The Progressive Club will give smoker

Richard Washburn Child to speak in Union tomorrow night—smokes free.

Tomorrow night the Progressive Club of the Institute will hold its first meeting since its organization, in the Union, at half-past seven o'clock. Richard Washburn Child, the famous Progressive and writer, together with other interesting speakers, will talk at a smoker which will be open to all students.

Mr. Child has been closely identified with the Union, having been born in it, and early in the spring, when Colonel Roosevelt "threw his hat in the ring" here in Boston, he, together with Matthew Hare and two or three others, paid their dues at the Union, and it was due to this group more than any other that the Progressive Club has been founded. Mr. Hare and Parry got an oven break with President Tutt in the Massachusetts presidential primaries. Mr. Hare was graduated from Harvard in 1902, and went to his present residence, but the author of several books and has been especially popular as a magazine writer of fiction.

Every student at the Institute, whether he is in sympathy with the Progressive movement or not, is invited to come to the smoker. All smoking materials will be supplied at the club and no charge will be made.

Bill Moore's session may or may not be organized by the club, but men wishing to enroll as members may do so by leaving their names at the cage for C. A. Sandburg.

Chem. Society Dinner.

Professors Talbot and Walker to give informal talks.

At 8.15, tonight, the first meeting of the Chemical Society begins with a dinner. This will be followed by talks given by Professor Talbot and Professor Walker. Professor Walker has had no opportunity to meet the members of Course X since he has been appointed head of that course, and he will probably have something to say that will interest all the prospective chemical engineers.

Four other professors, representing the instructing staff of the Chemistry Department, will be there to show the society the beginner's organization in its beginning.

At the meeting which will follow the supper the plans for the year will be outlined. All those men who have already paid dues for the year will have a chance to sign the Constitution, and all other members of Courses Y and X will be able to attend as well as to those who are present, but those not receiving such notices may feel privileged to come in case they should have been missed. The officers will also invite officers of the important societies to attend.

It is expected that both President and Mr. Washburn will be able to attend, as well as the Dean and other faculty members.

Mandolin Rehearsal.

Over twenty men present at yesterday's meeting.

The Mandolin Club held its first rehearsal yesterday in the Union. Coach Lansing was present, and was greatly impressed with the prospects of the club. There were twelve pieces given out, and more good ones were ready to be played if wanted. The club has had a lot of work this winter. The following are the members of the club: A. E. Later, R. O. Atkinson, W. R. Bryant, H. K. Calver, H. B. Glass, A. V. DeBeech, T. P. Dunlop, W. B. Ebbins, T. D. Durney, B. O. Dunn, R. S. Felton, J. C. Fink, W. H. Foxwell, H. L. Harris, T. A. Hetherington, W. C. H. Hovey, G. D. Kitching, R. F. McPhee, A. F. Spanner, M. J. Sayward, P. F. Stern, P. L. Suris, E. C. Taylor.

One hundred and forty-five men are registered in the freshman crew at Copley.

Minning Engineering Society holds meeting.

Prof. Richards' "Reminiscences" of Early Life at the Institute.

Professor Richards addressed the first meeting of the Mining Engineers Society over the Union last night. His subject was "Reminiscences," and the talk proved interesting.

H. E. Wells, 1914, was elected secretary of the society, and Treasurer H. L. Loomis, 1913, gave a statement of the financial standing of the society, covering a mark of appreciation and gratitude to the society, at the instance of President H. L. Loomis, 1913, held a silence of thirty seconds while standing in honor of the first President of the Institute, William Harlow Rogers. This mark of devotion, it is intended, shall become a custom with the club. Professor Richards told of his coming to the institute from Kentucky, having spoken in the Lowell Institute with avidity, and having only six rooms available for the Institute. It was founded in 1866, when it first occupied Rogers building. The students, who were conspicuous by their presence, who were identified with the Bull Moose party since its organization, in the Institute, were represented, in particular, being out in force.

In the new meeting, it was decided, will be held on Tuesday, October 22, at a smoker which will be open to all students.

The most important subject to be considered by the meeting is the educational plan. The society that they represented: R. A. Allton, H. R. Bassett, W. R. Bird, J. H. Child, W. E. Dill, R. A. Ellis, 1914, was elected secretary of the society, and Treasurer H. L. Loomis, 1913, gave a statement of the financial standing of the society, covering the first year and the prospects of the club. Two pieces of business received in regard to the Pugsley lecture and early in the spring, when Colonel Roosevelt "threw his hat in the ring" here in Boston, he, together with Matthew Hare and two or three others, paid their dues at the Union, and it was due to this group more than any other that the Progressive Club has been founded. Mr. Hare and Parry got an oven break with President Tutt in the Massachusetts presidential primaries. Mr. Hare was graduated from Harvard in 1902, and went to his present residence, but the author of several books and has been especially popular as a magazine writer of fiction.

Every student at the Institute, whether he is in sympathy with the Progressive movement or not, is invited to come to the smoker. All smoking materials will be supplied at the club and no charge will be made.

ALUMNI REUNION TO BE HELD IN NEW YORK

Tech Club There to Celebrate Its Tenth Anniversary This Year.

The Council of the Alumni Association of the Institute at its meeting last evening voted in behalf of the association to accept the invitation of the New York Club and hold the annual dinner in New York City. This year the tenth anniversary of the incorporation of the Institute is to be celebrated, and the Tech Club has now a membership of about 1,500 men and women. In addition, the intention is to make the celebration last over two days, an opportunity of a midwinter reunion of institute men. An interesting program has been suggested, places have been reserved at the Plaza Hotel, Dr. Madison and President Rollins of the Alumni Association will speak, and it will be a grand finale for men within striking distance of New York. Such social affairs are becoming a feature of the annual meetings of Tech men, and many of the discussion last night was with reference to the possibility of making the opportunities more frequent.

START YOUR TECH YEAR RIGHT.

Your equipment for the year is not complete unless it includes the

Oliver Typewriter, Model Number Five.

Regardless of the work you may take up after you leave Technology, the Oliver Typewriter will be a necessity. Why not take advantage of the opportunity to get The Oliver while you are studying? It is cheaper to do your own typewriting than to hire a stenographer.

You can RUN THE NUMBER Five Model Oliver at the rate of $6.40 per month when you have paid twenty consecutive months' rentals. The Oliver will be presented to you without further expense.
