PRICE TWO CENTS

## GEORGE G. HAMILTON TO SPEAK IN UNION

"The Christian Ideal of the Social Life of Today" Is His Subject.

On Thursday next, at 1.30 o'clock, in the Union, Mr. George G. Hamilton, of the Everett Universalist Church, will deliver a talk before the students, under the auspices of the Technology Christ'an Association. Mr. Hamilton's subject will be, "The Christian Ideal of the Social Life of Today."

Mr. Hamilton comes at the suggestion of several of the students. As the speaker is particularly interested in social service, the talk will probably be along those lines. This should attract the attention of all students who are in any way interested in social service work.

## COMMUNICATION.

To the Editors of THE TECH:

Gentlemen:—There are several points in Mr. Emerson's letter of today's issue, about which, I think, the student body should know.

First: That the trip is receiving to date good support from the New York Committee.

Second: That the entire proposition has been considered on a business basis.

Third: There has been considerable exaggeration and misstatements by the Boston newspapers in regard to a guarantee fund from the Board of Governors, as mentioned in Mr. Emerson's letter.

Fourth: Such a fund was never considered certain and little hope was had for it. As to the fund raised by individual members of the New York Club, this proposition was first brought to my attention by several New York Alumni themselves, and from their statements it seems quite possible that if necessary this fund can be raised.

Fifth: That at the time of my trip to New York it was uncertain as to exactly what student support we could receive. Since my return a canvass among the student body has shown that considerably over 200 tickets can be disposed of among the students living in and around New York. This number, together with the 300 already signed up by the New York Alumni, and 300 more which can be signed up according to the conservative opinion of prominent New York Alumni, gives the Show a low total of 800 tickets, in other words, \$1600, and it was only on this basis that the proposition was considered. The guarantees of the Show members were considered as insurance, and it is thoroughly believed by the Show management that the trip can be made a financial success.

I might also mention that applications and a circular letter, which is now being prepared, will be sent out to the New York Alumni the early part of this week. The Show is endeavoring in every way to sell the 1500 seats in the Hotel Astor ball-room.

It must be borne in mind that the Show is endeavoring this year by all possible means to make a large profit for athletics, and it is felt that with the thorough co-operation of the student body such profit will be made.

Very truly yours,

Robert W. Weeks

General Manager Tech Show, 1913.

## COMMUNICATION FROM TECH SHOW ADVISOR

M. L. Emerson Gives Particulars Concerning New York Performance.

Merton L. Emerson, of the class of 1904, who, with I. W. Litchfield, make up the Alumni representatives on the Tech Show Advisory Committee, has just returned from New York, where he had a talk with Mr. Kaludy Spaulding, the chairman of the committee appointed by the Technology Club of New York to boom the interests of the Show. As one of the advisors, therefore, Mr. Emerson has made the following statement for THE TECH:

The announcement that the Tech Show is this year coming to New York is arousing considerable interest among members of the New York Technology Club. An excellent committee to help the show along has been appointed by the club and Mr. Spaulding, the chairman, and I, had a long talk yesterday regarding this New York performance.

The attitude of this committee is hopeful and the members feel that this is perhaps an opportune time as the Show has ever had to come to New York. On the other hand, they appreciate that the Show cannot afford to lose money by so doing, and consequently the committee is trying to consider the matter as a straight business proposition.

Mr. Spaulding was somewhat disturbed by a statement which he said seemed to have received wide circulation. This statement is that the Board of Governors of the Clubs has put up a guarantee fund of \$500. Mr. Spaulding said that the Board had not and could not do such a thing, and that he had written Mr. Weeks to this effect. He said that it might be possible to raise a small guarantee fund among the individual members, but judging from the difficulty in raising a similar fund for the New York reunion, he thought that the Show would have to stand on its own feet.

According to Mr. Spaulding 308 tickets have to date been tentatively subscribed for. This represents \$616. He understands that the expenses will be about \$1600, and that the men in the Show are willing to put up \$5 each, or about \$400, as a guarantee fund. A second letter asking ticket subscriptions is to be sent out immediately, and he hopes that it will bring a response equal to the first letter. It is his opinion that unless at least 600 tickets are subscribed for, the Show should abandon the idea of a trip to New York.

I think it is proper to say here as  
(Continued on Page 3.)

## M. A. H. S. CLUB.

To Hold Social Gathering On  
Friday of This Week.

On Tuesday, March 25th, the Mechanic Arts men at the Institute will hold a social in the Union at 7 o'clock. The meeting will be in the nature of a smoker and social gathering. Refreshments will be served and cards and other games will be played. All men from Mechanic Arts High School are invited and a good time is assured to all who come. The men who intend to be present are requested to notify the secretary, M. Paris.

## WRESTLING TEAM WINS FROM B. Y. M. C. U. MEN

Win Another Victory By Score of 6 to 2—Crowell Secures Only Fall.

Saturday evening the Tech wrestling team resumed its victorious course, defeating the Boston Y. M. C. U. team by six bouts to two. The Y. M. C. U. team is one of the strongest teams in New England, and has had a fine record this season. The record of the Tech team is also wonderful, as they have not been defeated during the season. Thus it was a match which meant much to both teams, and the fact that Tech won against the best men its opponents could produce does indeed vindicate the recent action of the Advisory Council in recognizing wrestling as a Varsity sport.

All the bouts were exceptionally close, and the majority of the bouts were won on decision. All the men did very well indeed, and showed the results of the hard practice during the week. Morse, of the Tech, deserves special credit for the way he handled his opponent, for he is a Freshman, and this was his first experience in a meet. His match was very close, and it was the opinion of many of the spectators that the decision should have been his. However, the referee decided otherwise. With more experience Morse is almost certain to prove a valuable addition to the team. Kelly showed the usual good form which is characteristic of his contests, and won the decision. Sayer also did fine work, although he was not able to win by a fall in the whirlwind manner such as he usually shows. One of the most interesting bouts was that between Treat and Dr. Provan. These men met last year, and the latter won on decision. Dr. Provan is ex-amateur welter-weight champion of New England, and has been runner-up in the National championships. The match was a close one, but the Tech representative turned the tables on his opponent, and won on decision. Blodgett of Tech was pitted against O'Hara, who is New England champion at his weight. Blodgett put up a fine exhibition, but lost on decision.

The first bout was in the 115-pound class. Fleming represented the Union and was opposed by Sayer of Tech. During the entire six minutes of the first period the men did not cave their feet. This period was about even. The second period was all Sayer's, and he very nearly threw his man. The referee gave the decision to Sayer.

Means was to have represented Tech in the 125-pound class, but was unable to participate. His place was taken by C. A. Blodgett, who had not intended to enter. Thomas O'Hara was against Blodgett, and the bout was a very even one. During the first six-minute period the men stayed on their feet almost all the time. The period was even. O'Hara showed a trifle better form in the second period.  
(Continued on Page 2.)

## MUSICAL CLUBS.

Tonight, at 6.30, the Musical Clubs leave the North Station for Lynn, where they will give a concert. All men are wanted to be prompt. The program as selected is sure to be well received.

## HARE AND HOUNDS' CLUB HOLDS ITS FIRST RUN

Men Took Easy Cross-Country Work Over Newton Course.

Saturday afternoon the Tech Hare and Hounds' Club held its first run of the season. The course started at the Newton Y. M. C. A. and led from there over a course about four or five miles long, and ended at the Y. M. C. A. The course was rather muddy, and this was somewhat of a difficulty to the runners. The majority of the course led over cross-country, and very little of the running was over the roads.

Since it was the first run of the season the men took it very easy, and there was no racing whatever. The men stuck together very closely, and made no efforts to make the run too hard. The next run the men will set a harder pace, as they expect to be in better condition by that time. The place of the next run has not yet been decided upon, but will be announced soon.

After the run the men were given the privilege of taking a swim in the pool at the Newton Y. M. C. A., and were delighted to avail themselves of this opportunity.

L. E. Best, '15, and A. F. Peaslee, '14, were the hares, and the others who ran were: H. H. Porter, '16; P. M. Currier, '14; E. E. Murphy, '14; F. P. Mastie, '16; M. E. Hill, '15; R. F. Pollard, '15; C. H. Wilkins, '14; C. S. Lee, '14; C. W. Lovell, '15.

## TRACK TEAM DINNER.

Will Be Held Tomorrow Evening—Speakers Not Selected.

Tomorrow evening in the Union, will be held a track team dinner, at which the entire outdoor season will be outlined, and the dates of the meets given. Coach Frank M. Kanaly and Captain E. B. Germain will talk, and several prominent men will also speak. Every one is welcome at this dinner, and tickets will be 50 cents, and may be obtained from members of the team.

The object of the dinner is to arouse enthusiasm among the fellows, and get more candidates out for the team this spring, and in this way lead up to the final goal of the track season, namely, the winning of the New England Inter-collegiate.

Some of the changes made by alleged humorists on advertisements posted on the Union bulletin board are almost funny.

## WEATHER

Forecast for Boston and vicinity: Monday, fair and colder; brisk west to northwest winds.

## CALENDAR.

Monday, March 17, 1913.  
1.30—Socialist Meeting—Union.  
4.00—M. E. Society Meeting—11 Eng. B.  
4.00—Freshman Baseball—Tech Field.  
5.00—Senior Class Day Ballots Due—Cage.  
7.30—Musical Clubs' Concert—Lynn.

## PROM PROGRAMS AT CAGE.

The preliminary programs for the Junior Prom are now obtainable at the Cage. The committee will not allow the exchange of tickets this year as formerly has been the custom. Therefore all who signed up and are not going must notify the committee at once.

We are more than glad that Mr. Emerson has presented his point of view regarding the Show's performance in New York, and that Mr. Weeks has seen fit to answer the statement in the same issue, for in this way the whole student body will be able to get an idea of what the proposition is and what things must be considered. Our position is somewhat biased in the fact that we think it would be a great help to Technology for the Show to go to New York. We feel, however, that such a performance should, under no conditions, be considered until the expense of the entire trip is fully in sight.

## ELECTRICAL BULLETIN.

The ever-increasing use of electricity has made the manufacture of electrical instruments and meters an important and highly specialized industry with many complex problems. In view of this fact the Bureau of Foreign and Domestic Commerce despatched Mr. H. B. Brooks, an expert of the United States Bureau of Standards, as commercial agent to make a study of this industry in Europe, where such pioneer work has been done in electrical measurements. Mr. Brooks visited the principal manufacturers and obtained such information in regard to their organization, methods and products as would be of interest to American makers and users. In his report, which has recently been issued by the Bureau of Foreign and Domestic Commerce as Special Agents, Series No. 66 the works of 31 leading European firms are described. Attention is given to the equipment, the number of employees, the hours of labor, and the nature of the products manufactured. Copies of the bulletin may be obtained by application to the Bureau of Foreign and Domestic Commerce at Washington.

There is now on exhibition in the glass case in the Union a silver cup, awarded to P. W. MacNeill, winner of the Editorial Contest, conducted through THE TECH by the Gamma Chapter of Pi Delta Epsilon, honorary Journalistic Fraternity.

## FIRST REHEARSAL OF SHOW CAST AND CHORUS

Program for the Week Made Out —Girls to Get Costumes Today.

Saturday afternoon Mr. Sanger held his first combined rehearsal of the cast and chorus. The rehearsal went off exceptionally well and afforded a chance of seeing what the plot is really like. The only real trouble with this was that the men did not sing the songs and parts were read extensively.

The program for this week through Wednesday afternoon is as follows: Today, at 4.15, Mr. McConathy will conduct a rehearsal of both cast and chorus in the Show music.

Tuesday, at 4.15, Mr. Sanger will go over the first act with cast.

Up to this time the principals have been reading their lines, but from now on Mr. Sanger will permit no more of this reading, and regardless of who these men are he will let them go.

This afternoon, at 4.15, the five principal girls and the society girls will meet in the Show office to go to Filene's for costumes. These men must be prompt as one of the society girls is to be cut.

Tuesday afternoon, at 4.30, Ex-Stage Manager Geoffrey Thayer will meet all those men who are candidates for "light men." About six men will be chosen, but it is expected that more men will be out since so many fellows are needed.

## COMMUNICATION.

To the Editor of THE TECH:

If an epidemic breaks out in our midst we immediately make every possible effort to find out what there is to be known about it. We have slowly and painfully learned that in this, or at least comforting ignorance may be the surest road to defeat.

Socialism is an epidemic that claims 75,000 new victims yearly; and whether we like it or not, double their numbers every two years. The working class, if not downright socialistic, is strongly imbued with the socialistic spirit. Men of gifts and training, our very centres of education, are turning socialistic, and not the fewest adherents of socialism are among engineers and professional men of all sorts. To be well informed about such an agency as this is the duty of every man who lays claim to anything like the engineering of scientific spirit; to ignore it is the act of an inferior intelligence.

Everybody will be given a chance to learn about this new subject by listening to Mr. Laidler in the Union today at 1.30. Mr. Laidler is a man of sufficient educational achievement to command the attention of all trained men.

Wide Awake.

## WRESTLING VICTORY.

(Continued from Page 1.) and had a shade the better of Blodgett. The decision was awarded to O'Hara.

Kelly of Tech was opposed by J. B. Green of the Y. M. C. U. in the 125-pound bout. In the first period Kelly had all the better of it. In the second the men stood up for a large part of the time, but finally went to the mat. Kelly was on the offensive the entire time. The extra period of three minutes the men were on their feet the entire time. The decision was won by Kelly.

Each team had two representatives in the 145-pound class. In the first match Alexander of Tech met R. P. Goodland of the Union. The first period the men stayed on their feet the majority of the time. The honors were even during the time. Alexander was on the offensive throughout

**PROF. HOLLIS SPEAKS  
TODAY IN 11 ENG. B.**

Will Address M. E. Society On  
Boiler Construction  
at 4 P. M.

Today, in 11 Engineering B, at 4 P. M., under the auspices of the Mechanical Engineering Society, Prof. I. N. Hollis of Harvard will give an illustrated talk on "The History of Steam Boiler Construction."

The officers of the society consider it a "treat" to have so well recognized an authority on all branches of mechanical engineering as Prof. Hollis speak to the members of the society. The lecture will cover the whole history of the steam boiler and will be illustrated by numerous slides, some of which have never been shown before.

Since all third-year men in Course II are now engaged in boiler design, the talk promises to be of especial interest to them. The officers of the society extend a cordial invitation to all Technology men interested in this subject to be present to hear Prof. Hollis.

**WRESTLING VICTORY.**

(Continued from Page 2.)

the second period. They were on their feet the majority of the period. An extra period of three minutes was wrestled, and it was Alexander's all the time. He won the match on decision. The second bout in this class was between E. Sewell of Y. M. C. U., and Morse of Tech. This was Morse's first bout, and he was very inexperienced. He worked hard and did very well considering his inexperience. The first period Morse did very well. It was his period. The second period Morse did good work also. This period was about even. An extra three-minute period was wrestled, and Sewell won on decision.

The first match in the 158-pound class was A. G. Innis of Y. M. C. U. vs. Walters of Tech. During the first six minutes the men remained on their feet with the honors resting even. The second period was very close, but Walters had slightly the best of it. In the last period of three minutes Walters had all the best of it. He won on decision. In the second bout in this class Dr. Provan opposed Captain H. W. Treat of Tech. Provan is the best man on the Union team, and the match was a very close one. During the first period Treat had the best of it. Provan was on the defensive throughout. The contestants remained on their feet the entire second period, but Treat did most of the work. Treat won on decision in the last period of three minutes.

The only fall of the evening was secured in the heavyweight class by H. R. Crowell of Tech. Crowell was opposed by E. J. Benson of the Union, and won a fall by a head-lock and hip-throw in 55 seconds.

The final score was: Tech, 6 bouts; Boston Y. M. C. U., 2 bouts.

The summary:

115-pound class—Sayer, Tech, defeated Fleming, Y. M. C. U., on decision.

125-pound class—O'Hara, Y. M. C. U., won from Blodgett, Tech, on decision.

135-pound class—Kelly, Tech, defeated J. B. Green, Y. M. C. U., on decision.

145-pound class—Alexander, Tech, won from R. P. Goodland, Y. M. C. U., on decision.

145-pound class—E. Sewell, Y. M. C. U., defeated Morse, Tech, on decision.

158-pound class—Walters, Tech, defeated A. G. Innis, Y. M. C. U., on decision.

158-pound class—Captain H. W. Treat, Tech, defeated Dr. Provan, Y. M. C. U., on decision.

Heavy-weight class—H. R. Crowell, Tech, defeated E. J. Benson, Y. M. C. U., on fall in 55 seconds.

**NEW YORK LAWYER  
TO ADDRESS STUDENTS**

Prominent Speaker Comes Under  
Auspices of Institute  
Socialists.

As has been announced in previous issues of THE TECH, the Political Engineering Club has secured as its first speaker Mr. Henry W. Laidler, of New York, who will talk in the Union at 1:30 this noon on "The Ideals and Achievements of Socialism."

Mr. Laidler is the National Organizer for the Intercollegiate Socialist Society. He graduated from the Wesleyan University with the class of 1907, and later from the Law School of the St. Lawrence University. After receiving his degree from the latter school he spent several years in graduate work with the department of Economics at Columbia University, and as a contributor to various newspapers in New York City. He is a member of the New York Bar and is a brother in the Phi Beta Kappa fraternity. During his college days Mr. Laidler served on the intercollegiate debating team, and has spoken for a number of years on socialism and allied subjects before collegiate and popular audiences in all sections of the United States.

Mr. Laidler's work as Organizer for the Intercollegiate Socialist Society has been attended with signal success. During the two years that he has held the office the society has more than quadrupled its membership, and now has nearly sixty undergraduate and eleven graduate chapters.

Another meeting of the Political Engineering Club, under whose auspices Mr. Laidler is to speak today, will be held later in the week. At that time permanent officers will be elected, a permanent name will be fixed upon, a constitution adopted, the policy of the club definitely outlined, and new members admitted. As all of these are very important it is hoped that all interested in the club will attend. The exact date will be announced later in THE TECH.

**TECH SHOW ADVISOR.**

(Continued from Page 1.)

one of the advisors, that this New York trip places the Advisory Board, and particularly the Alumni Advisors, in a peculiar position. The Tech Show, as I understand its organization, is responsible to the Institute Committee, since it is given under the auspices of the student body. The advisors are, in a way, a back-ground, for they have no authority. Nevertheless should the Show make a failure, the advisors would have to bear part of the responsibility.

I, for one, want the Show to go to New York. Still, looking at it from a business point of view, if it fails to pay expenses—and it should be noted that the first years in Northampton, Worcester, Providence and Malden, showed a loss, and even now, with far less expenses, the Northampton Show barely pays expenses.—if New York shows a loss, who is to pay the bill?

The Show has no money surplus for experiments. Most of its profits, and it should make at least \$1500, go to athletics. At the close of last year's Show Business Manager Weeks announced the profits as over \$1,000; they were later found to be about \$300. The Athletic Association is in great need of money, and this year's Show must make every effort to help wipe out this deficit. Furthermore, the Show this year is to be held in the Opera House. This means a considerable increase in expense, and this fact in itself may put quite a tax on the Show.

As an old Show man I want to put every bit of enthusiasm behind this project but as an advisor I feel that this trip must absolutely stand on its merits.

**MEN'S SMART AND  
DISTINCTIVE  
Spring Suits AND Overcoats**

The discriminating man who avoids the common place in style, design and fabric will find the utmost satisfaction in garments of our production.

Aside from the important question of style good cloths are made of WOOL FABRICS and TAILORING, a little of the former and a great deal of the latter.

Our clothing is made by good tailors, every one a SPECIALIST, who is fit to make garments for particular men, it COSTS more, but it shows in a hundred suits or overcoats as well as in a single one of either, and it means infinitely more satisfaction to the wearer.

Other clothing may look ours, but you will not find the same amount of GOODNESS in it.

This season's offering is composed wholly of garments that fully justify the discriminating man's standard of correct style and good taste.

**THE ADVANTAGES WE OFFER**

PROGRESSIVE methods, large resources and two conveniently located, thoroughly modern bank buildings, combine to make the Old Colony Trust Company the most desirable depository in New England.

Interest-bearing accounts subject to check may be opened either at Court Street or Temple Place, and the two offices used interchangeably for the transaction of your banking business.

You are cordially invited to inspect the modern Safety Deposit Vaults at either office.
