WIRELESS CLUB IN THE UNION THIS AFTERNOON

Big Season With Big Membership Ahead—Club Has New Apparatus

The first meeting of the Wireless Society will be held this afternoon at 4.15, in the Union. Besides electing four men for the Board of Directors, the meeting will vote on new members. The membership of the society will be greatly increased this year; by the election of those members who lost interest last year, as well as by the new enthusiasm to whom the opportunities that the club has to offer appeal.

A new antenna, one of the largest in the city, has been erected on the top of Pierce building. The remodelling of the station is nearly done, and the instruments are now owned by the club, instead of being the property of members.

All members will have keys to the station, which is in the Electrical Laboratories, so that they may use the instruments there at all times. Members having trouble in their work will have the use of the instruments of the Physics Department and the Electrical Laboratory.

Arrangements have been made to have a table for the society in the Union every Wednesday, beginning today, at 3 o'clock, for monthly meetings (usually on the first Wednesday of the month), at which prominent outsiders will speak. The head of the United Wireless Company for this district has agreed to speak to the club during the year.

CROSS-COUNTRY CAPTAIN

Earle E. Ferry Elected to Place of Harvey Benson

Directly after the cross-country race with Harvard last Friday Cross-Country Captain Benson resigned, leaving the captaincy to Earle E. Ferry, '11, of Pittsfield, who has been acting captain while Benson was out with his injury. Benson resigned after the cross-country race, which was the last spring meet of Pittsfield, who has been acting captain while Benson was out with his injury. Benson resigned after the cross-country race, which was the last spring meet.

Perry has been running long distances ever since he entered the Institution, and this year.
THE TECH

COMMUNICATION.

To the Editors of THE TECH:

Your attacks in the editorial column of two recent issues of THE TECH on the House Committee have been wholly unwarranted. That in today's issue is a wilful misrepresentation of facts and should be contrary to TECH.

TheTECH should be placed in the proper cotoe, but the Editor, as an editor, and rather than put only a part out, none were put in the case. The key has been lost through no fault of the House Committee, and pending the appointment of the new committee no action was taken in securing a new key. To quote THE TECH, "The Techniques were resting peacefully in the Cage." It was considered all right to leave them there until the committee could be formed. In Tuesday's issue THE TECH criticized the committee for failing to do a key. This was an exceedingly rash statement because the books have not been thrown out, nor has their been a tax on the pleasantness of his THE TECH has been to promote TECH. We hope it has utterly failed. It is acted that THE TECH will be able to refrain from further comment on the matter until after the offer of THE TECH to supply funds for the purchase of the key is much appreciated and may be accepted. If the purpose of the discussion by the TECH has been to promote TECH, we hope it has not failed. It was to correct an evil we believe the method of approach and attack was entirely wrong, and that in the future THE TECH will be a clean and fair in its methods as it generally has been in the past.

OLIVER D. POWELL

M. A. H. S. MEETING.

Friday evening the Mechanic Arts Club will hold a meeting in the Union. The meeting will be purely an informal one, as there will be no speeches. Entertainment will be provided for the members attending, and refreshments will be served. It is desired that the members attending go to the secretaries of the minutes before Wednesday night in order that proper arrangements may be made with Mr. Collin.

Princeton now has but two games this year. Harvard, Yale, and Dartmouth have already been taken down. The Tiger has a fine chance to game, the Tiger has a fine chance to

HARE AND HOUNDS TO BE RUN ON NEW PLAN.

Shorter and Slover Races to Be Held—First Run Next Saturday.

Next Saturday afternoon an entirely new series of Hare and Hounds runs will be started by Coach Kanaly. The course each week will average about three miles in length, so that everybody that is cut for any of the events from the relay to the cross-country team can take part in these runs, and Frank wants all candidates out.

The slow men need not fear to come out for the runs as an easy clip will be maintained at all times. Also the course which is to characterize the start of the previous runs will be done away with. The object of these runs is purely one of exercise and training, and those who are not out for the team, but just want the exercise are especially welcome. It is hoped by the track management that everyone that is cut for the track team will run Saturday to get in the first run of his new scheme.

Coach Kanaly will take charge of these runs personally and will be glad to help the fellows in any way that he can. The Hare and Hounds chase as a practice was started several years ago to give the men a chance to train for the cross-country team and also to furnish an amusing way to accomplish this object. Lately these practices have become so popular that only the regular team men could keep up and show any interest at all times. Also the course which used to characterize the start of the previous runs will be done away with.

The course for the new run has not yet been announced, but it will be announced on the bulletin in time so that the men can arrange to be on hand. It is also announced that the prize will be of every one not more than twenty-five cents. This prize covers all expenses forand for also a swimming pool is promised at the end of the run wherever possible to arrange.

MILITARY SCIENCE NOTES

Major Cole Intends to Form
Drum Corps This Year.

The recent inauguration by Major Cole of his ROTC classes has attracted much attention, and a large enrollment has already been made, as stated in THE TECH. His success in the military science courses incited THE TECH to make some inquiries about his previous military experience.

He came from West Point in 1889, and since that time he has been engaged partially in active field work, and partially in teaching military society drawing in the United States, and also a swimming pool is promised at the end of the run wherever possible to arrange.

SPECIAL NOTICE

The Tech has a limited supply of Durham Duplex Razor Demonstrators like cut—an exact model of the Durham Duplex Razor. These can be obtained at Tech office for 35 cents each, which covers the cost of packing, shipment, etc.

Governor Foss has been counted.

Large numbers--at least fifty percent of those registered having voted in some districts during the first two hours of the day, and a larger vote than has ever been cast before in a state election--was polled in the city yesterday.

Governor Foss was among the very early voters, as he marked his ballot at 10 minutes after 7 yesterday morning.

Mr. Frothingham voted at 32.

Great excitement reigned as the curious bulletins in the city while the early voters, as he marked his ballot for Proctor, was the opposite of those cast before in a state election.

The present election resulted in a tie until very nearly all the votes had been counted.
