SOPHOMORE DINNER COMES FIELD DAY

Dinner to Be Held in the Union Just Before Theatre Time—Tickets Out Soon.

The Sophomores will hold their annual dinner at 6 o'clock on the evening of Field Day, November 5th, at the Union. The price is fifty cents. Tickets may be bought at the Cage, and are also to be sold by several members of the class.

The class would have been notified earlier except for the delay occasioned by the tie in the class elections. The management wishes it understood that the affair will be over in ample time for Tech Night at the Shubert Theatre. The speakers will be announced later.

FRESHMAN FOOTBALL.

Maisri Elected Captain—Team Does Fine in Hard Scrimmage.

After their drubbing at the hands of the Juniors, the Freshmen eleven went through a hard drill yesterday, in preparation for their game against the Civils today. Captain W. J. Ogilby worked the team severely, and after the hard session he seemed well satisfied with the showing the men made, and is quite hopeful for a win by his charges on Field Day. Several new men have come on the squad recently and some of them will undoubtedly make good. Among them is Foote, a former Newton High and Stone School player, who promises to be a valuable asset on the team, and Ki ery, who is playing a sliding game at left tackle.

Today a practice game is scheduled with the City School of the Roxon Y. M. C. A., which will be the last scrimmage game the men will have before Field Day.

The Freshmen chose their captain Monday, and the contest of being able to play a snappy game. Captain Ogilby worked the team severely, and after the hard session he seemed well satisfied with the showing the men made, and is quite hopeful for a win by his charges on Field Day. Several new men have come on the squad recently and some of them will undoubtedly make good. Among them is Foote, a former Newton High and Stone School player, who promises to be a valuable asset on the team, and Ki ery, who is playing a sliding game at left tackle.

Today a practice game is scheduled with the City School of the Roxon Y. M. C. A., which will be the last scrimmage game the men will have before Field Day.

MEETING OF CATHOLICS.

Dinner and Gathering to Be Held in Union Tonight.

Tonight the Catholic Club will hold the first of its vacation monthly diners and meetings in the Union at 6 o'clock. Rev. St. Colton will serve a ners and meetings in the Union at 6 o'clock. Steward Colton will serve a

SIR WILLIAM RAMSAY LIKES POINT SYSTEM

Famous Chemist Makes Interesting Comments on Education in America.

Sir William Ramsay, who is to speak at the Convocation this afternoon, has made some very favorable comments on the American plan of college education when interviewed in regard to his views on student life in this country.

He said he was struck by the power the American student has of taking on himself responsibilities. Unhappily, some of the English university students, the men implied, lacks in this respect here. In the most part away from the college, they are not under supervision other than that assumed by the older student, who is to some extent in a position to guide them. There is no system worked out here at the Institute, and thought it would be an excellent experiment to try the Point System, in which they gave plenty of evidence of success.

The various student governing bodies, such as our Institute Committee, the Student Council, and others of other colleges, he said, were excellent institutions, and had a parallel in the "Union" of the British universities. As an instance of the way that the students dealt with offenders, he said that while he was at Williamsburg two men were brought before the Student Council there and were given for their misdemeanor a punishment far more severe than any that the faculty would have given.

He said that he was very much impressed with the way that the Point System worked out here in the Institute, and thought it would be an excellent experiment for him to start at his own institution.

Sir William has had very little time to visit America, and spend those summer months, and all the prominent features of the American college life. He went from New York to Williamsburg this afternoon, and his lecture before the Lowell Institute tomorrow night will be on "The Discovery of the Gases of the Atmosphere." He will be at the lecture on the Institution this week, and then the street railway companies of the Elevated Railway Company lease them from the Corporation. This Commission, of which Mr. Gow is a member, has constructed the Cambridge Tunnel and done some engineering feats around the city, and then the street railway companies of the Elevated Railway Company lease them from the Corporation. This Commission, of which Mr. Gow is a member, has constructed the Cambridge Tunnel and done some engineering feats around the city, and then the street railway companies of the Elevated Railway Company lease them from the Corporation. This Commission, of which Mr. Gow is a member, has constructed the Cambridge Tunnel and done some engineering feats around the city.

At the Convocation this afternoon, Sir William Ramsay, who has been giving a series of lectures before the Lowell Institute on "The Discovery of the Gases of the Atmosphere," will be the last of these very important lectures. The lecture will be given on the evening of Field Day, and will be on the subject of the atmosphere. He will be interested in the lecture, which will be given on the evening of Field Day. The lecture will be on the subject of the atmosphere.

This Commission, of which Mr. Gow is a member, has constructed the Cambridge Tunnel and done some engineering feats around the city, and then the street railway companies of the Elevated Railway Company lease them from the Corporation.

He is known the world over for his work in connection with gases, and he is the discoverer of most of the elements of the argon group, and has made extended investigations of their properties and applications. He is doctor of a university, and as such is interested in student government. Sir William Ramsay received the Nobel medal for his work, and has received several other honors. Just before he began the series of Institute lectures he was given the honorary degree of Doctor of Laws at Johns Hopkins University. He is the head of his old friend and teacher, President Ira Remsen. Sir William Ramsay has proven a very interesting man, and he is one of the most important men in the world. That is why attendance will be present, will meet with a hearty response from the student body.

TECH NIGHT SEATS.

Tickets on Sale for Last Time This Noon in Rogers.

This noon will be the last chance to get seats for Tech Night. After the seats are returned to the theatre and sold to the public, they will be held back at the Cage or left at the Union office. Tickets on Sale for Last Time This Noon in Rogers.

The arrangements for the annual dance will be discussed at this meeting. Judging from the success of the last dance, another dance would be held only by the Junior Prom is booked for this year. Many have signified their intention of attending the meeting tonight and a large attendance is expected.

FOOTBALL OFFICIALS.

Major Briggs has announced that the officials chosen for the football game between the Freshmen and the Sophomores on Field Day will be those associated with the Institute. The offici-
Sophomores Elect P. M. Werlich
Asheville High School. He was prominent in athletics at the
was on the crew last year, and has
lay team both last year and this; he

TEENUS TOURNAMENT
REACHES SEMI-FINALS

Woodbridge, Fisher, Stewart, Roy and Tirrell to Pair for Semi-Finals.
This week the Full Tennis Tournament has reached its fourth round with one more match to be played in this round. The winners of these matches will go directly into the semi-finals as all other matches have been defaulted because they were not played within the time limit. The doubles have progressed through the first round with one match yet to be played. As with the singles, the winners of this round will be in the semi-finals.

The results of the singles: R. H. Woodbridge, '16, defeated J. C. Fitch, '12, Score 1-6, 6-3, 6-1, 7-5. H. R. Stewart, '16, defeated J. R. Wiltz, '15, in straight sets. Score, 6-1, 6-0. W. L. Tirrell defeated G. W. Blakely, '14, in two straight sets. Score, 6-4, 6-2, 6-2, 6-2. W. R. Roy, '15, and H. S. Sweet, '16, have not played their match as yet.

The results of the doubles are as follows: First round, G. W. Blakely, '14, and J. N. Judson defeated P. H. Bartlett and G. S. Minford in three sets. In the first two sets the games were close, but in the last game the winners allowed no games to the losers. Score, 4-6, 7-5, 6-2.

GASOLINE FROM GAS

During the last three years the separation of the more volatile grades of gasoline from natural gas issuing from oil wells has become a profitable industry of increasing importance. The industry did not progress as rapidly in 1913 as was expected. Undoubtedly it will eventually become a settled and flourishing business, for millions of cubic feet of gas that is now wasted on leases might be converted into gasoline, should the demand and price warrant it. The United States Geological Survey has year after year attempted to compile figures of production of gasoline from natural gas, but many plants were operated intermittently and no records were kept of the output. Statements from such producers could only be estimated. However crude the method of manufacture, a report of the quantity of gasoline produced shows an output in 1911 of 7,125,289 gallons, with an estimated value of $51,781.

FIELD DAY TICKETS.

Field Day grandstand tickets now on sale at the Union every day during the season. No more are being sold. The middle section is entirely sold. and only a few seats left on the side sections. W. S. Thomas, who is managing the sale of tickets, says that with the weather conditions a record crowd may be expected.

Ice hockey is likely to become a regular sport at Brown University this winter. The growing interest in the Canadian sport is noticeable everywhere and the College Hill men have good material with which to build a team. There is no indoor rink in Providence, but there generally is good skating on the river there. It is likely that an indoor rink will be built if it is decided to adopt the game this year.

Technology Men will make no mistake in depending upon this Great Store for the Newest and Best Ideas in

Clothing, Hats, Shirts, Haberdashery, Shoes, Hosiery

and in fact everything that has a place in the College man's wardrobe.

All Men's Goods are in our men's store section separate from other parts of the store and having direct entrances from Arena and Summer Streets.
