Mr. John W. Howard will give talk on his experiences in Costa Rica.

This afternoon, at 4:15 o'clock, the Civil Engineering Society will hold an important meeting in Room 115, next to the library. Mr. John W. Howard, of the Civil Engineering Department, who has spent the last year in Costa Rica, will tell of his many experiences while in that country. During his hours of absence from the institute, Mr. Howard was engaged in making a survey along one of the boundary lines between Costa Rica and a neighboring state, for the purpose of settling a dispute which had arisen between the two countries.

The talk will be accompanied by stereoscopic slides taken by Mr. Howard. These slides bring out the details of the survey, and are illustrative of the picturesque scenery of the country. Many interesting features connected with the survey will be explained, and the officers of the society will have an opportunity to hear something of the little out of the ordinary.

Mr. Howard says he will have a business meeting during the remainder of his stay in the state. Mr. Howard will be in charge in the office, and the institute may be expected to be busy.

FRESHMAN DRILL.

Committee Appointed to Arrange For Competition Drill.

The Freshman Regiment has elected a committee to take charge of arrangements for the prize drill which is to be held during the coming term. The six men elected to serve on the committee are: P. H. Duff, W. W. Steward, J. H. Bellinger, G. Huber, J. F. Maguire and C. H. Stangmeier. Prof. F. H. Duff was elected chairman of the committee, and is in charge of the printing.

The duties of the committee include the arranging for the prizes, as well as the actual conducting of the drill, and several other matters. The committee has decided to hold the interscholastic Competition Drill on April 30, and the Thursday of that week will be set aside as Freshman Day. The committee is also planning a number of other activities for the coming term, including a number of competitions and a number of social events.

FRESHMAN TAPES.

The Freshman Tapes will hold their regular meeting in Room 115, next Tuesday afternoon, at 4:15 o'clock, in the Lowell Building. The club will continue its study of the language, under the guidance of Prof. P. H. Duff. Mr. Duff will be at the head of the club, and will give a lecture on the subject of the day. The meeting will be attended by a large number of members, and the discussion will be lively and interesting.

The Tapes have recently been elected a number of new members, and the club is now in a very active condition. The members are now working on their final examination, and are studying for the test which will be given in the near future.

HARVARD PROFESSOR ADDRESSES M. E. SOCIETY.

Prof. Hollis gives interesting talk on steam boiler construction.

The lecture given by the Prof. Hollis on steam boiler construction was of particular interest to the members of the M. E. Society. The lecture was given in the lecture hall, and was attended by a large number of members. Prof. Hollis spoke on the subject of steam boiler construction, and gave a number of interesting examples. The lecture was well received, and was pronounced to be a most interesting and instructive one.

Mr. Matthes, '95, will talk on "The Glaciers of Mt. Rainier."

At the meeting of the Appalachian Mountain Club in Huntington Hall, last evening, Prof. E. R. Matthes, of the University of Washington, Washington, D. C., will be the speaker. Mr. Matthes is a member of the Institute of Electrical Engineers, and is well known for his work in the field of electrical engineering.

The subject of Mr. Matthes' talk is "The Glaciers of Mt. Rainier," and the lecture will be illustrated by lantern slides. Mr. Matthes is one of the most prominent members of the club, and is well known for his work in the field of electrical engineering.

The lecture will be given in the lecture hall, and will be attended by a large number of members. The lecture will be illustrated by lantern slides, and will be given in the lecture hall. The lecture will be given in the lecture hall, and will be attended by a large number of members.

Many popular men elected to senior class day committee.

The nominations for the office of President of the Senior Class were made last Tuesday, and the following men were elected:

President: C. M. Langley, '13.
Vice-President: T. J. Kelley, '13.
Secretary: R. T. Meek, '13.
Editor-in-Chief of Technique: H. S. Balcer, '13.
Class Secretary, and is member of Junior Finance Committee: C. H. Stangmeier, '13.

Mr. Matthes recently completed a survey of the glaciers of Mt. Rainier, and the information which he has gathered during his examination of the glaciers will be of great interest to the members of the Institute.

Mr. Matthes' talk will be given in the lecture hall, and will be attended by a large number of members. The lecture will be illustrated by lantern slides, and will be attended by a large number of members. The lecture will be given in the lecture hall, and will be attended by a large number of members.
GRADUATES OF LYNN HIGH SCHOOL MEET
Organization of New Club Will Be Discussed at Meeting Tomorrow Noon.

The organization of a Lynn High School Club is being actively advocated at the present time by many Lynn men who are at the Institute. They have arranged to have a meeting to-morrow noon in 24 Rogers, and all those who have at any time lived in Lynn, and who are now at the Institute, are expected to attend.

There are about a dozen seniors who came from Lynn who are backing the club, and they expect to have it as an active membership of about thirty-five this year. The membership in the club will be open to men who are living in towns adjoining Lynn, such as Swampscott and Revere, provided they meet the requirements of the club.

This club will join the ranks of the 1893 High School organizations at the Institute. Four strong clubs are already in existence here, and they are in maintaining the fact of fellowship which is usually associated with high school graduates. These clubs are the Mechanic Arts High School Club, the Boston English High School Club, the Chasney Hall Club and the Brookline High School Club.

SOCIALISTS MEET.
Prominent Socialist Speaks on Vital Modern Question.

A large gathering of interested Tech men heard the talk on "The Ideals and Achievements of Socialism," given yesterday noon in the Union by Mr. Henry W. Laidler, the Intercollegiate Socialist Society.

Mr. Laidler's impressive delivery made a favorable impression even on those who were opposed to his arguments.

The first part of the address was devoted to outlining the fundamentals of Socialism. Mr. Laidler explained how Socialism stands, not for opposition to all authority, but for exactly the reverse, an abolition of all individual or supreme authority, the common good. This shows the folly of the two common confusions of Socialism with Anarchy, its direct opposite.

Mr. Laidler next took up the tremendous issues of Socialistic influences during the last few years, in the domain of literature, in the trend of national thought, and, particularly, in voting strength. He gave statistics on the growth of the Socialist vote, showing how it had increased in four years from a beginning of two thousand votes to nine hundred thousand in 1912.

At the close of the talk application blanks were handed out for membership in the new Political Engineering Club of the Institute. A number of these blanks were signed. Another meeting will be announced shortly, at which a permanent organization will be effected. It should be clearly understood that all who are interested in the national questions of the day are welcome to attend.

WINDSOR CAFE
78 HUNTINGTON AVENUE
Back Bay's latest and most up-to-date attraction. The restaurant for the discriminating Resident, Business Public and Students. Excellent cuisine and moderate prices. Property lighted and ventilated. DIRECTLY OPPOSITE MECHANICS BUILDING.

SOPHOMORE BASEBALL PRACTICE BEGINS

Men Will Go Out to Field This Afternoon For First Time

This Season.

The Sophomore baseball men will go out to the Field this afternoon for their first outdoor practice of the season. There was some hesitancy among some of the younger men, who felt it might rain, but the weather is fine now and the wind from the South makes it a perfect day. The baseball team is composed of three of the best players on the Freshman team. The first baseman is W. R. Smith, the second baseman is W. T. A. T., the shortstop is R. B. Webster, and the third baseman is G. M. White. The pitcher is B. M. E., and the catcher is W. H. B.

TRACK TEAM DINNER TO-NIGHT IN UNION

Tickets Going Fast for Big Affair—Great Enthusiasm Shown.

This evening, at 6.15, in the Union, the track team dinner will be held. As announced before, Captain Meek and Coach Kanaly will speak to the assembled, and will head the track team among the list of speakers. Two others will speak, but the names of these two will be withheld until the time of the dinner. However, Captain Gorman has promised to bring forth some one with some ideas well worth hearing.
