GREAT ATTRACTIONS AT KOMMER'S DINNER

Annual Tech Show Feed at 6:30
In Union Will Be the Best Ever Given.

Are you coming? Tonight in the Union will be held the most interesting "Kommers'" dinner. Last year's chorus girls, principals in costume, old Show men, and members of the Faculty will be there in large numbers, and in addition to this a few original "stunts" will be introduced which will help to make up the at- tention of the audience. These "stunts" will be held all night, copies of last year's poster will be given away as souvenirs of the occasion.

Do you remember the movement that ran through the entire house last week when Karl D. Fernstrem, the original "stunts" will be introduced? To opera glasses or a telescope to the stage from Turkey especially for the Show? For the "stunts" will be held all night.

Romeo;" and Ken-Faunce, whose represen- tation of Sherlock Holmes was known to the students, and without a doubt will play on the stage in the coming year when Karl D. Fernstrem, the original "stunts" will be introduced.

In presenting the "Kommers'" dinner, all the aggregations of principals, in all the stage makeup, been gathered to- gether. There is no assurance and the stunts that will do will all be there by tonight.

Among the Faculty, the Dean, Professor Jackson, Dr. Talbot and Mr. Blackadale, cr "Blinkie" as he is known to the students, and without whom no "Kommers'" dinner could be complete, will all be there, with some- thing of interest to give to the stu- dents.

(Continued on Page 2, Col. 7)

HOKEY TEAM TO TRY INTERCOLLEGIALS AGAIN

Great Improvement During the Past Week Should Make Victory Easy.

Last night, at the Arena, the Hockey team had a short practice scrimmage with the Intercollegians, the men that defeated Tech last week, in prepara- tion for the game with them at the Arena tonight. The ice was rough and but little team work could be gotten in for that reason.

The squad was divided so that there was a constant fire of shots at and through the defense from the different sets of forwards. Both parts of the team were whipped from the work and should show up much better on the Arena ice.

The game will be called at 7 o'clock sharp with the following up:

Technology: Intercollgenals

Storke, L. W. - Little, E. T. - Eichorn, P.
Wright, R. S. - Schucke, E. - E. Smallman
Brant, P. - Trefur, E. - Jacob, H. E. - Stucke, S.

Duff, P. - Fisher, H. - Shedd, B. - Englehorn, D.

Hurlbbuth, L. - Skilton, C. P. - Hurlbbuth, B. - Whittier, R. W.

Yereance, B. G. - Castellan, D. - Castellan, D. - Castellan, D.

In giving these men the final honor of being ranked in the All-America Team for 1911, we have endeavored to consider the men who showed the best football, who placed the most even, consistent game throughout the year, and who possessed the brains which have been needed at all times in this year of so much surprising victories and defeats at all times.

There have been many good ends on the various college teams from whom it has been hard to say that one was and the other was not good enough. Paul Smith of Harvard in about the top-notch man on the end of the line, his head work in mixing up plays, his ability in handling forward passes, his tackling and his speed, put him first on the list.

The next man to be considered is Bomeisler of Yale, a man who has shown consistent, starting worth in spite of his frequent handicaps in the line of injuries, and capable of putting it all over Sam White in the Princeton game by his general work and reliability. While he has shown a wonder- ful clever qualification for the place by his perfect ways in following the ball all year. His lack of defensive strength alone makes it imperative that he rank on the second team. Daly of Dartmouth, the other end on the second, has been a tower of strength for the Green, and he has lost the honors by a hair.

It seems to have a little superiority Ove, his mate, Scully of Yale, for he played a game that was all but worthy of the championship place.

Of the Guards, Fisher of Harvard, has added the duties of captains without any apparent falling off in his Harvard form of last year, and Duff, of Princeton, has shown strong in all his games. He shows very strong on the defense, for ever a fighter, he is the first man through, nailing his plays before they can get started. Garrels, of Michigan, and Strong in the line and headwork in handling plays and cover- ing his position. He seemed to outplay Eichorn in the Princeton game, and for that reason he has the first honor.

Miller, of Penn State, and Howe, of Yale, are away above the average man, and look to be the best men for their positions. They are apt to finish before some of the other men, and who have not shown up so well during the year are apt to finish before some of the leaders.

Captain Kye is also one of the possi- ble winners, and if the handicapper feels the need, he will certainly come through.

The tackles were fewer in number when they came down to the final sifting out, but they were more nearly of the same grade. The four men that have been most winners, and are apt to finish before some of the other men, are apt to finish before some of the leaders.

The tackles were fewer in number when they came down to the final sifting out, but they were more nearly of the same grade. The four men that have been most winners, and are apt to finish before some of the other men, are apt to finish before some of the leaders.

FROM COMMITTEE

Nominations for Most Important Junior Corn. Open Monday.

From Committee nominations will be open Monday. Those words, simple though they are, convey much to the members of the Class of 1915, for they give the fact that the Committee have gathered rapidly to one of the most glorious tasks that is in the habit of being on those runs, and a very important one.

PRICE TWO CENTS
THE TECH

IMPROVED CAFETERIA SERVICE BEING PLANNED

Modern Scientific Methods to Be Installed in New Technology.

One of the most important problems on the social side of the life in any college is the question of feeding the vast army of students. Recognizing the importance of this mammoth dining room which is to be installed in the new Technology, some modern improvements combined with scientific management.

The service which we now have in this line cannot be excelled anywhere in Boston, thanks to the efforts of our efficient steward, Mr. Colten. But he intends to make the new dining room surpass anything of the sort now in existence.

The cafeteria service is the best patronized part of the student "Restaurant" in the Union, so particular care will be taken in that feature of the new service. The method will probably be an improvement of the one now used in several of the "Laboratory Kitchen Lunch Rooms" in operation in this city. In these there is a wall between the kitchen and the serving-room containing niches or openings through which dishes may be passed. Each of the cabinets is the name of the particular article of food served there.

If you are not familiar with the conveniences of the cafeteria service in the Union it is time that you got acquainted. Try it some day when you are in a hurry.

Three Raths! for our amateur Hockey Cheer Leader! Cornell is to be the model for a large new university in Perth, the capital of Western Australia.

KOMMERS' DINNER

(Continued from Page 1.)

Mr. Harold Wamser. W. author of "Dear Old M. L. T." and writer of the music for four Shows, has consented to be present and offer advice to those who are interested in entering competition for prizes and music for this year's Show.

Besides these men who have had experience with other Tech Shows, the managers of the various departments of the Tech Show, 1912, will all be on hand to give talks concerning their individual departments. This will be an excellent opportunity for the freshmen to become familiar with the working plans of the Show and its relation to the Institute. They should bear in mind that the dinner is given primarily for their benefit and it is the hope of the management that the Class of 1915 will give them a large representation.

Remember tonight in the Union, at 6.30 o'clock, and tickets can be obtained at the Cage, the Show office, and by any of the men connected with the Show for the nominal price of ten cents. Everybody come and have a jolly time.

BASKETBALL MEETING. College Rules Committee to Discuss Game's Regulations.

---

This afternoon, in the gymnasium of the Columbia University New York, there will be held a meeting of the College Rules Committee. The purpose of this meeting will be to revise and improve the playing rules for the coming season. Each rule is to be thoroughly taken up and explained for the benefit of the players, coaches and officials present. Special attention is to be given to the forming of rules governing player offenses that are hard to detect, such as the one-call rule.

---

The committee has invited all the coaches and large schools to send representatives to this meeting. It is a very large gathering of referees, umpires, scorers, coaches, managers and captains.

---

Unfortunately M. I. T. is unable to have anybody at this conference. Dr. Joseph E. Raycroft of Princeton, chairman of the committee, will have charge of the meeting. Among other well-known basketball authorities who will attend are: Dr. H. B. O. Meade, Yale; Leon B. Glasford, West Point; Ralph Morgan, Pennsylvania; Harry A. Fisher, Columbia, and Oswald Treadwell, Williams. Similar meetings will be held at the same time by the Rules Committee at Chicago, Illinois, and Lawrence, Kansas.

---

DESMOND FITZGERALD
To Speak at Open Exercises in "Public Speaking" Monday.

---

Mr. Desmond Fitzgerald, of the Corporation, has promised to be present and address the students at the Monday exercises of the third-year option in Public Speaking.

---

This announcement should meet with much approval from the public speaking students, for they are promised a most enjoyable talk on the subject of "Public Speaking".

---

The Tech has a limited supply of Durham Duplex Razors. These can be obtained at Tech offices for 35 cents each, which covers the cost of packing, shipment, etc.
