HARD SCRIMMAGE FOR SOPHIS YESTERDAY

Teams Make Good Showing—Final Selection to Be Made Today.

The Sophomores’ football squad had its final scrimmage yesterday afternoon at the Tech Field. This was the first time for the Sophomores this season to have a scrimmage, and the picking of the men who are to play was being studied by the coaches with the utmost care.

The signal drill was fast and the scrimmage was played by the first five for quite a long time. The tentative eleven was then announced as follows:

Patton, Storke, and Hines.

Lyons will probably be attractive.

Mr. Rourke graduated from the Institute University in 1918, and has spent many years in Central and South America, and was chief engineer on one section of the Panama Canal. He is sure to attract a large gathering, as he has had a notable success, and is a most interesting lecturer.

The biological Engineering Society will hold its first meeting and dinner this evening at 6.30 in Huntington Hall. There will be a talk on the methods of manufacturing automobiles, the speech which was characteristic of the Sophomores, who, this year, are as capable of membership in the society. The aims and purposes of the society will be explained to the new members, and the work of the year will be inaugurated.

The final pick will not be an easy task, for the result of the scrimmages will have to be taken into consideration with each man’s ability to pull and stick to it. The coaches have a large field to select from, for all types and sizes are represented. Some have had experience before, but for the most part the candidates are novices.

For the past week hardly a man has missed practice, and that is probably 90 per cent of the candidates who are accounted for the allowed excellent work of the squads. Every candidate for the team is sincere and anxious to be the hardest of the chosen twenty-five.

BIOLOGICAL DINNER THIS EVENING

Professors Sedgwick and Porter will preside at the Dinner to be given tonight in the Union Dining Room. This year promises to be one of the most successful years that the society has ever experienced, as the large number will turn out and make ample provision for the event.

The meeting of the Union Dinner Room.

This year promises to be one of the most successful years that the society has ever experienced, as the large number will turn out and make ample provision for the event. The diet is to be entirely an informal affair, and everyone who is taking the biological or sanitary courses is cordially invited to attend. The Sophomores, who, this year, are as capable of membership in the society. The aims and purposes of the society will be explained to the new members, and the work of the year will be inaugurated.

CATHOLIC CLUB

Hs Interesting Meeting Arranged For This Evening.

The second meeting of the year will be held tonight. The Catholic Club, in Van Andsr’s Field, is to be opened at 10 o’clock by the President, A. C. Whitaker. The evening will be devoted to a discussion of new quarters and the building of the new dormitories. The program will be as follows:

1. Introduction by the President.
2. Discussion about new quarters.
4. Election of officers.
7. Adjournment.

This evening’s meeting will be in the Union Field. The meeting will be open to all members of the Catholic Club and to any interested non-members. It is expected that this meeting will be very successful, as it has become a regular feature of the Catholic Club’s schedule.

The members of the Catholic Club are planning a menu better than the last one, and it is hoped that the meal will be a success. The meeting will be in the Union Field, and it is expected that the meeting will be well attended.

The meeting will be in the Union Field, and it is expected that the meeting will be well attended.

The meeting will be in the Union Field, and it is expected that the meeting will be well attended.
COMMUNICATION.

To the Editor of THE TECH:

While recognizing the superior learning and wisdom of the various members of the English Department, whose communication appeared in a recent issue of THE TECH, we cannot let it pass without replying to the humble branch of the Civils Society. Sod to say, we haven't had the good fortune to take the classes in "Public Speaking" and "Argumentation and Debate," and so we must be excused if our vocabulary and the style of our words approach zero as a limit in comparison with those of our worthy critics.

The officers of the society have found that there is always a tendency to overlook the completion of the tournament, and, also that there is difficulty in getting the proper départments to coöperate.

It is the feeling of the Civils that the various departments should be made to understand that the tennis tournament can be arranged without a great deal of difficulty, and that all classes should be able to participate if they so desire.

We are, et cetera,

CL remake NOTES.

Various Happenings in the College World.

The University of Washington professors will establish a summer school for foreigners at the University of Madrid next summer.

Cross-country running causes men to lose speed for track work, according to Harvard's coach, A. H. Simmons, who is the British cross-country champion.

Captains of five other sports are on Yale's football squad, the crew captain being the only captain not out for the eleven.

Harvard has been getting a good many notices of publicity out of the fact that a freshman named Harrington, the first of the family, has entered the University. Yale, however, has graduated a Yale in each of the three centuries of the University's existence.

Columbia outdistanced the previous records of all American universities this year by an enrollment of over eight thousand students.

Full crew training will be held this year at Stanford for the first time. A new shell, built by Sims of Putney, England, will arrive in December.

The annual struggle for supremacy in all-round athletics between the two English Universities, Oxford and Cambridge, resulted in twelve victories for Oxford and eleven for Cambridge.

The University of St. Andrews, in Scotland, is celebrating its 500th anniversary.

Wisconsin has this year offered a course in professional athletics, in which the student may take a physical training course in addition to the regular arts course. But to secure a certificate for teaching the applicant must be a specialist in at least two of the following sports: Football, basketball, tennis, tumbling, skating, boxing, polo and rowing.

CLASS RELAY TEAMS

PRACTISE AT THE FIELD

Coach Kanaly instructs men on track rules—flag passing improving.

At the Field, yesterday afternoon, both the Freshman and Sophomore relay teams held a long drill in passing the flag, passing under their respective captains. The Freshmen were on the track first and lined up about 50 yards apart from the Oval. The flag was passed from one to the other until it had made the circuit about six times.

Coach Kanaly then called the 1915 men together, and while the Sophomores were practicing on the opposite side of the Field, he watched the men individually. He found much room for improvement in form. He pointed out to the men how to avoid fouling an opponent, how to relieve a man when the opposing team has the pole, and explained the meaning of "Right of way." Both teams finished up their work with a 300-yard "jog" and a short sprint.

Captain Hanson has ordered that every Freshman is to report at the Field at 4:30 P. M., today, without fail.

Two men failed to show up yesterday, their failure to report may cause their class to lose Field Day, as the relay race will undoubtedly decide the winner, as it is generally conceded that the Sophomores will win the football game and the Freshmen the tug-of-war.

For the man chasing the pill, uphill, down hill, in the sandy bunkers, Velvets is mild and smooth and pleasing.

Velvet—selected leaf—two years in the warehouse undergoing a change which eliminates the harshness of the leaf. A mellowness rarely attained—a smoothness you should know all about.

No sir! Impossible to bite or irritate—one smoke as cool and sweet as another—smoke it for 54 holes if you like—always agreeable.

At your dealers.
