RELAY CHANCES NOT BAD AFTER ALL.

Times in Trials Showed That Men Could Have Run Faster Than They Did.

The prospects now in view for the Harvard-MIT Relay in the American Intercollegiate meet on April 15 at Providence are not very good. The times in the trials were such that the men were not very fast. The men who have been used as their for-the-half-mile in running the time prove. He then showed clearly how the various theories have been advanced by the French and Messrs. Hill, Cheney and Franklin in Schenectady Section of the A. I. E. E. in Schenectady.

that the right to have class pipes be taken away from the Freshmen until they reach the year in which all men can have them.

RESPONSIBILITIES AND MANAGERS.

The basketball game with Dartmouth which THE TECH announced was to have been played last Saturday was called off sometime during the week. We would not have wasted our valuable space in thus misinforming the public had the basketball managers, or any of his corps, let us know that such a misfortune had occurred.

Lack of competency on the part of the team manager is an invidious thing; it works damage both to the team and the Institute. We believe it is the duty of managers to inform THE TECH of events which its reporters are unable to determine, and the public sooner or later will know that such a misfortune had occurred.

It seems as if class constitutions generally are true, it is unfortunate that class officers be so chosen; if the first of these circumstances be generally true, it is unfortunate that class constitutions should contain clauses to the effect that f913 went to the Crawford House.

President Hilton read the constitution unanimously. Then they ratified the constitution, adopted the design for the class pipes, and after expressing a strong desire to adopt them, plut the acceptance of the constitution, suggested several minor amendments, and after the class had adopted them, put the acceptance of the constitution to a vote. The representative body of the class adopted the constitution unanimously. Then the members started a spirited discussion of the pipes that the pipe committee have been exhibiting in the Union. After a standing vote had been taken it was found that the class’s representatives desired to smoke pizzer pipes rather than round ones.

On being told that the custom of having all class dinners in the Union was one not to be slighted, those members who wished to hold the class dinner downtown withdrew their motion, and by common consent the matter was dropped. The last moments of the three-quarter hour meeting were devoted to discussing the list of opening nominations for managers of the baseball, football, tennis, relay and basketball teams. As a result nominations are now open and will remain open until 4 o'clock next Monday. Nominations must be signed by ten members of the class and left at the Cage addressed to the “Board of Directors of the Class of 1915.” Immediately after the closing of nominations the Board of Directors will meet and will choose managers from the list of nominees.

CHANCEY HALL CLUB.

The Chauncey Hall Club of the Institute will hold a meeting Wednesday afternoon at 4.30 o'clock, for the purpose of electing officers. The meeting will be held at the Chauncey Hall School. Mr. Kurt, the principal, having kindly offered the school room.

L STREET STATION
VISITED YESTERDAY.
A Small Party of Electrical Inspectors Visited Edison Company's Power Plant.

After some delay in getting started, a party of twelve Electrical Engineering students, under the guidance of Professor F. A. Lave, were admitted to the Edison power plant at L Street. The party was first led into the turbine room, where the enormous turbines that supply a great part of Boston's alternating current were running, and where the accumulator is located. The turbines are connected in tandem so that if one should become inoperative the other would be started automatically.

The men were next shown the basement of the boiler room, where the apparatus necessary to make a plant test ready was found. Then they were allowed to look at the first floor under the boilers through dislocated glasses to see how the automatic stokers worked.

Before being shown the switchboard, the party visited the room just underneath, in which the oil-break switches are placed. At the switchboard itself the men watched the operation of changing the load from one dynamo to another. As the men thought that their three-hour visit was long enough they left about 6 o'clock.

ARCHITECTS' HANDIWORK
Exhibition in Pierce Building Most Interesting.

The exhibition of drawings which is now hanging in 42 Pierce is one of the most interesting that has yet been seen in the Architectural Department. Most of the work consists of the problems which have been done during the last term and includes for the most part the first and second mentioned.

The subjects are of interest to all and are worthy of close examination. The exhibition is open daily from 9 until 5.30 o'clock.

FOOTBALL CRITICISED.
Southern Professor Raps the Great Game.

Dr. Edwin Linton, a professor of biology at Washington and Jefferson College, is the last professor to speak against football as it is now being played in American colleges. He thinks that the sport is too much specialized at present, that it can only be played by a few men who are very strong physically, and that it therefore does not benefit the entire student body. He even goes so far as to say that the sport should be abolished entirely until it has been greatly changed.

The taking of gate receipts is another feature of the game to which he is very much opposed, even recommending that the Carnegie Foundation Committee should withdraw its support from any college charging admission to its games.

Nevertheless, his antagonism to football, Dr. Linton has been very active in athletics at the university with which he is connected, and claims to be a great lover of all kinds of sports.

Williamsburg, Feb. 13.—Capt. Daly, Yale '10, will catch the Williams foot ball team again next fall.

He had charge of the eleven last fall and made a hit with the Advisory Committee. He was asked to coach again this fall, over two weeks ago and has just accepted.

He will have nearly the same team to work with again this year that he had last, and the underclass expect much.
