TECH SHOW CAST AND CHORUS TO REHEARSE

Coach Sanger Will Go Through the Book—Mr. M. Conaty to Lead Chorus.

This afternoon, at 3 o'clock, both cast and chorus will rehearse in the Union. Mr. Sanger will go over the entire book and the management anxious that everyone in the show must be present.

Mr. Osborne Conaty will conduct the chorus in conjunction with the orchestra, the latter playing the Tech show songs. Mr. Conaty is quite promiment in musical circles in and around Boston. Just recently he had charge of the orchestra in the production of the Mikado given in Boston by the Mandolin Club of that place. He is in charge of the high school vocal work in that town besides being connected with numerous societies around Boston. He has done much back work and is now leader of the show orchestra.

The orchestra has improved immensely, says Coach Sanger, and with him and Mr. Sonier as coaches, the prospects of this year's show are excellent.

K. Stage Manager G. E. Thayer would like to see all who wish to try out for light men in the show office on Tuesday, at 4:30 o'clock.

HARE AND HOUND RUN

Train Leaves Trinity Place at 2:04 This Afternoon.

This afternoon the Hare and Hound Club will hold its first run of the spring. A bunch of about thirty fellows are expected to show up at Trinity Place for the 2:04 train. The club to hold the run at Newton, the distance being about four or five miles. As this is the first time out on the race will not be very fast, the idea being to give the squad a start in practice work in preparation for the spring meet. After the run the Newton M. C. A. swimming pool will be open for the use of the fellows. This pool is one of the finest M. C. A. pools around Greater Boston, and the prospect of a good swim after the run ought to be quite an inducement to everyone that can to come out.

DATE SET FOR TECHNIQUE RUSH

Rush to Be Held April 15 in Old Stand in Rear of Copley Plaza.

Through the courtesy of the manager of the Copley Plaza Hotel the biggest lot in the rear of the hotel will be available this year for the Technique Rush. This will make it possible for a large number of people to witness this spectacular event most advantageously from the windows of First Building and Engineering. The elevated position of the sidemans, surrounding the lot will make it possible for spectators to see the contest well from the sidewalk. The date chosen for the time of the rush is April 15, at 1:30 o'clock. After careful consideration the Managers Board of the Tech Rush Committee has decided that this time will be the most convenient for the greatest number of people.

The management promises that plans for the rush, initiated for Technique, 1914, a national contest for both style and contestants. This coupled with the prediction that the rush is to take place on the same ground that the first rush was held on should be a great incentive to every undergraduate to make a strong try for one of the coveted volumes bearing the signature of President Maxham.

CHESS TEAM CHOSEN.

Men to Meet Brown in Tournament on March 29.

At a meeting of the Executive Committee of the Chess Club further arrangements for the coming meet with Brown were discussed and four men chosen to play. These men are: J. B. Hoyt, '13; C. E. Norwood, '14; O. H. Mallory, '14; and W. W. Prentiss, '12. These men have been chosen to represent the Tech Club are considered strong men.

FRESHMAN BASEBALL.

Practice at Tech Field Monday—All Candidates Report.

The Freshman baseball team will hold its first practice Monday afternoon at Tech Field. So far only a few men have signified their intention of coming out for the team, but it is hoped that a large number will. Tech Field is in very good shape, and with favorable weather the diamond should soon be in fine condition.

Professor Smith to Tell of Borneo Trip

Will Give Talk at Joint Meeting of M. E. and E. E. Societies Next Thursday.

On Thursday, March 26, Prof. H. W. Sanger will give a talk at a joint meeting of the Mechanical Engineering Societies. Prof. Smith, who is well known as an instructor in the Electrical Engineering department teaching work, has some pertinent slides which are taken from his own photographs showing the various types of the soil, wildlife, and half-civilized races of the South Pacific Islands.

(Continued on Page 3)

FREE TOWELS AT GYM.

Beginning Monday there will be no charge made to the students for the use of towels. This has always been the custom to charge a small fee for the use of these towels, in order that students may be more prompt in returning them to the proper place. This, coupled with the fact that the towels proper treatment, there is no reason to believe that the former custom will be reinstated.

M. E. SOCIETY MEETING.

Harvard Professor to Speak on Boiler Construction.

On next Monday afternoon, at 4 P. M., the Mechanical Engineering Society will hold a meeting at 4 P. M. The officers have secured as a speaker for this meeting Professor I. L. Langley, the present holder of the Langley Professorship of Aeronautics at Harvard, in whose hands are placed the custodianship of the society. Professor Helm, who is a Professor of Steam Engineering at Harvard, is well known and is a recognized authority in all branches of steam engineering work. In the past he has been connected with naval engineering work, and today a prominent member of the American Society of Mechanical Engineers, with which the Mechanical Engineering Society of the Institute is affiliated.

The lecture, which will cover the history of the steam boiler, will be illustrated throughout; and he will be asked to show a large collection of slides which he has never shown before. The lecture will be of especial interest to the third-year men of Course II as they are now engaged in boiler design, a subject which is to be illustrated throughout. A large audience of Course II men is expected, and the officers extend a special invitation to any other men who may be interested in this subject.

JUNIOR PROM ORDERS.

Promenade Orders for the Prom will be obtainable at the Union on Monday, March 17, after 9 A. M., at the Cage.

WRESTLING MEET WITH B. Y. M. C. U. TONIGHT

Tech Team in Fine Trim For Meet at Norcross Hall Tonight.

Tonight the wrestling team is going to meet one of the strongest teams in New England, namely, the B. Y. M. C. U. team. The meet is to take place at the Newton Y. M. C. U. Hall, 48 Brighton street. There will be eight bouts and also some exhibition weight lifting by a professional strong man. The Tech team wants to take a real run along with them and make some noise. Both teams are in excellent trim and the meet promises to be a close contest.

In the 154-pound class, Sayer of Tech is entered against W. R. Fleming of the Y. M. C. U. Sayer has wrestled in four meets for Tech, and each time he has secured a fall in remarkably short time. In the 125-pound class, Smyth-Martin of Tech is entered against N. A. J. Martin of the Y. M. C. U. Smyth-Martin has been taking a great many pulls this last month.

(Continued on Page 3)

C. E. SOCIETY TO MEET.

Mr. John Howard Will Address Society on Costa Rica.

There will be a meeting of the Civil Engineering Society next Tuesday, at 11 Engineering. Mr. John Howard of the Civil Engineering Department will tell the society of his experiences in Costa Rica while there during a leave of absence from the Institute. He will illustrate his talk with slides reproduced from pictures taken by himself. His business in Costa Rica was to take several surveys along the coast that would settle boundary disputes. There will be a brief business meeting preceding this lecture and it is requested that everyone who is interested in this subject be present.

SHALINGAS of the society will be on sale at the meeting.

EXHIBITION TICKETS.

Through the generosity of Mr. F. Nathaniel Perkins, a member of the advisory board of the Technology Christian Association, the secretary of the Association has about 200 free tickets for the exhibition of the Water Color Club, to be held at the Boston Art Club. He will be glad to distribute these tickets among Tech men who are interested. Tickets may be obtained at the Cage and at the T. C. A. office, Beacon and Engineering B. The exhibition will continue till next Saturday evening, March 23.

WEATHER.

CALENDAR.

Saturday, March 15, 1913, 9.00—Freshman Baseball Practices at Tech Fields. 2.00—Meet at Trinity Place Station.

Saturday, March 17, 1913. 4.00—Freshman Baseball Practices at Tech Fields. 6.00—Freshman Promenade Orders at the Union.
PORTFOLIO HISTORY
BLANKS DUE AT CAGE

Next Monday Is the Last Day
That Forms Will Be
Received.

Monday, March 17, is the last day
upon which students may hand in their
history blanks for this year's Port-
folio. These blanks have been out for
3 months and the management has de-
clined that the time has run out and
that no date was suggested. Blank
sheets are still being handed in of the blanks because of the
uncertainty of some of the men concerning the titles of their
theses. The management feels that it is im-
portant that the histories be all in by
next Monday, and all those delayed beyond this date will not be in-
cluded in the book.

It is planned that the Portfolio be
sent out the first week in May. It is to
avoid all possible delay in its publica-
tion that the committee has not decided
not to receive the blanks after Mon-
day. A new lot of history forms have
been left at the Cage so that any
one who has not secured one still has an
opportunity to do so.

It should be known that the edition
is to be a limited one and there is
no chance of enlarging the order un-
less the committee is absolutely
forced to do so.

42 Trinity Place,
ELECTROLYSIS COURSE.

Monday, March 17, Professor H. M. Goodwin will commence his series of reports on "Principles and Applications of Electrolysis." These lectures will be given in charge of the technical school, at 4:30 in the afternoon. No examination in required. The course is elective, and open to students in all but the first year.

MASONIC CLUB OF TECH HOLDS DINNER

Mr. A. A. Gleason and Major Briggs Speak at Banquet Held in Union.

The Masonic Club held a very successful dinner last evening at the Tech Union, over which H. R. Worley, president of the Masonic club at Tech, presided. The club, over twenty-five members present and all others present, except those who were a guest at the Mason who Steward Colton proposed. The toast proposed by Prof. Smith and the toast of the Institute Faculty, and Major Briggs. The latter made a very interesting speech on the benefits derived from being a Mason.

WRESTLING TEAM.

and is now just a straw over weight. However, he is in fine form and the body should be a close contest. O'Kane is present in E. C. champion. The 125-pound class, Kelly of Tech, is composed of J. B. Green. Kelly has won all of his bouts this year, and he is also the Western Intercollegiate champion in the 125-pound class. In the 145-pound class there will be two bouts, of which one will be between Alexander and Moore of Tech, and W. C. Goodale, of the 175-pound class. Now all but one of the Tech boys are down, and he is in excellent trim.

Dr. Provan is a former 145-pound champion and is a fast all-around wrestler. Last year Dr. Provan and Treat were entered against each other, and Dr. Provan won on decision. The heaviestweights are Cowl of Tech, and G. J. Benson of the B. Y. C. U. Arthur G. Mann, a former heaviestweight champion, is also entered.

The Tech squad has been coached in practice by "Crackerjack" Butler, and has put them in the way of many tricks for which it is famous. Remember, a good bunch of rooters is wanted tonight at Norcross Hall, 48 Hotel Due Bills, where the jury will decide the winning drawings. At Philadelphie the drawings are placed on exhibition for a few days. They are to be forwarded to Philadelphia, where the jury will decide the winning drawings. At Philadelphia the drawings are placed on exhibition for a few days.

CHEMICAL SOCIETY.

Professor Passano Talks About Scientific Management.

Last night the Chemical Society held its regular March social meeting in the Union, with Prof. Passano of the Mathematics Department as speaker. Prof. Passano gave a very interesting and able discussion of their final design. Time allowed for making this design is nine hours, and during this time the student must not leave the room, nor receive help from, nor examine books, instructor, or fellow students. The pre- liminary sketches were submitted on February 17. After handling in the preliminary sketches the students are to complete and submit the plans by March 19. The final plans are to consist of a sketch and the final award is to be based on how well they are made to conform.
