PROF. SIGN-UP BOOKS OPEN TO ALL TODAY
Two Members of Committee to Be in Union From 1 to 2—Few Slips Left.

At noon today the Junior Prom sign-up books will be open for the two months' period in charge of the hands of A. T. Wyman and A. D. Miller, who may be found in the Union immediately and at 2 o'clock. Giving the fact that this year the number of couples is limited and that the sign-up books were opened to the Juniors and Seniors a week ago, only thirty slips are left. Any of the first or second-year men who wish to go about the premises and secure a number will find them in the Union immediately, as no tickets will be sold at the present promptly at 1 o'clock, in order to assure a rush more to occur at that last minute.

The preliminary dance orders will be distributed sometime during the latter part of this week. The exact date will be announced later.

SOPHOMORE BASEBALL
Meet in Union Today to Elect Captain—Schedule Out.

Today, in the Union, at 1 o'clock, will be held a meeting of all the members of last year's 1915 baseball team. The purpose of the meeting will be the election of a captain for the coming season. It is important that a captain be elected immediately, as practice will start this week, and he will have to take charge of the candidates.

Practice will be held in the Gym for the present, and all candidates are welcome to come. The first of last year's team are still in school, and all who were interested in an excellent team this year are very good.

Manager H. C. Thomas has arranged to have 1400-yard, 400-yard, 220-yard race, 100-yard race, high jump, broad jump, and 3-mile race.

April 15—Medford High School.
April 16—Waltham High, at Waltham.
April 17—Rindge Technical H. S., at Cambridge.
April 18—Rice Technical H. S., at Boston.
April 19—Tech Field.
April 22—May 3, Tech Field.
April 26—Medford; May 16, Lawrence Academy at Tech Field; May 21, 1916, at Tech Field.

In case of a tie between 1915 and 1916 another game will be played May 24, at Tech Field.

MAJ. BRIGGS HONORED.
It was recently announced that Maj. F. B. Briggs had been reappointed to the Advisory Committee of the K. T. A. for a term of three years. The members of the executive committee were also announced, but the Institute is not represented upon it.

For a few weeks now the Institute has been near future to decide upon the plans for holding the championship this spring. Tech is making a large effort to have the meet held at Tech Field. The Institute has taken quite a large number of records to show that it would be the best place for the purpose.

Very few букеты and картины быта were noticed in the Regimental Hop last week.

RADICAL CHANGE IN PUBLICATION OF JUNIOR ANNUAL MADE THIS YEAR
Entire Edition of Technique 1914 will be 'De Luxe'—Price will be Much Lower than that of Last Year.

This year's Technique will mark a radical change in the publication of the Annual. After careful deliberation the Board have decided to publish, in all, de luxe edition, which is to be called "Technique". The reason for the change is to create a record to show that it would be the received and very highly spoken of effort to have the meet held at Tech Field. The Institute has taken quite a large number of records to show that it would be the best place for the purpose.

The preliminary dance orders will be distributed some time during the month.

S. H. KING WILL SPEAK.
T. C. A. Secures Charlston County Man For Next Thursday.

Mr. Stanton H. King has been secured by the T. C. A. as the speaker for Thursday next, who will address the Union. Mr. King is the well-known poet of the "Seamen's Book".

His talk will be in the form of a discussion, and will be very interesting. The bulletin management original-

MONDAY, MAR. 4, 1913

We heartily congratulate Technique, 1913, on its first appearance. Surely, part and parcel of traditions regarding the kindest of techniques, the question, be a decided improvement over old system and become a custom which should endure. The old adage ceteris paribus was very cumbrous, and wholly unfit for the relativistic, while the cloth binding failed to give Technique the individuality and "ease" that it really deserved.

Again, we wish to call the attention of the Sophomores to the fact that they are voting for an electoral committee which elects the Technique Board for 1913. They are in no way electing the board itself at this time. For particulars regarding this electoral college we refer you to the last edition of "Concerning M. I. T." or any copy of the present Technique Board for 1914.

There seems to be far less criticism of any sort of the new Constitution for the M. I. T. Undergraduate Association than we had hoped to see. There is now opportunity for forming a very clear idea of what it contains and of presenting any better ideas that may be in your minds. We are glad to publish any material concerning it.

With all the proposed activity of the Union House Committee, we should like to suggest that a little more thought be taken before building with heat. On several occasions the rooms have been so cold that it has been impossible to be comfortable in them.

If your thesis is not the most absorbing and enjoyable work you have done at the Institute, you are not doing your best on it.

To every one, be he engineer, scientist or architect, the habit of careful truth and exact statement is absolutely necessary, and should be taught as a fundamental principle.

Likewise, how can honesty be a policy? Have we become so degraded that our philosophy that we consider honesty a mere rule or trick of wisdom for use in worldly dealings rather than a fundamental principle of highest order?

CORRECTION.

Although it was announced in Monday's issue that the spring track meet with Worcester Tech would be held on March 8, the correct date is Thursday March 7. This week's assignment will include a few more sprints.

For the record, the announcement included a few more sprints.

The excitement and commotion in the Tech gymnasium last night was, to say the least, awful. After a week of planning and scheming, aided by some of the greatest minds in the Institute, it became clear that what seemed to be a simple-minded plan had fallen through. It smelled suspiciously, but it was decided to work out another plan: "Is it the spirits of ammonia?"

With this basic sentence in mind the Junior class in expressing their respect for the President, as has been suggested.

The Class President is not supposed to be a policeman. The House Committee, or to the Class as a whole, is not supposed to be a second-class matter. The latter class will soon be a decided improvement over the old system and become a custom which should endure. The Class President is not supposed to be a policeman. The House Committee, or to the Class as a whole, is not supposed to be a second-class matter.

This latter meet is scheduled for April 19, which is the same date as that suggested for the dual meet by the Worcester manager.

To the Editor of THE TECH:

PROVIDENCE MEN
WILL SUPPORT SHOW

Rehearsals Every Day This Week—Men to Be Measured—Announce the Arrival of a Complete
For Costumes Saturday.

For the last few days R. B. Weeks, general manager of Tech Show, has been communicating
with some of the theatre people in New York and Providence as to the advisability of getting
the Show to these two places. As a result of this the Tech has been promised to have the Show in
Providence, and it will be definitely decided today whether New York will
have it or not.

Several men in Providence who are interested in amateur theatres have volunteered to
sell the show in Providence, and it will be definitely
and all the Tech men who will
gives them much additional interest.

Following out this idea of having putting on a show at the various alumni gatherings, Bursar Rand will be the
sip is the part of the problem, and
Yale, will be invited to speak at a New
liesen, to be held in Providence. He will also be present at the great reunion to be held
in Chicago this summer.

Professor T. S. Sadwick, head of the
ning at St. John's Hospital, was invited to speak at a
in the Science Hall, in honor of Professor Chittenden of Yale. The dinner was a very important one
and an announcement was made of the moneys contributed to the Schiff
in the field of scientific work in physiological chemistry.

INAUGURATION POSTPONED

pierced it with a sonnet that sent shivers
down his spine. It was followed by
another, and still another, and then the
in high voice with the potted

There is but one thing that is keep-
ing the staff of THE TECH from
losing their sanity, and that is the
written statement made by Professor
Hugo Munsterberg of Harvard, who
is in an interview stated that after a
consideration of the facts and circum-
stances of this extremely wonderful
case, that there is nothing but the
horrible mystery.

The staff of THE TECH have been
cooperating with the greatest scientists in the
country, will be present to witness the
secret, and all Tech men who will not
be busy in April of their lec-
tures at that time are cordially invited.

Captain Germain, of the track team,
has almost entirely recovered from his
injuries at Allston, and will be ready
for the spring work this week.
