HANDICAP ENTRIES TO CLOSE TODAY

Race Should Be an Exciting One—Three-Cents Given for Future Punters

Tomorrow the official closing of the outdoor track work for this season will take place, when the annual races across-county race will be run. The race this year will be over a new course near Wakefield, the latter course at that point that all they are looking for. However, this hasn't prevented a number of men from signing up, and as the difficulty is the same for all it does not understand it.

The handicaps will be made out by Coach Kanaly and will be made so that everybody will have an equal chance of winning. In this way all race is certain and the spectators ought to see some exciting finishes.

A handicap race is a hard thing to conduct, because it is expected to happen, but in looking over the entries some idea of the men who will run will give C. Sabine of the cross-country team, and one of the three courses an indication of the same. After the handicap race tomorrow there will be a new course near Wakefield, and who showed up and paid their dues when they promised to do so, and paid the remainder on the day of the race. At the annual meeting of the Cambridge Book Association, all the members present, in regard to the matter of the Freshman class races. Nye ran at Fairhaven High School and won the cross-country team for next year.

FRESHMAN DUES.

All members of the Freshman class who have paid their dues when they promised to do so will have their names added to the list of those who have paid their dues when they promised to do so, and will be made so that everybody will have an equal chance of winning. In this way all race is certain and the spectators ought to see some exciting finishes.

LOWELL INSTITUTE.

First Lecture on Architectural Acoustics Monday.

The coming course of lectures on Architectural Acoustics, which is to be given in the Lowell Institute by Professor C. Sabine, will be of the greatest interest to all men in the Architectural Department. Professor Sabine is professor of Physics and Dean of the 4th. School. School, and is thoroughly acquainted with his subject, which will be considered as a way that both professional men and others will be able to understand it and get much helpful information therefrom.

This time, will 11 lectures in the course, the first of which will be given on December 5, and will continue on Tuesdays and Thursdays for three weeks. The subjects of the lectures are as follows: 1. Fundamentals of the Science. 2. The Wave and the Soil. 3. The Sound of the Sea. 4. The Sound of the Air. 5. Sound Insulation. 6. Correction of the Acoustics of a Room. 7. The Sound of the Ocean. 8. The Sound of the Airplane. 9. The Sound of the Earth. 10. The Sound of the Universe. 11. The Sound of the Vacuum. The lectures will be given in the Institute Hall, and will also be held in the Union Hall. The first lecture will be given at 8:00 o'clock, and will be attended by a large number of men, to be followed by a discussion on the subject.

MEETING OF THE WIRELESS SOCIETY

Dr. Pender Gives a Valuable Talk to Many Suggestions

The Wireless Society held a meeting in the Union last Wednesday night, which meeting will be held at 4:15, fourteen members being present. The first business of the meeting was the adjournment of the last meeting. The second is the receipt of the treasurer's report, which was read and approved, and then the treasurer's report was read and approved. Mr. A. L. Thompson introduced Dr. Pender. Dr. Pender began by asking the present condition of the society with special reference to its object and plans for future work, and offered one idea which he particularly recommended, but which was very freely discussed. This idea was to have the society make a claim on the public that should be made to all amateur wireless stations in the vicinity, giving name, location, call letters, and power of each station. Dr. Pender expressed the opinion that this plan or any plan that is reasonable will require a careful listing of all amateur stations, and that in order to accomplish this, the society might have already made such a list, and further make a petition to the proper authorities, and would, in this way, give to both the public and the society at least a slight boost.

ASK SCHOLARSHIPS.

Cambridge Committee to Confer With Institute Officers

At the annual meeting of the Cambridge Public School Association, which was held Tuesday evening at the Union Hall, Professor Lewis Johnson, W. E. Bailey, and the Institute at least a slight boost.

SMALL DINNER SAT. DEC. 2. UNION

ONCENTRE HOUSE

You have a "centreboard" house from your Thanksgiving dinner?

This year's Shakespearean production by the students of Boston College, "Henry IV," is by far the most difficult as yet undertaken by the college.

The Cadet Corps and Battery A has played its final game of the season, which is to be played in the Stadium this year.

The term is now about two-thirds over and it is now time to settle down to work seriously if you have not already done so. There are about three weeks before the Christmas holidays, and you should start to take time to spend your vacation with your library, so that you can concentrate your full attention on your work during the remainder of the term. You may have good marks and be able to get by without concentrating on your work, but you have a few "Cs" going on, and if you do not do your job, you will be doing yourself a disservice.

The books in the Walker Memorial Library are now being used by the students, and the House Committee have objections to their being kept out several days at a time provided that the men keep the cards at the office, and return the books within a few days of the same date. The librarian would be greatly pleased if the men would return the books within a few days of the date of borrowing, the only solution of the problem will be to lock the book up where they will be safe.

WESLEYAN BASKETBALL

Wesleyan, last year's champion of the New England Basketball League, is expected to repeat its good work this year. The men are all anxious to play a good game, and it is hoped the team will play a good game this year. The members of the team are all trained for the game, and the team is expected to do well in the league.

THE TECH

THE ORCHESTRA IS BUSILY REHEARSING

Predictions of a faithful attendance at Rehearsals to Be Basis for Choice of Membership.

On Wednesday afternoon the Orchestra held a rehearsal, which was very gratifying in that it showed a steady improvement in attendance. From 12:45 to 2:00 on attendance at the rehearsals are of the utmost importance, but little time remains to practice the difficult selections chosen for the winter concert, and also the membership must be reduced to the number who are to play in that concert.

In view of the fact that there is so little time for preparation left it is planned to double up on the rehearsals according to the following program. Rehearsals will be held at the following dates and hours: 4:15, Friday, December 1; 4:15, Wednesday, December 6; 4:15, Monday, December 11; 4:15, Wednesday, December 13. Attendance will be taken at all these rehearsals and faithful attendance will be the principal guide in making the eliminations for the final makeup of the Orchestra. Therefore, it is requested that any of those who plan to attend at the winter concert or the two outside concerts already arranged for later dates.

WIRELESS SOCIETY.

(Continued from Page 1.)

The topic of the meeting was "How to use the Wireless Telephone," and a short talk was given by Mr. Sifton, 1915, who was submitted for membership. Dr. Pender has also strongly urged that the topics of the society be from 10,000 to 20,000.

Another interesting suggestion that was made was that the members of the society might be able to send messages at a considerable amount of expense. He suggested that the members read, at their convenience, Pierce's book on "Wireless Telegraphy," and also that the society meet at a certain date. At the meeting held on that date, after the business of the meeting had been completed, that member who has finished his subject will be discussed by the other members, and he will be expected to answer questions. It is perfectly obvious that such a scheme would be instructive to all the members and such a course would, in many cases, give the speaker valuable experimental experience. After giving the society good advice and thinking that he would be glad to give any further information and assistance that he could, Mr. Sifton, 1913, was introduced for membership. Mr. Sifton, 1913, was introduced for membership.

The meeting adjourned shortly after quarter past five. The next meeting of the Wireless Society will probably be held on the last Wednesday in December.

Where is the Freshman basketball meeting to be held?

B. A. A. RUNS AWAY
WITH ST. NICHOLAS

Piles Up a Score of 11-0 in
Hockey Game at Arena
Last Evening.

In a fast and clever game, which was
filled with innumerable thrilling and
individual brilliancy, the B. A. A.
hockey team defeated the fast St.
Nicholas seven of New York, last
evening. The score, 11-0, was a
more one-sided game than in reality
it was.

At the very first instant the Boston
team rushed the puck to foreign territy,
and Leslie shot for goal, the puck
travelled high and struck the
goal-tender in the face and forced him
to retire from the game. On resump-
tion of the game the goal-making was
carried by the B. A. A. In a very
quick order they came, the first two
to less than three minutes, followed
by three within fifteen. The score at
the end of the first half was five to
nothing.

The Boston seven started immedi-
ately at the beginning of the second
half to continue enlarging the score,
meanwhile outplaying the visitors in
every way. The goals came in quick
order, the first one instantly, followed
by three more, separated by short in-
tervals. Following a fast scrimmage,
within which rough tactics were used
and several clever shots were stopped,
the last goal was made just before time
was called.

HANDICAP RACE.
