the dinner at 6 P. M. of the same day, and afterwards Tech Night at the Colonial Theatre.

T. KRUEGER, President.

## T. C. A. MEETING IN UNION.

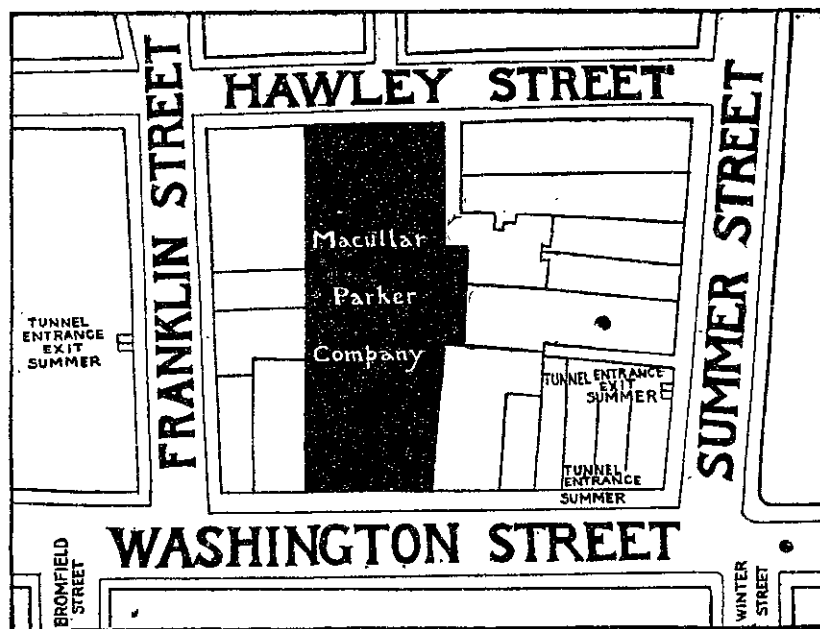

Informal Talk by Mr. Lockrow Thursday Noon.

The Rev. D. M. Lockrow, Director of the Temple Brotherhood of Tremont Temple, will be the Technology Christian Association speaker in the Union on Thursday, as previously announced in THE TECH. Mr. Lockrow is a speaker of recognized merit and will assuredly make a large contribution toward the popularity of this activity of the Christian Association. As Director of the Temple Brotherhood since last March, Mr. Lockrow has in his seven months of work increased the membership of that organization from two hundred to seven hundred, and preaches to an average of three hundred attending the meetings.

The subject chosen is, "What is the Matter with the Churches?" and no one who can conveniently be in the neighborhood of the Union at 1.30 on Thursday should pass by this opportunity to hear a live man discuss a live topic.

For the first time on record, moving pictures were taken of a football team in practice when films were made at Cornell on Thursday.

**MOORE'S**  
THE ORIGINAL NON-LEAKABLE  
**FOUNTAIN PEN**

The easiest pen to fill.

One of the features which makes Moore's an unquestionably superior pen is the ease and rapidity with which it can be filled. Simply remove the cap, drop the ink in and the pen is ready for use — no inky joints to unscrew.

Moore's is a very satisfactory pen to carry around in your pocket or bag, because it does not afford the slightest possibility for leakage. Remember also that this pen never fails to write with the first stroke — requires no shaking. Its ink flow is always free and even.

Every Moore's Non-Leakable Fountain Pen carries with it the most unconditional guarantee.

For Sale By Dealers Everywhere.

## NEW MASSEUR AT FIELD.

Technology athletes and track men who work at the Field these fine fall afternoons have met a strange face when they went for their daily rub-down after the workout. He is a man who came to the Institute with the best of recommendations and is sure to become popular among the fellows as well as give them the best of service in his line.

Mr. Johnson, the new masseur, is a graduate of Posse Gym, in the class of last June, since which time he has been with the institution for physical therapeutics. He has had a thorough training in the scientific handling of men, and seems to be well capable of giving the kind of work that the Institute track team has been accustomed to having in the past. Mr. Johnson is a young man, only twenty-five years of age, whose home is in Sweden, and he will be a welcome change from the dark-skinned gentlemen who officiated at the table in the days that are gone by.

## FERRY ACTING CAPTAIN.

Earle E. Ferry has been appointed acting captain of the Cross-Country team owing to the temporary disabling of Captain Benson by an injury to his ankle in last Saturday's run. Ferry has been running cross-country for four years, was a member of last year's team, and is the obvious man for the position. He was the unanimous choice of Captain Benson and Coach Kanaly.
