

THE TECH

VOL. XXXII. NO. 100

BOSTON, MASS., MONDAY, MARCH 3, 1913

PRICE TWO CENTS

PROM SIGN-UP BOOKS OPEN TO ALL TODAY

Two Members of Committee to
Be in Union From 1 to 2—
Few Slips Left.

At noon today the Junior Prom sign-up books will be open for the two lower classes. The books will be in the hands of A. T. Wyman and A. D. Hiller, who may be found in the Union between 1 and 2 o'clock. Owing to the fact that this year the number of couples is limited and that the sign-up books were opened to the Juniors and Seniors a week ago, only thirty slips are left. Any of the first or second-year men who wish to go should therefore be in the Union promptly at 1 o'clock, in order to avoid the rush sure to occur at the last minute.

The preliminary dance orders will be distributed some time during the latter part of this week. The exact date will be announced in an early issue of THE TECH. Already the other arrangements have been nearly completed and the committee expects the Prom to be a great success.

SOPHOMORE BASEBALL.

Meet in Union Today to Elect
Captain—Schedule Out.

Today, in the Union, at 1 o'clock, will be held a meeting of all the members of last year's 1915 baseball team. The purpose of the meeting is to elect a captain for the coming season. It is important that a captain be elected immediately, as practice will start this week, and he will have to take charge of the candidates.

Practice will be held in the Gym for the present, and all candidates are expected to report there regularly. All of last year's team are still in school, and thus the prospects for an excellent team this year are very good.

Manager H. C. Thomas has arranged the following schedule: April 12, Allen School, at West Newton; April 16, Waltham High, at Waltham; April 23, Rindge Technical H. S., at Cambridge; April 26, Wellesley High, at Wellesley; May 3, Tufts 2nd, at Medford; May 10, Lawrence Academy at Groton; May 17, 1916, at Tech Field; May 21, 1916, at Tech Field. In case of a tie between 1915 and 1916 another game will be played May 24, at Tech Field.

MAJ. BRIGGS HONORED.

It was recently announced that Major F. H. Briggs had been reappointed to the Advisory Committee of the N. E. I. A. A. for a term of three years. The members of the executive committee were also announced, but the Institute is not represented upon it.

A meeting will be held in the near future to decide upon the place for holding the championships this spring. Tech is making a strong effort to have the meet held at Tech Field, and is presenting a fine list of records to show that it would be the best place for the purpose.

Very few bayonets and cartridge belts were noticed in the Regimental Hop last week.

RADICAL CHANGE IN PUBLICATION OF JUNIOR ANNUAL MADE THIS YEAR

Entire Edition of Technique 1914 will be "De Luxe"
Price will be Much Lower than that of
Last Year.

This year's Technique will mark a big step forward in the publication of the Annual. After careful deliberation the Board have decided to publish an all de luxe edition, and in this way keep Technique in the ranks of the best college year books.

Bound in heavy grain leather over a stiff back, the book will be better looking and far more durable than those with the soft ooze leather binding used for the past few years. In short, the book will combine the wearing qualities of the ordinary cloth copy with the handsome appearance of the leather. The above description is complete except for the fact that the edition will be gilt-edged. The color of the leather, the Board is not willing to disclose at this time, preferring to save that as one of the many surprises to be experienced after the Technique Rush. This much may be said about the color: In no sense could it be called gaudy, and yet it is far from the very dark shades which soon become so monotonous to the eye.

The business management original-

S. H. KING WILL SPEAK.

T. C. A. Secures Charlestown
Man For Next Thursday.

Mr. Stanton H. King has been secured by the T. C. A. as the speaker for next Thursday's meeting in the Union. Mr. King is the superintendent of the Sailors' Haven in Charlestown, and he will speak on the topic, "Seamen Ashore."

The superintendent will undoubtedly tell of his experiences in his work at the Sailors' Home, and, typical of all sailor stories and yarns, his talk will surely prove to be very interesting and fascinating. At the Haven, Mr. King comes into contact with every kind of seaman, men mostly from the ships lying in the harbor, and hailing from all parts of the world. His talk will, consequently, be blended in a most unusual manner, and will be quite unique. The Sailors' Haven is a place where foreign sailors can find good, legitimate and beneficial means of passing away their free time. The men are free from the excessive and destructive temptations of a large city, and it is the aim of the management of the Home to make whatever time that the men spend in the harbor as beneficial to them as possible.

Mr. King spoke last fall at the Trinity House, and he was enthusiastically received and very highly spoken of as an interesting speaker, so the men who attend the T. C. A. meeting next Thursday are assured of an excellent talk. The T. C. A. hopes for a record attendance.

ly planned to reduce the price 50 cents from that of last year's de luxe edition. It is possible to do this on account of the fact that by binding the entire edition in leather, the cost per book is reduced. Since adopting this plan the business management have, by consistent work, contracted for sufficient advertising to enable the Board to reduce the price 75 cents from the price of last year's de luxe copy. That is, the price this year will be \$2.75 instead of \$3.50, as in previous years, and the "sign-up" deposit is 75 cents.

The year that Technique, 1914, covers has been one of great growth and progress in the affairs of the Institute. This has, of course, meant that the editors have had added opportunities and new responsibilities to meet in making Technique a true record of all that concerns the undergraduates.

Following the practice adopted by last year's Board, the price of Technique, 1914, will positively not be reduced. In several other large colleges the change from a mixed to an all de luxe publication caused such a demand that the entire edition was soon exhausted.

"Sign-up" slips are out today. Every man should sign up at once with one of the following men:

A. C. Dorrance,	G. A. Beach,
D. L. Sutherland,	H. A. Morrison,
E. E. Dawson,	A. F. Peaslee,
R. D. Salisbury,	A. C. Chandler,
A. G. Long,	F. Whitten, Jr.,
P. B. Owen,	H. W. Barker,
H. L. Stone,	J. A. Root,
S. A. Smith,	J. C. Morse,
G. W. White,	E. C. Taylor,
A. T. Wyman,	SIGN UP NOW.

CATHOLIC CLUB DANCE.

The Technology Catholic Club will hold its annual dance at the Hotel Somerset, from 8 to 1 o'clock, on Tuesday evening, April 1. The price of subscriptions is two dollars, and all students wishing to secure invitations for themselves and their friends must leave their names at the Cage addressed to Box 32.

The annual dances given by the Catholic Club have always been very successful, and are one of the principal society events of the Institute year. There is no reason to believe that this year's dance will prove an exception to the rule.

The I. C. A. A. A. meet will be held at the Harvard Stadium this year, on Memorial Day. Many athletes are opposed to this selection because of the bad shape of the track, and the fact that there is nearly always a strong wind.

Do you patronize our advertisers?

WRESTLING TEAM WINS MEET WITH BEVERLY

Victorious in Seven Out of Nine
Bouts—Saier, Kelley and
Alexander Star.

Tech's newly recognized Varsity wrestling team journeyed to Beverly Saturday evening, and won a decided victory from the Y. M. C. A. team of that town. The Beverly team was very strong, but was not equal to the task of defeating a team such as the one which this year has been winning a long string of victories for Technology. The Institute grapplers did excellent work, and showed the results of long practice and fine physical condition. Out of the entire nine bouts seven were won by Technology. Of these seven wins six were secured on falls, which shows the decisive character of the victory.

(Continued on Page 2.)

FRESHMAN TRACK MEET.

1916 Vs. Medford High, at Tech
Gym Wednesday Afternoon.

On Wednesday afternoon, at 4 P. M., a dual meet will be held at the Tech Gym between M. I. T., 1916, and Medford High School. This meet, which is one of a series now being arranged, promises to be a very good track exhibition, as Medford High not only has some exceptionally good men but also a very well-balanced team.

In the sprints, Adams, Loomis and Petit should make a very good showing, although Medford has great hope in Hervey, one of their best short-distance men.

Captain Dean and Reed, of the Freshman team, are both said to be running in excellent form, and they are looked upon as point winners.

Medford High will bring out some of her best men to compete against C. T. Guething and Page in the 1000-yard run and this race promises to be especially fast. Benson will star for Tech in the mile, and his speed and experience should put him well in the lead at the finish.

In the field event, Garita will represent the Freshmen in the high jump, while Wolk and Maier will test their skill against that of Dwyer, one of the best shot-put men in the local high schools.

There will also probably be a four-man 1400-yard relay race, but this has not yet been positively decided. All these events are open to any of the Freshmen who wish to enter, and trials for many of the events will be held Monday afternoon in the Gym. All men should report at this time.

CALENDAR.

Monday, March 3, 1913.

1.00—Important Meeting of 1915 Baseball team—Union.

1.00—Junior Prom Sign-up Books Opened to Sophomores and Freshmen—Union.

4.15—Cast Will Rehearse First Act of Show—Union.

Tuesday, March 4, 1913.

4.30—Final Selection of Show Chorus—Union.

Wednesday, March 5, 1913.

4.00—Track Meet, 1916 vs. Medford High—Tech Gym.

TECHNIQUE 1914. ALL DE LUXE

THE TECH

Published daily, except Sunday, during the college year by students of the Massachusetts Institute of Technology.

Entered as second-class matter, Sept. 15, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.

MONDAY, MARCH 4, 1913

We heartily congratulate Technique, 1914, on their somewhat startling departure from traditions regarding the binding of Technique. It will, beyond question, be a decided improvement over the old system and become a custom which should endure. The old de luxe editions were very cumbersome and wholly unfit for bookshelves, while the cloth binding failed to give Technique the individuality and "caste" that it really deserved.

Again, we wish to call the attention of the Sophomores to the fact that they are voting for an electoral committee which elects the Technique Board for 1915. They are in no way electing the board itself at this time. For particulars regarding this electoral system we refer them to the last edition of "Concerning M. I. T." or any member of the present Technique Board for 1914.

There seems to be far less criticism of any sort of the new Constitution for "The M. I. T. Undergraduate Association" than we had hoped to see. There is now opportunity for forming a very clear idea of what it contains and of presenting any better ideas that enter into your minds. We are glad to publish any material concerning it.

With all the proposed activity of the Union House Committee we should like to suggest that a little more care be taken in supplying the building with heat. On several occasions the rooms have been so cold that it has been impossible to be comfortable in them.

If your thesis is not the most absorbing and enjoyable work you have done at the Institute, you are not doing your best on it.

To every one, be he engineer, scientist, or architect, the habit of careful truth and exact statement is absolutely necessary, and should be most assiduously cultivated not as a policy, but as a fundamental principle.

Likewise, how can honesty be a policy? Have we become so degraded in our philosophy that we consider honesty a mere rule or trick of wisdom for use in worldly dealings rather than a fundamental principle of highest order?

CORRECTION.

Although it was announced in Friday's TECH that the Junior Class Smoker would be held on March 8, the correct date is Thursday March 27. The entertainment will include numerous vaudeville and "surprise" stunts as well as plenty of smokes, so everyone attending is promised an unusual good time.

INAUGURATION OF WILSON POSTPONED

Prof. Hugo Munsterberg of Harvard Promises to Solve Deep Mystery.

The excitement and commotion in THE TECH office last night was, to say the least, awful. After a week of planning and scheming, aided by some of the greatest minds in the Institute, and taking as clues almost anything that smelled suspicious, it was decided to work exclusively on the question: "Is it the spirits of ammonia?"

With this basic sentence in mind the staff of THE TECH went to work to capture and solve the riddle of the mysterious visitor. Just as the clock was striking midnight the man on guard at the office was startled by a
(Continued to Page 3.)

NO W. P. I. TRACK MEET.

Worcester Polytechnic Institute, which had suggested to the management of the Tech track team that a dual meet be held between the two schools this spring, has withdrawn that suggestion.

The reasons given for this action are that Tech's team would be too strong for Worcester, and that the Worcester team is to be entered in the Pennsylvania Relay Carnival. This latter meet is scheduled for April 26, which is the same date as that suggested for the dual meet by the Worcester manager.

COMMUNICATION.

To the Editor of THE TECH:

Four years ago the Technology Union was treated with the greatest of respect by students. It was new, and they saw the value to be obtained from such a place. Apparently the Freshmen who entered three years ago were not taught this respect for the Union, because the feeling has changed from one of respect to one of tolerance, and then, I am sorry to say, to contempt and disrespect. There is, however, only a small minority who really disrespect the Union but there are a great many whose feeling is merely one of tolerance. If some change for the better is not made the latter class will soon hold the opinions of the former.

This change should be made by those Freshmen of three years ago,—the present-day Seniors,—and by all who have since followed. It should not be left entirely to the Union House Committee, or to the Class Presidents, as has been suggested.

The Class President is not supposed to be a policeman. The House Committee can institute any number of rules and regulations, but if these are not obeyed they amount to nothing. I hope it will not be necessary to place student policemen in the Union to see that the rules of the present House Committee are obeyed. The new committee has started in the right way, and if their regulations are obeyed the Union will be kept as it should be. All they need, all they ask, is that every Freshman, Sophomore, Junior and Senior who considers himself a gentleman, act like a gentleman, and demand that some of his less fortunate classmates assume the part of a gentleman while in the Technology Union.

Wm. R. Mattson,
President, 1913.

WRESTLING TEAM WINS

(Continued from Page 1.)

The team was treated royally by the Beverly men, and were shown every possible kindness and favor. Indeed all the members of the team unite in expressing their respect for the fine treatment shown them. A large crowd attended the meet, as Tech's team has a very good reputation.

Saler was Tech's entrant in the 115-pound class, and the little fellow once more secured a fall in his character.

FACULTY MEN VISIT ALUMNI ASSOCIATIONS

Dean in Buffalo and Cleveland—Bursar Goes to New York This Week.

Dean Alfred E. Burton has been spending the last few days visiting the Alumni Associations of Northern Ohio and Buffalo. Saturday evening he attended a dinner of the former association in Cleveland, and this evening he will be the guest of the Buffalo Club at its reunion dinner in that city. Both those alumni organizations are very prosperous, and each has a membership of about two hundred and fifty. The fact that at such gatherings there is always a representative of the Institute with the latest news and gossip from Boston gives them much additional interest.

Following out this idea of having Institute men at the various alumni gatherings, Bursar Rand will be the guest of the Pittsburg association on March 8. Next week Frederick H. Fay, president of the Alumni Council, will attend an alumni banquet in Providence. He will also be present at the great reunion to be held in Chicago this summer.

Professor W. T. Sedgwick, head of the Department of Biology and Public Health, was invited to speak at a New York dinner given Saturday in honor of Professor Chittenden of Yale. The dinner was a very important one, and an announcement was made of the moneys contributed to the Sheffield Scientific School for research work in physiological chemistry.

INAUGURATION POSTPONED

(Continued from Page 2.)

piercing scream that sent shivers down his spine. It was followed by another, and still another, and then the air became thick with fumes of ammonia.

He rushed to the trap and there he saw what appeared to him to be a whirling and writhing creature with a parchment in its hand and struggling to get free. The scribe saw at once that if he could get possession of the parchment he would have the solution of the problem. But the ammonia fumes had gone to his head, and he indiscreetly released the spirit. Horrors upon horrors! Little did he realize what he had done. Instead of quickly despatching the wraiths he had fizzled the whole plan so skillfully devised. The result of his action is serious indeed. There will doubtless be a postponement of the inauguration at Washington, and the poor scribe may be arrested for committing a Federal crime, for is not the whole country stirred up by this terrible mystery?

There is but one thing that is keeping the staff of THE TECH from losing their sanity, and that is the startling statement made by Prof. Hugo Mumsterberg of Harvard, who in an interview stated that after a consideration of the facts and circumstances of this extremely wonderful case, that this is nothing but the foreshadow of some remarkable event, known technically as "Rockmorawen Iteswenau." He also stated that it would not live more than a certain length of time, and according to his accurate determination it should give up its ghost tonight, at midnight. The staff of THE TECH, together with some of the greatest scientists in the country, will be present to witness the event, and all Tech men who will not be busy in pursuit of their lessons at that hour are cordially invited.

Captain Germain, of the track team, has almost entirely recovered from his recent illness, and will begin training for the spring work this week.

Are you a regular subscriber to THE TECH.

PROVIDENCE MEN WILL SUPPORT SHOW

Rehearsals Every Day This Week—Men to Be Measured For Costumes Saturday.

For the last few days R. E. Weeks, general manager of Tech Show, 1913, has been communicating with some of the theatres in New York and Providence as to the advisability of taking the Show to these two places. As a result of this it has been practically settled to have the Show in Providence, and it will be definitely decided today whether New York is to have it or not.

Several men in Providence who are interested in amateur theatricals have volunteered to give their aid and support to a production in that place. Two of these gentlemen, Mr. Wheelwright and Mr. Stiness, are not Institute men at all, and their help is very much appreciated by the Show management. The "Sock and Ruskin Dramatic Society" of Brown University has offered its aid also.

The program for rehearsals this week is as follows:

Today, at 4.15, the cast will rehearse the first act.

Tuesday, at 4.30, the chorus will meet and the final selection of men will be made.

Wednesday at 4.30, cast will rehearse second act.

Thursday, at 5 o'clock, the chorus will start Show music with Mr. McConathy.

Friday, at 4.15, cast will rehearse third act.

Saturday, everyone must be present at 2 o'clock, as Mr. McConathy will go over all music with the chorus, and all men will be measured for costumes.

Every man must know his part by Saturday as Mr. Sanger will attend rehearsals after that date, and no man will be considered if he can not go through these practices without looking at a book or being prompted.

WRESTLING TEAM WINS

(Continued from Page 2.)

istically quick manner. The time was 4 minutes.

The two defeats of the evening came in the bouts of the 125-pound class. Means was defeated by a fall in 5 minutes, after a close contest. Loo, the other entrant in this class, was outweighed about six pounds, and, as this is his first year's wrestling he is rather inexperienced, and the handicap was too great to overcome. He lost by a fall in 2 minutes and 30 seconds.

In the 135-pound class, Blodgett, of Tech, won a fall from Karakis of Beverly in 9 minutes and 30 seconds. Kelley also won his bout by a fall in 2 minutes. He displayed customary good form, and his wrestling was up to his usual standard.

Smythe-Martin was one of Tech's entrants in the next class, which was for 145-pound men, and his bout was a long drawn out affair. He was opposed by Brewer of Beverly, and the match was a very good one. Smythe-Martin was awarded the decision after the contest had proceeded the limit of 15 minutes. Alexander was also in this class, and was opposed by the best man on the Beverly team. The bout was the hardest fought of the meet, being very closely contested throughout. Alexander, however, succeeded in getting the best of his opponent, and won a fall in 14 minutes.

Captain Treat, in the 158-pound class won his bout from all in 8 minutes and 36 seconds.

Crowell won the final bout in the heavyweight class from a fall in the quick time of 3 minutes and 36 seconds.

The team will now prepare for its hardest meet of the season, to be held on March 15. This match is with the Boston Y. M. C. U. team, which is one of the best teams in the State. They have won consistently throughout the season, as has the Tech team, and it will be a close, exciting contest when the two teams get together.

"Keeping a Stiff Front."

is as good in a man's character, as in his shirt. If his laundryman will only keep that shirt front white and stiff he'll be satisfied. Well, we make a specialty of doing Laundry work as it should be done, and for that reason we always manage to keep our customers. We guarantee care, cleanliness and excellent finish to every article entrusted to us.
