BIG TECH BOWLING LEAGUE ORGANIZED

Faculty to Play Lane's Team Tonight—Six Teams Now in Field.

With the encouragement of the Trinity Court Bowling Alley, a bowling league of Technology students has been formed. Six teams are already active and it is hoped that another formal will be made up within a short time. Good prizes are offered by Mr. Thrasher, manager of the alley. Fifteen dollars is to go to the team winning the largest number of games, and ten dollars to the team winning the next largest number. In addition prizes will also be awarded to the men. For instance, the man getting the highest average for the tournament will receive fifteen dollars, and the man with the highest single series will get seven and a half. Furthermore, the contestant making the highest three-string total gets seven dollars and $1 1/2. Only one condition is imposed on the students who enter the contest, namely, a man must be a member of the team for which he is registered to be eligible for any of the prizes.

Up to the present time the teams are divided as follows: Team No. 1: Eastern; Lovejoy, Schenck; Team No. 2: Mauk, Mann, Yohe, Jonas; Classmate; Team No. 3: Romney, Duff, Yeh, Hall, Lewis; Team No. 4: Storrier, Ham, Halper, Holcher, Huber. Team No. 5: Lane; Benedict, Mahoney, Williams. Team No. 6: C. M. Macdonald of the Mechanical Engineering Department. Prof. W. H. Oliver is in charge of the Bowling Department and Prof. H. K. Harlow of the Mechanical Engineering Department.

ANTHONY CLAYTON

CATHOLIC CLUB DANCE

Among Most Enjoyable Affairs at the Institute.

Among the most enjoyable and most publicized involvements at the Institute are the Southern Club dances, which is to be held at the Union on Saturday, May 18, from 8 to 12, at Hotel Turtles. Unusual are the chances that are to be limited to club members only, but all students wishing to attend this affair are urged to come to the office of the club for invitations. The subscription price is two dollars and a half per couple, including refreshments.

The music for the dance are: Mrs. George H. Ranney, Mrs. Alfred E. Burch, Mrs. Charles M. Spofford and Mrs. C. G. Gay.

SOPHOMORE BASEBALL

The second practice of the baseball team was held yesterday afternoon at the gym. The work continued under the direction of Mr. Tomlinson, who instructed the team to go through their regular practice. A large number of new men turned out for the practice, and the team is believed to have more than enough material for the season.

If the weather permits, batting and fielding practice will be held at the field this afternoon, and the team will be divided into two teams for practice. The practice will continue until the team is in good condition to be composed of the best players on the team. The practice will be held every day until the team is in good condition.

The name of the teams has not been decided, but it is probable that the names will be 'Knights' and 'Knights.' The practice will be held in the gym and the field, and the team will be divided into two teams for practice. The practice will continue until the team is in good condition to be composed of the best players on the team. The practice will be held every day until the team is in good condition.

Judge F. F. Myrick, of higher class members.

CATHOLIC CLUB

(Continued from Page 1.)

Mrs. Richard C. Mackenzie, Mrs. John Martin, Mrs. James M. Simonds and Cunningham, Mrs. John F. Fitzgerald, Mrs. James A. Wake.

The committee which was appointed to consider the donation of Catholic books relating to science to the General Library in Rogers Building reported that the first book the club will give is a Catholic Encyclopedia. Nothing definite was reported to the Inspectors Committee excepting that several men in the Architectural Department were working on various designs for the club pin.

Next Sunday the Catholic Club will attend the St. O'clock Mass at the Cathedral to receive the Holy Communion. All members are especially urged to attend.

Weather forecast for Saturday: fine season among our youngest; they receive their first U. S. marks.

At a recent college meeting the students of Lehigh University voted to raise their annual fee toward the support of athletics, from $7 to $8.

PRINCIPLES OF PLAY
WRITING EXPLAINED

Mr. Baker’s Lectures Interest
Men Who Write For Tech Show.

The Lowell Institute lectures on the
subject of the drama, which are being
given by Mr. George P. Baker, are of particular interest to Tech
men who are expecting to do any work in the Way of writing for Tech Shows.
In this series Mr. Baker is explaining
some features of the mechanism of plays which might be quite overlooked by
the average play-goer, but which are of vital importance to the wouldn’t
author.

Yesterday afternoon the third of this series of lectures was delivered in
Huntington Hall. Mr. Baker spoke on
the ‘‘Illustrative incidents’’ of the play,
the value of surprise and climax in
holding the interest of an audience,
principles of securing proper progress of the action, and the necessity of
clearly impressing the author’s ideas
upon the audience.

In the first act of every play the
characters must be ‘‘introduced’’ to the audience. Certain necessary facts about their previous history and rela-
tions to each other must be made
plain, and the devices used to effect
this are called the Illustrative Inci-
ents. Different devices are employed,
one plan being to arrange dialogue between the players, but it is very
important that the facts be brought
out in a perfectly natural way. The
audience should not be allowed to
perceive the mechanical details, but
the ideas the author wishes to convey.

Surprise is a means often used to
maintain interest, and it is valuable if
used in moderation. An audience en-
joys unexpected or mystifying situa-
tions, but a play should not depend on
them alone. A long series of mys-
tifying and perplexing incidents puzzle
and confuse the spectator to such an
extent that he gives up trying to solve
them and loses interest. For this rea-
son an attempt to keep the audience
in suspense by leaving everything un-
known until the last act defeats its
own purpose.

A proper use of climax is one of the
best ways of holding interest and
maintaining suspense. The author’s
success in this manner is improved very
through the emotional incidents—and emotional effects depend on
climax. True climax is that which
produces the effect desired by the au-
thor, no matter what the mechanism.
Care must be given to the progress of the play. All the acts should have a close relation to each other. Common
wise principle are: inserting a scene which
has no logical place in the develop-
ment of the main theme, omitting a scene which is necessary for a com-
plete understanding of the plot, and
adding a superfluous act which is
merely an anticlimax.

Mr. Baker, in closing, emphasized
the importance of giving an audience a clear idea of the author’s purpose in
writing his play. Too frequently the
playgoer is asked to look at a scene and
not sufficiently driven home in the mind of
the spectator.

The next lecture is to be held Mon-
day at 5 P.M. It will be along the same
general lines as the last one.

CHESS CLUB MEETING

This month in the Union, there will
be a meeting of the Executive Committee of the Chess Club, to make
definite arrangements about future
games. The date of the return match
with Harvard has been undecided for
some time, but it is hoped to settle it
at the meeting this month.
