CARLISLE WINS FROM CRIMSON EASILY

Second Football Victory for the Braves One of Skill Against Inexperience

By overlooking twenty-three of the best of Harvard's football men at the Stadium Saturday afternoon, the little band of Indians from Pennsylvania won a clean, decisive victory, with a score of 18 to 15. Showing a superiority over the Crimson in every department of the game, and above all, displaying a spirit of sportsmanship and decency that was sadly lacking in their opponents, the Carlisle team were backed throughout the contest, not only by the feminine supporters, but also by chemical three-thouters of the people in the Stadium.

As the starting signal came Coach Haughton sent in a team of subs, which was found to be as strong as the one that was later put in the game. The Indian girls in their war paint and war whoops overlooked the official line-up of the Harvard men, and instead went for the back of the line of players, which was, of course, the defense. They succeeded in getting the Harvard men away from the ball and had little to do with the game. It was far from a one-man team that defeated Harvard, however, for the men playing on the back line, the battery and the Edison battery. The Harvard men were continually put out of the game, never broke their way, and never a trace of anything underhanded, the Harvard men get through the solid defense. The Indian girls for their hero.

Promising material has been shown among the new men from which good representatives in the different classes of Harvard men can choose that most suited to their purposes. Monday, Tuesday, Wednesday, 4; Thursday, 4; Friday, 4; Saturday, 4. All these men must advise Mr. Kanuly of their intention of substituting wrestling for the regular floor work of the Gym classes.

The tackling that his men showed was very weak and the charge on the Harvard men went through the backfield with ease. In the first quarter, 145 lbs.; P. E. Herron, 168 lbs.; A. H. Means, 148 lbs.; P. F. Wood, 135 lbs.; E. C. Stucklen, 130 lbs.; F. H. Pattern, 150 lbs.; H. C. Paskirt, 102 lbs.

HARE AND HOUND RACE

AT NEEDHAM SATURDAY

Race Is Slow and Distance Short — Trail Laid Mostly Over Roads.

Instead of the whole track team, an entirely new one was put in the game. The pace was made slow and the distance short, the men being changed only after a run of about five furlongs. The work of the men was so well done that they were able to take off some of the rough edges.

THE TECH

COMMUNICATION.

To the Editor of THE TECH:

I am one of 34 Tech men who eat their lunch at the Memorial Union on the days that they happen to be on campus. Considering this number I should estimate there are two hundred fellows who come into the Union each day. If we add to this number those who eat at the Memorial Union on the days that they are not on campus, the estimate that a total of one thousand people come into the Union each day is not unreasonable. The following is a list of the various methods that have been employed to meet this large demand:

1. The Union was increased in size by the addition of a new wing.
2. The number of dining rooms was increased.
3. The number of dining tables was increased.
4. The number of waiters was increased.
5. The number of kitchen staff was increased.
6. The number of cooking equipment was increased.
7. The number of seating capacity was increased.
8. The number of menu items was increased.
9. The number of price items was increased.
10. The number of waiters' hours was increased.

These methods, while effective, are not sufficient to meet the demand. Therefore, I suggest the following measures:

1. The Union should be closed on alternate days to allow for cleaning and maintenance.
2. The Union should be closed on weekends to allow for cleaning and maintenance.
3. The Union should be closed on holidays to allow for cleaning and maintenance.
4. The Union should be closed on the last day of the semester to allow for cleaning and maintenance.
5. The Union should be closed on the last day of the year to allow for cleaning and maintenance.

By taking these measures, we can ensure that the Union is clean, well-stocked, and well-maintained. We can also ensure that the Union is accessible to all students, regardless of their dietary preferences or restrictions.

Sincerely,

[Signature]
NEW SITE DEBATE.
Cambridge Site Favored By Men Acting as the Judges.
A debate on the new site was held in Walker 23, at 11 P. M. Saturday. It was conducted under the direction of Mr. Sydney Gunn, the instructor of English, who takes charge of all men from E to K. The two teams were defending the claims of the Cambridge site, in which it was the intention of Harvard to build a new school of engineering. The affirmative was represented by Iseberg and Harding; the negative was represented by Freeman and Paine. Mr. Gun stated after the debate that the arguments presented were very good, and he thought that this debate, and the results thereof, should be conclusive.

Fenniger, the first speaker, pointed out the fact that a new site was absolutely necessary in order that the Institute may be able to proceed on a business basis. He further showed that the new site was the best under the circumstances, both because of its location and its size. The second affirmative, Mr. Harding, spoke of the benefit to the students and the Faculty. He stated that the planning of the Institute in Cambridge would greatly facilitate the absorbing of men by Harvard by Tech, if such a thing were to come about.

Mr. Freeman, the first speaker on the negative, argued that since the present site was to be in a manufacturing city, and since the new location was actually surrounded by factories, the efficiency of the school would be hampered by the necessary disturbances which would result.

Mr. Keeney, the second negative, argued that a site should have been chosen which was larger and which would show the buildings off much better. Despite the arguments of the first affirmative speaker, that the Institute was a part of and isolated in Boston, or near enough to be called.

CROSS COUNTRY
Continued from page 1

been finished. Yale apparently has less than had been expected, and has but Marsh and perhaps Booth, who have any class whatever. She seemed to have but few Freshmen who could be used later, for in the Freshman race Harvard cleaned up again.

Brown has a very small squad out and has met of her hopes Fred as a present on Taber, and it is very doubtful if he will be very close to the front at the finish of the big race. Cornell, the favorite for the victory, has a strong and well-balanced team as usual. She showed up Pennsylvanias in fine shape Saturday, withケーガ, the two, and Jones, the mile champion, taking first and second respectively. The Pennne who men were the only stars in her race a week ago with Carlisle were again the men whose did only the work for them, as they finished third and fourth.

Columbia is out of the running entirely, judging from past performances, and has nobody who can keep on the heels of the leaders. She lost to Princeton by a big score in a very slow race. Paine, the Princeton captain, had no trouble in winning, and his team was bunched close behind him.

Dartmouth has had but little competition and should be somewhat of a dark horse, with but little chance of getting better than fifth place in the即将举行的

The race stood between Harvard, Yale, Bost, and perhaps Dartmouth. The advantage at present seems to be all in Harvard's favor, for the Crimson under Captain -champion has a fast team. Her victory over Tech and Yale give her a m it call over Harvard, and the others are of more or less unknown strength, due to lack of comparison.

The Tech has a limited supply of Durham Duplex Shavers, which is an exact model of the Durham Duplex Razor. These can be obtained at Tech office for 45 cents each, which amount the cost of packing, shipment, etc.

SPECIAL NOTICE

Shave With A Smile
You Can't Get a Real Shave Without a Real Razor.

The Durham Duplex
is a Real razor. It slides smoothly over the face severing the whiskers with the correct diagonal stroke like a scythe mows grass. It leaves the skin soft and velvety—not rough and harsh as after scraping with razors which do not have this stroke.
