CROSS-COUNTRY PRACTICE YESTERDAY

Very few Freasheans have turned out for practice this year so far, but the last few days have been an exception. The team are in fine fettle and prepared by another member of the squad. In the future they can be expected to continue in this condition.

UNION DINING ROOM STARTS SUCCESSFULLY

The Union Dining Room is coming up every day of the week, perhaps evidenced by the comparison of figures for the first day with those of the opening week of last year. The release are taking more interest in their "hash house" and interest is much stronger on the outside.

The dining room this year is under the personal charge of the Bursar, and he is taking a vital interest in it. He wants to make it more popular with students and as a result the food is improving, and people are more interested in it. The Bursar said that he would be glad at any time to talk about the Union, and also to make any suggestion that he thought might improve the situation.

When an interest of this kind is developed in the Union, it seems that the students themselves should be willing to reciprocate to the effort of the Bursar in managing the dining room.

The Bursar said that he would be willing to reciprocate to the effort of the Bursar in managing the dining room.

The TECH, Oct. 5, 1911.

A remarkable event in the history of the Massachusetts Institute of Technology occurred on Saturday evening, when the Freshman Chairman appeared at his first class dinner, and, undoubtedly, the Sophies having voted in the decision of their class at the recent meeting, when they agreed to no attempt to capture the 1915 Chairman officially as a class organization. Most of us felt a little skeptical about the matter, but now that the night has passed, it is our opinion that the Class of 1915 for abolishing the last of the objectionable features connected with the entrance of every new class. The on-rush of the Freshmen, along with the unpleasant habit of Boston was made practically without the least difficulty.

PRESIDENT MACLAURIN EXPECTED WEDNESDAY

President MacLaurin will arrive in Boston this morning, Wednesday, weather permitting, on the White Star Line steamer Arabi. This is the last trip the President has been on during the summer, last Tuesday. His arrival Wednesday will be two weeks later than expected.

UNION DINING ROOM

(Continued from page 1)

In THE TECH about the large opening attendance at the Union Dining Room, and it makes me wish that I were there to see how things are going. I wish that when things go wrong in good shape and you have a little more time, you would write and tell me about it. I am, of course, tremendously interested, and would be glad to hear of the attendance, morning, noon and night, the number of men at the Freshmen dinner, the status of the student waiter question, whether you are running many flowers, etc., etc.

Dinner must have a very successful year, with very kind regards.

Sincerely,
MAURIC R. SCHARFF.

CIVIL ENGINEERS

HOLD SMOKER FRIDAY

Meeting in Union to Make Men of County Acquainted.

Next Friday evening the Civil Engineering Society will hold its first meeting of the year. It will be in real informal smoke talk. It is intended to welcome the new men of the Civil Engineering Courses. All Sophomores and men from other colleges entering the Civil and Sanitary Engineering are cordially invited to attend.

The meeting will be held upstairs in the Union, and will be addressed by Desmond Fitzgerald of Boston, a civil engineer recently connected with the Massachusetts Water Works, and one of the foremost hydraulic and sanitary engineers of the country. Professor Porter will also be present to address the society.

The subjects of the address were not yet announced, but they will appear in THE TECH later.

The purpose of the meeting, as stated by the officers, is twofold. First, to make the new men in the course acquainted with the upperclassmen and professors. Second, to give all who may come a joke evening refreshments will be served without charge, so from this fact the list of speakers and the well-known hospitality of the C. E. Society, it comes as through the purposes would be fulfilled.

CROSS-COUNTRY PRACTICE

(Continued from page 1)

by his way, but it is lamentable that men should be willing to risk the glory and honor of their class rather than a few hours of practice. The Freshmen-Sophomore race came early in the Spring over the Tech course, and at that time comes the chance for either class to avenge the defeat of the Freshmen-Sophomore team at the I. C. Field Day. Any number of entries may be made by the classes with the first six men at the finish line scoring their teams.

Now is the time to start to win that race and to make a place for yourself in the Varsity team. In the words of Coach Kunsy, "To help us win sec.

CHIEF CAPTAIN R. M. FERRY

and place again this year at the I. C. A. A. A. A. Come around to the Gym, both Freshmen and Sophomores, to see Chief Captain, Race of the Hares and Hounds' Club, or Borden, the Varsity captain, about your work, and get started right. These fall days are too fine and too valuable to be allowed to pass without effort. The Freshman Sophomore team at the I. C. Field Day. Any number of entries may be made by the classes with the first six men at the finish line scoring their teams. Now is the time to start to win that race and to make a place for yourself in the Varsity team. In the words of Coach Kunsy, "To help us win sec.

SOPH. TUG-OF-WAR PRACTICE YESTERDAY

Several Short Pulls Against Old Post—Freshman Work-Out Followed.

Yesterday afternoon the candidates for the 1914 tug-of-war team for the first time donned their working togs, more or less scarred from long service and stiff from the last Field Day, and pulled at the rope in the Gym yard with a vim and enthusiasm inspired by the well-known "one, two, three.

Of the more than twenty men that reported, half of them were on last year’s team, so Manager Flake was able to go right to work without teaching them any of the rudiments of the art. He has as yet been unable to get any one to act as official coach, and filling that position himself, he sent the men against the old post. The short half hour of work assigned for the first day was spent in several short hard pulls to allow the huskies to get accustomed to the hard work without too much strain at first.

Manager Flake announced at the close of the practice that any man who could obtain part of the large locker used exclusively for the Soph. tug-of-war team by applying to him personally before any practice, thus saving the expense of a Gym locker at regular rates. He plans to have practice daily, except Saturdays, at 4:15, until Field Day.

Sophomores were at the Gym during the practice yesterday afternoon were: O. C. Hall, E. W. Mann, Buenke, Ober, Shepard, Favorite, Affel, Sampson, and Salisbury of last year’s team, while the new faces were: C. B. Hull, Snyder, Conklin, Tolman and Truefast.

When the Sophomores had pulled themselves out and were ready for a warm shower, the Freshmen appeared on the scene of battle and proceeded to pull off a few stunts by themselves. They did not have enough men to make things very lively, but they got in a few minutes’ good work despite that fact. There is a great need of material here as well as on the Sophomore squad and somebody will have a grand waking up on Field Day if it doesn’t come soon. A tug-of-war team can’t be built in a minute, and there are none too many minutes between now and Field Day. Five weeks seems a long time now, and the men of both classes are saying, “Oh, well, the trials won’t come for quite a while yet; I have lots of time.” A victory on Field Day will come to the team who does the most conscientious work during the intervening weeks of practice.

PREP SCHOOL STUDENTS.

Distribution of Men From Suburbs and Important Schools.

The distribution in point of residence of Boston’s 83 students at Tech is as follows: 34; at Boston proper; 34; at Boston, 2; Charlestown, 2; South Boston, 1; Dorchester, 11; Roxbury, 16; West Roxbury, 6; Jamaica Plain, 8; and Brighton District, 1. Of Greater Boston, Cambridge, at 18, first, followed by Lynn at 14. Newton sends 12, Somerville 9 and Brookline, Everett, Lawrence, Medford and Waltham have 7. Northwesterns, more distant, have the same number, Springfield 6 and Worcester 4. Eighty-seven cities and towns have their boys among the newcomers at Tech.

Of schools elsewhere in New England, Phillips, Exeter is in the lead, with six students, just one in excess of Phillips, Andover, while Portland makes the same showing, and eighteen other high schools in the state contribute of their graduates. The same story continues over the country, and there are approximately fifty high schools and academies whose scholars have entered Tech this year. There is occasionally a centre like the Los Angeles Public High School, that is a centre for a large country about, and sends two or five, or the Terrill School at Dallas, Texas, which has 3.

What do you think of the new registration system? What are you, Regular, Irregular, or Special? Kind of tough on the poor Irregulars.

CANDIDATES

Men in charge of various departments will be at TECH Office at 1:00 P. M. daily.
