COSMOPOLITAN CLUB

DISCUSS PLANS

"Joint Night" Entertainment in March—"American Night" February 10.

At the Cosmopolitan Club meeting, Thursday, December 21, the members of the club here in Washington, our national capital, discussed the plans for the entertainment to be held March 10, at which time "American Night" will be presented.

Much has been written recently in the newspapers regarding Technology and the future of America. The annual banquet, known as the "American Night," is an event that shall be modelled closely on the future of America. The theme for the American Night is to be "Technology and the Future of America." The entire evening will be devoted to the exploration of the possibilities and potentialities of technology in the American context, with a focus on how it can be used to shape the future of the nation.

The "American Night" entertainment is to be held on March 10, at which time the annual banquet will be given in order to put the future of America before the American people. The banquet will include speeches, presentations, and a formal dinner, with the entire event being hosted by the American Institute of Technology.

The "American Night" entertainment is to be known as the George Washington Memorial. G. A. E. is to be known as the George Washington Memorial. The George Washington Memorial is a tradition that has been carried on by the American Institute of Technology since its inception.

The idea is to be known as the George Washington Memorial. G. A. E. is to be known as the George Washington Memorial. The George Washington Memorial is a tradition that has been carried on by the American Institute of Technology since its inception.

The George Washington Memorial is a tradition that has been carried on by the American Institute of Technology since its inception.

THE TECH, BOSTON, MASS., JANUARY 1, 1912

STREET ACROSS NEW SITE DECLARED CLOSED

Cambridge Ready to Receive Institution — Tech Must Give $10,000 and Some Land.

The path has finally been cleared for the Institute's removal to Cambridge. In last Tuesday's-night the Cambridge Council and Aldermen voted to grant the petition to close certain streets and remove certain restrictions from the new accepted "new site." The Institute will give to Cambridge, in return for the closing of Ambroist, street, land necessary for the widening of Vassar street to sixty feet, land sufficient to extend Ames street to the Esplanade, and to connect Vassar street with Ames street, and also $10,000 for the construction work on those streets necessitated by the closing of Ambroist street.

RESOLUTIONS.

In the last issue of THE TECH we were sorry to have to publish an account of the death of one of our most recent graduates. Since then the Class of 1911 has held a meeting, and the following resolutions were adopted:

Whereas: God in His infinite wisdom has taken unto Himself His beloved classmate, John Rice Bell; be it

Resolved, That the Class of 1911, Massachusetts Institute of Technology, in common sympathy with our most sincere and heartfelt sympathy to his parents and his brother, and be it further

Resolved, That copies of these resolutions be spread upon the minutes of the class, published in THE TECH and sent to the bereaved family.

For the Class,

Lloyd C. Cooley,
Emmons J. Whitcomb,
Harold B. A. Allison,
December 27, 1911.

HARVARD M. E. SOCIETY.

Tech Students Invited to Hear Their Lecture.

The Harvard M. E. Society has extended a cordial invitation to all Tech men to attend a lecture to be given in Pierce Hall on the evening of Januy 2nd. This lecture is to be delivered by one of the students on his experiences while working on the Upper River Railroad last summer. To add to the interest the talk will be well illustrated by a large number of stereopticon views, and will be further enlivened by the addition of numerous anecdotes. The Harvard Society has a reputation of holding mighty interesting meetings, and so it is hoped that many of the men will be able to take advantage of this opportunity to visit our friends across the river.

Tracy Lyon, '05, is now in charge of the production of all the companies that go to make up the "General Motors Company," the offices of which are in Detroit. Mr. Lyon became connected with the engineering corps of the Chicago Great Western Railway. He rose to the assistant general manager of the system. He also had charge of the manufacturing operations of the Westinghouse Electric Company.

Hardy Cross, '06, who has been connected with the Missouri Pacific Railway, has been made Assistant Professor of Civil Engineering at Brown University.

Desirable Shoes for Students

10 TO 14 SCHOOL ST.
TECH CHRISTMAS.

A week ago last Saturday night the Tech men who live too far away from Boston to go to their homes for Christmas had a very pleasant time at the Tech Christmas celebration at President Macaulay's house. Mr. Macaulay was master of the ceremonies, while Mrs. Macaulay was in charge of the general arrangements.

The rooms were ornamented with all kinds of Christmas decorations and presented a very attractive appearance. There were one hundred guests present, which crowded the rooms to overflowing.

The entertainment of the evening consisted of piano selections by Erwin Schell, vocal solos by H. M. Santineri, as well as some of the members of the Blue Club Quartette, under the leadership of Kenneth C. Robinson, which always receives applause. Paul Brad took the place of Swann in second reciter.

Some of the features of the evening were given by various members of the Copley Square Hotel. Nizar Saleh Balsh, 1913, of Beirut, Syria, sang the prayer given five times a day by all true Mohammedans. Valan P. Yacoubian, 1912, of Cairo, showed how ten years ago he was busy learning the Koran. Heather cross-legged on a small table he was able to售 and fingering versets.

T. C. Net showed the dexterity in the use of feet, hands and head necessary in the ancient game of shuttlercock. The magic stunts and card tricks of Sing Dji Li, Luchovia, Archib, China, were very interesting. Howard, 1912, took the place of a Houdini, who unfortunately was unable to be present, by getting rid of handcuffs secured to him by a few of the strongest guests. He also added a few card tricks to those as admirably performed by Mr. Li. The guests left at 11.15 after spending a very enjoyable evening.

FIRST YEAR

Entrance Condition Examinations.

First-year students are expected to take at the end of the present term all entrance examinations in which they have not already clear records, with the following exceptions:

1. Students having conditions in entrance History and entrance Physics. No examinations will be held in entrance History and entrance Physics at the semi-annual examination.

2. Students taking no work dependencc on entrance subjects in which they have not clear records. They may take remaining examinations in June.

3. Students who are now making up entrance German by taking the elementary course, although they are privileged to take this examination.

4. Students entitled to excuse from particular entrance conditions on the basis of good term work. This applies to conditions in entrance Algebra, English, French, German and Plane Geometry, and students will be notified before January first if excuse can be given.

For the Faculty Committee on Entrance Examinations,

Walter Humphreys, Registrar.

In the list of track team explainers published recently in the Herald, Tech was left out. It's up to the fellows to show them that we are more in the track lane than they seem to think.

William 2. Ripley, 90, has been made Nathaniel Rogers Professor of Political Economy at Harvard. He was Professor of Sociology at the Institute from 1896 to 1902. He became a professor at Harvard in 1901, after being a lecturer on physical geography at Columbia University. He was the Harvard memorial lecturer at the Royal Anthropological Institute, London, in 1908.
