VOL. XXXII. NO. 26

BOSTON, MASS., WEDNESDAY, OCTOBER 30, 1912

PRICE TWO CENTS

GOOD ENTERTAINERS FOR SENIOR DINNER

Profs. Burton and Walker to Speak—Election Returns Will Be Given Out.

Tonight every single Senior will be in the Union a 6.30. The dinner committee have arranged for the very best entertainment, souvenir distribution and hearty repast. They have spared no pains or trouble in securing the most excellent live wire speakers ever heard in the Union. Professor Walker, of chemical fame, will be there with an inspiring talk, full of rare charm and originality. Homer Albers, the corporation lawyer, who has no superior in the East or in the West, will transport his audience to the courts of law and give a pleasant and educational discourse on "How to Do Everybody and Not Get Done Yourself." This talk alone will be worth the utmost effort of every Senior to be present. Dean Burton will step from his official position and tell some amusing things concerning his long sojourn in the halls of Technology. Furthermore, Mr. Rollins, president of the Alumni Association, will deliver one of the refined and cultured talks which have made him famous in New England.

Musical numbers of super-excellent quality will be offered by a special orchestra secured through the diligent efforts of the dinner committee. Finally, when the men have been fitly revived, and snug belt conditions prevail, those interested in the class elections will be relieved by the announcements of the committee in charge of vote counting. It is earnestly hoped by the dinner committee that each and every Senior will be there, thoroughly charged with class spirit.

W. B. SNOW TO SPEAK.

Thursday's Talk of Interest to All Technology Men.

The usual Thursday noon talk provided by the T. C. A. will be given this week by Mr. Walter B. Snow, M. I. T., '82, whose topic will be, "Making Tech Spirit Count." Mr. Snow, while here, was a member of the Mechanical Engineering Course, and is now a Publicity Engineer at 170 Summer street. He is a term member of the Corporation and is a member of the Committee on the Society of Arts, and also of the Department of Mechanical Engineering. He has done much for the T. C. A., and is chairman of the Advisory Board of that organization.

TECH MAN CLIMBER.

It may not be generally known that Joseph M. Livermore, '15, has twice climbed to the summit of Mt. Rainier last summer. He went first to the Canadian Alps for preliminary exercise, and after climbing some of the principal peaks there, joined a party and made the ascent of Mt. Rainier. A notable feature was that no ropes were used in the ascent. After returning to the camp at the base he remained there for a while and again took the climb with another party. The summit was reached this time in about three hours and a half less time. Two or three days later the whole party returned home.

SHOW BOOKS DUE AT CAGE NEXT WEDNESDAY

Writers Who Enter Competition for Book Must Follow Instructions Closely.

The time is growing short now in which to finish up the books for Tech Show, 1915, for the competition closes on Wednesday, the sixth of November, at 4 P. M. All the manuscripts must be written on one side only, securely fastened and provided with a substantial cover. Numbered envelopes may be obtained at the "Cage," and every prospective author must obtain one of these and place therein his name and address; then number his book according to the number on the envelope, and leave both book and sealed envelope at the "Cage" for Charles P. Fiske, Manager of the Stage Department. These instructions must be followed out to the letter in order that the books shall be considered.

It is of paramount importance that a book be obtained which shall be of sufficiently high character to keep up the standard which has been set by previous shows. In order that the Show management shall have the greatest choice in this matter it is clear that the more books submitted the more likelihood there is that an all-round excellent play can be selected. It is hoped, therefore, that all who are writing books will submit them, whether entirely completed or not. Accompanying the book there must be a synopsis of the play giving all the important details. The authors should also have a synopsis ready and with them at the Tech Show Kommerz Dinner, in order that they may be able to read it should their book be the one selected.

TECHNIQUE GRINDS.

Jokes, Amusing Incidents and Original Sayings Wanted.

There are shining examples of grinds among us daily, but although they are jokes, this article has to do with another kind of grind, also a joke. A grind may be defined as anything funny that pertains to Institute life. Amusing incidents occur every day in the class room and wherever Technology men gather together. Then, too, we have some wits among us who are known to originate clever sayings occasionally. Others can draw cartoons calculated to start a laugh, and some have taken photographs of general interest.

Everybody knows that a good joke is valuable, especially to the grind department of Technique, which offers a free de lux edition of Technique to the man who has the greatest number of grinds accepted. So, whenever you hear anything in the nature of a grind, write it down, sign your name to it and hand it in. Boxes are placed in the Union, Rogers and Eng. A, labeled grinds, or leave them at the Cage for H. A. Morrison.

The new Harvard catalogue shows there are at present fifty students attending the college who answer to the name of Smith. The Browns rank next with twenty-four members. The Joneses are quite a ways down in the list, having only seven representatives. The most unique name in the list is that of "A. B. See," whom the fellows call "the human alphabet."

WILSON CLUB PARADES ON SATURDAY EVENING

Applications Due Today—Judges Chosen for Debate With Bull Moosers.

Although a large number of men have signified their intention of joining the Woodrow Wilson College Men's parade, to be held Saturday night, the committee in charge of Technology's delegation feel that many more men who desire to march have not yet come out. It is important that the number of men who will parade make arrangements today. Tickets which entitle the holder to a complete distinctive Technology regalia to be worn in the parade, including the torch and red and green fire, are fifty cents, the bare cost of the material. These tickets may be obtained from the club's officers, or at the Cage.

For the debate between the Wilson Club and the Bull Moose Club of the Institute, the judges chosen are Professor Clark of Boston University, Professor Pearson and Professor Robinson of the Institute.

The place of the debate and the various other details of the affair will be published in THE TECH in a day or so. The debate has aroused considerable interest about the Institute, and several of the Faculty are to be in the audience.

FRESHMAN OUTLOOK.

Football Team Will Be Judged By Game With Newton Today.

The prospects of the Freshman class in the relay race are somewhat in doubt at present. There has been a decided slump in the efforts of some of the men who have been trying out for the team. In one or two cases, some fast runners have neglected to show up for practice and for their trials. Yesterday there were few out for practice, and the flag passing was entirely neglected. Coach Kanaly says that there has got to be harder work and more practice in flag passing if the Freshmen expect to pull out the winners on Field Day. The most promising candidates at present are Dean and Lieber. Owing to sickness, Adams, one of the fastest men, is out temporarily, but it is expected that he will get his time trial the first of next week.

The football team has been having steady signal practice and a little scrimmage work the last few days. Hill is being tried out at right half back and looks promising. Krieger, as guard, has added new strength to the line. Nothing definite can be said as to their strength until after today's game with Newton.

The tug-of-war team, which practices daily at either the Gym or the Oval, is coming into good form under the direction of Affel, '14. Manager Bickford wishes to see everyone who has reported at all out every day for regular practice, because he says that it is the daily drill that counts very nearly as much as weight and muscle.

Monday, Harvard inaugurated the first University Forum ever held in this country. The subject for discussion was "The Political Situation," and over 200 were present.

FALL MEET CLOSING WITH SOPHS SECOND

Discus Event Gives Ten Points to Juniors and One More to Sophomores.

Correction of an error regarding the classification of a competitor in Saturday's meet changes somewhat the relative standing of the three lower classes. T. F. Friebus, '15, thought to be a Freshman at the time of the meet, is a Sophomore, having entered Tech from another college. The ten points won by him and accredited to 1916 now go to the Sophs, easily giving them second place in the Fall Handicap.

The discus event was run off late this afternoon, the Juniors capturing the first three places and increasing their lead ten points. MacLeod, showing beautiful form, took first from scratch, with a few feet to spare, against a considerable handicap.

	1913	1914	1915	1916

Shot-put		8½	2½	
Hammer throw	3	6	2	
Pole vault	1	7	3	
Discus		10	1	

Totals 9 60½ 49½ 29
Discus—Won by N. D. MacLeod, '14, scratch; second, T. J. Guething, '14, 17 feet; third, C. E. Fox, '14, 15 feet; fourth, E. E. Alt, '15. Distance, 114 feet 6 inches.

HONOR SYSTEM.

The integrity and honor of the Minnesota student has been found to be as high as the standing of the football team. This was found true last Friday, when the Managing Board of the college paper tried out the honor system and found it to be an entire success. Not a copy stolen or not a cent taken was the verdict when every copy was sold out at noon.

Harvard's cross-country team will meet Cornell at Ithaca next Saturday, to take the place of the race scheduled with the Institute team.

THE WEATHER.

Forecast for Boston and vicinity: Fair today; light variable winds, becoming moderate southerly.

CALENDAR.

Wednesday, October 30, 1912.
1.00—Wilson Parade Ticket Sale—Union.
1.00—Tech Night Ticket Sale—Rogers Corridor.
3.02—Cross-Country Time Trials—Back Bay Station.
4.30—Biological Society Meeting—11 Eng. B.
6.30—Senior Dinner—Union.
Thursday, October 31, 1912.
3.00—Banjo Club Rehearsal—Union.
8.00—Lowell Lecture—Huntington Hall.

THE TECH

Office, 42 Trinity Place.
WEDNESDAY, OCTOBER 30, 1912
SENIOR DINNER.

Men of 1913, you owe it to your class and to Technology to attend the first Senior dinner of the year, as well as every other function which is done in the name of the Senior Class.

AN APPEAL.

On November 16 there takes place at the Institute the New England Intercollegiate Athletic Association's cross-country meet, which will bring to Boston many men from the most prominent colleges and universities in the East. Is it not possible for the undergraduates to arrange, with the sanction of the Faculty, a means of entertainment for these men who are our guests? We have excellent facilities for giving them such entertainment as they are allowed to indulge in by their coaches, and we should spare no effort to make this meet one of the most pleasant from its social point of view.

The Union could be made a sort of open house during their entire stay, and on Friday evening, the 15th, there could be arranged an informal program which might include selections of a suitable character by the Musical Clubs. The most essential feature of such an occasion is a sufficient number of men who are about and willing to do their share. The Athletic Association should constitute an executive committee on arrangements and every man in Technology should consider himself personally responsible for the pleasure of the visiting teams.

We should let the men return with glowing accounts of Technology spirit and hospitality to their own colleges, where, perhaps, the unfortunate idea may have spread that we are only a gathering of mechanics who have no time for the pleasant things of school life and the unconscious cultivation of a deep feeling for their college. Let us show them that our feeling is even deeper by reason of the peculiar conditions under which our Institute life is carried on, and let us show them that we are Technology men in the truest sense of the term.

EDITORIAL CONTEST.

Subject for Friday, "The Cultural Possibilities of Boston."

The subject for the next editorial in the Phi Delta Epsilon editorial writers' contest will be "The Cultural Possibilities of Boston." This editorial will be due Friday night at 5 o'clock. Following are the rules of the contest:

1. All editorials must have the name, class and address of its writer on each page.
2. Each editorial must be addressed to Phi Delta Epsilon Contest Committee and left at the Cage or in the upper TECH office by 5 o'clock of the day on which it is due.
3. Each contestant must have written on at least seventy-five per cent. of the subjects to qualify, and more credit will be allowed the contestant who writes on all subjects.
4. Contestants shall use their own judgment as to style and way of handling each subject, but shall refer to the editorial columns of THE TECH for the proper length.
5. Two subjects will be given out weekly during the first period of the contest, the first of which will be due on Tuesdays, and the second on Fridays. The subject for the editorial due on Tuesday will be published Saturday, and the second on Wednesday.
6. The information upon which editorials are based may be obtained from any source.
7. The manuscript of the editorials must be neat and present a good appearance.

TECH NIGHT TICKETS ON SALE IN ROGERS

Seats Reserved for Freshmen in First Balcony, With Upper Classmen on Floor.

Tickets for "Tech Night" at the Shubert are going fast. Slips are being given out when payment is made, which may be exchanged for tickets after Thursday. All the Freshmen will be in the first balcony, as usual, and the three upper classes will occupy seats on the floor. The members of the Freshman teams will have the two front rows in the balcony, and the Sophomore teams will sit in the boxes. The seats on the floor will be \$2.00, and those in the balcony \$1.75. These may be obtained in the corridor at Rogers until Saturday. The committee advises the fellows to come early and avoid the rush. There are rumors that many new stunts will be introduced into the show which will bring down the house.

NEW CLUB AT HARVARD.

The latest stunt at Harvard is the organization of a "Night Hawks' Club," for the purpose of promoting sociability, and the requirements for admission are late hours.

The method of initiating candidates is unique. The candidate's name is posted at midnight on the notice board in the club room, and the candidate is then given twenty black marks which he must work off before he can become a member.

If he stays up one hour after midnight one point is taken off, and two points if he stays up until two o'clock talking to one of the members. The candidate is given seven days in which to gain his membership, and if the twenty points have not all been worked off within that time his trials must begin all over again.

The easiest method of gaining membership is to stay up until three o'clock seven successive nights, making a total of twenty-one marks worked off.

FRESHMAN OUTLOOK.

Football and Tug-of-War Doing Well—Relay Neglected.

The prospects of the Freshman class in the relay race are somewhat in doubt at present. There has been a decided slump in the efforts of some of the men who have been trying out for the team. In one or two cases some fast runners have neglected to show up for practice and for their trials. Monday there were few out for practice, and the flag passing was entirely neglected. Coach Kanaly says that there has got to be harder work and more practice in flag passing if the Freshmen expect to pull out the winners on Field Day. The most promising candidates at present are Dean and Lieber. Owing to sickness, Adams, one of the fastest men, is out temporarily, but it is expected that he will get his time trial the first of next week.

The football team has been having steady signal practice and a little scrimmage work the last few days. Hill is being tried out at right half-back and looks promising. Krieger, as guard, has added new strength to the line.

The tug-of-war team, which practices daily at either the Gym or the Oval, is coming into good form under the direction of Affel, '14. Manager Pickford wishes to see everyone who has reported at all cut every day for regular practice, because he says that it is the daily drill that counts very nearly as much as weight and muscle.

Syracuse now has a course in photography in the College of Fine Arts.

FIRST ROUND OF
TENNIS TOURNAMENT

Only About Half the Matches Played Off in Singles to Date.

Owing to the bad weather the latter part of last week, only about half of the matches scheduled in the first round of the singles in the tennis tournament and one match in the doubles were played off. Instead of defaulting the men who did not play, as originally planned, President Beale of the Tennis Club will announce in tomorrow's issue of THE TECH and post on the bulletin board the date at which these matches must positively be played off.

K. W. Roy, the vice-president of the club, from his showing to date, promises to make the best showing in the upper half of the matches. Another strong contender is G. W. Blakeley, who has won two of his matches easily. The only close match played so far was between H. R. Stewart and F. Hurlburt. Stewart lost the first set, 5-7, but won the second one easily by the score of 6-2. He won out in the third set by winning eight games to Hurlburt's six.

The following are the results of matches played to date:

Singles, first round: K. W. Roy, '15, defeated J. V. Boas, '15, 6-1, 6-3; E. H. Clarkson, '16, won from C. E. Shedd, '16, by default; H. A. Sweet, '13, defeated F. C. Foote, '15, 6-1, 6-0; L. H. Zepfner, '15, won from F. E. Edelstein by default; T. C. Fisher, '13, won from T. R. Oberg, '16, by default; H. R. Stewart, '16, defeated F. Hurlburt, '14, 5-7, 6-2, 8-6; J. B. Wirt, '15, won from E. J. Kingsbury by default; P. Connor, '15, defeated F. H. Achard, '13, 6-0, 6-1; G. W. Blakeley, '14, defeated J. B. Carr, '16, 6-4, 6-2; W. G. Tirrell, '16, defeated Souter, '16, 6-2, 6-3. Second round: G. W. Blakeley, '14, defeated P. Connor, '15, 6-4, 6-2.

Doubles, first round: K. W. Roy, '15, and Fay, '14, defeated H. R. Sweet, '13, and W. G. Tirrell, '16, 6-4, 7-5.

The third round of the singles and second round of the doubles were originally scheduled to be played off by November 4, but the date will probably be changed.

"TECH NIGHT" TICKETS.

For Sale in Rogers Corridor—Many New Features at Show.

Tickets for "Tech Night" at the Schubert are going fast. Slips are being given out when payment is made, which may be exchanged for tickets after Thursday. All the Freshmen will be in the first balcony, as usual, and the three upper classes will occupy seats on the floor. The members of the Freshman teams will have the two front rows in the balcony, and the Sophomore teams will sit in the boxes. The seats on the floor will be \$2.00, and those in the balcony \$1.75. These may be obtained in the corridor at Rogers until Saturday. The committee advise the fellows to come early and avoid the rush. There are rumors that many new stunts will be introduced into the show which will bring down the house.

MUSICAL CLUBS.

D. O. Dunn, Assistant General Manager of the combined musical clubs, announced at the rehearsal Monday afternoon that a new position, that of Second Assistant General Manager, has been created, which is open for competition to men of the Freshman and Sophomore classes. This position may lead to that of General Manager. All candidates should leave their names at the Cage for D. O. Dunn.
