COMMUNICATION FROM TECH SHOW ADVISOR

M. L. Emerson Gives Particulars Concerning New York Performance

Hortense L. Emerson, of the class of 1916, is in charge of the Tech Show Committee and is prepared to take up the Alumni representatives on the Tech Show Committee has just returned from New York, where she had a talk with Mr. R. H. Reed, the manager, and made up the Alumni representation, which was appointed by the Technology Club of New York. She said that it might be possible to have some of the students. As one of the advisors, therefore, Mr. Emerson has made the following statement for THE TECH:

The, announcement that the Tech Show is to be given this year, in conjunction with special service work, among members of the New York Alumni themselves, and to receive, through the Alumni, a guarantee fund from the Board of Governors, as announced to Mr. Emerson's letter.

Fourth: Such a fund was never considered certain and little hope was had for it. As to the fund raised by two of the members of the New York Alumni themselves, and the guarantee fund as stated, it is quite possible that such a guarantee fund as this might be raised.

First: That the trip is receiving some support from the New York Alumni, and that, as to the trip, that the trip had never been raised, union, he thought that the Show was to be given this year, in conjunction with special service work, among members of the New York Alumni themselves, and to receive, through the Alumni, a guarantee fund from the Board of Governors, as announced to Mr. Emerson's letter.

Second: That the entire proposition has been considered on a business basis.

Third: There has been considerable exaggeration and misstatements of the facts, but I am unable to state with any certainty how far so many of the students, which is somewhat disheartening.

First: That the trip is receiving some support from the New York Alumni, and that, as to the trip, that the trip had never been raised, union, he thought that the Show was to be given this year, in conjunction with special service work, among members of the New York Alumni themselves, and to receive, through the Alumni, a guarantee fund from the Board of Governors, as announced to Mr. Emerson's letter.

THE TECH

First Rehearsal of Show Cast and Chorus

Program for the Week Made Out—Girls to Get Costumes Today.

Saturday afternoon Mr. Sanger held his first combined rehearsal of the cast and chorus. The rehearsal went off exceptionally well and afforded a chance of seeing what the plot is really like. The only real trouble with this was that the men did not sing the songs and parts were read extensively. The program for this week through Wednesday afternoon is as follows:

Today, at 1:30, Mr.Connell will hold a combined rehearsal of both cast and chorus in the Show music. This afternoon, at 4:15, the five principal girls and the society girls will meet in the Show offices to fit Pickney's costumes. These men must be prompt as one of the society girls is to be cut.

Tuesday afternoon at 4:35, East Stage Manager Geoffrey Taylor will meet all those men who are candidates for "right men." About six men will be chosen, but it is expected that more men will be out since so many fellows are needed.

Communication

To the Editor of THE TECH:

If an epidemic breaks out in our midst we immediately make every possible effort to find out what there is to know about it. We have slowly and painstakingly learned that in order to keep a few weeks known as the "rush" road to defeat.

Socialism is an epidemic that claims 75,000 new victims yearly; and whether we like it or not, double the numbers every two years. The work done in the centers of education, are turning socialist, and not the fewest adherents of such an idea. As every man has claim to anything like the engineers of science, however it is an act of an inferior intelligence.

Every body will be given a chance to learn about this new subject by going to Mr. Laidler in the Tech office at 1:30. Mr. Laidler is a man of sufficient educational achievement to comment on the situation of all trained men. Wide Awake.

Wrestling Victory

(Wrestling Victoria. (Continued from Page 1.) and had a shade the better of Blodgett, 7-5.

The decision was awarded to Kelly.

Kelly of Tech was opposed by T. B. Blodgett of the University. The second period was the better of it, and the third stood up for a larger part of the time, but finally went to the mat. Kelly was on the offensive throughout.

If you will give us your order early. Why a discount for this reason?

To distribute our work over a greater period. It is impossible for us to take care of our trade when confined to a few weeks known as the "rush season." Hence this offer.

Ourspring and Summer Woolens are now on our counters, and exceed in quality, beauty and variety of design anything we have ever shown.

PROF. HOLLIS SPEAKS
TODAY IN ENG. B
Will Address M. E. Society On Boiler Construction
at 4 P. M.

Today, in 11 Engineering B, at 4 P. M., under the auspices of the Mechanical Engineering Society, Prof. F. N. Hollis of Harvard will give an illustrated talk on "The History of Steam Boiler Construction."

The officers of the society consider it a very fitting opportunity to have so well recognized an authority on branches of mechanical engineering as Prof. Hollis, to speak to the members of the society. He will cover the whole history of the steam boiler and will be illustrated by numerous slides, some of which have never been shown before.

Since all third-year men in Course II are now engaged in boiler design, the talk promises to be of especial interest to them. The officers of this society extend a cordial invitation to all Techmen interested in this subject to be present to hear Prof. Hollis.

VICTORY WRESTLING
(Continued from Page 1)

The second period. They were on their feet the majority of the period. An extra period of five minutes was awarded, and the second period was won by Tech.

The third period. Treat wrestled and won. He showed a loss, who is to pay the bill? If New York trip places the Advisory Board, which shows a loss, and even now, with far greater results. The Show should make a killing, the advisors would have to bear part of the responsibility.

The Show has no money surplus for operating expenses. If New York shows a loss, the Show or the advisors will have to bear part of the responsibility.

The final score was: Tech, 6 bouts; Y. M. C. U., 4 bouts.

THE TECH SHOW ADVISOR.
(Continued from Page 1)

One of the advisors, that this New York trip places the Advisory Board, and particularly the Alumni Advising Board, is in a peculiar position. The Tech Show period Treant, and its constitution, is responsible to the Institute Committee, since it is given under the auspices of the student body. The advisors are, in a way, a by-product of the show, and the exact date will be announced later in THE TECH.
