TUG-OF-WAR WON
DAY FOR FRESHMEN

Field Day Goes to Freshman

Tug-of-War Team Put Up Great Fight—Score 3 to 0.

Very Close Gridiron Battle Won by Field Goal—Each Team put up Great Fight—Score 3 to 0.

Although the third pull of the tug-of-war decided the day in favor of the Freshman Class, it may safely be said that these were not the only great efforts made by the guns of Van Rens, Bryant and Fox. The fate of the game inclined first one way and then another, but the quarter ended without anyone being able to pick the winner.

The Sophomores, who had the advantage of the third quarter back favored the Freshmen. The Sophos were heavily penalized on several occasions, but the game was played in fair play. As a matter of fact, it almost seemed that the Sophomores had the advantage of the game when the ball within fifteen yards of the goal, when O'Brien dropped a kick over the Sopho goal. Now that they had been scored against, the Sophos sought for a second pull. It was a matter of only a little prematurely. It was fired at a gain of six yards on the second down, and on the third Van Rens was dropped for the first down again. On this down the Sopho's dropped a hole and a number of the Sophomore team went through the line for good luck. The ball was fumbled and왈

The Sophomores had gathered strength during their rest, and easily outstretched the rope. Quickly it was easily seen that the Sophomores had no doubt in the minds of those present that they had won the game. Bryant and Fox. The fate of the game inclined first one way and then another, but the quarter ended without anyone being able to pick the winner.

EUROPEAN AND AMERICAN PLANS

HERBERT H. BARNES, Proprietor.
C. E. SOCIETY PLANS INTERESTING YEAR

First of Series of Trips To Be Taken Next Week—Seniors To Give Talks.

In the belief that seeing is quite as important as hearing, the Civil Engineering Society has planned to supplement its season's course of lectures and addresses with frequent trips to points of engineering interest. In the vicinity of Boston, it will be the endeavor of the Program Committee to arrange such trips for afternoons when there are no exercises scheduled for the upperclassmen in Course I, so that as many members of the society as possible can take advantage of the opportunities that will arise.

As a distinct boost to the new plan, the committee is pleased to announce that the Boston Society of Civil Engineers will make it possible for members of the C. E. Society to go on the regular trips of inspection of the former organization. In addition to the Boston Society trips, however, the Institute Society is planning for several exclusive little jaunts of its own. The first of these will be taken next week, probably Friday afternoon, to the works of C. L. Perger & Sons, makers of surveying instruments.

Here the men will be given an opportunity to see in detail the methods of making and testing transit, levels, compasses, and all the other instruments of the profession which they may expect to use or less intimately connected with life. Not only is the entire factory to be thrown open to the Tech men, but to make the inspection the more interesting, a talk on the work will be given to the society by one of the officials of the company.

Another step which the Program Committee has taken toward making the coming year an interesting one for the dam and brigetry builders is the plan to revive the old custom of the society in regard to having the underclass members give talks to the society. In most instances these talks will take the form of informal descriptions of the work for which the various members of the society were engaged last summer. A dozen or more of the upperclass men have volunteered to tell the society of their past summer's experiences, and it is hoped that any others who have been employed on work presenting interesting features will come forward and join the movement. These student talks will be given within the next two months, at intervals of two weeks. The first three will be given at an afternoon meeting of the society very soon. The date and subjects of talks will be announced later in THE TECH.

SOPHOMORE ELECTIONS

Continued from page 1.

For the Institute Committee, Abbie H. Watt, of Medford, was re-elected, and his mate, Gordon V. White, was elected. White comes from the upper Conn. He is class track manager. Watt was a good Committee man last year, and in addition is now one of the managing board of THE TECH.

Charles E. Fox, of Auburn, and Harold A. Mayer were elected to the Executive Committee. Fox was on the A. A. list last year, was tug-of-war manager last year, and was in the Show management. Mayer has been re-elected.

Charles E. Fox of Roxbury, and James M. White of New York were elected to the Athletic Association. Fox is the football team's assistant track manager, and has proved himself a good assistant.

The elections were fairly close and resulted in some surprises and a number of re-elections. The number of ballots cast will be announced later in THE TECH.

SPECIAL NOTICE

The Tech has a limited supply of Durham Duplex Demonstrators like cut—an exact model of the Durham Duplex Razor. These can be obtained at Tech office for 30 cents each, which covers the cost of packing, shipping, etc.
