HEAD OF BOSTON UNIVERSITY TALKS TO LARGE CROWD ON “LIVING ONE'S OWN LIFE.”

President Murlin of Boston University addressed the students yesterday noon at the Union, in the first Thursday noon talk given under the auspices of the Technology Christian Association. The meeting was well attended and was thoroughly enjoyed and appreciated by the students.

President Murlin said: "The consensus of opinion is that a man is largely made by the important stage in his life. The most important period in the life of a student is his four years spent at the Institute. He is cut loose from all of his former influences and starts to form his own ideas. Each man lives in his own world and among his own friends and associates. This period, as a man's choice of friends, determines his character for the future. A man makes his future because of what he has done in the past.

This principle applies in all walks of life; it helps to build a man up in social and moral problems in life. The man who is cut loose in his own world and among his own friends and associates is in his own world and among his own friends and associates. This period, as a man's choice of friends, determines his character for the future. A man makes his future because of what he has done in the past.

This principle applies in all walks of life; it helps to build a man up in social and moral problems in life. The man who is cut loose in his own world and among his own friends and associates is in his own world and among his own friends and associates. This period, as a man's choice of friends, determines his character for the future. A man makes his future because of what he has done in the past.

THE TECH

BOSTON, MASS.

October 11, 1912

OPENING GAME OF SEASON

B. Y. M. C. A. ELEVEN

The Tech baseball team will play its first game of the season when it meets the B. Y. M. C. A. eleven at 10 o'clock at the Tech Ball Park. The match is to be played on the Tech Athletic Field. Tuesday, October 11th.

The Freshmen will walk off with the game.

A large crowd is expected.

SECRETARIES TO MEET

The Tech Chapter of the British Association expressed its appreciation of the splendid cooperation of the secretaries of all Institute activities for the purpose of adopting a system of uniform minute books, and it was announced that such a meeting will be held at 5 o'clock Tuesday afternoon in the Union, at 5 o'clock.

Up to the present time Manager Hyde has games arranged with:

Oct. 16, St. John's Academy; Nov. 6, Lowell Textile; Field Day. Captain Scully wants to call attention to the fact that Sophomores that unless more men show up for practice, in order to have a scrimmage, the chances are that the Freshmen will walk off with the greenlight battle on November 11th.

STUDENTS' PEWS

The Tech Chapter of the Brotherhood of St. Andrews has received one of its annuals. At last there are three pews in Trinity Church at the disposal of all Tech men. These pews are numbers 107, 106, 114, and every student is expected to fill it at perfect liberty to use them. They are located in the middle aisle, and if the student does not tell the usher that he is a Tech man he will not be able to obtain the use of one of these pews. It is attending Trinity for the first time he is asked to enter by the Cranford street door and make himself known to Dr. Mann.
GOOD TRACK MATERIAL IN FRESHMAN CLASS

Twenty-eight Men Report For Relay Work — Good Pole Vaultor, Too.

The Freshmen have been particu-
larly responsible to the call of Coach
Kanay for track men, twenty-eight
having come out for the relay work.
A large number of them are men
who have never run before, and
among this number are some who are
showing up well. This fact should
be an incentive to men who are re-
strictively to come out for track work,
because they have had no previous
experience.

Several men are giving valuable as-
sistance in cross-country work. C. T.
Gushing is showing up strong in this
line. He shows steady improvement,
and the chances are that he will make
the team. Quite a number of men are
working with the weights, among
these Hawley seems to be showing the
most improvement. Lanham appears to
have the makings of a good pole
vaulter, and he will probably repre-
sent the Institute in most of the meets.

Coach Kanay is particularly fortu-
nate in having such a wealth of good
material in the new class and will
probably be able to fill the places of
the men lost to the team by gradu-
ation.

1912 TUG-OF-WAR.

Twenty-two Men Reported Fri-
day—Many More Needed.

Friday afternoon, at the Gym,
twenty-two men reported for the Freshman tug-of-war team. This
shows an increase but there ought to
be at least double that number now.

The practice consisted in short
pulls against the stake and counting
off. H. A. Millard, captain of last year's Sophomore team, coached the men,
and was assisted by C. P. White, man-
ger of the 1914 tug-of-war.

The following men reported for
practice: MacLean, Fletcher, Carpen-
ter, Peiper, Connolly, Beall, Block-
mere, Sanford, Dewson, Chairman,
Gurney, Snelling, Sully, Ronequet,
Rivers, Faller, Curtis, Hoag, Young-
end, Hustle, Ellis and Bennett.

Practice is held every day at the
Gym at 4 o'clock except Saturday.

COLLEGE NOTES.

The Athletic Board of Brown has
volunteered that there will be no Fresh-
man football team because of the pre-
vious consistent failures of the clas-
ses to make good in that direction.

The use of fountain pens has been
contracted in certain buildings at the
University of Kansas, because
through the carelessness of students
the floors were being ruined with
ink.

The University of Michigan has
made a change in the system of mark-
ing. Hereunder, only two grades
have been given—passing and fail-
ure. Now a system of grades showing
different qualities of work is to be in-
augurated.

A cyclone recently wiped out the
many of Syracuse. The loss is es-
imated at $8000 and includes the en-
tire loss of their boat house, seven
shelter, six oar boats and about
seventy-five tons of valuable

Sixty-one men, the largest cross-
country squad in the history of Har-
vard, reported for fall
