

THE TECH

VOL. XXXII. NO. 104

BOSTON, MASS., FRIDAY, MARCH 7, 1913

PRICE TWO CENTS

INTERESTING MEETING.

Institute Committee Will Discuss Show Trip.

The question of the Tech Show trip to New York, which was brought up at the Institute Committee last Wednesday, seems so important that the regular March meeting is to be held today at 4.15, in 8, Eng. C. A New York trip would be a new feature in the Show schedule, and would be a good thing for that activity if it could be successfully carried out. The Institute Committee wishes to do as much as possible to help activities, and at this meeting it will probably decide whether or not to back the trip.

Plans for the Walker Memorial across the river will also be considered. Use will probably be made of the material published in yesterday's special edition of THE TECH, and everything pertaining to the comfortable and convenient arrangement of the new social center will be discussed from the point of view of the students. The committee may prepare recommendations on this subject to be submitted to the Faculty.

THE TECH advisory Council will submit a report containing a statement of the financial condition of the paper, and will make some recommendations which should interest the men on THE TECH Board. As the meeting is to be of especial interest and importance a full attendance is desired.

COMMUNICATION.

To the Editor of THE TECH:

I am in receipt of a communication from the Intercollegiate Peace Association from the Intercollegiate Peace Association, with regard to a proposed oratorical contest to be held this spring. As there is no existing organization at the Institute which can handle the matter, I have been requested to present the facts to the student body. Ever since the year 1907 the Association has held yearly State contests, with prizes, in as many of the States as showed an interest. The winner of the State contest then represented his State in an interstate or group contest, and the winner here again delivered his oration at the Mohunk Conference, where another prize is offered.

Last year there were two group contests, the Western and the Eastern. The contest of the Eastern group was held at Allegheny College, Pa. on May 3rd. The subjects were such as: "National Honor and Vital Interests," "America's Mission to Mankind," "War—The Demoralizer," and so on. All of the group contestants had already won a State prize of \$75.00. The two winning contestants were heard at the Lake Mohunk Conference, May 16. The prizes received there were, of course, the least considerable part of the benefit; but, as a matter of fact, they amounted, directly or indirectly, to about two hundred dollars for each man. In addition the association paid half the expenses of the contestants for this contest.

In 1913 it is hoped to have, in all about thirteen States participating, and it is probable that Massachusetts will be for the first time represented.

(Continued on Page 3.)

SHOW PERFORMANCE IN NEW YORK CERTAIN

To Be Given in Hotel Astor—Many Seats Already Signed Up For.

At a special meeting of the Institute Committee, held the other afternoon the plans of Tech Show, 1913, for the New York trip were officially approved.

For the past four years it has been the dream of the management to give a New York performance of Tech Show. Last year, under General Manager Woehling, a most decided effort was made in this direction, but the support of the alumni could not be enlisted sufficiently to permit such a performance, and after much correspondence the idea was laid on the table for consideration by this year's management.

Early in September of last year General Manager Weeks took the matter up with Manager Muschenheim of the Hotel Astor in New York, and with the officers of the Technology Club in that city. A few weeks before the big Congress of Technology a committee was appointed by the Technology Club to act as an advisory board. The committee consisted of Mr. Kaludy Spalding, '89; Mr. J. P. B. Fiske, '89; Mr. W. H. Martin, '11, and Mr. H. E. Stump, '10, and has done very creditable work in securing the support of the alumni in that city. The Publicity Department of the Show did very extensive advertising

(Continued to Page 3.)

INSTITUTE COMMITTEE.

The Institute Committee held a special meeting last Wednesday afternoon. Manager Weeks, of Tech Show, 1913, presented to the committee the proposal of the Show to present a performance in New York City this year. The committee expressed its approval of the plan.

The treasurer of the committee reported a balance of \$327.07 on hand March first.

Mr. Peck, who reported for the Committee on Constitution and By-Laws, said that plans have been made to present the Constitution to the students by placing copies of it in their hands so that they shall be able to vote intelligently after they have carefully considered it.

SENIOR CLASS DAY.

Ballots For Committee at the Cage Today.

The ballots for the 1913 Class Day Committee are out today, and may be obtained at the Cage. The names of all Seniors who have paid their class dues are included in the ballot. The Class Day Committee has charge of all the arrangements for Senior Week, so it is important that every 1913 man should express his choice of who is to be on it. The ballots are due Wednesday, March 12, at the Cage.

CHEMICAL MEETING.

The Chemical Society will hold a meeting today at 4 P. M., in Room 23, Pierce. The officers urge all members to be present as important business is to be taken up.

SOPHOMORE ELECTORAL COMMITTEE CHOSEN

Many Prominent Men Elected—First Meeting to Be Held Tuesday.

Twenty-seven men were elected by the Sophomore class for the 1913 Technique Electoral Board. It was necessary to have two more members than usual this year because four men tied for last place. The men who were elected and the number of votes they received are as follows:

F. P. Scully (51), is vice-president of the class, captain of the class football team and member of last year's team, member of the class basketball and baseball teams, also a member of the M. I. T. A. A. last year. T. J. Barry (50), is clerk of the class, is on the relay and track teams, also on THE TECH. H. R. Crowell (45), is the class treasurer and member of last year's Institute Committee. He is also a member of the wrestling team, class football and track teams.

(Continued on Page 3.)

SOPHOMORES CHOOSE BASEBALL CAPTAIN

A. J. Caffrey Unanimously Elected—Practice Starts Next Tuesday.

At the meeting of all Sophomores interested in baseball, which was held yesterday afternoon, in the Union, A. J. Caffrey was unanimously elected captain for the coming year. Last year Caffrey played short-stop, and he will very likely occupy the same position this season. Manager Thomas enumerated the schedule which he has thus far drawn up and these, together with other proposed games, will make a stiff schedule, but the prospects for a successful season are bright if the considerable material in the class turns out regularly for practice. Practice will be held next week in the Gym, on Tuesday and Thursday afternoons. All baseball men in the Sophomores are expected to report, especially the battery candidates.

BASKETBALL GAME.

The Sophomores will meet the Freshmen in basketball next Tuesday at 4.30, in the Gym. The lineups have not yet been decided on, but will be announced in the early part of next week. At present the Sophomores seem to be slight favorites, but the game, which is the best to be played, promises to be an even and exciting one.

NO MEET WITH MEDFORD.

Wednesday afternoon the manager of the Freshman Track Team was notified that the Medford team would be unable to compete as it had been disbanded by the principal of the Medford High School. One of the Medford men ran in the B. A. A. games when he was low in his studies, and this fact was the cause of the disbanding of the team. It is very regrettable that the Freshman team was not notified sooner, as it would have saved a great deal of trouble and some expense.

BIG CONVOCATION YESTERDAY NOON

Stanton H. King Describes Life of Sailors at Special T. C. A. Meeting.

At the Convocation in Huntington Hall, yesterday noon, Stanton H. King, Superintendent of the Sailors' Haven in Charlestown, spoke to about three hundred students, and it was agreed by all that it was the best Convocation of the year. The speaker had been engaged by the T. C. A. to speak in the Union, but at the request of the President the weekly meeting was changed to a Convocation.

Mr. King has an inimitable way of speaking, and is absolutely the most humorous speaker that ever talked under the auspices of the T. C. A. He commenced by firing upon the unsuspecting audience volley upon volley of laughable statements, and in a few minutes had the entire audience roaring in laughter. It would be useless to try and remember what he said for he talked so fast. But he soon settled down to serious things; told of the misery and plight of the sailor aboard ship, of the uncomfortable quarters that are provided for the men, and urged all to do what they could for the man who makes the world's commerce a possibility. He said that one could very rarely find an American sailor aboard the merchant marine, because an American boy will not work and live under the conditions that a modern sailor must endure.

He stated that the coastwise shipping trade that is expected to develop

(Continued to Page 2.)

MINING SOCIETY.

Dr. Millman to Speak Today in Union at 4 P. M.

The Mining Society will hold a meeting in the Union today at 4 P. M., at which Dr. Millman will be the speaker. All students are invited. Dr. Millman will speak on anthracite coal.

Dr. Millman began his career as a miner boy and has always, since then, been associated with mining towns all through the mining districts. His talk, which deals with the mining of anthracite coal, will be accompanied by a large and complete set of stereopticon slides, which show the latest and most efficient methods used in the mining of coal. He will also describe in detail the life saving equipments which now play a very important part in mining outfits.

The officers of the society are sure that anyone at all interested in coal mining will receive a great deal of interesting as well as instructive information from this lecture. It is hoped that there will be a large attendance at the meeting.

CALENDAR.

Friday, March 7, 1913.

- 4.15—Mandolin Club—Union.
- 4.15—Tech Show, Act 3, Principals—Union.
- 4.00—Chemical Society Meeting—23 Walker.
- 4.00—Mining Society Meeting—Union.
- 4.15—Institute Committee Meeting—8 Eng. C.

CONCERNING WALKER MEMORIAL.

Now that the facts and details of the proposed Walker Memorial have been placed before the Institute body, the undergraduates, and particularly the Freshmen, should be better able to realize the importance of the mission which our present Union has been undergoing. This Union, like the Walker Memorial of the future, is a gift from our loyal Alumni, and is and deserves our hearty respect at all times.

But aside from any question of respect due, the greatest question now is to prepare ourselves for this new and better "Union" in the form of the Walker Memorial. The article by Mr. H. D. Peck in the special issue of yesterday states this question clearly, and expresses the hope that the Freshmen will rise to the occasion and be worthy of and efficient in the management of this new Memorial. Let us realize that the Freshmen of today will be the first managers of the new "Union," and so take it upon ourselves to see that they are properly trained and fitted for this important duty.

CONVOCATION.

(Continued from Page 1.)

after the opening of the Panama Canal would not be realized until the United States government should pass laws that would give a man more than 72 cubic feet of living space aboard ship, as is now the law.

He talked briefly on the work that is done by the Sailors' Haven and asked the Tech men to pay him a visit some Thursday evening and see the weekly entertainments that are given there by various college and prep school musical clubs. He stated that there are at least 3500 sailors on shore every night in this city, and that the Haven receives 500 of them and gives them a chance to have a good time. The only way to help a sailor is to make him happy, a thing he wishes for at all times.

He ended by appealing to the students to help the man that is down and to find out his trouble instead of turning a deaf ear to him.

INTERCLASS TRACK MEET SATURDAY

Sophomores Expected to Take Field Events From Freshmen—Outcome Uncertain.

The annual indoor track meet between the Freshmen and Sophomore classes is to be held Saturday afternoon at the Gym. The meet will start at 2.30 P. M. sharp. No admission fee will be charged. The two classes are very evenly matched in most of the events, and a number of good races ought to be pulled off. The entries are unlimited, as many taking part as desire can enter. Entries are not restricted to those who have been taking regular track work, but anyone in either of the classes who wishes to may enter. The regular track and field events, i. e., the dashes, quarter, half and mile runs, the shot-put, high jump and pole vault make up the list of events.

In the dashes there is sure to be very close competition. Curtis and Smith are very fast men among those of the Sophomores who will show up good in preliminary heats, and are likely to be the ones who will run in the final heat against Adams and Loomis of the Freshmen. Curtis will be the one who is looked on to take first in the 40-yard high hurdles, although Maier will make him travel a good, fast gait to do it.

C. T. Guething is about the fastest man in the two classes in the half-mile, and if he shows up as well as he did in the interclass meet, where he started from the scratch with a big handicap to make up and finished among the first leaders, he ought to take first place. Hall and Hill are rather formidable contenders against Benson in the mile. The fight among these men in this event will be a race well worth seeing. All of these men have been running in excellent form this year and are in good condition to set a lively pace and hold to it. Benson has had a trifle more experience in indoor running this year, having run on the two-mile relay team, but in spite of this fact the race is sure to be very close.

In the field events, the Sophomores are looked upon to take the first places. Teeson will probably take first in the high jump, with Garita of the Freshmen coming along with second place to his credit. Friebus and Laurason are regarded as the two principal contenders for the honors in the pole vault and the contest between these representatives of the two classes is looked upon as rather close. The shot-put will probably go to O'Brien if he enters in this event, otherwise to the Freshmen.

The entire list of events will be closely contested by the members of the respective classes as they are quite evenly matched in all the events. The Freshmen can be looked upon as strong contenders for the longer track events, and the Sophomores for the hurdles and field events. This condition will undoubtedly balance up the points so that the scores of the two classes will be very close together.

REGULAR MEETING OF FINANCE COMMITTEE

Held in the Union Last Evening—Accounts to Be Audited—March 13th.

The regular monthly meeting of the Finance Committee was held in the Union last evening. After the members had enjoyed one of Steward Colton's dinners they adjourned upstairs, and the various treasurers read their monthly reports and comments were made upon the same. The following treasurers failed to submit reports: R. Crowell, for the Class of 1915; Wm. Shakespeare, for the Class of 1916; R. A. Alton, for the Musical Clubs; E. W. Brewster, for Technique, 1913, and L. R. Walsh, for the Union Dining Room.

It was decided that all the treasurers who have not yet had their books audited should bring them to the Show office next Thursday evening, March 13th, and meet the Auditing Committee there.

TECH SHOW.

(Continued from Page 1.)

During the Tech Congress, which resulted in a sufficient number of the alumni signing up for seats for that performance. From this time on the show will be subjected to a vigorous "Publicity Treatment" at the hands of the department which should bring a record-breaking audience, according to present indications.

The Show will give its fifth performance of the season in the Hotel Astor, corner of 44th street and Broadway, on Saturday evening, April 19th, 1913. During the past week a canvass has been made of the students living in the vicinity of New York City, and from them alone one-sixth of the total capacity of the house has been guaranteed. The alumni have lined up for most of the remaining seats. There will be a sale of seats at the Show office some time before the trip, at which time the men at the Institute will be given opportunity to obtain seats. Arrangements are being made with the railroad company for a special train to carry the Show to New York, and a large number of students have made application to go on this train. The Show management will arrange for as many as are desired to make this trip at reduced rates.

COMMUNICATION.

(Continued from Page 1.)

A matter is now being considered at Harvard, Clark and Amherst. The State prizes are \$75.00 and \$50.00. Applications are limited to sixteen minutes in delivery.

The rule of the Association states that local contests must be held before the middle of March, and State contests before the middle of April. I have not been informed as yet of the precise date of the State contest, but the notice has come to me so late that the contestants would need to get in work at once. I shall be glad to consult with any persons who may have an interest in the subject, and, if necessary, to arrange a local con-

PORTFOLIO PICTURES.

March 10th Set as Final Day—None Received After This.

Again the Senior Portfolio Committee wishes to notify all Seniors that pictures for the Portfolio must be in positively on or before Saturday, March 8, and the proofs of these pictures must be handed in not later than Tuesday, March 11, at 5 P. M. To avoid a possible delay in the publication of the book, the committee deemed it necessary to take that step, and they hope that the Seniors will realize the matter and respond to the call at once. The committee also announces again that these Seniors who have not yet presented their history blanks must do so at once.

ELECTORAL BOARD.

(Continued from Page 1.)

E. E. Alt (40), tied for class president has been on the track teams and class relay teams. G. Haslam (37), is a member of the rifle team, and has been on the class football teams. M. E. Hill (33), is on the cross-country team. P. H. Sabin (32), has been on the tug-of-war teams and class athletics. G. Urquhart (31), is on the class Executive Committee. G. B. Hilton (31), was class president last year. F. C. Foote (30), is on the News Board of THE TECH. T. F. Spear (30), is a member of the class Institute Committee and member of the track and class relay teams. W. M. Africa (29) was a member of this year's tug-of-war team. T. A. D. Fesenden (29). W. S. Thomas (29), is assistant manager of the track team and manager of the relay team. S. Woodbridge (28), is a member of the Executive Committee. G. W. Fry (28), is on the Institute Committee. J. M. Livermore (28), pulled on the tug-of-war team. R. L. Fletcher ('27), secretary of the class hockey team, class football and Institute Committee. H. L. Leeb (27), is connected with the Tech Show; F. F. Fulton (27), played on class football and served on the Institute Committee. G. S. Howkins (26), was on the football team. E. R. Hall (25); V. E. Wardwell (23); A. B. Curtis (23), was captain of last year's relay team, and is a member of the Athletic Association. A. M. Morrison, Executive Committee; A. C. Howlett and E. B. Goodell, of the wrestling team, all tied with 22 votes, and were accordingly elected to the board.

The first meeting will be held next Tuesday afternoon at 5 P. M. A fine of twenty-five cents will be levied, as usual, for every absence from any of the meetings, which will be held thrice weekly for the rest of the year. The amount of the per capita deposit will be decided at the first meeting.
