SOLOMCTO PICKED TO WIN MEET TODAY

Doping Gives Them Twenty More Points Than the Freshmen.

Nothing but a Sophomore victory appeared likely at the beginning of the "dope" on the 1914-15 meet, which is to be held in the Gym this afternoon. The Sophomores have a large number of men who have shown remarkable ability in track work, and if these men show up anywhere near their ordinary form the officials, no doubt, will give them a chance. The cabinet follows so large a proportion of first places that it will be almost impossible for the "freshies" to overcome the advantage.

Would you know a new man at the running game this year, has shown himself to be one of the best Indoor sprinters that the Institute has them a hard tussle. Tri-eat has shown single for the "freshies" to overcome The men have practiced very con places that it will be almost impos- in the 1.80-pound class.

Doubt, will give the secend the 145-pound, and

Sutherland, also of this fine; will be entered in the 145-pound, and W. F. Trues, '14, in the 180-pound class.

The men have practiced very consistently for this meet and have a good chance to beat the flags in their class. Smyth-Martin is particularly good and will give the best of them a hard tussle. Treat has shown up as well as a heavy weight, and Blodgett has shown clever wrestling. They will have to do their best however, for they will be up against some of the best in the sport. Nearly all of the Y. M. C. A.'s around Boston will be entered, which fact insures a fine meet.

TRACK PRACTICE CHANGE

New Hours Go Into Effect On Monday for First Time.

Beginning with the coming week track men will report for practice in the Gym from four to six on Monday, Tuesday, and Wednesday, and from three to six on Saturday, also from three to six on Thursday on the board track at the Oval. This change in the hours of practice has been decided by Blodgett, '15, in order to schedule hours of Freshman gym classes, and will continue until further notice.

THE CECLE CLUB REHEARSAL

Important Concert Wednesday—Men Must Practice.

So few men showed up at the United States Military Academy that the rehearsal of the Glee Club, which was scheduled for 3 o'clock, could not be held. There was absolutely no excuse for this, because notices have been pasted in the corridors and on the blackboards. The club has been in rehearsal the last three days. The next rehearsal will be held Monday afternoon, at the same time and place, and all members are expected at that time that will not be allowed to par- ticipate in the concert at Vermont Highroads on Wednesday night.

SPECIAL! HOCKEY MEN!

There will be special practice for the members of the Varsity hockey team this afternoon in the Student Gym. The members cannot come to the practice, but every man to report in the Union with them at 1;45, ready to come to Cambridge.

The Harvard swimming team has been making good speed in the trials lately.

The Boston Alumnae Association of the Women's College has offered two scholarships for the summer school of the university.

PORT OF BOSTON DEVELOPMENT BOOmed

Civics and Electricals Hear Transportation Plan Explained.

Mr. Henry C. Long talked before the Civic Club last week in the Electrical Radium last night for two solid hours on his plan for the improvement of the Port of Boston. First telling of the difficulties encountered in getting his plan before the Legislature, then showing portions of his series of slides on foreign transportation systems.

He first explained how cities grew where lines of travel met, and then what opportunities for Boston lie in the Canadian trade which the Grand Trunk line will bring. After comparing the advantages of the Atlantic ports he told how necessary further improvements are in Boston.

He then of these improvements are based on long-term projects for large foreign cities. It was the docks equipped with a line of cranes which can transfer all goods from the ships either to the railroad or to the proposed improvements. With these roads, he will have Port Post Channel Stairs which will make a portion of the Boston harbor a harbor and connected by an elevated freight line next the railroads.

The warehouses will be longer, and uniformly one hundred and twenty-five feet in length, and the proposed are planned, so that they might be used as public recreation grounds.

Mr. Long showed the members of the models about a dozen good opportunities for those who would be able to contribute to the Port of Boston. He also made the first step toward a plan for the development of the Port of Boston.

ORCHESTRA REHEARSAL

The orchestra will repeat its song for the second time today having a rehearsal in the Union this afternoon at 2:30. This is the first of the series which has been held for nearly a month. It is to be entirely produced and all the members should attend, so that they may be ready for the American Society's concert which will be held next week.

The rehearsals will be held in the Union and may be attended by anyone. The rehearsals will be held in the Union and may be attended by anyone.

CALENDAR

In, Charles L. R. Hering, 1911.

Saturday, February 3.
1:30—Hockey Team goes to Har- vard.—(The Crimson)

ABBOT TO TALK BEFORE THE SOCIETY OF ARTS

Director of Smithsonian Institute to Tell of His Work as an Observer of the Sun.

Some months ago the latter part of this month, the Society of Arts will introduce Dr. Charles G. Abbot, '94, the Director of the Astrophysical Observatory at the Smithsonian Institution, in an irregular talk on the research work which he has been carrying on for some time past on the different phases of our sun, under the title "The Sun's Radiation."...Abbot has done a great deal of work recently, in the last few years, and has practically established a new theory which radically differs from the old one on the subject. The work has taken him into many foreign lands, to places where natural and temporary observing stations could be established and valuable data obtained during eclipses and other occasions or special activities on the surface of the sun. He has within the last few weeks returned from a stay of nearly a year's duration in Algeria, where he was making simultaneous observations with an assistant in the observatory on the summit of Mount Wilson, California.

In speaking of the coming talk in Harvard Hall, Dr. Abbot says: "I don't think I ought to give away all my thunder until I tell it around the Huntington Hall." The talk will be illustrated by his magnificent collection of photographs which have been taken at various times of years and people who he has found of interest. Dr. Abbot in a very handsome paper and writer, and has the power of making his subject appeal personally to the listeners and while his subject might seem dry and sound somewhat like education, he is likely to appear brilliant and exciting.

The admission is 50 cents, and tickets will be sold at the door, but to the Society of Arts members, free tickets will be given.

BURSTED RAND PERFORMS ON NEW VICTROLA

Both Rand Performs on New Victorla

These who were fortunate enough to be in the Union last night heard the new Victrola played for the first time and the new records tried out in such a satisfactory manner that not a single selection from the wide selection was not appreciated, and everything from a duet by Carson and Homer to the Ocean Roll was applauded by the enthusiastic students.

During the next meeting of the Oratorio and Eletro, the new Victrola was frequently called upon to perform, and the various selections, including popular song "speaking" records and grand operas, which made much noise profit to the evening and interested music with transportation problems.

SOPHIS PICKED TO WIN.

The above doping will give the meet [1] the second medal. The only possibility that the youngsters have in this event is in Wall. Wall was a substitute on the cross-country team last fall and now he was a good possibility for the team next year. If we also give the Providence another point in this case they would only have 9 points for the upper class. Now, another Sophomore, is the pick for the medal in the high jump, with his teammate, Eberhard, for the next choice. The pole vault is to the Sophomore who looks like a point winner, but the fourth place can also be given to Victory, which again splits the points 9 to 8.

Sophomores who can compete for the Sophomore, will probably win the position if he goes to the top. The Providence will get a clean sweep here with Hafferty, O'Brien and Crowell. The points here should give the Providence the advantage by about 9 to 2.

The pole vault is again absent from one of our events for the want of men to go into the event.

Among these men is Mr. W. S. Hughes, a Senior in Course V. Among these men is Mr. W. S. Hughes, a Senior in Course V. An additional news regarding the situation.
