JUNIORS WILL HAVE NOVEL ENTERTAINMENT

Vaudeville Performance Given By Members In Exciting Much Interest.

Great enthusiasm returns just now among the haughty Juniors over the coming smoker. The entertainment is to be held Thursday evening at 7:30, in the Union, and bids fair to rival any other meeting ever held in that place in fun and merriment. The vaudeville acts, which are to last for one hour, are to be the main feature of the evening. The attendance of the vaudeville performance is that all students of the Institute, as well as the faculty in attendance, and such drawings as will be made of the performance will be quite a varying nature. The free "smokes" will no doubt, keep every one busy, since the committee in charge of this entertainment has provided a good supply of them.

The contestants in the second class are listed as follows: R. E. Woodbridge, 16 votes; C. Rosenberg, 33 votes; A. Corliss, 24 votes; W. L. Williams and P. S. Howas.

The Juniors have sent the following of the men of this class to represent the Juniors at the smoker: F. A. Chandler, J. A. Root, U. C. Schiess, F. S. Wheaty, E. L. Williams and P. S. Howas.

SHOW REHARSALS.

Important Meetings This Week-New Instructor in Dancing.

Work on the Tech Show is progressing very satisfactorily and it will not be long before it will be ready. Following is the program for rehearsals for this week:

Tuesday, at 4:15, the cast and chorus will rehearse the book and music and the direction of Mr. Sanger, starting at the beginning and going as far as possible.

Wednesday, at the same time, Mr. Prentiss, who has been announced by Milles Kieling, will instruct the chorus in their scene.

Thursday afternoon Mr. Adams will have charge of the chorus and Mr. McConathy will conduct a complete song rehearsal with the cast, chorus and orchestra.

Friday, at 4:15, the cast and chorus will go through everything in connection with the Orchestra, starting with the first part of the book and going over as far as time allows.

Saturday, Mr. McConathy will have everyone in a song rehearsal from 11 to 12 o'clock, after which Mr. Sanger will rehearse the cast for some time.

Rehearsals are now very important and it is necessary that class members be prompt and regular, for it is on the success of each that much of the success of the show depends.

NOVEL ENTERTAINMENT.

Juniors will have a novel entertainment this week, with a vaudeville performance given by members in exciting much interest.

INTERCOURSE RUN SATURDAY AFTERNOON

Course II is the Favorite—All Other Courses Are to Combine.

Saturday afternoon the annual inter-course cross-country race will be held off. This spring event has in late years aroused a large amount of enthusiasm among the non-scholarship men of the Institute as well as the track men. Our runners have all been brought out a large number who are not taking track work. Last year the courses were arranged so that the course II men could also be the case this year. Courses III and IV won the race last year, and this year the same two Courses will probably be combined. The remainder of the Courses will be split into groups of three or four to the team. Course II is regarded as the strongest as it has been and two of the other regulars on their team have no ambition to run in the race, hence must be given up. The inter-course cross-country race is not to be held this year. As the season progresses very satisfactorily and it is expected that the performance will be quite a varying nature, the free "smokes" will no doubt, keep everyone busy, since the committee in charge of this entertainment has provided a good supply of them.

THE TECHNOLOGY REVIEW.

Plans Made by Members of Architectural Course Show Much Thought.

The drawings submitted by the students of the School of Architecture have been forwarded to Philadelphia, where a committee made up of representatives of the attending colleges. The drawings are particularly good and show much constructive work. Arrangements were made for the opening of the exhibit and the announcement of the winners will be made in a couple of weeks.

The contest was open to any man wishing to join in the competition for every man to express his disapproval of any specific clause in the institution for every man to express his disapproval of any specific clause in the charter of this university, and it is necessary that attendance be the case this year. Courses III and IV won the race last year, and this year the same two Courses will probably be combined. The remainder of the Courses will be split into groups of three or four to the team. Course II is regarded as the strongest as it has been and two of the other regulars on their team have no ambition to run in the race, hence must be given up. The inter-course cross-country race is not to be held this year. Posse Gym Weakening.

Anyone who has been the ally of the Mechanical Engineering laboratories will be glad to hear that the Posse Gym, which was recently rebuilt by a bad fire, does so at a risk, because great damage to the working of the laboratories may be expected. The instrument and testing laboratories will remain open to any man wishing to join in the competition for the showing of the laboratory work at the Institute. Although many pictures have been previously taken, they are primarily for advertising purposes, while this series is for the benefit of the I. E. C. and the students.

The work in the laboratory at present is being done by the Course I men, and includes a great number of various building materials. Slow platers will be taken of this part of the work in order to have an exact record of the methods and in those laboratories, rather than to show their equipment. The four already finished include pictures of a compression test on a beam, of a compression test of a wooden beam on the large 300,000 pound horizontal testing machine and a scene in the cement testing laboratories.

The two weeks left in the year almost of all the work will be taken of the material and the work. These, too, will form a record of the work in that kind of work and will show some of the new methods of testing that could be gained in a much greater time spent in random writing reports. The series will also be material for lantern slides or presentations for the use of future lecturers, both here in the Institute and at other universities.

Weather.

Forecast for Boston and vicinity: Unusual, unsettled, with showers during the forenoon; somewhat clearer in the afternoon and thin sheets at night. High winds.

Calendar.

Tuesday, March 26, 1913. 4:15—Crew Practice—B. A. A. Boat Club.

Wednesday, March 27, 1913. 4:15—Chorus Rehearsal—Tuesday, Thursday, and Saturday.

3:30—H. A. S. Club—Rinknet Union.
WRESTLING MEET AT MILTON TONIGHT

Tech Team Wrestles With Cunningham Gymn.—Last Meet of Season.

Tonight the Tech wrestling team goes to Milton for a meet with the Cunningham Gymnastic Club. There will be six events, and as this is the last big meet of the season the team wishes a good bunch of followers to go along and make some noise. The Tech men who are entered are as follows: In the 115-pound class, Dwyer; in the 125-pound class, Mann; in the 135-pound class, Kelly; in the 145-pound class, Morse and Alexander; in the 150-pound class, Press. All of the men are fast wrestlers and will be interested in all the way through. The admission is twenty-five cents.

MECHANIC ARTS TO MEET.

Members of Club to Hold Second Smoker of Year Tonight.

Tonight the Mechanic Arts High School Club will hold its second smoker of the year at 7.25 P.M. in the老虎 Club. The club and the members are looking forward to this part of the program with great expectancy.

The purpose of the business meeting is to make arrangements for the final banquet of the year. It has always been the custom to invite all the members of the junior class and the more successful contestants to this banquet.

SPRING READINESS
Newest Styles, Fabrics, Colorings, in Ready-to-Wear Clothing
For Men and Young Men

The showing of suits and topcoats commands attention from men who distinguish between the new and the really original and distinctive in dress.

Our Ready-to-Wear Men's Clothing bears infallible testimony to better methods of making. Unlike ordinary ready-to-wear clothing, fronts are not artificially stiffened, nor are the shoulders "filled." The soft, natural front effect is preserved.

Trousers are straight cut, in accordance with the best models.
