INTERESTING MEETING.
Institute Committee Will Discuss Show Trip.

The question of the Tech Show trip to New York was brought up at the Institute Committee last Wednesday, seems so important that the regular March meeting is to be held today at 4:15, in S. Eng. C. A New York trip would be a new feature in the show schedule, and would be a good thing for that activity if it could be successfully carried out. The question of the trip was much as possible to help activities, and at this meeting it will probably be decided whether or not to hold the trip.

Plans for the Walker Memorial across the river will also be considered. Use will probably be made of the material published in yesterday’s special edition of “The Tech,” and everything pointing to the possible and convenient arrangement of the memorial, which can be done on time. Mr. H. E. Stump, ’10, also made a suggestion at the meeting regarding the idea of having a record of the show over the radio, which was agreed by all that it was the best combination of the two.

SHOW PERFORMANCE IN NEW YORK CERTAIN

To Be Given in Hotel Astor—Many Seats Already Signed Up For.

At a special meeting of the Institute Committee, held the other afternoon, the plans of Tech Show, 1913, for the New York trip were officially approved.

For the past four years it has been the trend of the management to give a New York performance of Tech Show. Last year, under General Manager Woolrich, a most decided effort was made in this direction, but the present of the show continued and the management decided to make such a trip.

Early in September of last year, Mr. Peck, who was the manager of Tech Show, made an effort to arrange a show trip. The trip was made in this direction, but the management decided to make such a trip.

The plans for the Walker Memorial across the river will also be considered. Use will probably be made of the material published in yesterday’s special edition of “The Tech,” and everything pointing to the possible and convenient arrangement of the memorial, which can be done on time. Mr. H. E. Stump, ’10, also made a suggestion at the meeting regarding the idea of having a record of the show over the radio, which was agreed by all that it was the best combination of the two.

COMMUNICATION.
To the Editor of “The Tech”:

I am in receipt of a communication from the Intercollegiate Peace Association. The communication is in favor of the proposed international congress to be held this spring. As there is an interest in the peace movement, the communication was of interest to the students. The committee may probably consider the communication later.

INSTITUTE COMMITTEE.
The Institute Committee held a special meeting last Wednesday afternoon. Manager Weeks of Tech Show, 1913, presented the committee with a proposal of the show to present a performance in New York City this coming year. The committee expressed its approval of the proposal.

The treasurer of the committee reported for the 1913 Class Day. Caffrey was unanimously elected captain for the coming year. Last spring Caffrey played shortstop, and he was reported for the performance in New York City.

E. C. Weir, who reported for the Committee on Constitution and By-laws, said that plans have been made to include the show of the University of Michigan in the trip. It was also decided to have the relay and track teams, also on the trip.

SENIOR CLASS DAY.
Ballots: For Committee at the Cage Today.

The ballots for the 1913 Class Day Committee are out today, and are to be submitted at the Cage today. The ballots are for the Committee of the Class of 1913, which consists of the senior presidents of the various organizations. The ballots are to be signed by students who have paid their class fees.

The Class Day Committee has charge of all the arrangements for Senior Week. It is important that every 1913 man should express his choice of who is to be on the ballot. The meeting of the Class Day Committee is to be held on Wednesday, March 12, at the Cage.

CHEMICAL MEETING.
The Chemical Society will hold a meeting today at 4 P. M., in Room 12, S. Eng. C. A. All members will be present as important business is to be taken up.

BIG CONVOCATION YESTERDAY NOON
Stanley H. King Describes Life of Sailors at Special T. C. A. Meeting.

At the Convocation in Huntington Hall yesterday morning, Mr. H. E. Stump, Superintendent of the Sailors’ Home in Charleston, spoke to about three hundred students, and it was agreed by all that it was the best Convocation of the year. Mr. Bowlby, the speaker, is very humorous, and he was talking with the students in a way that they could understand, and said that he could not have his audience better.

MINING SOCIETY.
Dr. Millman to Speak Today in Union at 4 P. M.

The Mining Society will hold a meeting in the Union today, at 4 P. M., at which Dr. Millman will be the speaker. All members are invited to attend.

Mr. Millman began his career as a miner boy and has always been interested in mining. He has taught at the school of mining for many years, and is absolutely the most interesting and instructive speaker on mining that ever talked in the Union.

The officers of the society are sure that anyone at all interested in coal mining will receive a great deal of interest as well as instruction in mining.

CALENDAR.
Friday, March 7, 1913.
4:15—Chemical Society-23.
4:15—Tech Show, Act 3, Principal.
4:15—Chemical Society Meeting—23.
4:00—Miners Society Meeting—Union.
4:15—Institute Committee Meeting—Eng. C.

SENIOR CLASS DAY BALLOTS AT CAGE
INTERCLASS TRACK MEET SATURDAY

Bothomores Expected to Take Field Events From Freshmen—Outcome Uncertain

The annual indoor track meet between the Freshmen and Sophomore classes is to be held Saturday afternoon at the Gym. The meet will start at 3:30 P.M. sharp. No admission fee will be charged. The events will be very evenly matched in most of the events, and a number of good races ought to be pulled off. The entries are unlimited, as many taking part as desire can enter. Entries are not restricted to those who have been taking regular track work, but anyone in either of the classes who wish to enter. The regular for the field events, i.e., the dashes, quarter, half and mile runs, the shot-put, high jump and pole vault, make up the list of events.

In the hurdles there is sure to be very close competition. Curtis and Smith are two fast men among the Sophomores who will show up good in preliminary heats, and are likely to be the ones who will run in the final heat against Adams and Loscos of the Freshmen. Curtis will be the one who is looked for to take first in the 40-yard hurdles, although Maler will make him a good, fast fail to do it. C. T. Guesting is about the fastest man in the two classes in the half-mile, and if he shows up as well as he did in the intermediate meet, he started from the scratch, with a big handicap to make up and finished among the first finishers, he ought to take first place. Hall and Hill are other formidable competitors against Pearson in the mile. The fight among the men in this event will be a race well worth seeing. All of these men have been running in excellent form this year and are good enough to set a lively pace and hold it. Benson has had a trifle more experience in indoor running this year, having run on the two-mile relay team, but in spite of this fact the race is sure to be very close.

In the field events, the Sophomores are looked upon to take the first place. Both classes will be strong in the pole vault and the content between these representatives of the two classes is looked upon as rather close. The shot-put, long jump and triple jump events also.

The entire list of events will be closely contested by the members of the respective classes as they are quite evenly matched in all the events. The Freshmen can be looked upon as strong competitors for the longer track events, and the Sophomore class for the hurdles and field events. This condition will undoubtedly balance up the points so that the scores of the two classes will be very close together.

THE TECH.

Published daily, except Sunday, during the college year by students of the Massachusetts Institute of Technology.

Entered as second-class matter, Sept. 18, 1913, at the post office at Boston, Mass., under the Act of Congress of March 3, 1879.

R. C. True, 1916, Business Manager.

S. S. Scudder, 1913, Women's Editor.

F. J. Berthold, 1915, Sports Editor.

P. J. Mace, 1915, Exchange Editor.

L. H. Loomis, 1915, Business Manager.

W. H. Fleming, 1914, Subscription Manager.

The only way to help a sailor is to find out his trouble instead of turning a deaf ear to him.

PORTFOLIO PICTURES.
March 10th Set as Final Day—None Received After This.

Again the Senior Portfolio Committee wishes to notify all Seniors that pictures for the Portfolio must be in positively on or before Saturday, March 8th, and the proofs of these pictures must be handed in not later than Tuesday, March 11th, at 5 P.M. To avoid a possible delay in the publication of the book, the Committee deemed it necessary to take that step and they hope that the Seniors will realize the matter and respond to the call at once. The Committee also announces that there are Seniors who have not yet presented their history blanks and they must do so at once.

TECH SHOW.
(Continued from Page 1.)

During the past week a can has been made of the students' interest in the subject, and, from them, alone one-sixth of the total capacity of the house has been reserved. The students have made application to go there, corner of 44th street and Broadway, on Saturday evening, April 19th, for the Opening of the season in the Hotel. The Show will give its fifth performance. From this time on the show office some time before 7 P.M. will be given opportunity to make this trip at reduced price. A record-breaking audience, according to previous indications.

COMMUNICATION.
(Continued from Page 1.)

Our judgments, like our watches, seldom agree—but they are usually within a few seconds of each other.

One man likes it better in a pipe—another prefers it in a cigarette. But however Velvet is smoked, or wherever it is alway rich and flavorful, it is always free from burn or bite.
