GOOD ENTERTAINERS FOR SENIOR DINNER

Prof. Burton and Walker to Speak—Election Returns Will Be Given Out.

Every single senior will be interested in Prof. Burton and Walker's comfortable talk this evening in the Union. The committee have arranged for the very best entertainment, somewhat diversion and hearty repast. They have spared no pains or trouble in securing the most excellent live wire speakers ever heard in the Union. Professors Burton, or chemical fame, will be there with an interesting talk, full of rare charms and originality. Homer Dibner, the corporation lawyer, who has no superior in the East or in the West, will transport his audience to his long sojourn in the halls of Tech. He has preserved stories and catalogue which have been valuable, especially to the grind department. He may be considered the best joke maker among us daily. But although he is a joker, this article has to do with the general theme of the talk. The usual Thursday noon talk is a 6:30. The dinner committee have signified their intention of joining the Woodrow Wilson College ladies' parade to be held Saturday night. The committee in charge of Technology's delegation felt that many more men who desire to march have not yet come out. It is important that the number of men who will parade make arrangements today. Tickets which enable the leader to a group of distinctive Technology regalia to be worn in the parade, including the torch and red and green fire, are fifty cents, the last cost of the parade. These tickets may be obtained from the club's officers or at the Cage.

For the debate between the Wilson Club and the Hall Moon Club the judges chosen are Prof. Chestor Clark of Brown University, Professor Packer and Professor Robbing of the Institute.

The place of the debate and the manner of details of the affair will be published in THE TECH in a day or two. The debate has aroused considerable interest about the result, and several of the Faculty are to be present.

FRESHMAN OUTLOOK

Football Team Will Be Judged By Game With Newton Today.

The prospects of the Freshman class in the relay race are somewhat in doubt at present. There has been a decided slump in the efforts of many of the men who have let us down in the past. In one or two cases, some fast runners have not been able to show up for practice on their trials. Yesterday there were far out for practice, and the flag raising was entirely neglected. Coach Farrell is very much interested in the fact that there has been a harder work and more practice in flag raising than the Freshmen expect to roll out the winners on Field Day. The most promising candidates at present are Brown and Lord. Owing to sickness, Allen, one of the fastest men, is out temporarily, but it is expected that he will join the team first of next week.

The football team has been having steady social practice and a little physical work. The line is being trained out at right half, end and back practice. Strong as usual, has added new strength to the line. Nothing definite can be said as to their strength until after today's game with Newton.

Harvard's cross-country team has been having the most vigorous training of all. They are having Scranton training for the most part, with some running at the Frozen Lake. They are probably the most promising team in the East in charge of Dr. A. D. Robinson, fellows call "the human alphabet."

WILSON CLUB PARADES ON SATURDAY EVENING

Applications Due Today—Judges Chosen for Debate With Bull Moosers.

Although a large number of men have signed their intention of joining the Woodrow Wilson College ladies' parade to be held Saturday night, the committee in charge of Technology's delegation felt that many more men who desire to march have not yet come out. It is important that the number of men who will parade make arrangements today. Tickets which enable the leader to a group of distinctive Technology regalia to be worn in the parade, including the torch and red and green fire, are fifty cents, the last cost of the parade. These tickets may be obtained from the club's officers or at the Cage.

Men of 1912, you owe it to your class and to Technology to attend the first Senior dinner of the year, as well as to their proper function, which is done in the name of the Senior Class.

AN APPEAL.

On November 16 there takes place at the New England Intercolligate Athletic Association’s cross-country race, which brings to the attention of many men from the most prominent colleges and universities East. Is it not possible for the undergraduates to arrange, with the sanction of the Faculty, a means of entertainment for these men who are our guests? We have excellent facilities for setting them such entertainment as they are allowed to indulge in, and every man in Technology should spare no effort to make this most one of the most pleasant from its social point of view.

The Union could be made a sort of center for these events during their entire stay, and on Friday evening, the 16th, there could be an increased program which might include selections of the best of the character by the Musical China. The most essential feature of such an occasion is a sufficient number of men who are alert and willing to do their share. The Athletic Association should convene an executive committee on arrangements and every man in Technology should consider himself personally responsible for the pleasure of the visiting students.

We should let the men return with pleasant memories of Technology athletics and hospitality to their own colleges and, where, perhaps, the unfortunate idea of American College Life that we have of gathering of mechanics who have no time or pleasant things of school life and the unconscious cultivation of a deep feeling for their college. Let us show them that our feeling is even deeper by reason of the peculiar conditions under which our intellectual life is carried on, and let us show them that we Technology men feel the truest sense of the term.

EDITORIAL CONTEST.

Subject for Friday, "The Cultural Possibilities of Boston."

The subject for the next editorial in the Phi Delta Epsilon editorial contests will be "The Cultural Possibilities of Boston." This editorial will be due Friday night at 5 o’clock. Following are the rules of the contest:

1. All contestants must have the name, class, and address of his writer on each page.
2. Each editorial must be addressed to Phi Delta Epsilon Contest Committee and left at the Director or in the upper office of the dormitory. Each writer must have the contest to which his piece is directed.
3. Each contest must have at least seventy-five words, and the writer must have his name and address on the contest, which will be returned with the contest.
4. Contestants shall use their own judgment as to style and way of handling each subject, but shall refer to the editorial columns of Phi Delta Epsilon for the length.
5. Two subjects will be given out, and the first of the contest, the first of which will be due on Monday, the 19th, and the one on Wednesday. The subject for the editorial due on Thursday will be published Saturday and the second on Wednesday.

The information upon which editors are based may be obtained from the source.

The manuscript of the editorial must be neat and present a good appearance.

WEDNESDAY, OCTOBER 30, 1912

SENIOR DINNER.

The prospects of the Freshmen class in the relay race are some-what more promising than in the past. There has been a decided slump in the efforts of some of the men who have been trying out for the team. In one or two cases some fast runners have neglected to show up for practice and for their trials. Monday there were few out for practice, and the fasting was entirely neglected. Coach Flanagan says that there has not to be more work and more practice in bag passing if the Freshmen expect to pull out the winners on Field Day. The most promising candidates at present are Dean and LeRoy. Owing to sickness, Adams, one of the fastest men, is out temporarily, but it is expected that he will get his time back and make good. The football team has been having steady practice and a little scrimmage work the last few days, Hill is being tried out at right halfback and looks promising. Krieger, as guard, has added new strength to the line.

FIRST ROUND OF TENNIS TOURNAMENT

Only About Half the Matches Played Off in Singles to Date.

Owing to the bad weather the latter part of last week, only about half of the matches scheduled in the first round of the singles in the tennis tournament and one match in the doubles were played off. Instead of defaulting the men who did not play, as originally planned, President Idee of the Tennis Club will announce in tomorrow’s issue of THE TECH and post on the bulletin board the date at which those matches must possibly be played off.

K. W. Noy, the vice-president of the club, from his showing to date, promises to make the best showing in the upper half of the matches. Another strong contender is G. W. Blakeley, who has won two of his matches easily. The only close match played so far was between H. R. Stewart and F. Hurlburt. Stewart lost the first set, 6-7, but won the second one easily by the score of 6-2. He won out in the third set by winning eight games to Hurlburt’s six.

The following are the results of matches played to date:

Doubles, first round: K. W. Roy, ’15, and F. A. Day, ’14, defeated H. R. Sweet, ’13, and W. C. Tarrell, ’16, 6-4, 7-6. The third round of the singles and second round of the doubles were originally scheduled to be played off by November 1, but the date will probably be changed.

Technology Men will make no mistake in depending upon this Great Store for the Newest and Best Ideas in

Clothing, Hats, Shirts, Haberdashery, Shoes, Hosiery

and in fact everything—that has a place in the College man’s wardrobe.

All Men’s Goods are in the Men’s Store, Section separate from other parts of the store and having direct entrances from Avenue and Summer Streets.
