COURSE XIV DECIDES TO HAVE NO SOCIETY
Meeting in Union Yesterday Afternoon Advocates Joining Chemical Society.

At a gathering of the members of Course XIV, Wednesday night, it was definitely decided to drop the idea of forming an Electro-Chemical Society, and to have the members of the course put all their energies into the Chemical Soc. The principal reason for this decision was that the number of men eligible was not great enough.

They feel that the Chemical Society is covering the field of electrochemistry so well that it entirely satisfies their present needs. There is also the fact to be considered that membership in the Chemical Society gives a chance to hear articles on phases of chemistry which has nothing to do with the field of electrochemistry. The Chemical Society, with the addition of the latter, would make it possible to invite prominent electrochemists, whose talks would be equally valuable to men in Courses V and X.

The following statement was for formal and not for professional activity was also dropped. The men thought that the idea of an interclass society would not work. This last plan was to have all the interested members of the staff send in their opinions for discussion of papers to be presented by superiors.

The meeting was probably as indicative of the opinion of the Course as any meeting of the majority of the men who did not attend it are. A large majority have given their opinions on the matter.

WIRELESS SOCIETY MEETS TOMORROW
New Men Given Chance to Join -- Discussion of Plans For the Year.

The M. I. T. Wireless Society held an important meeting tomorrow, Thursday, October 15, at 9 o'clock, in Rooms 11, Engineering B. At this meeting plans for the year will be discussed and the regular business of the society will be taken up. It is hoped that many new men will be present, especially among the freshmen, and a change will be given to join the society. The dues are small, in comparison to the amount of benefit to be derived from the Wireless Society, and each meeting will present many new men with the opportunity to learn more about the wireless art.

T. C. A. TALK ON THURSDAY
Rev. George Crawford to Speak on "An Unanswerable Argument."

Mr. Crawford will lecture on "An Unanswerable Argument" at 11 A.M. tomorrow. Mr. Crawford is a minister of the Methodist Episcopal Church, and has recently returned from the Orient, where he was stationed in the navy for more than a month. The lecture will be on a subject with which Mr. Crawford is familiar, and will be of great interest to the students.

TECH MAN ENGAGED

Mr. DeMerritt, of the English Department, and those men who are at present working on books for use by the Tech Show, 1912, will see Miss Blanche Rink in "The Wall Street Girl" this evening, at the Tremont Theatre. As Mr. Carsen has considered experience in writing for the stage this will be an opportunity for the students to gain experience in the world of art. The play is to be produced in the next few weeks, and it is his idea to help the authors in this novel way. The men will all finish their work and take note of the different situations that arise and try to discover those lines which will make for comedy and help to advance the plot. After completing the performances the men will discuss the production from all points of view, obtaining ideas which may be helpful in writing their own books.

The union will be interested in the staging effects carefully, as these are some of the most important features of the show. As it is of the utmost importance that the prospective authors have a thorough understanding of the intricacies of this science of stage action, all men who wish to join the parts will meet in the lobby of the Tremont Theatre at 3 o'clock sharp.

COACH ECKMANN EXPRESSES SATISFACTION OF TRIALS

At the rehearsal of the show orchestra, Thursday, October 15, at 9, the union yesterday afternoon, thirty men met for the last time, and without any other instruments, Mr. Eckmann expressed himself as being pleased with the work, as the men have made. Mrs. Whittemore has asked the orchestra to play at the faculty reception which is to be held at her residence on November 9, 1912. Mr. Adolph Ecker is a good wood-well-trodden bass and well-thought-out concert master of the orchestra, and has consented to play with the orchestra throughout the year. Mr. Eisenberg is now studying music and should be a help to the orchestra.

The orchestra has a fine collection of sound machines, and a very fine set of instruments. The orchestra needs kettle drums, a second bass viol, and a viola or cello. The next rehearsal will take place next Thursday in the Union at 8 o'clock sharp.

**EDITORIAL CONTEST.**

We are glad to publish below the conditions of the Editorial Contest, which has been opened by the Delta Epsilon journalistic fraternity, Delta Epsilon being made an editorial column of THE TECH in the same position. These are the conditions of the Delta Epsilon Editorial Contest, which began today:

1. All editorials must have the name, class and address of its writer on each page.
2. Each editorial must be addressed to the Delta Epsilon Editorial Committee, and left at the Cage or in the Delta Epsilon journalistic fraternity, and in fact everything - that has a place in the College man's wardrobe.

**MANDOLIN REHEARSALS.**

Men Show Fine Progress and Prospects Are Very Good.

**COMMUNICATION.**

To the Editor of THE TECH:

The books given to the Union by the class last year, and about which there was a misunderstanding and some discussion, have been placed on the shelves again. It is not desired to make any strict rules regarding the giving of them, except that they must not be taken from the Union under any circumstances and that they should be replaced immediately after the readers are finished with them; I have still another set containing quite a number of volumes which I should like to present to the Union, and I will take an interest in endeavors to obtain volumes from other sources if the students will show that they appreciate and can take good care of the small collection already in existence.

*Major Cole.*

**TECH MAN GOES WEST.**

Karl D. Fernstrom, the Tech student, who was a member of the M. L. T. record relay team, and also of the U. A. A. relay team, left Boston yesterday for Beloit, Wis., to assume an important position with a leading firm as a mechanical engineer for the best two years he has been an instructor at M. L. T. He has the best wishes of a host of friends and associates.

**FRESHMAN GYM SUITS.**

Mr. Knolly wishes to announce that a representative of Howe's Partridge will be at the Grandstand this afternoon from 1 to 3 o'clock to take measurements for his suits. A great number of suits can be given in so as to be obtained at any other time. No regulation uniform is required.
