RELAY TEAM PICKED TO RUN DARTMOUTH

Institute to Be Represented by One of the Fastest Squads in the B. A. A. Meet.

Saturday evening the classical B. A. A. meet will be held in Mechanics' Hall. This meet is to indoor athletics what the I. C. C. meet is to spring track. Against whom we are booked, will have a hard job to beat us.

Tech will be represented at this meet with one of the fastest relay teams the "State" has ever had, and from present indications it looks as if the Dartmouth team, against whom we are booked, will have a hard job to beat us.

The committee will be last day for the placing of orders for the spring to outdoor sports, and college men from all over the country will be on hand to compete. It is a recognized fact by the sport fans in the vicinity that no better variety of clean sport can be seen than what will be put on the spectators in the half Saturday.

Tech will be represented at this meet with one of the fastest relay teams the "State" has ever had, and from present indications it looks as if the Dartmouth team, against whom we are booked, will have a hard job to beat us.

W. Chandler, 1912...

STANLEY AUTO SHOPS

MECCA OF MECHANICALS

Trip Friday Afternoon Will Show All Stages of Auto Construction.

Friday afternoon the Mechanical Engineering Society will conduct a trip through the Stanley Automobile Company's plant in Newton. It will be a position through one of the largest plants that is confined wholly to the production of steam vehicles. It will give a great many a chance to see things that cannot be seen anywhere else in the country.

Every part of the machine is made in the factory at Newton with the exception of the castings. The construction of a machine such as this is a far-reaching effect. The one unfortunate result of the strike in Lawrence is in large measure a result of the record-breaking influx of laborers of the summer season of 1907. A fourth barometer of the state of the mercantile trade is the number of commercial failures. Where failures are, the increase in business is sure to keep close watch of their credits. Money rates, both foreign and domestic, must be carefully tabulated as a guide to future conditions. The balance of foreign trade is an indication of the state of the country as compared with that of the other nations of the world. Cold coffee prices have not kept pace with other current prices, and so must be carefully followed. Railway earnings (Continued on Page 3.)

MR. BARSON'S LECTURE

(Continued from Page 1, Col. 1.)

section it is interesting to note that the strike in Lawrence is in large measure a result of the record-breaking influx of laborers of the summer season of 1907. A fourth barometer of the state of the mercantile trade is the number of commercial failures. Where failures are, the increase in business is sure to keep close watch of their credits. Money rates, both foreign and domestic, must be carefully tabulated as a guide to future conditions. The balance of foreign trade is an indication of the state of the country as compared with that of the other nations of the world. Cold coffee prices have not kept pace with other current prices, and so must be carefully followed. Railway earnings (Continued on Page 3.)

UNICORN CLUB LOSES

The B. A. seven was not quite as good as the Grand Mer team, so in the nick of time. The play was good in places, but nearly all of the players had streaks of bad playing. Their play, however, was good enough to get them into the 2-school, and bring Mr. Carleton to the field. The list of players who have played in the last six games was made by Richie, 3, Leslie, Foster, Tisdall, Hicks and Doebler. Two 20-minute halves were played.

THE SMOOTHEST TOBACCO

A good friend is the friendly cough— who comes and lingers a till of Velvet and helps you in the nick of time.

Velvet is a smokeable tobacco— in three light-up days it takes its time. Takes two years of maturing to take out all harshness and make "that menthol and quality smooth." That's why Velvet is a helpful smoke— never bitter— never does. One comes bags, 5 cents, convenient for cigarette smokers.

MUSICAL CLUBS' CONCERT AT MELROSE HIGHLANDS

First Public Concert of the Year Is a Pronounced Success.

The combined musical clubs gave a concert last night at the Congregational Church in Melrose Highlands, which was undoubtedly the best that has been given for some time. The large auditorium of the church was partly filled, and that the selections were enjoyed and appreciated was shown by the enthusiastic applause which followed most of them. The novelty feature of the evening was rendered by a quintet composed of four mandolins and a bass violin, which gave an unusually good imitation of the Scotch bagpipes. This number was an impromptu one, given on the spur of the moment, and some of the members had practiced it more than five or ten minutes. However, proved to be so good that it will be made a regular feature of the next two or three concerts.

The complete program was as follows:
1. The Song of the Cannibal ... Scott Glee Club.
2. The Pink Lady Waltz ... Caryl-Odeol Mandolin Club.
3. Sweet Cora ... Weld Banjo Club.
4. Under the Southern Moonlight ... Allen Vocal Quartet.
5. (a) Butterfly Waltz ... (b) Beat Song ... Andreauro.
6. Banjo Solo ... Selected Mr. Wells.
7. Winter Song ... Bowed Violin Club.
8. Plantation Symphony ... Eno Banjo Club.
9. Vocal Solo ... Selected Mr. Robinson.
10. Zanzibar ... Lake Mandolin Club.
11. Take Me Back to Tech ... Bowed Glee Club.

INSTITUTE COMMITTEE

Mr. Babson's Lecture (Continued from Page 1, Col. 1.)

It was voted not to accept the report of the committee appointed to investigate the practicability of abolishing all bulletin boards. They were instructed to look into the matter more than they had already done and report at the next meeting.

Mr. Babson's Lecture (Continued from Page 2.)

are well known to be a good guide to the state of affairs. Agriculture is the principal source of the wealth of the country, so crop conditions are very important. Crops depend largely upon weather conditions, so that the man who looks only to the local weather report is not sighted. Soil conditions also have a great effect on the crops.

An important cause of business conditions is the tremendous amount of loss of the country, which is about equal to the new construction.

Mr. Babson's Lecture (Continued from Page 3.)

are well known to be a good guide to the state of affairs. Agriculture is the principal source of the wealth of the country, so crop conditions are very important. Crops depend largely upon weather conditions, so that the man who looks only to the local weather report is not sighted. Soil conditions also have a great effect on the crops.

An important cause of business conditions is the tremendous amount of loss of the country, which is about equal to the new construction.

Social and religious conditions must also be studied, for it has been observed that prosperity has followed periods in which the common obligations of Justice, honesty and uprightness have been recognized.

As it is impossible for a busy man to study the statistics of the different industries Mr. Babson has compiled a chart in which all industries are considered and given their proper rating.

It is interesting to note that Newton's law of action and reaction applies to that chart; that is, that in every area of abnormal activity corresponds an equal one of depression and rest.

Applying this law to the present state of the chart it appears that a period of depression is now due, the length of which will depend on its severity.

first place in the high jump. Williams  
and Wilson, the two Sophomore  
sprinters, will go into the scratch  
dash. Only two men from each  
organization will be allowed to enter  
this event, and it is looked upon as  
the classical one of the meet.

Another interesting event will be  
the Hunter mile, in which will be  
seen the old rivals, Abel Kiviat, of  
the Hunter mile, in which will be  
seen the old rivals, Abel Kiviat, of  
the I. A. A. C. of New York, and  
Oscar Hedlund, formerly of the B. G.  
A. A., but now running for the B. A.  
A. These two men are so evenly  
matched that up till the time that  
they cross the tape it is possible to  
pick either one as a betting chance.  
Kiviat has taken the greater number  
of the races, but Hedlund averages better time  
throughout the year. Now it is the  
classical one of the meet.
