MEETING IN MEMORY OF PROF. DESPREZELLE
President Maclaurin One of the Speakers Copper Hall
Last Night.

At Copley Hall, last night, a meeting was held in memory of Prof. Desprezelle under the auspices of the Boston Society of Architects, the Massachusetts Institute of Technology, and the Boston Architectural Society. Among the decorations of the hall were some of the Professor's works. At the front, directly in back of the stage was an immense drawing of a "Monument dans Pantheon." On the other walls of the room were hung paintings of various subjects. At the front of the room, adjourning room were: "Studies for the Proposed Tech Buildings," which were done while he was acting as an advisory capacity; "Studies for the Peter Brigham Hospital," and "Architectural Museum for Artillery," and many other works of equal value which the presenters were unable to bring.

In his introductory remarks, Mr. Clipperton, one of the speakers, said that Prof. Desprezelle came to America to teach at a time when architecture was in its infancy, and he felt that it was a great change was taking place in the minds of the American people. The gentleman was sometimes of infinite value, and he helped to reach the mark which applied creative minds.

President Maclaurin, who was the next speaker, said in part: "We commonly believe that the profession of teacher is not honored as it should be, and that men of the highest ability are not attracted to its ranks so frequently in America as elsewhere. This is the occasion to discuss such a question, but it may not be out of place to point out that there are many men who are doing splendid work in our schools of architecture with competent Americans. This difficulty has its compensation in other fields."

SOPHOMORES TO MEET FRESHMAN FIVE TODAY
Second of Series of Games Gym For Basketball Title.

The second of the series of basketball games between the freshman and sophomore classes will be played this afternoon at 4:15. The contest between the two teams, without doubt, going to be exceedingly close and interesting one. The rivalry between the two classes has been strong this year. The Sophomore won on Field day and in the final meet last Saturday. The Freshmen won the first of the series of basketball games and have the incentive of another match on account of the Sophs in the game today, in order to get some of the glory for them.

In the last game the Freshmen took a lead at the close of the game with the score in their favor, but the Sophomore had a chance in the last few minutes but was unable to get the ball. The Freshmen are expected to win today, but the Sophomore have a chance to even the score.

President Desprezelle, who was the next speaker, said in part: "We commonly believe that the profession of teacher is not honored as it should be, and that men of the highest ability are not attracted to its ranks so frequently in America as elsewhere. This is the occasion to discuss such a question, but it may not be out of place to point out that there are many men who are doing splendid work in our schools of architecture with competent Americans. This difficulty has its compensation in other fields."

CATHOLIC CLUB DINNER
The Rev. Father Cusick to Give Final Talk on "Evolution."

Wednesday evening, the Catholic Club will hold its regular monthly dinner in the Union dining room at 6 o'clock. The speaker for the evening, the Rev. Father Cusick, will give the third and concluding talk on the subject of "Evolution." Previous talks on this subject have aroused so much interest that the officers of the society extend cordial invitations to any man who desires to attend. The tickets, which cost thirty-five cents, cover the cost of the dinner, and may be obtained from the officers.

After the talk business arrangements concluding the coming annual meeting (the latter was held last week) will be taken up.

SENIOR CLASS BALLOTS.

The ballots for the Senior Class Day elections are now at the Cage, and every one is urged to get a ballot as soon as possible. The election closes, March 12th, at 4 P. M.

COACH EUGENE SANGER CONDUCTS REHEARSAL
Tentative Distribution of Parts Made—Regular Rehearsals Begin Today.

Yesterday afternoon Coach Eugene Sanger conducted his first cast rehearsal in the Union. At this practice he announced that he would be out at 3 o'clock, then practice held from now on will be held from 3 to 4 o'clock. The rehearsal was very interesting, and helped a deal in settling the question of getting the best parts for the characters. The rehearsal was very interesting, and helped a deal in settling the question of getting the best parts for the characters.

PROF. DESPRADELLE. All students within the Boston Post Office Subscribers. 25 cents a year, to adversity and worth.

Tuesday, March 11, 1913

It was indeed fitting that memorial exercises should be held for Prof. Despradelle, a man whose main qualities, genius, enthusiasm and great love of humanity made him one of the most interesting teachers, most respected by the students, and it was so contagious an intense interest which he had in the thoughts and accomplishments of the students, and it was so contagious a joy, when the professor realized that none failed to catch some of it.

Mr. Thomas Hastings said that to every contact with him was a valuable visit to the university. He had only to enter the draughting boards to realize the great nobility which belongs to the teacher's calling, he found it hard to understand how some who might have been second-rate architects, and his influence can affect every detail of his work for the students, and it was so contagious a joy, when the professor realized that none failed to catch some of it.

Mr. Guy Lowell, who spoke next, said that the great difference between an architect and a teacher of architecture, his influence can affect every detail of his work for the students, and it was so contagious a joy, when the professor realized that none failed to catch some of it.

Mr. Guy Lowell, who spoke next, said that the great difference between an architect and a teacher of architecture, his influence can affect every detail of his work for the students, and it was so contagious a joy, when the professor realized that none failed to catch some of it.
SECOND LECTURE ON DRAMA BY MR. BAKER

Lowell Institute Talk Interesting to Large Number of Dramatists and Students.

Yesterday afternoon, at the Lowell Institute lectures in Huntington Hall, Rev. George P. Baker delivered his second article on the drama. Last week's talk dealt with the differences which exist between the drama and the novel. Yesterday, the application of dramatic principles to the composition of plays was explained. He illustrated his point by reading short selections from well chosen productions.

Throughout his talk Mr. Baker laid great stress on the fact that the audience is the factor which the author of a play should have uppermost in his mind. He then mentioned one of the elements which affect the character of the play itself, the way in which it is divided into acts, the nature of the plot, in fact according to Mr. Baker, everything pertaining to the play must be written in. The general public is so perfect in its own eyes that it will not be interested in a drama unless it is divided so that it will best suit the audience.

There is a way a play is played, illustrated by the fact that a single act, when performed in connection with the rest of the production, is very interesting, but if given alone, would not be clear and intelligible to the audience.

In speaking of emphasis, Mr. Baker said that the most important rules for making the first act the most attractive part of the production is very interesting, but that if given alone, would not be clear and intelligible to the audience.

It was shown how some authors have let the eye to the printer to acquit themselves with the facts of the drama and the effect of the first act. Sometimes action, the relationship of the characters to one another, the time, and location, are imparted through the dialogue of the characters. Sometimes the information is given by speeches on the opening scene.

It was shown now some authors have let the eye to the printer to acquit themselves with the facts of the drama and the effect of the first act. Sometimes action, the relationship of the characters to one another, the time, and location, are imparted through the dialogue of the characters. Sometimes the information is given by speeches on the opening scene.

GLEE CLUB REHEARSALS BEGAN ANEW MONDAY

New Songs to Be Tried Out for Use in the Coming Concerts.

Yesterday afternoon the Glee Club, with twelve men, started on a new phase of life. Three new songs were picked up with a snap by the fellows who are getting some life into the work. The Glee Club will meet again this afternoon, when it is expected that all the men will be present. This rehearsal will be at 5 o'clock. Any men who do not attend the rehearsal regularly from now on will be prohibited from singing at the spring concerts.

The Glee Club is scheduled to give a concert at Mason on Monday night. The new songs will be given then, and all the men are expected to get these and learn them. Good progress will surely be made if the fellows will give Mr. Tallman their support.

The members are requested to be at the rehearsal tommorow.

PROF. DESPRADELLE.

(Continued from Page 2.)

Placed to an unusual degree.

He also said that the unexpected success of the last ten years in architecture has been due to colleges. Furthermore, the Institute has always been a leader, and other institutions have followed the Institute's example. Very few men have done more to bring about the systematic means of study.

Mr. King spoke of Professor Despradelles as a man and friend, pointing out the truth about which, in his case, the qualities of both were merged to a greater degree. "Because you were a man," said this personal friend, "we were your friends." Few men had ever approached him without being awed by his large-heartedness, his generosity of a nature richly endowed.

M. Despradelles was essentially human in all the attributes that make up human nature endearing. Freely he had received every one, his thought, his interest, his personality. He gave himself seemingly to every one, his thought, his interest, his personality. Freely he had received every one, his thought, his interest, his personality. Freely he had received every one, his thought, his interest, his personality.

The Boat Club will hold an important meeting this afternoon in the Union, at 4:15 P.M. The permanent officers for the year will be elected, and it is desired that all be present to participate in this election.

EPISCOPALIANS MEET.

The Brotherhood of St. Andrew will hold its usual weekly discussion this evening at 7.15, in Trinity House, at 22 St. James avenue. The Rev. Mr. Baker will lead the meeting. This will be the last meeting before Holy Week, and it is hoped that a large number will attend. Next week it is planned to hold a short service every day in the Trinity Parish House on Clarendon Street, at 7.30 P.M., in accordance with the custom of recent years. This week, in particular, is reserved by the Brotherhood to prepare themselves for Easter.

On next Sunday there will be a Corporate Communion service in Trinity Church at 8 P.M. All the clergy, men, especially Episcopalians, are cordially invited to attend any of the Brotherhood meetings.

TECHNIQUE, 1915.

Today, at 5 P.M., in 21 Rogers, the 1915 Technicale Electorate Committee, consisting of 27 men, will hold its first meeting. As previously announced, the aims, objects and ideas of the committee will be outlined at this meeting. A full attendance is expected, and there will be a fine of 25 cents levied on each absent member.

WHERE THERE'S SMOKING, THERE'S FIRE

The Glee Club is scheduled to give a concert at Mason on Monday night. The new songs will be given then, and all the men are expected to get these and learn them. Good progress will surely be made if the fellows will give Mr. Tallman their support.

The members are requested to be at the rehearsal tommorow.

PRESS & HERBERT TAILORS

Announce the arrival of a complete Spring and Summer Stock of High Grade Fabrics. We are making a speciality of full dress suits. A suggestion to you. Come up and take a good dress suit, in time for the Junior Week Parties. We can handle you right for both quality and price. Tel. B. B. 9397.
