

# THE TECH

VOL. XXXI. NO. 95

BOSTON, MASS., FRIDAY, FEBRUARY 9, 1912

PRICE TWO CENTS

## SHOW PLANS ARE IN EXCELLENT CONDITION

Probable Performances in Malden Northampton, and Providence, as Well as Boston.

The management of the Show have about completed the preliminary work on the production, and the time is rapidly approaching when they will call upon the undergraduates as a whole to do their share of the work. All of the departments are in fine condition and the progress is very well balanced to date. Coach Sanger has expressed himself as very well pleased with the work that the management have done, and was particularly pleased with the musical results which he obtained last Saturday at the meeting of the candidates.

The stage department is about ready to issue the call for the candidates for the actors, both principals and chorus, and it will be a personal call to every man in the Institute who has any ability whatever to sing or speak. The lyrics have been given out to the music writers, and the book is now in the manifold's hands, so that it will be ready to give to the (Continued on Page 2.)

## RECORD HIGH JUMPING.

Best Men of the Country Entered for Meet in Mechanics Bldg.

One of the events at the B. A. A. meet in which a record is almost sure to go, even though it may not be very spectacular, is the high jump, for seldom have such a gathering of first-class men in the event been seen.

Of those now entered, it is evident that the winner may be picked from the three men, Dalrymple of the Institute team, Lawrence of Harvard, who will be seen wearing the Unicorn, and Burdick, the Pennsy man. Lawrence has done over six feet on several occasions this winter and was picked to break the record at the New York meet a few weeks ago. Burdick and Dalrymple tied for first place at the I. C. A. A. A. meet in the Stadium, but from past work the Technology jumper should have a little advantage indoors. Dalrymple has been doing very consistent work in the Gym during the cold months, and recently broke the Gym record with a clearance of 5 feet 11½ inches.

## RHODE ISLAND ALUMNI.

Tech Club to Gather for Dinner Tonight in Providence.

The Technology Club of Rhode Island is holding an informal gathering at dinner in the Hotel Blackstone in Providence, at which time they will hear a couple of fine talks by two of the members of the Alumni.

Eleazer B. Homer, 1885, will talk for a few minutes on "The New People's Savings Bank Building," and Newton D. Benson, 1899, will enlighten the men on the subject of "Sand Banks and Cement." Both of these men are graduates of Course VI from the Institute and they are successful architects in the Rhode Island City. It is rather odd that one of the men should choose a savings bank and the other a sand bank, but they both probably deal with the national variety as a rule.

## ANGLO-AMERICAN BALL FOR COSMOPOLITANS

New Form of National Evening Planned for Saturday, February 24.

The Cosmopolitan Club plans to inaugurate an entirely new kind of National Evening for Saturday, the 24th of this month. On that evening will be held an Anglo-American ball at the Hotel Tuileries, for which the hosts plan several novel features.

The foreign members are to wear their national costumes, and as many of them have served in the armies of their respective countries the gay colors of various and splendid uniforms should blend with the ladies' gowns to form an impressive spectacle.

The list of guests includes many famous persons. Among those who will probably be present on the occasion are the British Consul, the Hon. James Bryce, British Ambassador to the United States, together (Continued on Page 2.)

## BOOKS DISTRIBUTED.

Finance Committee Gives Uniform System to Activities.

At the meeting of the Finance Committee last night the books were given out for the use of the various activities. They consist of a cash book and ledger bound in one volume, having an index also. These books were gotten out by the committee and paid for by Mr. Howard L. Coburn, '98, one of the graduate members of the committee. Directions for their use are included in them.

The committee appointed to consider the books of the Class of 1914 reported that bills had been found which explained for any possible discrepancies in their accounts for last year.

The Class of 1914, the Class of 1915, the Athletic Association, the Portfolio and the Mechanical Engineering Society still have books in the hands of the committee, and they may be obtained at the Cage.

## BATTALION HOP.

Below is printed the schedule of dances for the Battalion Hop, which was announced today. There have been several outside organizations invited to send officers, and with these and the Institute soldiers there will be a brilliant party. Numbers of upperclassmen will attend, thus giving the affair a more general character than is comprehended in the name.

The following is the order of dances:

1. Waltz.
2. Two-step.
3. Waltz.
4. Schottische.
5. Two-step.
6. Waltz.
7. Duchess.
8. Waltz.
9. Waltz.
10. Two-step.
11. Duchess.
12. Waltz.
13. Two-step.
14. Schottische.
15. Two-step.
16. Waltz.

Intermission. No extras.

## DR. MANN ON ESSENCE OF CHRISTIANITY

Rector of Trinity Church Spoke to Christian Association Gathering.

Yesterday noon Dr. Alexander Mann spoke to the Christian Association meeting in the Union most informally on the subject, "The Contribution that Religion Ought to Make in One's Life." There was a large gathering and the talk received careful attention and seemed to make much impression on the men listening.

Dr. Mann, before commencing his main topic, said that it was about the most informal religious meeting, if it could be called such at all, that he had ever attended, and that he was inclined to think that we would get more out of the meetings if they were something more of a religious service.

He reminded the men again of the traditional friendship that has remained between the Institute and Trinity Church ever since Technology opened its doors to the congregation when its home burned down. "More religion was injected into Tech in those two or three years than before or since." Trinity still remembers Technology's hospitality, and hopes (Continued on Page 3.)

## TRIP TO NEWTON TODAY.

M. E. Society to Inspect Works of Stanley Automobile Co.

Today is the day set for the Mechanical Engineering Society trip to the factory of the Stanley Motor Carriage Co. at Newton. It is expected that thirty or forty men will avail themselves of this opportunity of visiting the plant and of studying its methods of construction. The men will meet at the Trinity Station and take the 2.09 train for Newton, where they will be met by the Stanley representative, Manager Warren, who will accompany them to the factory.

This is situated on the banks of the Charles, about seven minutes' walk from the station, and is composed of one concrete building and two wooden ones. At the plant the Society will be met by the sales agent, who will conduct the tour. The trip should prove very instructive, not only in the methods of automobile construction, but also in the usefulness of labor-saving machinery, for the Stanley plant is splendidly equipped with such machines.

Members of the Society who have not yet bought their tickets can do so by applying early today to one of the officers.

## DARTMOUTH RELAY.

Harry Hillman, the Dartmouth track coach, has picked the relay team which will represent the Green at the B. A. A. meet on Saturday evening by running against Technology and made up his team as follows: Captain Steinert, Dolan, Hayward, O'Connell, Olsen and Gardner.

The entries in the special and individual events have not been finally decided, but the team will not be as strong as it has been in times past, in spite of the fact that there is a very strong collection of old track men who will make up the outdoor track team this coming season.

## FRESHMAN TRACK TEAM TO MEET LOWELL HIGH

Lower Classmen are Strong in Nearly Every Event and are Picked for Easy Victory.

As first-year men cannot compete in the B. A. A. meet, the management has arranged a meet for them on Saturday with the strong Lowell High team at Lowell, and yesterday Coach Kanaly picked a number of those who will make the trip.

Hann and O'Brien were chosen for the dashes, while Barry should place in these as well as in the 300-yard distance. Curtis and Thomas are entered in the hurdles, Curtis being especially speedy over the tall timbers and also in the 600-yard run. In the 1000-yard run they have Spencer, Hill and Holman, with chances about even for any of them to win the event. (Continued on Page 2.)

## FURTHER FROM PLANS.

A Man Will be in Union Every Day With Pledge-Books.

The arrangements for the Junior Prom are rapidly maturing and all those who wish to attend should sign up as soon as possible, as the number of tickets to be had is limited. From now on there will be somebody in the Union every day at noon with pledge books, so that everybody will have a chance to sign up before it is too late. Only about seventy-five men have signified their intention of getting tickets up to the present time.

The preliminary dance orders will be out in about two weeks, and can be obtained from any member of the committee after that time.

The poster competition will close Saturday, March 2d, by which date anybody artistically inclined will be able to turn in something of a first-class nature. A ticket to the Prom for the man (and his girl) who draws the winning poster is the compensation for his job. Only a few men are out for the competition, and there is still plenty of chance for anybody to enter now. All who wish to do so will see Capen in the Union at noon on Tuesday and Thursday and get all particulars.

## CALENDAR.

In Charge of S. H. Taylor, 1914.

Friday, February 9.

- 2.00—M. E. Society—Trinity Station—Trip to Newton.
- 4.15—Glee Club—Union.
- 4.15—Mandolin Club—26 Lowell.
- 5.00—Basketball Practice—Gym.
- 6.00—Hockey Practice—Arena.
- 8.00—Victrola Concert—Union.
- 8.00—T. C. A. Social—Union.

Saturday, February 10.

- 2.30—1915 vs. Lowell High, Track Meet at Lowell.
  - 2.00—Musical Clubs' Picture—Notman's. Full dress.
  - 8.00—Basketball with Dartmouth at Hanover.
  - 8.00—B. A. A. Meet—Mechanics' Bldg.
  - Hockey Team vs. Amherst—Amherst.

FRIDAY, FEB. 9, 1912

THE TECH sincerely regrets to announce the resignation from the position of General Manager of Elliot W. Tarr, 1912. The Board has shown its appreciation of his three years' work on the paper by passing a vote of thanks.

## IN THE FIELD.

It appears that this year is not an exception to the usual ones in the matter of crying for track candidates. As before, the weakness is largely in the field events. Two indoor meets since Christmas, yet not a pole vaulter has appeared. Probably there is some excuse for such a condition in the 1914-1915 meet, but the absence of competitors in the indoor class meet speaks but ill. Are there no good pole vaulters in the Institute? If not, it would be well to start some underclassmen in training for this event.

## LOOK OUT.

"Leave not your coats in the hallways; thieves are about." A sad commentary that on the average Tech student if it applies. Yet such a notice has been posted, and we believe it has the germ of truth. Losses of many things have been reported, from minor laboratory apparatus to winter overcoats. That the articles have not been returned leaves only the assumption that they were stolen. We would enunciate two warnings: first, men have been known to leave the Institute suddenly when found taking property that was not theirs, and second, every man must be on the watch, not only for his own things, but for their peculiar methods of disappearance.

## COSMOPOLITAN DANCE.

(Continued from Page 1.)

with several other foreign dignitaries. The ball is given by the Anglo-American members of the Cosmopolitan Club to their fellow members, and also to all American and British students at the Institute. Tickets will be on sale at a nominal price, and may be purchased from the National Chairmen.

Evidently Major Cole anticipates more trouble down at Lawrence in the near future. He has ordered the Battalion to commence practicing loading, aiming and firing formations. As a result of this the men are looking worried these days.

## PORTFOLIO HISTORY BLANKS NEARLY READY

Seniors Should Fill Them Out  
And Return to Committee  
As Soon as Possible.

All men in the Senior class will receive blanks the first of the week, on which they are to put all the material which they wish printed in the Portfolio, and return them to the committee as soon as possible so that the committee may be able to get it into shape and make any additions that may be needed.

February 20th is the last possible date for sittings of photographs, and they should be made as far ahead of that time as is possible. The sooner the better, for the late comers will have to chance on rush work at the photographer's and at the engraver's as well.

The committee are loaded individually and collectively with sign-up books, and they ask the men to see them and pay over the preliminary three dollars at once so that they may be able to plan for the number of copies in the issue. There will be none printed for those who do not sign up, and if Seniors want books they must sign for them now.

## SHOW PROGRESSING.

(Continued from Page 1.)

men who are to take parts. Manager Thayer will open the Freshman competition for the second assistant in the department, which will attract a large number of men.

Manager Whitwell is planning a big advertising campaign in Northampton, Malden, and Providence, N. H., as well as here in the city, and arranging for the accommodations during the various trips. He is also getting together a body of prominent artists, advertising men and business men to form the board of judges for the poster competition, and the results of their work will soon be announced.

The business department have been at work all the year getting adds for the program, settling the details of the contracts with the theatre managers, coach, costumer and musical director. The outline of the work is complete, and from a financial viewpoint the Show has the best of prospects.

General Manager Woehling has already arranged with the Faculty to have Tuesday afternoon, April 16th, included in the Junior Week recess. He is at present busily engaged in trying for the support and co-operation of the Alumni.

## FRESHMAN MEET.

(Continued from Page 1.)

The team is very strong in the mile, with Gurney, Lovell, Wall and Callahan to depend on. Gurney tied for fourth place in the Fresh-Soph meeting last Saturday, and should be as good as any of the High School boys. Wall ran on the cross-country team against Brown, and can last any distance. Lovell has also been out with the long distance men and is a good sticker.

Teeson and Curtis are the best of the high jumpers, with the latter topping five feet with regularity, and Teeson doing 5 feet 5 3/4 inches last week for second place.

In the shot-put Crowell, O'Brien and Africa are all doing approximately 35 feet with great consistency.

## REVISED VERSION, 1912.

And the Lord said, "Let there be a mess," and there was a mess, and that mess was called Fricassee of Lamb. And, behold, that same mess is still found upon the earth, at a place called the Tech Union.

Are you backing Dairymple to win the high jump?

**VARSITY BASKETBALL TEAM TO PLAY GREEN**

The Strong Dartmouth Team Is Tied With Penn. in Inter-collegiate League.

The basketball game with Dartmouth at Hanover will be a rather easy game for the Green team, for they have a very strong team, being tied for the Intercollegiate League leadership with Pennsylvania. They have won a majority of the games they have played against the best teams of the East, while the wearers of the Cardinal and the Gray have as yet to win their first game.

Dartmouth has in the three veterans, Sisson, Mensel and Gibson, some very fast, strong players, who, together with Jones and Snow, the old Winthrop High star, are capable of putting up a fine game.

Captain Schar's men have been in the class of the "also rans" throughout the season, and unless they can learn a good deal about the game between now and the end of the week they have an almost certain chance of annexing another to their unbroken string of defeats. The men have worked hard all through the year, but the god of war has never perched on their shoulders after the game.

**T. C. A. TALK.**

(Continued from Page 1.) that at least some of our buildings will remain here in Copley square, and that Tech men across the river will have some convenient ferry to come over in.

The rector began his principal topic, saying that Christianity stands for the respect for human personality. "The thing," he said, "that counts most in an engineer's success is his attitude toward the men working under him; will he consider them as 'machines,' 'hands' or as fellow human beings?" There was a time when work could be measureably well done by considering a man a machine, but that day has passed, as witness the present situation in Lawrence. The real trouble is that the thousands of foreigners realized that their employers lacked any feeling of human interest and refused to show any sympathy in them. Exactly the opposite state of affairs and corresponding good results are in evidence at Panama.

"The realization that every human being, whatever color his skin may be, is potentially his equal, and should be so regarded, must permeate a man's business, family and professional life if he is to make a worth-while success."

**T. C. A. SOCIAL TODAY.**

Meeting Called Tonight to Elect a New President.

Christian Association members are reminded that the T. C. A. will hold a special meeting and social in the Union at eight tonight. Everyone is urged to be present, as a new president is to be elected, and it is most important that a large number be present. It will be the first opportunity for the men to get acquainted with each other and will offer a fine chance to everyone to tell his ideas and suggestions for the future plans of the association. Refreshments will be served.

We should have one fine edition of "Concerning M. I. T." Yes!

The man who holds seats for the B. A. A. Meet Saturday night can afford to smile.
