SOPHOMORES ABOLISH
LAST TRACES OF HAZING

Movement Started By 1912 At Last Brought To Successful Termination By 1914

Yesterday noon, in Huntington Hall, the Sophomore class held its first meeting as a second year class at the Institute. There was a large attendance, called out by the important business that was required to be transacted.

On the Field Day question, which is always the big one for Sophomores at this season of the year, they had some warm discussion and finally passed a resolution that the class refrain from all demonstrations against the Freshman that could be brought into the category of hazing. Everyone will be looked out for, said as to the quality and fitness of the Freshman that could be brought into the category of hazing. Everyone will be looked out for, said as to the quality and fitness of the Freshman, coming in for the season. Most of the time, they will not get to smoke the clerk pipes.

This action on the part of 1914 is along the line of that taken by 1915, which class was too anxious to unshackle the old "Night Before Rough-house" a few years ago, and is surely worthy of much commendation from all.

FOURTEEN STATES ARE REPRESENTED

Registration Shows That Forty States Are Represented

At Technology

The geographical distribution of the men now in the Institute of Technology for the first time is interesting, since it shows the reputation of this Institution of learning not only among the people in its own neighborhood, but in other sections of the country, and in distant lands. That the prophet is not without honor in his own country is evidenced by the fact that Boston sends 38 of the new students and every state west of the Mississippi, except New England swells the number to more than 500. Ohio has more than 130 from this country, 40 of the States of the Union being represented.

A word to the wise is sufficient, and we know that he will be very much alive, that he will be out of place to mention that Mr. L. R. D. is also the instructor in charge of the Physical Training Department, etc., which all know. There is a student body and a staff at the Institute known as the Institute Institute, and it is easy to see that it will be to the advantage.
