MEETING OF THE TECH CANDIDATES TUESDAY

At Noon Hour All Students Interested Will Meet in Lower Office.

On Tuesday, at 12:30 o'clock, a meeting will be held in the lower TECH office for the candidates for the various departments, both news and business, and for all students interested in the daily expressing a desire to join the Tech staff. Making up the committee was a long list of names of those interested in the Tech. The meeting will continue throughout the day.

REGISTRATION

One Hundred Students Register Because of Accident.

A number of the students have been slightly impatient about the new hours of registration. This is the first time that the students have seen the office and have liked the experience on newspapers before or that they would like to try this season. At the present time not a few have reported to the office and have been slightly inconvenienced last week on account of having to fill out the papers for the number of students.

Sale Manufacturers of "TOBIN BRONZE"
(Restricted Registration)

Guest I'll have to see "Good Old Burke the Tailor" pretty soon.

That big brother of mine told me to be sure to call on him at 18 School St., or to see Tom Hayes at 843 Washington St., as soon as I landed in Boston, and the bunch here tell me that was good dope.

**HARE AND HOUND RUN OVER DEDHAM COURSE**

Eighteen Men Go Over Long Course at Dedham With No Sprint at Finish.

The longest Hare and Hound run of the season was held yesterday over a seventeen-mile course at Dedham. The start was made from the High School, gymnasmum, and the hare, basing, and hound, took the trail over a tough course, mostly cross-country running, and through bushes a good part of the way, finishing at the same place.

Owing to the length of the run, Coach Kanaly did not require the men to sprint at the finish, and hence no order of finish was taken. The men were divided into two squads, the slower runners starting some time in advance of the rest. Coach Kanaly ran with the faster men, who finished well in advance of the others, as they lost their way.

The following cross-country men ran: Hooper, '13; MacDonnell, '11; Achard, '12; Nye, '11; Lee, '11; C. N. Whitney, '12; Sullivan, '12; Hill, '10; Lovell, '15; Besley, '15; Cook, '15; O'Brien, '15; Gardiner, '15; Loveland, '15; Wall, '15; Fogg, '16; Hauser, '16; Neuve, '16; Gray, '16.

**CROSS-COUNTRY RUNS.**

Three Important Races Have Been Arranged For.

Manager M. L. Waterman of the track team has announced the following schedule for the cross-country team for this year. November 4th, the team will meet Brown on the Cornell course. On November 10th, it will take part in the first annual N. E. I. C. A. A. cross-country race, which is to be held over the Tech- nology course. The team will go to Athens, N. Y., on November 20th, to run in the I. C. A. A. A. race over the Cornell course.

**COSMOPOLITAN CLUB.**

(Continued from Page 1.)

Trinity Hall, 1912, of Shanghai, China, then gave an elaborate exhibition of the Chinese game of shutteboard. The game as played with the foot and shuttlecock is peculiarly Chinese, and was a very interesting feature of the evening's entertainments. He was followed by M. S. Koh, 1912, who rendered several selections, principally 'Nearer, My God, To Thee,' on a curiously fashioned Chinese zither-like instrument. His efforts received merited applause.

Edward Hurst, 1913, a native of New Zealand, next gave a talk on his experiences with the folk of the stereotrophic. He pointed out the features of the country and also some of the -iiores where the fighting was good. He recited the 'Processional,' by Bynon, in a curiously fashioned Chinese zither-like instrument. His efforts received merited applause.

**EXHIBIT AWARD.**

(Continued from Page 1.)

...and others are connected with the manufacturing of medicines.

And the milk work was very interesting and was illustrated by photographs of actual "counts" taken in this city. One of these has only six hundred bacteria per cubic centimetre, the limit by law being half a million, and one of the bad ones had as high as 1,400,000 bacteria.

Several interesting photographs were contributed by Professor W. J. Lynn, University College, showing the various phases of his work, and a number of similar exhibits were contributed by the remainder of the elements of the department.

There are still a few copies of the E. C. A. Handbook left, which may be obtained by calling at the office of the Association in 85 B.
