VOL. XXXII. NO. 117

BOSTON, MASS., SATURDAY, MARCH 22, 1913

PRICE TWO CENTS

## M. E. SOCIETY TO MEET ON FRIDAY

Prof. C. H. Peabody to Speak On "Oil Burning" in 11 Eng. B.

Next Friday afternoon, March 28, at 4 P. M., the Mechanical Engineering Society will hold a meeting in 11 Eng. B. At this meeting Professor C. H. Peabody will give a talk on "Oil Burning." This lecture will be illustrated and the cuts used in the book by Professors Peabody and Miller on "Steam Boilers," recently published, will be among those shown. Members of all courses are invited to attend this lecture, and it is assured to be full of interest to all.

Later in the term there will be lectures by two power plant experts, two by mill engineers and one by a boiler expert.

Nominations for next year's officers will begin in a few days and the elections will take place soon after. The annual banquet will be held the last of April. Pins may be secured from any of the officers, and any member desiring to subscribe to the A. S. M. E. Journal may do so by making application to any of the officers. Sophomores are now eligible to the society and should either hand in their names to the officers or drop them in the box under the Mechanical Engineering Society Bulletin Board in Engineering B.

## FRESHMAN BASEBALL.

Eighteen Men Reported For Practice Yesterday.

Yesterday the Freshmen's squad was out in full force with a total of eighteen men. Of this number three were candidates for the position of catcher, three were out for a chance in the pitcher's box, nine were competing for the remaining infield positions, and three men for outfield positions. This is the second day that the Freshmen have been out to the Field for practice, and more men are expected to turn up Monday. With this material to work with a mighty good team should be the result.

After the practice yesterday the men chose a temporary captain in the person of J. J. Murphy, who played quarterback on the football team last fall. Mr. Murphy expressed a wish to see all the men out at the Field Monday, as well as any new men who have not as yet reported. Practice is held Monday, Wednesday and Friday afternoons. All men who wish to come out for the team should keep in mind that the baseball work takes the place of Gym, and men may have the opportunity to exchange the Gym work for the more agreeable outdoor exercise of baseball.

## EPISCOPALIANS MEET.

The Technology chapter of the Brotherhood of St. Andrew will hold a special service on Saturday evening, March 23, at 7.15, in the library of the Trinity Parish House. This being Holy Week, all of the chapters have been holding daily meetings, each lasting about twenty minutes, in preparation for Easter. These services are being conducted by Mr. Kneeland, who earnestly requests that all Technology Episcopalians attend.

## HARE AND HOUND RUN AT HYDE PARK TODAY

Five-Mile Course to Start at Y. M. C. A.—Large Number of Men Expected.

Owing to a misunderstanding, a notice was inserted in THE TECH that the weekly Hare and Hound run was to be held yesterday. This, however, was not the case. The run is to be held today. Those going are to meet at the Back Bay Station in time for the 2.14 train. It has been decided that the run will be held, rain or shine. The trip will be to Hyde Park. The course will start from the Y. M. C. A. and will lead across country and back to the starting point. The distance covered by the runners will be approximately five miles. There has been no selection as to who the hares are to be, that being left until the fellows are on the train.

After the run those that go will have the opportunity of using the Y. M. C. A. swimming pool. To many, the swim after the run of last week was the most enjoyable part of the entire outing. This prospect of the afternoon's trip will surely give an added amount of sport to the affair and should bring out a large number. These runs are open to all men of the Institute. If a fellow is not a regular member of the track squad it is no reason why he should not come out. This branch of athletics is one that all can go into and is one that gives good exercise. For the benefit of these men two squads will be started out at different times. Those who have not been running regularly will be sent out a few minutes in advance of the regular cross-country men. This is calculated to balance up the times in such a manner as to make the two squads finish together. A fellow, because he don't run regularly, need not feel alone on these runs as there are others under the same circumstances.

## TECH SHOW.

Rehearsal of Entire Cast and Chorus Today.

The Tech Show management announces that every man in the Show: cast, chorus and understudies, must be on hand today at the Union at 2 o'clock sharp. Mr. Sanger will take charge of the cast, Miss Kellogg the dancing, and Mr. McConathy the music. Miss Kellogg will continue the work that she began yesterday in teaching the men to dance, especially the chorus.

The management has complained that the rehearsals have been extremely ragged and poor. This condition must be remedied at once. The co-operation of all the men is needed to produce a successful Show, therefore it is expected that everyone will take a brace and work harder from now on.

## CONSTITUTIONS OUT.

Copies of the Constitution and By-Laws of the M. I. T. Undergraduate Association will be distributed at 12 o'clock, at the entrance to Huntington Hall, so that all the Freshmen may have an opportunity to procure a copy. Copies will also be given to the Sophomores before Professor Dorr's Physics lecture.

## IMPORTANT INSTITUTE COMMITTEE MEETING

Tech Show, All-Tech Smoker, Athletics and By-Laws Considered.

The meeting which the Institute Committee held yesterday afternoon was the most important that has been held this year. The Point System, Tech Show, Athletics, All-Technology Smoker and the Constitution and By-Laws were fully discussed.

Two changes were made in the Point System upon the recommendations of the chairman of the Point System Committee. The first change was the rating of the leader of the Musical Clubs from five to six points. The second was the lowering of the rating of the managers from seven to six points.

The Institute Committee rescinded its action upon the proposed trip of the Show to New York until Manager Weeks receives a definite reply from one of the Directors of the Alumni Association in New York, with whom he has been corresponding about a five hundred dollar guarantee. This action of the committee does not mean that it is against the proposed trip of the Show. It simply means that the committee does not wish to support the trip if there is not a reasonable certainty of financial success.

The committee voted all the money in the treasury which it could possibly spare for the support of athletics. This amount, \$260, will aid greatly in supplying the \$1100 which the teams need in order to finish the season. As a result of the low state of the treasury, which is caused by this appropriation, the committee plans to limit its expenses, as well as those of its sub-committees. The first step taken in this direction was the passage of a motion to discontinue the sending of notices of regular meetings to the committee men. Hereafter such notices will be placed in THE TECH.

The question of providing alarms to prevent the stealing of posters from the bulletin board has been dropped because of the expense which would necessarily be incurred.

Several members of the committee voluntarily contributed one dollar to help pay for the All-Technology (Continued on Page 3.)

## MECHANIC ARTS SMOKER.

Second Meeting This Year to Be Held in Union March 25.

The Mechanic Arts High School Club will hold its second smoker of the year in the Union at 7.30 P. M., Tuesday, March 25. After a short business meeting the evening will be given over to card games, for which several handsome prizes have been provided. The musically inclined members of the club will probably furnish additional entertainment, and there will be the usual refreshments.

Those who have attended former smokers or meetings of the M. A. H. S. Club do not have to be informed that they are sure to spend a very enjoyable evening next Tuesday, and the officers hope to have a full attendance. Any man wishing to do so must leave his name at the Cage before Monday noon for either M. Paris, '14, C. L. Hall, '15, or G. W. Wyman, '16.

## BIG TAG DAY COMING FRIDAY, MARCH 28

Committee Expects Enthusiastic Show of Interest Toward Athletics.

A TAG DAY for the benefit of athletics will be held next Friday. Any student or instructor of Technology who is not wearing one or more of these tags by 10 o'clock of that morning is bound to feel morally ashamed to attend any classes, or to appear in the corridors of the Institute. These tags will consist of neat white cards bearing the inscription in red letters: "I am supporting athletics"—and will be sold for ten cents apiece.

The chief aim of this TAG DAY is to convince Dr. MacLaurin and others of the Executive Committee of the Corporation that the students are ready to show their keen interest and appreciation of the advantages of having athletic teams.

As is very well known, the financing of Institute athletics is on a very unsound basis, the teams being dependent for support on the uncertain returns of Tech Show and their own meets at the Field. It is keenly felt by the majority of the student body that the Corporation should make provision, in its annual budget, for the benefit of the Athletic Association.

In order to make it clear to Dr. MacLaurin that such a proceeding would be heartily endorsed by the undergraduates, the committee in charge of this work feels that every man, woman and child passing within five hundred feet of Technology should wear one or more of these tags. The price of the tags has been made low so that the appreciation from the students may be shown without too greatly taxing their pocket-books.

Each student, or instructor, will be tagged only once. No effort will be made to tag a man who is already tagged. (Continued on Page 3.)

## WRESTLING MEET.

Second Team in Six Events at West Newton Tonight.

Manager Blodgett of the Varsity wrestling team announces a rather unexpected meet for the second team, with the Allen Gym team of West Newton, at Allen Gym, tonight, at 8 P. M. There will be six events, in which Loo will represent the 115-pound, Means the 125 pound, Blodgett the 145-pound, Walters the 158-pound classes, and Treat, who is a 150-pounder, will be up against Allen's 175-pound man. The Allen team was only organized this year, but are a pretty good bunch of men.

The novice match, scheduled for April 4th, has been postponed to April 11th. It is to be understood that this meet is open to everybody in the Institute who has not competed in wrestling before. Entries will be received at the Cage addressed to C. A. Blodgett.

## CALENDAR.

Saturday, March 22, 1913.  
2.14—Hare and Hound Men at Back Bay Station to go to Hyde Park.  
4.00—Tech vs. Brown, Chess Meet—Union.  
8.00—Tech Second vs Allen School, Wrestling Meet.

# THE TECH

Entered as second-class matter, Sept. 15, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.

SATURDAY, MARCH, 22, 1913

We feel that the Institute Committee accomplished a great deal of good in the action taken at yesterday's meeting. They have come forward at just the right time and made decisions that cannot help but meet with the approval of every Technology man.

### TECH SHOW TRIP.

The rescinded action on the Show trip to New York is very important, although not more so than other decisions. THE TECH has expressed its opinion regarding this trip; we repeat that it cannot help but mean much to Technology even though there is no credit balance actually resulting. Under no conditions should such a trip be paid for out of funds cleared by the Boston performances. From the purport of Mr. Gardner's letter, which appeared in yesterday's issue, there seems to be little doubt that the New York Alumni will give their best support to the project. It is to be generally understood that every man who lives in or near New York should consider himself a committee of one to advertise the Show and make every effort to raise the necessary fund.

### TAG DAY.

With the voting of every available dollar in the possession of the Institute Committee to the cause of Athletics comes the decision to have a Tag Day for the same purpose. This indeed is an admirable means of raising funds, and THE TECH offers its heartiest support in any way possible.

### PORTFOLIO LAGGARDS.

There are always a number of laggards to hold back the work when anything important is to be done. This time it is fifteen per cent. of the members of the Senior Class. These men have neglected to return the proofs of their photographs which were taken especially for the Senior Portfolio. They do not appear to worry over whether the book is published on time or not. They have no consideration for the rights of others and are placing themselves in the same class with the selfish mortals who spread themselves all over the seat in a crowded street car.

### TECH FIELD IS OPEN.

This week has marked the opening of Tech Field. Work on the grounds is progressing rapidly, and everything will soon be in first-class shape. The use of the Field is by no means restricted to those representing the different athletic teams. It is open to every man in the Institute, and all should avail themselves of the advantages afforded there. The Tech Field is just as essentially a part of the Institute as are the class rooms.

## HOCKEY TEAM ELECT N. D. MacLEOD CAPTAIN

C. B. Rogers and R. L. Fletcher to Manage Team Next Season.

At a meeting of this year's hockey team, yesterday noon, in the Union, N. D. MacLeod was elected captain for next year. All the members of the team were present, eight in number. F. L. Hurlbutt was favored for the captaincy, but on account of the Intercollegiate Four-Year Rule he was unable to serve. This is the fourth year that Hurlbutt has played college hockey, one year at Williams and three here at the Institute. For this reason he will be unable to play next year.

This is MacLeod's second year on the team and his work at center has always done much to strengthen the team. His shooting and passing in the games this year was especially good.

C. B. Rogers was elected manager and R. F. Fletcher assistant manager for next season. Both these men were members of this year's team.

MacLeod, Rogers, Fletcher and Eichorn will be the only men on this year's team back next season, but considering the strong showing made by many of the substitutes, next year should produce one of the best teams Tech has ever had.

### CLASS OF '03 DINNER.

Talk on Survey of Boundary of Costa Rica and Panama.

The Class of 1903 had a dinner and talk last night in the Union, at which fifteen members of the class were present. After the dinner the men gathered upstairs and a stereopticon lecture was given by Mr. John Howard, '03, on the recent survey of the boundary line between Costa Rica and Panama.

For many years this line has been in dispute, and a few years ago President Loublot of France was asked to arbitrate the question. However, his decision was not altogether satisfactory, and the Chief Justice of the United States Supreme Court was asked for an opinion. He decided that a survey of the eastern part was necessary, and a commission was appointed, two by himself, and one each by the two interested countries. Each country bore one-half of the expense of the survey. This commission met in Washington to decide the personnel and equipment of the parties. Four parties were placed in the field, composed of five white men each and about twenty-five negroes. There were also a commissary, medical and dispensing department. Great difficulties were encountered in running the line, due to the dense underbrush. In fact, the vines and trees were so thick that they worked in a veritable tunnel of trees. When it was necessary to take observations on the sun a clearing had to be made.

Mr. Howard also gave many interesting sidelights on the life and superstitions of the natives. The United Fruit Company has about four hundred square miles of banana plantations. Their organization of this enormous tract of land is interesting. They have divided it up into many small farms, each with a manager and assistant to take care of it. Over them all is the general manager. The Fruit company operates a forty-mile, up-to-date railroad to transport the bananas from the plantations to the wharves. The Fruit company also has a very modern wharf where the bananas are loaded into the ships. The piles are made of wood with a covering of concrete to protect them from the tornadoes. With their loading equipment 120,000 bananas can be loaded in a couple of hours.

7 MAIN ST., ANDOVER, MASS.

HANOVER, N. H.

**CHESS TEAM TO PLAY  
UNIVERSITY OF BROWN**

**Match at 2 O'Clock Today in  
the Union—Five Men On  
Tech Team.**

This afternoon, at 2 o'clock, the Chess Club meets the University of Brown Chess Club in the Union. The match is looked forward to by the members of the Tech team with much interest. No opinion can be given as to the probable result of the match as there have been no games with any common opponent. The Brown University team is an unknown quantity to all Technology men. Three years ago the Brown and Tech teams met in a dual match that ended in favor of Technology. Since then the two clubs have not met.

A final selection was made yesterday noon of those who were to represent Tech: C. E. Norwood, '14; H. T. Chandler, '15; P. F. Jones, '14; L. B. Hoyt, '13, and W. Grant were the men selected. These are all strong men and are the ones who lead in the club tournament. The showing made by the team in the two matches held against Harvard proves that we have a good team representing the Institute. All those who are interested in a good chess match are invited to come.

**TRACK PRACTICE.**

**Warm Weather Brings Out  
Many Candidates For Team.**

Once more the Tech Field is re-suming signs of its former activity, and the runners are limbering up in preparation for a hard season's work. The jumping pits are also in action, and the remainder of the field is made quite lively by bunches of candidates for the class baseball teams. Bill Hines' successor, the new "Bill," is proving a worthy man to take charge of the Field, and with a few weeks of experience, will be running things in a manner of which his predecessor never dreamed.

The warm days recently have been a great incentive to the candidates to come out for practice, and if such weather continues until the men have a chance to get into condition, the records made in the spring meets should be excellent. Several new candidates of more or less promise have appeared this week, and more are expected to come out soon.

The cross-country work from the Gym has been continued throughout the week, although the rain Thursday afternoon made it very bad running in the roads.

**INSTITUTE COMMITTEE.**

*Continued from Page 1.)*

Smoker which is to be held in the Union on Friday, April 4. A resolution was then passed requesting all the men on the committee to do likewise. There will be absolutely no charge for admission or for the smokes and refreshments which the committee plans to provide. At least three hundred and fifty men are expected to be present. Some members of the Musical Clubs have volunteered to provide entertainment that night.

The Constitution and By-Laws Committee reported that they have distributed copies to the Sophomore class and that they intend to do the same to the other classes. Copies are to be given the Freshmen at the close of the U. S. History lecture today. A week later ballots will be distributed and the men will be given a chance to express their approval or disapproval of it. The results of this ballot will be announced at the All-Technology Smoker.

The following members of the committee were absent from the meeting yesterday: Albee, Constable, Guething, Jewett, Horgan, Hsi and Tolman.

**THE TECH TO START  
BASEBALL PRACTICE**

**"Typewriter Ticklers" to Start  
For Nusite on Monday—  
Big Dope.**

Preparations have been nearly completed for the spring training trip which THE TECH baseball team will take to get in trim for their annual game with the Technique, 1914, nine. The official challenge for the game will be issued next week, and it has been rumored that the Year-Book men are hesitating about accepting it, owing to the overwhelming defeats which former boards have received at the hands of the Daily's nine in the past.

After a month of careful consideration Manager Workofhitz has decided upon the same place as last year, Nusite, for the Spring training camp. All the men but the promising recruit, Hewitt, have signed up, but his hold out will not stop the trip. If the men can dig up their uniforms in time the squad will start Monday for the balmy South. It has just leaked out through the mascot, Inkingling, why Bill Hines refused to continue on the job at the Field. He has been engaged to train the "Typewriter Ticklers" at Nusite and serve refreshments between the innings at practice games.

Most of the men have been keeping in training during the long winter months by pounding the keys. Several battery candidates were also seen working out over at the Copley-Plaza diamond during the past week. Some promising battery material has been unearthed by Manager Workofhitz, and he expects to get a bunch of slab artists who will rival any Connie Mack possesses. With Carr in the box and Rogers as a back stop, the Ticklers have a combination that cannot even be equaled by Chief Bender and the late Doc Powers. Eddie Collins is put in the shade as a fleet-footed base runner when compared with "Legs" Feet. The aforementioned player will play at short, and he promises to let nothing get over his head (the "Dope Diggers" can't raise them that high, however, so he is perfectly safe in that line). Howler out in center can handle anything in the garden line with the assistance of Algyib at right and Joffry at left.

The celebrated reporters, Nutt and Jeff, have been secured at a great cost by THE TECH to write up the news of the doings at Nusite, and their stories will be published regularly in these columns. A great demand has already been made for tickets for this game, and George Thayer says that if you don't come early you may lose your chance of seeing this wonderful contest, not even excelled by the Red Sox and the Giants in the World's Series.

**TAG DAY.**

*(Continued from Page 1.)*

ing the colors. The financial returns from this day will make quite a large sum, and it is sincerely hoped that all of those who feel able to buy more than one tag will do so, and will do so gladly.

Now that free bath towels are provided at the Gym, the shower baths are getting so overcrowded that new accommodations will be needed to take care of the increased number of users.

Watch the Rifle Team clean up all their outdoor meets.

Has anybody seen a robin yet?
