BOSTON, MASS., TUESDAY, NOVEMBER 19, 1912

PRICE TWO CENTS

CROSS-COUNTRY TEAM WILL RUN SATURDAY

Advisory Board to Let Men Make Trip to Ithaca to Take Part in Big Race.

Late yesterday afternoon the Advisory Council on athletics reversed its decision on sending the cross-country team to Ithaca for the I. C. A. A. A. race next Saturday, and it has now been definitely decided that the team will go.

It was doubtful at first as to whether the trip would be made, owing to the present state of the finances of the track team. The question as to the ability of the team was not raised by the Advisory Council, but the financial question caused the trouble. The time trials have shown the team to be one of the fastest ever turned out by the Institute. The men are in splendid condition for the six-mile grind and will line up at the start in shape to put up a good fight. The practice runs are being made long and hard this week in order to prepare the men for the longer distance.

The team leaves the Back Bay Station Thursday evening. It is hoped that a loyal crowd of rooters will be there to see the men off. The exact time of their departure will be announced in THE TECH in a couple of days. Seven men and Coach Kanaly will make the trip. The following men will make up the team: Captain Nye, Palmer, Bonney, Wilkins, Hill, Lee and Wall. The first five men finishing are to score.

Teams have been entered by the following big colleges: Harvard, Yale, Cornell, Princeton, Technology, Dartmouth, Pennsylvania, Brown, Columbia, Michigan, Penn State, Syracuse and Colgate. Harvard, Cornell and Dartmouth are expected to make the best showing and will probably finish in that order. Jones of Cornell and Taber of Brown will fight it out for individual honors, and one or the other is conceded first place. The Institute team will make a strong fight for fourth or fifth place. Nye, Hill, Wall and Palmer are looked upon to make a good showing and should finish well up among the leaders.

E. E. SOCIETY MEETING.

Speakers to Be From Electrical Companies Operating Here.

Tomorrow, at 7.30 o'clock, in the Union, the Electrical Engineering Society will hold an important meeting, and Professor Pender wishes to see more Juniors out and men from the upper classes. The society believes it has provided some very interesting speakers in Henry Morse, of the Simplex Electrical Company, and Mr. Cook, of the Exide Battery Company. They will speak on the subjects of especial interest to those taking the Electrical Courses. At the meeting trips to different electrical establishments around the city will be announced.

"Tag Day" has been instituted at the University of Nebraska in order to support athletics. Tags are sold at three dollars apiece, and one admits the purchaser to all home contests during the season.

REV. A. A. STOCKDALE WILL SPEAK THURSDAY

Union Congregational Church Pastor Will Conduct "Question Box."

The T. C. A. has secured this week for its regular Thursday speaker the Rev. Allen A. Stockdale, pastor of the Union Congregational Church. He has been its pastor for the five years since its union with the Berkeley Temple, of which he has been the pastor for five years previous. He is well known in Boston and is very popular as a speaker and lecturer.

Two years ago he was asked to become secretary of the International Y. M. C. A. Committee, but declined rather than leave his church. For the same reason he declined to take a leading part last year in the Men and Religion Forward Movement, to which, however, he rendered valuable assistance. He made a month's tour of the South last February, speaking at various places about this campaign.

Instead of giving a regular talk he will conduct a "question box," answering practical questions concerning religion which may be asked of him. Any fellows having questions to ask are requested to write them out and hand them in at the T. C. A. office, Room 5, Eng. B, before 5 o'clock today, as preference will be given to questions handed in. After answering these Rev. Mr. Stockdale will take up any that the audience may wish to ask. He would like to have as many as possible handed in so that he may be somewhat prepared to answer them.

ARCHITECTURAL SMOKER.

Mr. Stearns Will Address Society Next Wednesday, at 7.30 P. M.

On Wednesday evening, November 20, at 7.30 o'clock, the Architectural Society will hold its first smoker. The entertainments of this society are always among the most interesting ever given by any of the clubs, and this smoker, as planned, is expected to come up to the standard.

The speaker of the evening will be Mr. Stearns, of the Boston architectural firm of Peabody & Stearns. His talk will be on his recent trip through Greece. The lecture will be illustrated with slides taken by Mr. Stearns on the trip. Greece has ever been the fancy land of architectural students, and this talk by a man like Mr. Stearns is expected to be most enjoyable and instructive.

CLASS HISTORIES.

Howard Stone, the Class History Editor of Technique, states that not many histories have been submitted, and that the chances for winning the free edition de luxe are as great as ever. This edition is given to the man whose story is accepted to be printed in the 1913 edition of Technique.

The Dartmouth Literary Magazine, for twenty-six years the official literary magazine of that college, has suspended publication on account of lack of student financial and literary sup-

ONLY FEW CANDIDATES OUT FOR THE TECH

Twenty-one Men Present at Meeting Yesterday—More Fellows Needed.

At the meeting of the candidates for THE TECH, held in the lower office of THE TECH at noon yesterday, only twenty-one men were present, whereas about twice as many are needed to put the paper on a sound basis. Ten of these are out for the News Staff, five for the Editorial and six for the Business Staff.

A. T. Gibson, the General Manager, opened the meeting and briefly outlined the work to the fellows. He told them of the three principal divisions of the work and left the telling of the details to the Managing Editor and the heads of departments. The men then separated into groups, those out for the business end being taken in charge by the Business Manager, L. C. Lamb, and the General Manager, while the News men listened to a talk by A. H. Waitt, the Managing Editor.

He described to them the three departments in the News division, Institute, Athletics and Societies, and told the men what general work was expected of them. The heads of the three departments then described the particular work which the "heelers" are expected to do in them. S. H. Taylor, the Editor-in-Chief, took charge of those interested in the editorial department, and told of the work which was to be done by them in that line. In the meantime the "heelers" for the business department were being instructed in their duties in the upper office.

The fellows who came out yesterday showed great interest in the work on the paper, and with the vacancies now existent on the two staffs should have a good chance of obtaining a position on one of them in a short time if they show any ability. Not enough men turned out, however, and about the same number more are wanted in order that THE TECH may be able to keep up the standard of former years. The General Manager will be in the upper office of THE TECH to-

(Continued to Page 3, Col. 1.)

JUNIOR PICTURE.

All 1914 Men Expected on Rogers Steps at 1 P. M. Today.

All Juniors are expected to meet at 1 P. M. today on Rogers' steps, to pose for the class picture. It was impossible to take the picture last Thursday because of the inclement weather. This is the official picture for Technique, and all Juniors should make an effort to be present in order that the picture may be as complete a representation of the class as possible. Any members of the class who desires will be able to obtain a copy of the picture later.

EDITORIAL CONTEST.

The subject for the next editorial is optional and will be due on Wednesday afternoon at 5 o'clock, at the Cage, or in the office of THE TECH. On account of the suspension of publication, the editorials will now be due on Wednesday and Saturday.

KOMMERS' DINNER NEXT SATURDAY EVENING

Promises to Be a Great Success—Name of 1913 Tech Show to Be Announced.

The Kommers' dinner, an annual gathering given each fall by the Tech Show, will be held in the dining room of the Union on Saturday evening of this week, Nov. 23. As one of the largest undergraduate dinners given during the year, it will attract the attention of the entire student body, and it is the earnest wish of the Tech Show management that a record crowd be in attendance this year.

In the past at least one hundred and fifty men have been present, and each and every one has left the Union satisfied that he has had an unusually enjoyable time. The dinner provided is of the best and the speakers are chosen from those best known around the Institute.

It has been a custom in the past to announce the name and author of the newly accepted book for the current Show at this dinner. The book for the Tech Show, 1913, has been chosen and the envelope containing the author's name will be opened by the General Manager Saturday night.

Tickets for the dinner will be on sale all of this week by members of the management, and may be obtained from any one of them at fifty cents each.

CHEM. SOCIETY MEETING.

Mr. Jasper Whiting to Speak On Electrolytic Process.

Thursday night, at 7.15, the Chemical Society will hold its second monthly meeting in the Union. Through the kind services of Professor Walker, Mr. Jasper Whiting has been secured as speaker. His subject will be "The Development of an Electrolytic Process." Mr. Whiting is the inventor of the Whiting Electrolytic Cell, and is one of the foremost electro-chemists of the country.

The officers of the society feel that the best way that the society can show its appreciation of Professor Walker's services in securing so busy and prominent a man as Mr. Whiting is to turn out in large numbers. The meeting will be open to all students who wish to attend, and members of Course XIV, in particular, are expected to come and see if the Chemical Society can fill the place that the proposed Electro-Chemical Society was to fill.

GRADUATE MARRIED.

John Foster Cole, Tech, '10, and Miss Adola F. Fitzgerald, daughter of Mr. and Mrs. Frank F. Fitzgerald, of South Boston, were married last Thursday evening at the home of the bride's parents. The Rev. Rufus Dix of Weymouth was the officiating clergyman.

CALENDAR.

FACULTY NOTICE.

Attention is called to the following extract from the Rules of the Faculty: "All marks of D incurred in the second term must be removed not later than the end of the following November. In case a mark of D is not removed at this time, the student shall be required to discontinue any dependent subjects which he is taking, and can obtain a clear record only by repeating the subject in which the D was given."
A. L. MERRILL,
Secretary of the Faculty.

PHYSICAL LABORATORY—THIRD YEAR.

Mass. Institute of Technology,
November 15, 1912.
Courses II, VII, IX, X and XIII will begin Laboratory work, Heat 774, on Monday, November 18, as per tabular view. Prepare "Thermometry, Part I," Physical Laboratory Notes, Part III, before coming into the Laboratory. Students should fill out Laboratory Registration AT ONCE in Room 16 if they have not already done so.
(37-1t) H. M. GOODWIN.

PHYS. LAB. EXERCISES.

Exercises in Physical Laboratory, 774, begin today for third year students in Courses II, VII, IX, X and XIII, according to the tabular view. All men taking these courses must fill out registration cards at once in Room 16. The preparation in Heat 774 is "Thermometry, Part I," and Physical Laboratory Notes, Part III. The exercises for the second year students of Courses II, III (option IX), VI, VII, VIII, XIII and XIV in Physical Laboratory 773, scheduled to take place during the week, will be omitted. In place of the laboratory exercises the whole class will meet this afternoon and Thursday afternoon, at 4.10 o'clock in Room 23, Walker, for preliminary instructions regarding the work. The laboratory exercises will begin on Monday, November 25th.

ROOM FOR RENT—Back room for two men, large desk, steam heat, continuous hot water, two closets, three windows; \$5.00 per week. 88 St. Botolph St. (Tues-Thurs-Sat)

FOUND—Slide rule and case, Pipe case, Raincoat, Text-books, Umbrella, Bunch of keys, 2 Stick pins, 2 Note Books, 3 Watch Fobs, Fountain Pen, Watch, 2 pairs of Rosary Beads, Fraternity Pin. Apply at Bursar's office.

Dancing Parties every Wednesday and Saturday evenings. Lunding Gymnasium, 44 St. Botolph street, Boston. Refined patronage. (Tues-Fri)

FACULTY NOTICE.

Attention is called to the following extract from the Rules of the Faculty: "All marks of D incurred in the second term must be removed not later than the end of the following November. In case a mark of D is not removed at this time, the student shall be required to discontinue any dependent subjects which he is taking, and can obtain a clear record only by repeating the subject in which the D was given."
A. L. MERRILL,
Secretary of the Faculty.

PHYSICAL LABORATORY—THIRD YEAR.
Mass. Institute of Technology,
November 15, 1912.
Courses II, VII, IX, X and XIII will begin Laboratory work, Heat 774, on Monday, November 18, as per tabular view. Prepare "Thermometry, Part I," Physical Laboratory Notes, Part III, before coming into the Laboratory. Students should fill out Laboratory Registration AT ONCE in Room 16 if they have not already done so.
(37-1t) H. M. GOODWIN.

PHYS. LAB. EXERCISES.
Exercises in Physical Laboratory, 774, begin today for third year students in Courses II, VII, IX, X and XIII, according to the tabular view. All men taking these courses must fill out registration cards at once in Room 16. The preparation in Heat 774 is "Thermometry, Part I," and Physical Laboratory Notes, Part III. The exercises for the second year students of Courses II, III (option IX), VI, VII, VIII, XIII and XIV in Physical Laboratory 773, scheduled to take place during the week, will be omitted. In place of the laboratory exercises the whole class will meet this afternoon and Thursday afternoon, at 4.10 o'clock, in Room 23, Walker, for preliminary instructions regarding the work. The laboratory exercises will begin on Monday, November 25th.

VOL. XXXII. NO 37

BOSTON, MASS., TUESDAY, NOVEMBER 19, 1912

PRICE TWO CENTS

CROSS-COUNTRY TEAM WILL RUN SATURDAY

Advisory Board to Let Men Make Trip to Ithaca to Take Part in Big Race.

Late yesterday afternoon the Advisory Council on athletics reversed its decision on sending the cross-country team to Ithaca for the I. C. A. A. A. race next Saturday, and it has now been definitely decided that the team will go.

It was doubtful at first as to whether the trip would be made, owing to the present state of the finances of the track team. The question as to the ability of the team was not raised by the Advisory Council, but the financial question caused the trouble. The time trials have shown the team to be one of the fastest ever turned out by the Institute. The men are in splendid condition for the six-mile grind and will line up at the start in shape to put up a good fight. The practice runs are being made long and hard this week in order to prepare the men for the longer distance.

The team leaves the Back Bay Station Thursday evening. It is hoped that a loyal crowd of rooters will be there to see the men off. The exact time of their departure will be announced in THE TECH in a couple of days. Seven men and Coach Kanaly will make the trip. The following men will make up the team: Captain Nye, Palmer, Bonney, Wilkins, Hill, Lee and Wall. The first five men finishing are to score.

Teams have been entered by the following big colleges: Harvard, Yale, Cornell, Princeton, Technology, Dartmouth, Pennsylvania, Brown, Columbia, Michigan, Penn State, Syracuse and Colgate. Harvard, Cornell and Dartmouth are expected to make the best showing and will probably finish in that order. Jones of Cornell and Taber of Brown will fight it out for individual honors, and one or the other is conceded first place. The Institute team will make a strong fight for fourth or fifth place. Nye, Hill, Wall and Palmer are looked upon to make a good showing and should finish well up among the leaders.

E. E. SOCIETY MEETING.

Speakers to Be From Electrical Companies Operating Here.

Tomorrow, at 7.30 o'clock, in the Union, the Electrical Engineering Society will hold an important meeting, and Professor Pender wishes to see more Juniors out and men from the upper classes. The society believes it has provided some very interesting speakers in Henry Morse, of the Simplex Electrical Company, and Mr. Cook, of the Exide Battery Company. They will speak on the subjects of especial interest to those taking the Electrical Courses. At the meeting trips to different electrical establishments around the city will be announced.

"Tag Day" has been instituted at the University of Nebraska in order to support athletics. Tags are sold at three dollars apiece, and one admits the purchaser to all home contests during the season.

REV. A. A. STOCKDALE WILL SPEAK THURSDAY

Union Congregational Church Pastor Will Conduct "Question Box."

The T. C. A. has secured this week for its regular Thursday speaker the Rev. Allen A. Stockdale, pastor of the Union Congregational Church. He has been its pastor for the five years since its union with the Berkeley Temple, of which he has been the pastor for five years previous. He is well known in Boston and is very popular as a speaker and lecturer.

Two years ago he was asked to become secretary of the International Y. M. C. A. Committee, but declined rather than leave his church. For the same reason he declined to take a leading part last year in the Men and Religion Forward Movement, to which, however, he rendered valuable assistance. He made a month's tour of the South last February, speaking at various places about this campaign.

Instead of giving a regular talk he will conduct a "question box," answering practical questions concerning religion which may be asked of him. Any fellows having questions to ask are requested to write them out and hand them in at the T. C. A. office, Room 5, Eng. B, before 5 o'clock today, as preference will be given to questions handed in. After answering these Rev. Mr. Stockdale will take up any that the audience may wish to ask. He would like to have as many as possible handed in so that he may be somewhat prepared to answer them.

ARCHITECTURAL SMOKER.

Mr. Stearns Will Address Society Next Wednesday, at 7.30 P. M.

On Wednesday evening, November 20, at 7.30 o'clock, the Architectural Society will hold its first smoker. The entertainments of this society are always among the most interesting ever given by any of the clubs, and this smoker, as planned, is expected to come up to the standard.

The speaker of the evening will be Mr. Stearns, of the Boston architectural firm of Peabody & Stearns. His talk will be on his recent trip through Greece. The lecture will be illustrated with slides taken by Mr. Stearns on the trip. Greece has ever been the fancy land of architectural students, and this talk by a man like Mr. Stearns is expected to be most enjoyable and instructive.

CLASS HISTORIES.

Howard Stone, the Class History Editor of Technique, states that not many histories have been submitted, and that the chances for winning the free edition de luxe are as great as ever. This edition is given to the man whose story is accepted to be printed in the 1913 edition of Technique.

The Dartmouth Literary Magazine, for twenty-six years the official literary magazine of that college, has suspended publication on account of lack of student financial and literary sup-

ONLY FEW CANDIDATES OUT FOR THE TECH

Twenty-one Men Present at Meeting Yesterday—More Fellows Needed.

At the meeting of the candidates for THE TECH, held in the lower office of THE TECH at noon yesterday, only twenty-one men were present, whereas about twice as many are needed to put the paper on a sound basis. Ten of these are out for the News Staff, five for the Editorial and six for the Business Staff.

A. T. Gibson, the General Manager, opened the meeting and briefly outlined the work to the fellows. He told them of the three principal divisions of the work and left the telling of the details to the Managing Editor and the heads of departments. The men then separated into groups, those out for the business end being taken in charge by the Business Manager, L. C. Lamb, and the General Manager, while the News men listened to a talk by A. H. Waitt, the Managing Editor.

He described to them the three departments in the News division, Institute, Athletics and Societies, and told the men what general work was expected of them. The heads of the three departments then described the particular work which the "heelers" are expected to do in them. S. H. Taylor, the Editor-in-Chief, took charge of those interested in the editorial department, and told of the work which was to be done by them in that line. In the meantime the "heelers" for the business department were being instructed in their duties in the upper office.

The fellows who came out yesterday showed great interest in the work on the paper, and with the vacancies now existent on the two staffs should have a good chance of obtaining a position on one of them in a short time if they show any ability. Not enough men turned out, however, and about the same number more are wanted in order that THE TECH may be able to keep up the standard of former years. The General Manager will be in the upper office of THE TECH to (Continued to Page 3, Col. 1.)

JUNIOR PICTURE.

All 1914 Men Expected on Rogers Steps at 1 P. M. Today.

All Juniors are expected to meet at 1 P. M. today on Rogers' steps, to pose for the class picture. It was impossible to take the picture last Thursday because of the inclement weather. This is the official picture for Technique, and all Juniors should make an effort to be present in order that the picture may be as complete a representation of the class as possible. Any members of the class who desires will be able to obtain a copy of the picture later.

EDITORIAL CONTEST.

The subject for the next editorial is optional and will be due on Wednesday afternoon at 5 o'clock, at the Cage, or in the office of THE TECH. On account of the suspension of publication, the editorials will now be due on Wednesday and Saturday.

KOMMERS' DINNER NEXT SATURDAY EVENING

Promises to Be a Great Success— Name of 1913 Tech Show to Be Announced.

The Kommers' dinner, an annual gathering given each fall by the Tech Show, will be held in the dining room of the Union on Saturday evening of this week, Nov. 23. As one of the largest undergraduate dinners given during the year, it will attract the attention of the entire student body, and it is the earnest wish of the Tech Show management that a record crowd be in attendance this year.

In the past at least one hundred and fifty men have been present, and each and every one has left the Union satisfied that he has had an unusually enjoyable time. The dinner provided is of the best and the speakers are chosen from those best known around the Institute.

It has been a custom in the past to announce the name and author of the newly accepted book for the current Show at this dinner. The book for the Tech Show, 1913, has been chosen and the envelope containing the author's name will be opened by the General Manager Saturday night.

Tickets for the dinner will be on sale all of this week by members of the management, and may be obtained from any one of them at fifty cents each.

CHEM. SOCIETY MEETING.

Mr. Jasper Whiting to Speak On Electrolytic Process.

Thursday night, at 7.15, the Chemical Society will hold its second monthly meeting in the Union. Through the kind services of Professor Walker, Mr. Jasper Whiting has been secured as speaker. His subject will be "The Development of an Electrolytic Process." Mr. Whiting is the inventor of the Whiting Electrolytic Cell, and is one of the foremost electro-chemists of the country.

The officers of the society feel that the best way that the society can show its appreciation of Professor Walker's services in securing so busy and prominent a man as Mr. Whiting is to turn out in large numbers. The meeting will be open to all students who wish to attend, and members of Course XIV, in particular, are expected to come and see if the Chemical Society can fill the place that the proposed Electro-Chemical Society was to fill.

GRADUATE MARRIED.

John Foster Cole, Tech, '10, and Miss Adola F. Fitzgerald, daughter of Mr. and Mrs. Frank F. Fitzgerald, of South Boston, were married last Thursday evening at the home of the bride's parents. The Rev. Rufus Dix of Weymouth was the officiating clergyman.

TUUSDAY, NOVEMBER 19, 1912

We publish below another of the editorials which have been written for the Pi Delta Epsilon contest that is now going on for members of the new editorial staff. The subject was optional.

WHEREFORE ARE WE HERE?

At the Union last Saturday a Freshman was to be heard bewailing his lot. The first five weeks, he said, were weeks of failure. He was going to get FF in both mathematics and chemistry. He had come to Tech from another state, and was trying to work his way. It was tough.

Now, Mr. Freshman, stop your whining. It is rough on you to have failed, and all Tech men will sympathize with you; but you ought to answer to yourself as honestly and as conscientiously as you know how, one little question: Have you done your best? If you have not done your best, if all that is in you has not been brought out during these five weeks, then assuredly you deserve to fail, for the Tech man is no loafer while there is work to be done.

If you have done your best, however, there is no cause to worry. The great cry of the world is not for engineers; neither is it for chemists, physicists, biologists, or architects. What the world wants today is men, and the ability to do mathematics or chemistry is not in itself the criterion by which men, as men, are to be judged. In the doing of your best you have exercised some important qualities—persistence, patience, concentration, determination, and the like. If another man has used less of these than you, you have gained on him in the race of life, even though his report paper be bespangled with C's.

You may be a square peg in a round hole just at present, Mr. Freshman, but if you do your best, and only your best, you will, before long, find a square hole, of size proportionate to your ability, into which you will fit beautifully.

FIELD LOCKERS.

Now that the outdoor track running has stopped and the Field will be closed up for the season, Bill Hynes has issued his annual edict. He desires that all men who have clothes or athletic goods of any description in the lockers at the Field remove them before Saturday, November 23. He says that he will not be responsible for goods left in the lockers after that date.

A local wireless company has presented Harvard with a complete new wireless outfit.

FRESHMEN MAY RUN AT ANDOVER FRIDAY

Technology May Be Represented in Cross-Country Race For First Time.

Efforts are being made to get up a Freshman cross-country team to send to Andover next Friday for the Freshman cross-country championship. The sanction of the Advisory Council has already been obtained but nothing has been heard from the Faculty so far.

This will be the first Freshman cross-country team that Technology has ever sent to Andover to compete with the other colleges. Harvard, Dartmouth, Princeton, Brown and Yale have always sent teams and probably will do so this year. Trials will be held Wednesday, after drill, and at this time the best seven of those who compete will be picked for the team. H. S. Benson, who was the first M. I. T. man to finish in the N. E. I. C. A. A. run last Saturday, will run for the Freshmen, and this fact assures Technology of at least the individual honors. Guething and White, who have been working with the Varsity cross-country, will probably strengthen the team.

MILITARY SCIENCE.

Classes This Week at the Armory to Hear Special Lectures.

The lectures in Military Science this week will be held in the Armory instead of 26 Lowell, where they are usually held. The sections will assemble there without further notice at ten minutes after the regular time stated on the schedule. Captain Reeder, the United States officer in charge of the coast artillery in the State of Massachusetts, will demonstrate the equipment used in fortifications for range finding, communication and command, and also the use of searchlights and other apparatus. As the Armory is fully equipped, the subject can be very clearly explained.

Members of those classes not taking the military course, but who may be interested in this equipment, are invited to attend any of the lectures which take place, as follows: Tuesday, 11.10 to 12; Wednesday, 2.10 to 3; Fridays, 9.10 to 10, and 12.10 to 1.

WIRELESS MEETING.

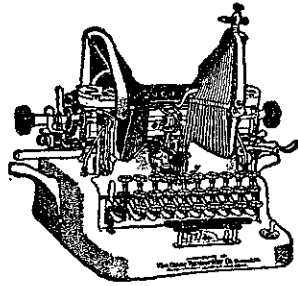

Members Must Have Amateurs' Licenses by December 13.

On November 29, a week from next Friday, the Wireless Club will hold a meeting at 4.15, probably in 11 Eng. B. The speakers have not yet been chosen. A Freshman will be elected to the Board of Directors and a discussion of the new law regulating amateur stations and requiring lower wave lengths will follow. The club has now 40 members, and three or four more men are expected to join at this coming meeting.

All members who wish to operate the club's station must be supplied with an amateur license by December 13, the day the new law goes into effect. The new men should order their keys from the wireless room soon, either by seeing the treasurer, H. W. Lamson, Tuesday noons, in the operating room, or by leaving a note for him at the Cage. The keys cost fifteen cents.

It is thought that the station will have to be changed to secure lower wave lengths and a new aerial erected. A new pair of receivers is expected to arrive at any time now.

At the annual meeting of the N. E. Association of Colleges and Prep Schools, the honor system was made the topic of discussion by representatives from Virginia, Princeton and Sheffield Scientific School.

START YOUR TECH YEAR RIGHT.

Your equipment for the year is not complete unless it includes the Oliver Typewriter, Model Number Five.

Regardless of the work you may take up after you leave Technology, the Oliver Typewriter will be a necessity. Why not take advantage of the opportunity to get The Oliver while you are studying? It is cheaper to do your own typewriting than than hire a stenographer.

You can RENT the Number Five Model Oliver at the rate of \$5.00 per month and when you have paid twenty consecutive months' rental, The Oliver will be presented to you without further expense.

Call at 146 CONGRESS ST.
or
Telephone Main 192 or 193

BETTER STILL, Make a date with the Oliver Man in the Tech Office any time that is convenient for you.

Come and Get it.

JUNIOR BASKETBALL TEAM PROGRESSING

Most of Last Year's Material Working Hard at the Gymnasium.

Junior basketball is coming along in good shape. Quite a large number of men have reported for practice, among them seven of last year's players, as well as several new candidates. Last Friday the team chose a captain to replace T. J. Comber, last year's captain, who did not care to fill the position any longer. F. W. Williams, one of the members of the team, was elected to fill the position.

The class of 1914 has made a name for itself in basketball. Last year they went through the season without a single defeat, playing some fast teams and always coming off victorious. This year a fine schedule is being arranged with some of the more important academies and some of the smaller colleges, and the Juniors look forward to a season as successful as that of last year. The men are starting on their third week of practice and are beginning to show fine form.

Practice is held every Monday, Wednesday and Friday, from 5 to 6 o'clock, at the Gym, and the captain and manager will be glad to see any men who have not already reported. Men who have not been out for basketball before need not feel reluctant about coming out as the captain wishes to try out all the basketball material in the class, and everyone has a chance to make good. The following men are showing up for practice: L. B. Duff, C. B. Bryant, V. J. Gallene, C. E. Fox, T. J. Comber, R. D. Brown, W. G. Tirrell, W. B. Price, F. W. Williams, captain, and C. F. Ruoff, manager.

MEETING OF CANDIDATES.

(Continued from Page 1, Col. 3.) day at 5 o'clock to meet any more men who missed the opportunity of coming out yesterday. He feels that there are a number of fellows who missed the meeting, and it is hoped that they will show up then. The upper office is in the Union, right above the lower one. All those entering the Union face the latter, and it has on the door "THE TECH Daily, Publication Office."

Now is the chance for all the men who have any desire of making the paper to come out, for there are many positions now vacant which will probably be filled from among these new men. Men from all the classes are eligible. The following is the list of those present at the meeting yesterday: News, T. J. Barry, '15; J. E. Carr, '16; H. M. Griffin, '14; I. B. McDaniel, '15; E. H. Pearson, '16; W. B. Rivers, '15; C. H. Rosenthal, '16; H. P. Sabin, '15; J. W. Stafford, '16; A. E. Storm, '16. Editorial: L. R. G. Bousquet, '16; J. H. Heller, '16; H. E. Keyes, '16; A. W. Lamson, '15; P. C. Reese, '16. Business: G. Beach, '14; C. H. Burns, '14; H. P. Claussen, W. H. Fleming, '14; E. J. Goldstein, '16; W. P. Hanchett, '15.

FRESHMAN BASKETBALL.

All Freshmen who are interested in basketball are asked to report at the gymnasium Wednesday afternoon, at 5 o'clock. Manager Ruoff of the Junior basketball team will meet the men and assist them in organizing. Although the Freshmen have not had the best of success in their athletics they still have a chance of making their basketball team a success. All men who play basketball, or want to play, should report for duty. A manager will be chosen, and anyone wishing to try for the position should be present.

A course in Scandinavian is included in the curriculum at the University of Minnesota.

GRAND OPERA SEASON BEGINS NEXT WEEK

"Tales of Hoffman" to Be Opening Performance Next Monday Night.

The season of the Boston Opera House opens next week with five performances. These will be given Monday, November 25; Wednesday, November 27; Friday, November 29, and Saturday, November 30, both afternoon and evening. On Monday evening and Saturday afternoon the management will present "Tales of Hoffmann" (in French); on Wednesday evening, "La Boheme" (in Italian); on Friday evening, "Madame Butterfly" (in Italian); and on Saturday evening, "Il Trovatore" (in Italian).

The "Tales of Hoffmann" will be mounted with especial attention to artistic detail, which will disclose for the first time here Mr. Urban's new method of stage production, and the cast will be one of exceptional excellence. Mr. Clement will be the Hoffmann, a role which he has not yet sung in public. Mr. Maroux will have the four roles of Lindorf, Coppellius, Dapertutto and Dr. Miraclo, which are the successive embodiments of the opposing force Hoffmann meets in all his adventures. Miss Fisher will be the Olympia; Miss Amsden, the Giulietta, and Mme. Edvina will accomplish her Boston debut as Antonia.

In "La Boheme," on Wednesday evening, Lucrezia Bori, the new Italian soprano, will be heard by Bostonians for the first time. She will sing the role of Mimi. Miss Dercyne being the Musetta; Mr. Lafitte, the new tenor, whose success in Montreal this week has been so pronounced, will sing the role of Rodolfo.

On Friday evening, "Mme. Butterfly" will be cast with Mme. Destinn as Cio-Cio-San; Miss Leveroni as Suzuki; Mr. Lafitte as Pinkerton, and Mr. Polese as Sharpless.

For "Il Trovatore," on Saturday evening, Gertrude Rennyson has been chosen to be Leonora; Miss Leveroni the Azucena; Mr. Blanchart the Luna, and Mr. Aresoni the Marrico.

INDOOR TRACK WORK.

Schedule Soon to Be Completed For Winter Indoor Meets.

The indoor track work has not yet been started but will begin immediately after the annual fall cross-country handicap has been run. This race will be held on either the 23rd or the 30th of this month, over the Wakefield course. At present the Varsity men are conditioning themselves for the indoor work. Practice is being held four times a week, on Monday, Tuesday, Thursday and Saturday.

No definite schedule has been arranged for the indoor track meets as yet. The annual indoor meet will be held as usual, the date of which will be announced later. Coach Kanaly expects to have fully as large a schedule as last year, but has not as yet completed it. The usual Freshman-Sophomore meet will probably be held at the customary time.

COLLEGE NOTES.

After several days of campaigning the membership of the University of Michigan has been increased to 2,000.

The football manager of Colorado University recently found it necessary to order a special football suit to get one large enough for a husky mountaineer.

G. C. Taylor, a student at the University of Missouri, is paying his way through school on the proceeds from the milk of four cows, which he milks every morning at 4 o'clock.

M. A. H. S. CLUB TO MEET FRIDAY NIGHT

First Meeting of Year Postponed From Wednesday—To Be Smoker in Union.

The meeting of the Mechanic Arts High School Club, which was scheduled for tomorrow night, will be held in the Union at 7.15 o'clock, on Friday instead, because of the meeting of the Electrical Engineering Society. The club wishes to announce that every alumnus of the Mechanic Arts High School is eligible to membership in the Club and is cordially invited to attend this entertainment, which is the first of a series of smokers and card parties which the club holds during the year.

Those desiring to attend this meeting are requested to see some officer of the club, or to leave a notice addressed to the club before Thursday noon. The reservation of a cheering section at the Mechanics Arts-Dorchester High football game on Thanksgiving Day for members of the club will be discussed. After a short business meeting there will be whist games, for which the winners of the highest and lowest scores will be awarded suitable Technology favors. The games are followed by refreshments and a general good time.

The "Son O Gun" is the rather unique title of the play which will be presented this year by the graduating class of the Washington University. The production, including the music and lyrics, is the work of the students of the University.

The University of Illinois now publishes its college daily on Sunday as well as week days. It is the only college in the country to do this.

Write Ideas for Moving Picture Plays!

YOU CAN WRITE PHOTO PLAYS AND EARN \$25. OR MORE WEEKLY

We Will Show You How!

If you have ideas---if you can *think*---we will show you the secrets of this fascinating new profession. Positively no experience or literary excellence necessary. No "flowery language" is wanted.

The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100, and more, for single scenarios, or written ideas.

We have received many letters from the film manufacturers, such as VITAGRAPH, EDISON, ESSANAY, LUBIN, SOLAX, IMP, REX, RELIANCE, CHAMPION, COMET, MELIES, ETC., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are selling photoplays written by people who "never before wrote a line for publication."

YOU WILL EARN \$100 MONTHLY FOR SPARE TIME WORK.

FREE SEND YOUR NAME AND ADDRESS AT ONCE FOR FREE COPY OF OUR ILLUSTRATED BOOK, "MOVING PICTURE PLAYWRITING"

Don't hesitate. Don't argue. Write **now** and learn what this new profession may mean for you and your future.
