Temporary Executive Committee
Appointed—H. E. Kebohn
Assumes Chair

The Institute Committee held its second meeting at 4 o'clock yesterday in the Union. Many of the newly elected men were present, as well as those going out of office. Randall Cremer, the former chairman, opened the new session and gave over the chair to H. E. Kebohn, the new president of the Institute.

Discussion was held as to how the business of the Calendar Committee should be carried on, and it was decided that a subcommittee should constitute two committees, and that besides their other duties they should turn in a copy at the Calendar office daily to THE TECH.

In the near future, the Executive Committee will hold, and the constitution which formerly has been charged.

A discussion as to who should represent THE TECH on the Institute Committee was held, and the constitution was amended to the effect that the present President of THE TECH shall be a member of the Institute Committee, instead of the Editor-in-Chief, as formerly. Although the Editor-in-Chief Manager was a representative last year, the article in the February issue which called for the Editor-in-Chief had not been changed.

It was advisable not to elect any permanent Executive Committee without the consent of the majority of the students. Although some elections had been held, but the following men were elected as a temporary committee—1912, G. M. Kebohn, 1913, H. D. Peck, 1914, and T. H. Rope, 1914. The next meeting will be held in the Union on Wednesday, November 1st, at 4 P.M.

MECHANICAL DINNER
Jack Armour, Profs. Miller and Riley Will Entertain

At 6 o'clock this evening the Mechanical Engineering Society will open its year's activities with a dinner in the Union. It has been agreed to provide something novel in the way of entertainment, as it has engaged Jack Armour, who is connected with Power, to be present to entertain the meeting. Said Jack Armour is an enterprising young man, and so it is probable that the evening will be a very pleasant one. Besides this man Professors Miller and Riley will be on hand to add to the interest.

The main reasons for holding this meeting are to get the new men and the old together, and to discuss the plans of the society. Particularly, there will be an announcement of the moving picture show which will be held in Harvard Hall on Saturday night. This is a thing that has been whispered about for some time but which now is definitely announced. This will consist of The Cleats and Electricals to sit up at it for a special reason for the attendance of all men. Professor Riley is to give a talk about the world of interesting talks, and a good attendance is expected. The tickets are fifty cents.

Professor Miller will talk on Compliment, a special reason for the attendance of all men. Professor Miller is to give a talk about the world of interesting talks, and a good attendance is expected. The tickets are fifty cents.

ARCH. SOC. SMOKER

The first smoker of the year r.l be held this week in East, where the chimeras will light at 7:45 o'clock, in 12 Pierce, and will be in the nature of a farewell to the incoming freshmen. The President of the society will be there and give his final goodbye to the incoming freshmen of the society. For this reason all new men have been invited to come, and it is hoped that there will be a good attendance.

Tickets are being sold at thirty-five cents.

Track Men Must Report Today

Physical Examination at Field—Entries for Full Meet

All track men should report at the field (this afternoon) at 4 o'clock to take the required physical examination. It is absolutely necessary that all the men be present, whether they are to do any work or not. The examination will be given by Dr. Rockwell.

The entries for the Full Handicap Meet will close this afternoon at 6 o'clock. As it is a handicap meet every one has a chance and should make the most of the opportunity. It is well to remember that this week in the full will make the spring week much easier, and the right way to make a good man is to sign up today in the entry book at the Union and show up at the field on Saturday.

M. A. H. S. CLUB—MEETS TODAY

In meeting on Thursday, October 19, 1911, for 1:30: Discussion of Plans

Today at 1:30, the Marine Art School High School of the Institute will hold its first meeting of the year in 57 Rogers. The main purpose of the meeting is to explain the aims and methods for the year to the members, and to discuss the possibilities of collaboration of the Institute of Art School in the near future.

It is also necessary to elect a member of the Executive Committee of the Club from the Freshman class, as well as to consider recommendations submitted by present officers.

There are about eighty men in the Institute that come from this important preparatory school and it is desirable that the number of members be increased; the number have already signified that such was their intention. Men are expected to be ready or not they are already ready.

CALENDAR.

Thursday, October 19, 1911.
1:30-Wireless Society Election—1:30—M. A. H. S. Club Meeting in Rogers, 25.
4:00—Truck Practice at the Field.
4:00—Wireless Society—Union.
4:15—Glee Club—Union.
4:15—Mandolin Club in Rehearsal in 117 Chemistry.
5:00—News Board Meeting—Upper Dining Hall.
6:00—Entries for Full Handicap Meet Close Today.

The 1915 Tug-of-War Society will hold a dinner to-morrow, at 6:30 P.M., Friday, in the Phoenix Club.

The main object of the meeting is the election of Secretary-Treasurer. Other business pertaining to the society will be taken up. An invitation is extended to all members and any new men who are candidates for the Society.

The Secretary will be in charge of the proceedings, and in order that the laws and conditions may be published in the Union.

Meet Close Today.

The main reason for the meeting is the election of Secretary-Treasurer. Other business pertaining to the society will be taken up. An invitation is extended to all members and any new men who are candidates for the Society.

The Secretary will be in charge of the proceedings, and in order that the laws and conditions may be published in the Union.

The meeting is to be held in the Union on Wednesday, November 1st, at 4 P.M.

C. E. SOCIETY TO HOLD FIRST DINNER

Prof. Swan Of Harvard Graduate To Talk—Excellent Menu Arranged

Although the 1915 Tug-of-War practice is progressing smoothly and the team work as well as can be expected at this stage, more men must report for practice so that the Freshmen may be represented by a sufficiently strong team on Field Day. From fifty to sixty men should report daily in those men who play in the interest condition. There ought to be at least fifteen men who, when they come together, form a team of twenty-five each for the practice to have its full benefit. The practice has been much more successful than the men put against each other is essentially for the men's endurance and requires them to pull with the proper form. To make this possible more teams must come out. If it is absolutely necessary for teams of one hundred men to have practice of pulling together. Also a much better team can be picked from a large team.

The members of the tug-of-war team are not faring working on the matter for their class, and it is the duty of every Freshman to help them. If it is not possible for one's team to come out before, let the other teams talk it over with its interest in the matter. Every team on Field Day will help so much towards a Freshman's future, which has much to do with the standing of that class while in the Union.

The Juniors have voluntarily come forward and given their aid and time to the tug-of-war team as well as the others, and the class ought to repay the Juniors at the earliest possible moment. There is not yet too late and anyone who comes out now will be welcomed, and if he reports for practice regularly he has as good a show as anyone to be picked on Field Day.

Mr. Lockrow on "What is the Matter With the Churches.""

THURSDAY, OCTOBER 19, 1911

Technology Orchestra, the newest of our musical clubs, is an organization which was founded last year and kept alive through the efforts of a few men who thought that there was a place in the life of the Institute for an orchestra. They worked hard all through the year and proved to the satisfaction of everybody that they were right in their assumption.

The orchestra gave during its first season from a few men, but the same orchestra, and is a consistent ground gainer for its cause. It has managed to scrape together a place in the life of the Institute, to the satisfaction of everyone that they were right in their assumption.

The growth of the orchestra is the result of the whole-hearted efforts of the few who started it, and are carried through by the ideas that they have put the orchestra before the Institute as a most creditable affair, and the rest is in the hands of every Tech man. Whether we will have an orchestra or whether we do not, is a question that lies before not only all the men who can come out and help with their musical ability, but also all the others. The men who can play can work for the good of the orchestra in just as effective a way and do just as much good by the word of praise instead of results which could perhaps come more easily. The orchestra's needs help and you need the orchestra. Pulling together, we can have an orchestra that will be every bit as effective as the most successful Technology Orchestra of 1911.

All indications point towards a record-breaking Field Day this year. Owing to the chance we have already seen heard on both classes.

There are a lot of men on the field who could well come out and do a little work for the benefit of their fellowmen.

1913 ELECTION RESULTS

As required by the Institute Committee, the total number of votes cast for each man in the recent Junior elections is now published in THE TECH:

WRESTLING PROSPECTS

Six Men Left from Last Year's Team—Coach To Be Secured

Although it is rather early to speak of indoor sports, it may not be amiss to let the fellows know that there is a wrestling team here at Tech which promises to be a good one. Six men are left from last year's team, so with a few more good results are to be expected.

A heavy covering for the mat has been secured so the men will not get scratched up. A coach is to be secured as soon as enough men report. There will be all classes, from featherweight to heavyweight. Meets are to be arranged with neighboring colleges.

If any one wishes to start in now he can find A. H. Means or R. Smyth at the Gym almost any afternoon.

After Field Day it is hoped and expected that many candidates, especially football men, will go in for this branch of sport.

HADLEY ELECTED FOOTBALL CAPTAIN

At the Field, on Tuesday afternoon, the Freshman football team elected a captain to fill the position left vacant by the failure of the temporary captain, J. J. Stroobant, to report for work at the Field up to date. The position was chosen by the team to lead for the remainder of the season is a Riddle Men's Training School man, Harold C. Hadley, from Cambridge.

Hadley has been playing a star game at right halfback during the year. He is very fast for his height and is a consistent ground gainer for the team.

Free Feed!

The Business Department of THE TECH will give a luncheon to all members of the department who register to the Business Manager at Breakfast on Friday. It is essential for all the candidates to be present.

CROSS-COUNTRY TEAM BRAVES THE RAIN

Fifteen Men Take Advantage of Mud to Slide Down Hilly Tech Course

Only fifteen "little horses" showed up to take the trip over the course yesterday afternoon. True, it was very wet, but this should not have kept the regular men away as it did. With the exception of the ploughed patch, the ground was not in such bad shape as might be expected, and fair time was made.

ADVISORY COUNCIL

Meeting Held Tuesday—Field Day Dinner Set for Nov. 4

The Advisory Council held its regular meeting at the Hotel Paxton on Tuesday evening for the transaction of routine business. The Council appointed a sub-committee of the members to have charge of Field Day and to look after the appointment of the undergraduate marshals and other officials.

The date of the annual Field Day dinner for the participants in the various classes and teams of the Varsity Cross-Country Team is set for Saturday night in the Union at 4:30, the day after Field Day. At this time the Field Day Cup is passed around from man to man, and before each man drinks out of it he has to follow the custom of giving his toast and telling the name of his home town. This is a dinner that in itself is almost worth all the trouble that may be gone through to make one of the class teams. Here the animosities of the past are forgotten and the victor and vanquished are put on the same footing.

THE ORCHESTRA

New System of Attendance inaugurated This Season.

The Orchestra has instituted a new system this year in regard to attendance which promises to reduce tardiness and absence. A deposit of $1.00 is required of every member in addition to the $1.00 required for dues. A fine of two cents is imposed for lateness at rehearsals and 25 cents for absence, while $1.00 is the penalty for absence at a concert. A quartet has been arranged consisting of Eksergian, 1st violin; Eisenberg, 2nd violin; Wilson, viola, and Eisenberg, cello. This quartet may be used at any public function, a moderate charge being asked for its services.

Mr. Eksergian, the conductor, is very much pleased with the progress of the orchestra thus far and expects a very profitable season. Mr. Eisenberg, the concert master, has arranged an excellent repertoire consisting of the following numbers: Selections from Gounod's Faust; Pink Lady, Maclachlan's; Chocolate Soldier, Naughty Marietta; La Trouvélite and the German Psalm. Rehearsals are held every Wednesday at 4:15 in the Union.

NOTICE! STUDENTS!

First dinner of the Civil Engineers Society in the Union at 6:30 o'clock Friday evening, October 29. "Poor Swine," the Father of Tech's Civil Engineers from 1883 to 1908, will talk. Fifty cents for the food.

Unless something unexpected occurs, there will be no further Sophomore class meetings before Field Day. In this way it is intended to give every 1419 man a chance to feel his responsibility in helping to successfully carry out the various club affairs which are coming shortly.

One departure from past custom was made by 1914 in doing away with the regular dinner of the evening. Another innovation is to be tried by 1914 in the form of a high bid for the Sophomore class.

The special effort made at the close of last year, particularly at this dinner, is expected to prove a mighty big day for the Sophomore class.

There will be a meeting of the News Board of THE TECH TODAY (Thursday, October 19, at 5 P. M.) in the Upper TECH Office. Important business will come up at this meeting, and it is urgent that all members be present.

FACTORU NOTICE.

Students in Courses I and XI will understand that Library books will find them in 10 D. Those remaining after November 1 will be thrown away.
