At a meeting of the Technique Executive Committee yesterday afternoon, Harold Ryder Crowell was elected editor-in-chief of Technique, 1916. Crowell comes from Los Angeles, California, and was prominent in athletics at the Los Angeles High School. He is class Treasurer at present and represents his class on the Institute Committee.

Mr. D. W. Hughes, we want to remark right here, is also a member of his class team for two years and has been on the wrestling team in the past two seasons, being the only man in the heavy weight class. Mr. Hughes is a member of Delta Upsilon.

Mr. H. R. Crowell Chosen—Has Been Prominent in Class Activities.

COMMUNICATION.

Editor-in-Chief of THE TECH.

REPORT OF THE TECHNICAL COMMITTEE.

Professor Hayward, however, narrowed his objection to the fact that the date of the meeting of the Cercle Francais never coincides with that of the Tech Show. Also, the Cercle Francais has more members who are not eligible to vote in the Tech Show, and it was due to the fact that the Tech Show is a contest in attendance, the Cercle Francais has been active in its study work this year.

The subscription price of the book to $4. None could imagine the price. I think the subscription price should be at least $3.00.

Neglect of Student Activities has been a common complaint among the Society. Many students have been very division into groups by course, and that close unity was lost sight of. All of the members of the class were present and told about the plan for January.

(Continued to Page 3.)

TECHNICAL RUSH.

To Be Held in Rear of Copley-Plaza—Edition Selling Fast.

Following their policy of introducing innovations wherever they are advantageous, the Technique Board has already begun to make definite plans with regard to the annual Technique Rush. Although the usual plan of meeting and selling in a small window in the building erected for the purpose will be adhered to, other barriers will be supplied in order to make the Rush a contest in every part.

Through the kindness of the Copley-Plaza Hotel management, it will be possible to hold the Rush on the land directly in the rear of this hotel.

Slight for the first time in many years. Several hundred men have stepped up to date, and on account of the limited edition the Board will be unable to provide more than one hundred additional men to sign up. It is too late to increase the edition now. Therefore all men who intend to purchase the book, and have not yet signed, should do so at an early date before the entire edition is sold out. Men can sign up with "CRS" at the Cage until the edition is exhausted. The TECH for new Rush plans.

WEATHER.

Forecast for Boston and vicinity:

Friday: fair, cloudy; high 70, low 54.

THE TECH

Entered as second-class matter at the Post Office at Boston, Mass. on the 7th day of March, 1885, under the Act of Congress of March 3, 1879.

Published daily, except Sunday, during the college year, by students of the Massachusetts Institute of Technology.

T. G. Gilson, Editor.

Published April 29, 1913.

THE TECH BANQUET.

FRIDAY, MARCH 29, 1913

Today heralds in a school era of unusual significance to us Technology men. The occasion, as everybody knows, is Tag Day, the proceeds of which are to go to the upkeep and maintenance of athletics. Have you realized thoroughly the basic principles which underlie this step, have you thought out absolutely the why and wherefore of this scheme? If you haven't, a few ideas here may do no harm.

Formerly there was a time when Technology men had track teams which held pride of place and competed on an equal footing with the larger colleges of the country. Why are we not in the same condition today? There can be but one answer—an insufficiency of support on the part of the Undergraduate body and naturally a corresponding aversion to support from the Corporation. Athletics need not only personal aid by attendance at practice and competitions but also financial aid. As men, and undergraduates attending Technology, do not support our own activities, how can we reasonably expect the aid of the Corporation? Institute men have shown their public spirit by rushing to aid THE TECH and by conscientiously backing the present Institute Committee. Let this then be such another occasion for us to show our belief in Technology by investing as many of the men who compose the next majority of this large number is able to support this club. Mr. Hughes refers to a committee which handles no money. We suppose he refers to the committee representing the Union, whose membership is something over 1600.

As we want an ideal representation, our worst enemy has made his preliminary arrangements for the coming exercise. It is imperative.

UNSOLED TAGS.

All unsold tags must be returned to THE TECH office not later than 1 P.M. today. This is imperative.

Those tags are going fast. Better get another one.

VALUE OF SPIRITUAL IDEALS EMPHASIZED

T. C. A. Speaker Says Religion Is Necessary to Progress.

Yesterday’s T. C. A. talk was given by Rev. James F. Francis, D. D., pastor of the Clinton Street Baptist Church. The talk, which was on the subject of “The Real Dynamic Behind Civic Betterment,” dealt with a very important phase of modern civic reform work.

Dr. Francis spoke first of a man’s various relations to life. Of all these, the most important is the relation to one’s fellow-man, as the happiness and progress of the race depends largely upon the consideration shown by each man for his neighbors. In these days, many good people are turning their attention to bettering civic conditions, to curing the poor and to reducing unemployment, but they are, according to Dr. Francis, all actuated by the same motive. All are attempting to improve the condition of their fellow-man, but some have only the ideal, while others look for a profit and see the religious side of the work.

Dr. Francis contends that the latter class is the more successful. He says that people who have no better ambition than helping mankind are likely to lose interest after a time, and finally become cynical and give up. On the other hand, men who are inspired with true religious feeling prove to be the best instruments for human progress.

In all attempts to improve the world a spiritual ideal is necessary, which is combined with the “real dynamic behind civic betterment.”

Institute men are earnestly advised by Dr. Francis to “Be Idealistic.” He says that no one who wishes to get the best out of life, to serve his fellow-men, and to reap the greatest portion of happiness, can afford to neglect the spiritual side of life.

B. C. Dorrance, Editor-in-Chief of the Tech, announced that the Tech Show will be held on the evening of April 16. The show will contain the following performances: The Tech Glee Club, the Tech Quartet, the Tech Musical Club, the Tech Chorus, the Tech Band, and the Tech Drama Club. The show will be held in the new assembly hall of the M. I. T. campus.

TALK ON PROBLEMS OF PAPER MILL CHEMIST

Mr. Carruth Will Speak to Chemical Society in Union Tonight.

This evening Mr. E. P. Carruth of the American Paper Company, will address the Chemical Society on “Problems of a Paper Mill Chemist.” Mr. Carruth now holds the position of head chemist of the big American Paper Company mill at Holyoke, and his nearest concern on which he is to talk is, perhaps, as good as that of any mill chemist in this country.

Mr. Carruth is known as an interesting speaker and he is able to present to the society the facts in such an able way that all who hear him will carry away a clear idea of paper mill problems. The change of time of the T. C. A. social, which was to be tonight, will enable many men to attend.

PSYCHOLOGY OF LIFE INSURANCE

The psychological effect of Life Insurance is that it relieves you from worry about the present and from anxiety for the future. Thus you are enabled to devote your whole attention and best efforts to your profession.

CHARLES H. JOHNSON, M. I. T. ‘05
REPRESENTING
NEW ENGLAND MUTUAL LIFE INSURANCE CO.

A Young Man’s Fancy

Turns at this season, not only to “thoughts of love,” but as well to the proper raiment in which to follow his quest. We can start him joyously on his way. He will find in our immense stock what he is looking for, and not having to look for anything else, when, before another dollar is spent, he will find at all of our stores best values possible, at reasonable prices, and every courtesy and courtesy to any member of the Medford Club, for an encore they gave him an invitation of the big pipe, which was so real that it caused great merit in the audience. Mr. C. T. B. Carruth, head of the Tech Musical Club, said that the Spring Concert was sure to be a great success this year since all the officers of the various musical clubs are Juniors.

The fact that the alleyway was closed, a “Daredevil” Wallach entertained, and a corner of the walls was overrun with the most splendid tail coat, and a nice hat were most astonishing. The fact that the alleyway was closed, a “Daredevil” Wallach entertained, and a corner of the walls was overrun with the most splendid tail coat, and a nice hat were most astonishing.
