CATHOLICS HEAR INTERESTING TALK
Rev. J. P. McGlinchy Speaker at Successful December Annual Dance Plans.

The Catholic Club held its third meeting of the year in the Union last evening. The meeting was enlivened by the music that will be in sole charge of the dance. The president, Mr. Schmideke, introduced the Rev. Joseph P. McGlinchy, Director of the "Society for the Propagation of the Faith." His talk was of the work among the Catholics and other non-Christian countries to allow our missionaries to show that the missionaries themselves are "in many cases in great need of the necessities of life." Then he described the other one of the society's work, the gathering of contributions. He pointed out that two types of donors were largely supporting the society: the first, 15-yearounced that a certain amount of the people who are receiving daily from the society's work, the gathering of contributions. He pointed out that two types of donors were largely supporting the society: the first, 15-year-old, Mr. Schmideke, introduced the Rev. J. F. McGlinchy, Director of the "Society for the Propagation of the Faith." His talk was of the work among the Catholics and other non-Christian countries to allow our missionaries to show that the missionaries themselves are "in many cases in great need of the necessities of life." Then he described the other one of the society's work, the gathering of contributions. He pointed out that two types of donors were largely supporting the society: the first, 15-year-olds; the second type is that of the person who is making some sacrifice, that he may give some aid in the work which he wishes to see accomplished. The discussion was very interesting and the next meeting will be held at 7 P.M. on the 1st of the month.

CIVILS TO TAKE EARLY MORNING TRIP
Will Witness Remarkable Fact in Bridge Construction At Natick.

Next Sunday is going to be one of the auspicious days of the year for those associated with the Civil Engineering Department of the Institute. Alkay is in the upper levels of the bridge that has been in the struggle for existence. In a speech, he outlined the dangers that were faced by the men who otherwise would have been killed in the attempt to save the lives of many children. Strongly, he returned to a description of the conditions now existing in China and Africa. There are several living conditions that are hopeless and that he wishes it distinctly understood that these are saving the lives of many children. Among the interesting points brought out were the fact that in many cases the men who are in charge of the work are not able to save the lives of the children. The work will be started at about 7 o'clock in the morning, and the Civil Engineers from Tech have arranged to get there a bit earlier to look the ground over. The start will be made from the Boston Water-works, and the arrangements will be made either for a special car over the Great Northern or a tender line for accommodations via the Boston and Maine Railroad. Already arrangements have been made to have lunch at the Institute, and it is expected that the Civil Engineers will have on the table a sumptuous meal.

BROTHERHOOD OF ST. ANDREW MEETING
Spend an Enjoyable Evening at the Trinity Church Parish House.

Last night the Tech Chapter of the Brotherhood of St. Andrew, through the able management of Dr. Mann, held a reception to the Episcopalians of Tech at the Trinity Church Parish House. During the first part of the evening the men smoked, sang songs, and had an informal good time. Then all adjourned to the lower rooms, where refreshments were served.

Returning to the men's living rooms, Dr. Mann gave the follow-up a short talk, outlining the close relations existing between Tech and Trinity ever since the great fire of 1873, when the old Trinity Church was burned down and Philip Brooks, in the vestry of that church, gathered his congregation in Huntington Hall. Then, in 1875, through the efforts of the Rev. Philip Brooks, the first baccalaureate service of the Brotherhood was held in Trinity Church, and that when they had any spare time to drop in and make themselves at home.

He also spoke of the Sunday evening conferences that were held in the Parish House. After a most enjoyable time, the crowd broke at 10 o'clock.

C. SOCIETY TALK THIS AFTERNOON
Major Cole to Talk on Rapid Fire Surveying Meeting Held in 11 B.

Major Cole's talk on Rapid Fire Surveying was given to the members of the Civil and Mechanical Engineering Society this afternoon in 11 B, instead of the Lowell Building. It was announced in yesterday's issue of THE TECH.

During the short talk that Major Cole has on the instructing staff of the Institute, he has become one of its most popular members. His virous, progressive methods and his unusual and interesting innovations have made a favorable impression on the Faculty as well as on the students. One of his most successful ideas has been the recent service course in knotting. This course is a new relation to the Institute, and it certainly has won the favor of the upperclassmen.

Major Cole, a member of the Civils this afternoon will consist principally in interesting and valuable details of military topographical surveying with which he has become familiar during his army career. He says that this is done topographical work will be, in one day, the necessary field work, and then complete an outline plan of twenty-mile square miles of territory. Any Airman or any trace of a church should appear at 11 Engineering B, at 4 o'clock this afternoon.

New concretes have been put on the board track at the Oval.

CLASS FIVES HOLD SNAPPY SCRIMMAGE
Freshman Team Out For First Practice of the Season in Session of Remnants in Hard Scrap.

Yesterday afternoon the Freshman basketball team held its first practice of the season. The 1st team were also out for the same purpose.

To their misunderstanding in dates, the top ten of the draft. The team floor at the same time. As a result, after practice, they were told that all members of the team should be included in a short scrimmage. The Sophomore team has herefore held its practice on Tues-

Thursday, December 7th.

In Charge of Monday Issue.

EDITOR—Geetlinger, M. A., 1915.

Associated Editor—Dean, 1912; Mansfield, R. W., 1914.

The T. C. A. has arranged to have a very good speaker on their weekly meeting this week. Dean Hodges of the Divinity School, the Theological School in Columbia, is a person who is well known for his eloquence and his ability as a lecturer, and it is expected that he will be in Boston this week and will give a talk on the subject of "The New Testament." The lecture will be given on Wednesday evening, December 11th, in the third floor of the Institute Building.

The Civils are going to raise "the hark" next Sunday morning and initiate the throwing in of a four-track girdir at Lake Crossing at Nox. This is an important policy of the organization, and the Civils are very anxious to have a good time. The lecture will be given by Dr. H. N. Magoon, of the University of Virginia, and it is expected that he will be in Boston this week and will give a talk on the subject of "The New Testament." The lecture will be given on Wednesday evening, December 11th, in the third floor of the Institute Building.

MUSICAL CLUB CONCERT.

Will Play at the Masonic Temple in Roxbury.

The Mandolin and Banjo Clubs will play next Monday night at a concert given by Professor Vogel in the Masonic Temple in Roxbury. The concert will be a very good one, and it is expected that there will be a good attendance.

CONCERT AT NEWTON.

The Orchestra management has arranged for an important concert to be held on Thursday evening at the Newton Y.M.C.A. A very good program has been promised, and it is expected that the concert will be a very good one.

FRATERNITY MEN.

Besides those men in fraternities represented at the Institute there are always a considerable number of men from other colleges belonging to fraternities who are not represented here. These men, however, are not members of the Institute, but they are often present at the meetings of the fraternities. They are always welcome, and it is hoped that they will continue to attend the meetings of the Institute.

To the Editor of THE TECH:

I noticed the new Field Day, which has recently been introduced at the Institute, and I am sorry to find that there is no mention of it in any of the newspapers. I am hoping that it will be continued, and I am wondering if there is any way in which we can help to promote it.

A. H. Atwater, Secretary.

To the Editor of THE TECH:

I noticed with interest the recent articles on "The Facts and Theories of Inheritance," which have appeared in the Journal of Heredity, and I am wondering if there is any way in which we can help to promote these articles. I am also wondering if there is any way in which we can help to promote the work of the Institute of the land.

A. H. Atwater, Secretary.

ORCHESTRA IN SHAPE FOR POP CONCERT

List of Members For the Winter Concert to Be Published Wednesday.

The orchestra held a two-hour practice in the University yesterday, and put on the finishing touches for the Pop concert on Friday night. This concert is to be a sort of pura rehearsal, and every member of the orchestra is expected to be present, as this concert will determine in a large measure the makeup of the orchestra for the winter concert. The final list of members will be posted next Wednesday. The regularity of attendance at rehearsals will be considered in the final choice. The management wishes to impress the importance of attending the rehearsals at this stage, and failure to report may keep a man out of the winter concert.

The rehearsals after Friday will be held on Monday and Wednesday, and possibly on Thursday. The bulk of the rehearsals will be held next Wednesday. The orchestra will report at 7:30 on Friday evening, in order to arrange the details for the concert.

POP CONCERT

Committee Announces That No Beer Can Be Served.

There has been a great many inquiries about the serving of beer at the Pops this coming Friday. The entertainment committee wishes to make the announcement that it is entirely unable to serve beer at the Pops on account of the strict license laws. The matter has been looked up and it was found that there would be a heavy fine if the Union should attempt it, and we feel sure that the spirit of the institute men is such that this fact will not keep the fellows from attending the entertainment. The refreshments will consist of cake, cream and ginger ale, and will cost 15 cents an order. It is to be distinctly understood that admission to the concert is free, the only charge being for refreshments.

WIRELESS DUES.

All the members of the Wireless Society who paid their dues at the last meeting can now obtain the receipts for the same by applying at the Cage. The shingles are not yet ready for distribution, but can be gotten in about a week from the treasurer, Mr. Flowers."

TECH SHOW POSTER

The competition for this year's Tech show poster opens today. The poster is to be twenty inches by forty; it must bear the name of the play, "Caste in Spain," and the words, "Tech Show," and a space should be left at the bottom for the place and date of the performance. The drawing may be in two flat colors and in outline. G. E. Whitwell, publicity manager, will meet all men who are interested in the competition, in Room 11 of the Union, at 5 o'clock Tuesday and tomorrow. If any of the men are unable to get around at those hours a note addressed to Mr. Whitwell and left at the Cage will reach him.

As in previous years, a prize of ten dollars will be given to the man who presents the best poster."
