HARE AND HOUND RUN AT HYDE PARK TODAY

Five-Mile Course to Start at Y. M. C. A.—Large Number of Men Expected.

Owing to a misunderstanding, a notice was inserted in THE TECH indicating that the Hare and Hound Run was to be held yesterday. This, however, was not the case. The run is to be held today at Hyde Park. The start of the run will be at 2:30 P. M., and will leave from country and back to the starting point.

The distance covered by the runners will be approximately five miles. There has been no selection as to who are to be the hounds, but the following are caught:

1. McConathy
2. Blodgett
3. Allen
4. Allen
5. Allen

All Technology Episcopalians Kneeland, who earnestly requested the Trinity Parish House. Brotherhood of St. Andrew Work for the more agreeable opportunity to exchange ideas. Mr. Murphy expressed the opinion that he would like to see a temporary captain chosen to take charge of the cast, chorus and understudies, must not feel alone on these runs, as there are others under the same circumstances.

TECH SHOW.

Rehearsal of Entire Cast and Chorus Today.

The Tech Show management announced that a man named Kneeland, a chaplain, and understudy, must be on hand today at the Union at 2 o'clock sharp. Mr. Deacon will take charge of the cast, Miss Kellogg the dance, and Mr. McNamara the band. Miss Kellogg will continue the work that she began yesterday in teaching the men in that express. The management has consulted that the rehearsals have been extremely rugged and poor. This condition must be remedied at once. The cooperation of all the men is needed to make a successful show. Therefore it is expected that everyone will take a hand and work harder from now on.

EPISCOPALIANS MEET.

The Bishop of the Brotherhood of St. Andrew will hold a special service on Sunday evening, March 22, at 4:30, in the Library of the Trinitarian Schola. The Bishop being Holy Week, all of the chapters have been holding chapters meetings for the past two weeks. Each chapter meeting was twenty minutes in length, and some of them have decided to continue them, in preparation for Easter. These services are always given to the Sophomores before Professor Dun's Religion lecture.

CONSTITUTIONS OUT.

Copies of the Constitution and By-Laws of the M. I. T. Undergraduate Association will be distributed at 12 o'clock, at the suggestion of Professor Dun. All Technology Episcopalians may have an opportunity to procure a copy. Copies of the Constitution also given to the Sophomores before Professor Dun's Religious lecture.

IMPORTANT INSTITUTE COMMITTEE MEETING.

Tech Show, All-Tech Smoker, and By-Laws Considered.

The meeting which the Institute Committee held yesterday afternoon was the most important that has been held this year, for the Point System, Tech Show, Athletics, All-Tech Smoker and the Constitution and By-Laws were fully discussed.

Two changes were made in the Point System upon the recommendation of the chairman of the Point System Committee. The first change was the rating of the leader of the Musical Club from five to six points. The second was the inverting of the voting of the managers from seven to six points.

The Institute Committee reissued its notice upon the proposed visit of the Show to New York until Manager Walsworth receives a definite reply from one of the Directors of the Alumni Association. The notice in New York, with whom he has been corresponding about the M. I. T. few hundred dollar guarantee. This action of the committee does mean that it is against the proposed visit of the Show. It only means that the committee does not wish to support the trip if there is not a reasonable certainty of financial success.

The committee voted all the money in the treasury which it could possibly spare for the support of athletics. This amount, $129, is to be used in the treasury which is caused by the Corporation making the usual yearly appropriation the committee plans to limit its expenses, as well as those of its sub-committees. The first step taken in this direction was the passing of a motion to discourage the sending of notices of regular meetings to the committee men. Notices and notices will be placed in THE TECH.

The question of providing alarming to reveal the strength of the student body and its appreciation of the advantages of having a class in the Institute upon the recommendations of the Committee, the committee plans to limit its expenses, as well as those of its sub-committees. The first step taken in this direction was the passing of a motion to discourage the sending of notices of regular meetings to the committee men. Notices and notices will be placed in THE TECH.

The Tech Show management is preparing to make it clear to Dr. Markham that such a proceeding is against the proposed expenditures of the committee. The committee, in charge of this work feels that every man, woman and child passing within the five hundred feet of Tech Show and their own游泳. Tags may be sold for ten cents apiece.

The chief aim of this TAG DAY is to convince Dr. Markham and others of the Executive Committee of the Corporation that the students are ready to show their keen interest and appreciation of the advantages of having a class in the Institute. In order to make it clear to Dr. Markham that such a proceeds is against the proposed expenditures of the committee, the committee, in charge of this work feels that every man, woman and child passing within the five hundred feet of Tech Show and their own swimming. Tags may be sold for ten cents apiece.

HOOP 4 #4 ELECT

N. D. MacLEOD CAPTAIN

C. B. Rogers and R. L. Fletcher to Manage Team Next Season.

At a meeting this year's hockey team, yesterday noon, in the Union, N. D. MacLeod was elected captain for next year. All the members of the team were present, and in the pres- ence of P. L. Hurkett was favored for the captaincy, but on account of the intercollegiate Four-Year Rule he is unable to serve. This is the fourth year that Hurkett has played for the team, and last year he scored in the finals and was one of the stars of the team. For this reason he will be unable to play next year.

This is MacLeod's second year on the team and his work at center has always done much to strengthen the team. His shooting and passing in the games this year was especially good.

C. B. Rogers was elected manager and R. F. Fletcher assistant manager for next season. Both men are members of this year's team.

MacLeod, Rogers, Fletcher and Stimson will be the only men on this year's team back next season, but considering the strong showing made by many of the substitutes, it should prove one of the best teams Tech has ever had.

CLASS OF '09 DINNER

Talk on Survey of Boundary of Costa Rica and Panama.

The Class of 1909 had a dinner and talk last night in the Union, at which fifteen members of the class were present. After the dinner the men gathered upstairs and a stereopticon lecture was given by Mr. John H. B. Toward, '08, on the recent survey of the boundary line between Costa Rica and Panama.

For many years this line has been in dispute, and a few years ago President Loebel of France was asked to arbitrate the question. However, his decision was not altogether satisfactory, and the Chief Justice of the United States Supreme Court was asked for an opinion. He decided that a survey of the eastern part was necessary, and a commission was appointed, two by himself and one by the two interested countries. Each country has one or two members of the commission.

Four parties were placed in the field, composed of five white men each and about twenty-five negroes. There were also a commissionary, medical and disarming department. Great care was taken to prevent the negroes from entering the line, due to the dense underbrush. In fact, the vines and trees were so thick that they worked in a veritable tunnel of trees. When it was necessary to take observations on the line a clearing had to be made.

Mr. Howard also gave many interesting sidelights on the life and aspirations of the natives. The United Fruit Company has about three hundred square miles of banana plantations. Their organization of this enormous tract of land is interesting. They have divided it up into many small farms, each with a manager and assistant to take care of it. Over this they are the general managers. The Fruit company operates a pottery railroad to transport the bunches from the plantations to the warehouses. The Fruit company also has a very modern wharf where the bananas are loaded into the ships. The ships are made of wood with a covering of concrete to protect them from the terrors. With their lead- ing equipment 150,000 boxes can be loaded in a couple of hours.

CHESS TEAM TO PLAY UNIVERSITY OF BROWN

Match at 2 O’Clock today in the Union—Five Men On Tech Team.

The Chess Club, which is to meet the University of Brown Chess Club in the Union, is looking forward to the match as two of its members, C. E. Norwood, ‘14, and E. T. Chandler, ‘15, are boxers and will make quite a show. The meeting is expected to be a close one between the clubs of the two universities.
