MR. JOHN C. JOHNSON

ADDRESSES CATHOLICS

Speaks on False Teachings of Socialism and of Some Remedies.

Last night the Catholic Club had for its speaker Mr. John C. Johnson, a prominent lawyer of this city. The seventy-five year old man who was present first enjoyed a dinner in the upper rooms of the Union, and then heard the address given by the Catholic Church on Socialism.

Mr. Johnson first pointed out that the Church feels that it has to offer an antidote to some of the false teachings of socialism and the labor agitators. He then went on to describe the various situation through which the members of the Catholic Church have passed, and the solution of their own problem. He said that the present is conceded to be a time of crisis, and that some believe that the world is coming to be a world of crisis, and that some believe that the world is coming to be a world of crisis.

The Convocation yesterday morning was at first held in the Union, and then on the last day of the year. Sir William Ramsay was introduced by President MacNab in a short and interesting speech. He said that these conventions were to draw the men from their laboratories and studios, and tell them that there is something beyond their own existence. He said that Sir William might speak very interestingly on the more advanced phases of chemistry, but that the speaker was a man who believed in, having interest outside of his own condition, and set he was going to speak on something not in the field connected with chemistry.

Then Sir William stepped forward, and the first words were drowned in an applause which promised to last ten minutes. When quiet prevailed he said that he was going to talk on the Organization of society. He said that his work as a chemist is to be a world of crisis, and that the Church feels that it has to offer an antidote to some of the false teachings of socialism.

Sir William next explained the writings of Pope Leo XIII, who is closely connected with the Church, and whose interest he has accomplished. He quoted the writings of Pope Leo XIII, who is closely connected with the Church, and whose interest he has accomplished. He quoted the writings of Pope Leo XIII, who is closely connected with the Church, and whose interest he has accomplished.

1916 NOMINATIONS.

Must Be Signed by Ten Men. -- Due Saturday, Nov. 16, 1912.

The nominations for officers of the Class of 1916 will be opened on Saturday, November 9, 1912. All nominations must be signed by warrant men in order to be valid. They must be addressed to the Bates Committee of the Class of 1916, and handed in at the Cage before the hour of 4 P. M., noon, January 16, 1913. All nominations will not be accepted, and no writing offices or influence used in the election: President, Vice-President, Secretary, Treasurer, and the chief of each to the Executive Committee, Institute Committee and Athletic Association.

RAMSAY'S LECTURE.

Last One to Be Given Tonight. On Properties of Nitro.

Tonight comes the last of the series of 19 lectures on the Physical Properties of the Gases of the Atmosphere. Mr. Ramsay has taken over the interesting story of nitro, the last of the gases of the argon group, which was to be discovered. Mr. Ramsay has much to say about its peculiarities, and the uses to which nitro has been put. The properties of these gases are intimately connected with the use as a source of energy, which is another of the points that he expects to discuss tonight.

FUTURES.

There is a tremendous amount of money being thrown into a few racing clubs, led by an official leader, or good hearted but not very wise, men. In many cases such little incidents detract materially from the dignity of the event.

Dr. M. J. Rosenau to Speak On Pasteurization of Milk.

This afternoon, at 4:30 o'clock, the Biological Society will hold a meeting in Tabb Memorial Building. Professor Rosenau of Harvard will talk on the subject, "Pasteurization of Milk in Large Quantities." Dr. M. J. Rosenau has gained a worldwide reputation for his remarkable work on the subject of milk purification, and his extensive information on the subject will permit him to present his lecture in a way that will prove both interesting and instructive. The invitation to hear him is therefore extended to men of all ages, and a large attendance is looked for.

HATS OFF IN HUNTINGTON HALL.

Take off that hat! Take off that hat that we have been told, for a large number of the conventions have been called to order which have been held, and the stumbles into Huntington Hall with bad fashion. They have been so instilled with proper ideas of the rules, they can no longer be enigmatical.

THURSDAY, NOVEMBER 7, 1912

HATS OFF IN HUNTINGTON HALL.

Take off that hat! Take off that hat that we have been told, for a large number of the conventions have been called to order which have been held, and the stumbles into Huntington Hall with bad fashion. They have been so instilled with proper ideas of the rules, they can no longer be enigmatical.

FRESHMEN, NOTICE.

The class is to march in a body to the stands at the Field from the Union at 4:30 o'clock. The class roots must be there at 12 o'clock.

GEE CLUB REHEARSAL.

New Men and Old Are Requested to Show Up in Union.

There is still plenty of room for good men and the club is in need of first tenors. All men who were on the club last year must try out today, if they expect to be members of the club during the coming year. The re- hearsal this afternoon will be the first one of the year.

SOPHOMORE DINNER.

Officers Meet Today to Arrange for Cheers and Speakers.

A meeting of the 1913 Class officers will be held this afternoon in Room 22, in order to make the final arrangements for the Sophomore dinner to be held on Friday, Field Day. The cheers will also be discussed at the meeting.

The Sophomore dinner will take place at 6 P.M., tomorrow evening, after which the class will march in a body to the theatre. The speeches will be short and good. Tickets can be secured from all of the officers and secretaries of the members of the class.

CONVOCATION, (Continued from Page 1.)

that after a time they came to repre-
semble sound and syllables. But for
saw that long time words were spelled out in
Egyptian, and then the god was fol-
lowed by a picture which showed to
what class the word belonged. For
instance, words relating to eating,
drinking and speaking were followed
by the picture of a man with his hand
across his mouth.

He started with the equality sign,
which, he said, might be crudely trans-
formed as existence. It may be the
mean inclusion in a class, or equality.
A second conception was that of con-
sciousness of space and time, and this
might be represented by a horizontal
straight line. Instantaneous time is
represented by a dot. When the
equality sign, which may be called
the "=", is joined with the idea of in-
stantaneous time, the dot, we have the
idea being in the future, in the
present, or in the past. These three
doors are made by placing a dot be-
tween the bars of the = sign, the
middle position representing the pres-
ent, etc. The conception of person-
ality was an inverted V surmounted
by a vertical line, in crude represen-
tation of the body and legs of a man.
This sign of male personality could
be changed to that of female person-
ality by giving the man a skirt, that is,
converting the areas of the V line
into a horizontal line. When the figure
of the man is provided with a hook, it
denotes possession. The hook alone
may be used with the tense sign (the
dot), to represent the verb "to have." The
arrow represents motion, the idea of
goings, etc.

Then President McLaughlin told all
the men that they must be at the next
Convocation, which will be held to-
morrow at 2 o'clock, at the Field.
This demand met with the approval of
all the men present.

CATHOLIC CLUB. (Continued from Page 1.)

government derives its power from
the consent of the governed in wrong,
he says, for it does not admit the
necessity for some force to make a
society social system do what is right.
The bond of social life, he says, is
religion. Present citizenship would
not be possible without the binding
force of Christianity. Originally this
religious unity was furnished by the
teachings of the Catholic Church in
regard to future punishment. During
the "dark ages" this force was the
agent which kept the social fabric
from going altogether to pieces.

He said that the loss of a belief in
future punishment was one of the
things which the Church has to fight
when it is trying to overcome the
ravings of socialism. He said that
much attention is being paid to
the rights of man and too little to his
obligations. We are tending to the
deification of humanity. The Catholic
Church is fighting the religion of
"humanitarianism," and wishing to
eliminate some of the present tend-
cency to individualism.

But besides this binding influence
the Catholic Church also stands for
human liberties, as is expressed in the
idea of the universal brotherhood
of man. He said that with this under-
briding principle the Church favors
many of the most progressive tend-
encies of the times. It offers a com-
plete scheme of social reform that
might displace the ideal of social-
ism. Father Scanlan emphasized Mr.
Johnson's talk by citing a recent case
which had come to his notice, and
which indicated that Catholics should
face the world prepared to explain the
stand that the Church makes on the
question of socialism.

The next Convo, which is a short
business meeting, was unanimously
decided to have an annual dance, probably
to come after Easter. The next meeting of
the club will be December 4.

THE TECH

Morning Delivery

THE TECH is prepared to deliver the paper before
8 a.m. to all students rooming on the following
streets - St. James Avenue, Newbury St.
The Fenway, Westland Avenue, Huntington Ave.,
below Massachusetts Ave., St. Botolph and cross
streets.

SEND A POSTAL TO CIRCULATION MANAGER

and the Service is yours. All men on these streets who have bought
Subscription Books, can have this service by turning in Book to us
with name and address.

Guess I'll have to see "Good Old Burke
the Tailor" pretty soon.

That big brother of mine told me to be
sure to call on him at 18 School St., or to see
Tom Hayes at 843 Washington St., as soon
as I landed in Boston, and the bunch here tell
me that was good dope.

SOPHOMORES AND FRESHMEN BATTLE FOR SUPREMACY THIS AFTERNOON

Second Year Men Favorites in Football—Also Expected To Win In Relay—Tug of War In Doubt—Close Contest Expected In All Three.

### 1915 FOOTBALL

**FIELD DAY CUP**

Of the three contests this afternoon, the football game will assume the greatest interest among the spectators, as it is decided the gridiron supremacy between the two classes and will probably prove the most hotly-contested event of the day. Both teams are primed for the fray and await the referee's whistle. In past years the Sophomores have won one more game than the Freshmen and go into the game today slightly the favorites.

The Sophomores have an old and experienced backfield that is heavier than the Freshmen's while the line, taken as a whole, is faster. The 1915 line is a little heavier than 1914's, but gets into the scrimmage more smoothly. In the opinion of games played this season the two teams are about equal.

The second-year team has won three out of four games played and the eleven has been victorious in two games out of three.

The Sophomore squad has been a fairly good, but a very consistent team this year, and is expected to win the big event.

### 1915 TUG-OF-WAR

This afternoon the Sophomore Tug-of-War team will not put out their place on the rope, with great expectation of what is expected of them by their classmates. Knowing that last year's contest decided Field Day they have prepared again to save the day in case the other teams split even in the other events. The squad is heavy, averaging nearly 180 pounds, and the strength tests show that they have had two weeks of hard drill, first pulling as a team and then as some steel post in the gym yard and then in the latter the teams pulling against each other.

Coach Carlson, '13, was a member.

(Continued on Page 3.)
TUG-OF-WAR TEAMS. (Continued from Page 3.)

TUG-OF-WAR TEAMS.

The contest between the two classes has long been looked forward to as the main event of the afternoon. The Sophomore tug-of-war team are composed of men that have had experience in pulling against another team. This value cannot be underestimated because it gives untold strength and stamina. The men who appeared on last year’s victorious team have put the team through a rigorous training program. The Sophomore tug-of-war team are composed of strong powerful men, many of whom have had their taste. They have trained with care and they have been drilled thoroughly in pulling against each other. Knowledge that they were slightly lighter than the Sophomores they put their energies into team work and form. Thus they have a team that is number one in the field of tug-of-war.

The team has chosen for itself a popular counter who has proved his worth and has developed a squad of strong powerful men, strong not only in hardened muscles, but in will power and enthusiasm. The team has chosen itself a popular counter who has proved his word and has developed a squad of strong powerful men, strong not only in hardened muscles, but in will power and enthusiasm.

Field Day was the result of the agitation. The Faculty assisted the development of the great idea by unanimously voting a half-holiday for the better enjoyment of the sports. Foot- ball, tug-of-war, and athletics were assigned to take place on the afternoon of the first Tuesday of the month, which was pulled by the victors into water. Of course this was impossible, and so the tug-of-war was left to form a series of different activities. The interest in tug-of-war was beyond the interest of all that had preceded it.

In order to further this idea of getting a representative element from each class to the tug-of-war, it was decided that it be taken from the class of 1913. This was done to have the team consist of twenty-five men from each class at the beginning of the year. The tug-of-war class would be chosen for the team for one year. The team would have its own number of men, and thus it would have the number of men possible to students participating in tug-of-war.

The tug-of-war was also changed from its usual form of four men on a team to one having two men each, one ranging 239 yards. It was thought that this would give the entering class a greater chance to win this event against the Sophomores, for the entering class might have four varisty track men, and thus it would be well enough high impossible for the Freshmen to win. As a matter of fact, the Freshmen have not won even once, in the first Field Day.

The bottle on the central gridiron was the only one that was changed in any way. This event was held to give still greater number of men a chance to make Field Day famous. The contest between the tug-of-war classes over the bottle has always been the highlight of the event.

Many of the contests have been developed by the Faculty to give the entering class a greater chance to win this event against the Sophomores, for the entering class might have four varsity track men, and thus it would be well enough high impossible for the Freshmen to win. As a matter of fact, the Freshmen have not won even once, in the first Field Day. The bottle on the central gridiron was the only one that was changed in any way. This event was held to give still greater number of men a chance to make Field Day famous. The contest between the tug-of-war classes over the bottle has always been the highlight of the event. The points to be counted were set as one for the first tug-of-war team to pull the rope, two for the second tug-of-war team to pull the rope, and three for the third tug-of-war team to pull the rope.

The entire team will be dressed in dark trousers and light gray jersey.
FOOTBALL TEAMS.
(Continued from Page 1.)

In today’s game, his dodging in a broken field and quickness in throwing off tacklers makes him a good ground gainer. Johnny O’Brien at left halfback, the winner of last year’s game, is a heavy play and knows the game from A to Z. Once started with the ball he is a hard man to stop and shows up strong in hitting the line. He is a lively player and keeps his eye on the ball at all times. Morse at right half is another man who can be counted on to stop line bucking. Murphy is a former college class team with a high school record and a Sprinter. Thomas has made quite a record as a hurdler in some of the meets this year. Alt, Baker and Homan, all members of the Freshman track team, have been showing up strong at practice and are expected to make fine gains, especially Baker.

The team is strengthened by three men who have had former experience in track. W. Adams, R. Dean and A. C. Lieber have all run before on high school teams. Adams ran for three years on the Newton High School track team, and last year was captain of that team. He won the hundred yard dash in 19.5 seconds in the Y. M. C. A. Championship two years ago. Lieber was a member of the track team at Newton High.

The Freshmen have played some of the best high and preparatory school teams in this vicinity, and are expected to come on strong in today’s game. Their victory handed out by Murphy, the little quarterback, in a hard-fought battle by a score of 5 to 0, their victory handed out by Murphy, the little quarterback, at a crucial moment in the game. They defeated Rock Ridge easily by a score of 14 to 0, never in danger of being scored on themselves while they approached their opponents goal at will. After having three days of practice they took on the Somerville High and have been showing up strong at practice this week. Alt, Baker and Homan, all members of last year’s class in their last game, were never in danger of being scored on themselves while they approached their opponents goal at will. After having three days of practice they took on the Somerville High and have been showing up strong at practice this week.

The team is unusually fortunate in having the ability of the men averaged high. There are several stars of no small magnitude among the players. Maier at fullback is a line plunger of the most effective kind and always gets the ball out of the men. He is a man who will prove dangerous to the line bucking. Murphy is a heady player and will prove strong in the interference. He is a lively player and keeps his eye on the ball at all times. Morse at right halfback is another man who can be counted on to stop line bucking. Murphy is a former college class team with a high school record and a Sprinter. Thomas has made quite a record as a hurdler in some of the meets this year. Alt, Baker and Homan, all members of the Freshman track team, have been showing up strong at practice and are expected to make fine gains, especially Baker.

As the times made by the men in the trials were pretty close, Lawrence, Smith and Kingsbury are expected to make fine gains, especially Baker.

The team is strengthened by three men who have had former experience in track. W. Adams, R. Dean and A. C. Lieber have all run before on high school teams. Adams ran for three years on the Newton High School track team, and last year was captain of that team. He won the hundred yard dash in 19.5 seconds in the Y. M. C. A. Championship two years ago. GREETINGS

For the second time this year we greet you — HOW — DO — YOU — DO. Remember about five weeks ago I invited you old men to come around again and you Freshman to come in? Say boys, they did — every single man and the Freshman — well, give them credit for knowing a good thing when they see it.

THE REASON IS — BECAUSE

I have the only line of STETSON HATS in Back Bay. Besides my caps and Jerry Hats are the classiest Stuff on the street.

TAKE A LOOK

around the field and you will recognize them.

WAIT A MINUTE

that's not all. I still sell PHENIX HOSE. Silk Lisle; six pair — six months. Also the new heavy weight silk hose for Fall and Winter wear, $2.00 per box.

NOW IS YOUR CHANCE

to look around the grand stand and bleachers and see some of our knit scarfs and nifty neckties. Notice all of those new ideas? Take a bet — they come from my shop. And heres a tip to you fraternity men — I have just received a line of ties made up in the right colors for every fraternity at the Stute.

THE COPLEY-PLAZA HABERDASHER

16 Huntington Avenue
