PRICE TWO CENTS

INSTITUTE COMMITTEE HAS BUSY MEETING

All-Technology Dinner Date Chosen—New Relations with The Tech.

The meeting of the Institute Committee, which was held yesterday afternoon, was called to order at 4.20 o'clock by President Mattson. The minutes of the previous meeting were read, and after correction were accepted. Those absent were: Wyman, 1914; Fry, 1915; Germain, of the Athletic Association; Rankin, Musical Clubs; Lehmaier, Mining Engineering Society; Horgan, Architectural Society, and Albee, representative of the Chemical Engineering Society.

It was voted that the names of the absentees at any regular meeting of the Institute Committee should be published in THE TECH. It is hoped that by this means a fuller and more regular attendance may be had at the meetings. The committee on by-laws was instructed to report at the next regular meeting. President Mattson appointed a bulletin board committee, consisting of Fry and Woodbridge.

(Continued on Page 2.)

PROSPECTS GOOD FOR 1914 BASKETBALL TEAM

Excellent Chances for New Men—Candidates Report at the Gymnasium.

The Junior basketball team is practicing regularly every Monday, Wednesday and Friday, from 5 to 6 o'clock, in the Gym, and from the present outlook a fast team is expected. About ten men, including last year's team, are out. The team is being coached temporarily by Darling of the Junior class, and practices on Monday and Friday afternoons, from 5 to 6 o'clock in the gymnasium. Last Wednesday afternoon a practice scrimmage was played with the Freshmen, in which the upperclassmen found little difficulty in holding their own.

Ruoff will probably play center again this year, as he did last year. Williams will be back at his old position at guard and promises to make an even better showing than he did last year. Gallene is another man who is showing up well. Although he was not a member of last year's team, he looks good for this year. With such men as Tirrell, Bryant and Fox back again, the prospects look exceedingly bright.

Manager Ruoff has not completed his schedule as yet, but has already arranged games with Bridgewater Normal, Haverhill High and New Hampshire State.

The following men are out regularly for practice: Williams (captain), Tirrell, Gallene, Price, Comber, Fox, Duff, Bryant and Ruoff.

MECHANICS ARTS CLUB.

At the meeting of the Mechanics Arts High School Club, last night, the following men were appointed to take charge of the sign-up blanks for those who wish to attend the Mechanics Arts-Dorchester football game next Thursday: Sandberg, '14; Pastene, '13; Field, '15, and Allen, '16. The men should sign up before Monday noon.

SEVENTH ANNUAL KOMMERS DINNER OPENS THE TECH SHOW SEASON

Winning Author and Title of This Year's Book Will be announced by Management To-night At Big Dinner in Union.

"Tonight is the night." At 6.30 o'clock this evening, in the Union, one of the jolliest lunches of fellows will meet for the Seventh Annual Tech Show Kommers' dinner. The Tech Show Orchestra will be there to furnish music and as this is to be the first opportunity of the undergraduate body to hear them this year the Show expects that their appearance will be an unusually effective drawing card. The Orchestra in its new organization has already aroused more enthusiasm than it ever was able to without its connection with the Show, and now is made up of

WALTER P. KEITH, Business Manager Tech Show.

thirty members, all of whom will play tonight. There has been one concert already, at Melrose, Wednesday night, which proved to be a great success.

The managers of the Show have worked incessantly since the opening of school and have started Tech Show, 1913, on the road to prosperity. General Manager Robert W. Weeks, "the busiest man in Technology," has not missed a day at his desk in the Show office since the first of October. The business department, under the direction of Walter P. Keith, has been piling up the advertisements for the program and turning out contracts by the dozens for make-up men, costumers, and the innumerable other men and things that are required for a show of the calibre of that to which the fellows meet tonight to pledge allegiance. Manager Charles P. Fiske, of the stage department, has been on the jump between New York, Princeton, Yale, Columbia and Auburndale, and has turned out one of the best and most promising stage departments since the days of "The Medicine Man," in 1900. Publicity Manager George E. Whitwell has been in communication with the alumni in the principal cities of New

England and the Middle Atlantic States, and the prospects are glowing with plans for numerous trips besides the regular trips to Malden, Northampton and Providence. Freshman assistants in all the departments are being rapidly chosen and broken in, and among those competing are most of the brightest men in the Freshman class. All these men will tell in a very few words some of the work which they have done or are about to do in order to give the men of the Institute a chance to realize the stupendous amount of work done in the Show office every day. Few men have any idea of this work, and all should come to the Union and hear the talks.

The dinner is not run with the idea of making money for the Show, as many people think. The cost of the tickets is just enough to cover the cost of the dinner and the extras. This year the management have arranged for plenty of good cigars, cigarettes and an abundance of fine brand dark beer. Souvenirs of the Show will be given away to all attending, and there is much speculation as to what these will be.

Coach Kanaly, when addressing the cheering crowd at the Trinity Place Station last night, as the cross-country team left for Cornell, urged the men to support Tech Show, for it is the profits from the Show that pay the expenses for the teams. Tech Show is famed all over the United States as the best amateur theatrical organization in the country, and it is due wholly to the enthusiastic support which the Show receives from the student body.

Many of the "stars" of "Castles in Spain" will be there in costume and tell the fellows a little about the pleasures of Tech Show stage life. It is rumored that Senorita Florita, of Seville, Spain, will attend the dinner with one of the old Show men and will, perhaps, tell the fellows a little about the land where the scene of last year's Show was laid. Senorita Florita is a beautiful, dashing brunette, and is one of the prettiest girls in town. The pleasure of seeing and hearing her is alone worth the price of the ticket.

Prominent members of the Faculty, Dr. Rowe, Merton L. Emerson, and Isaac W. Litchfield, of the Tech Show Advisory Council, will be among the speakers, and each will say a few words to the fellows.

Last, but not least, the name of the author of the winning book will be announced, and a short synopsis of the book will be read for the benefit of the student body. The number of men that can be accommodated is smaller than usual this year, and all men should and must purchase their tickets before 5 o'clock today. They can be had at the "Cage," from the members of the management of the Show and at the Show office. Remember, "Tonight's the night," and the time is 6.30 o'clock P. M.

NOMINATIONS FOR PROM COMMITTEE

Largest Number of Names That Have Ever Been Handed In.

More than twenty nominations have been handed in for the Junior Prom Committee, the largest number that has ever been handed in. Of these candidates only five will be chosen by the members of the Junior Class who have paid their dues. Ballots will be handed out Tuesday. The results of the election will be announced at the class dinner, which will be held Tuesday, December 3, at the Union.

The candidates and the activities they have been engaged in are as follows: Gerald W. Blakely, hockey; Wm. Brotherton, president of the Mandolin Club, tug-of-war, Technique Electoral; Homer N. Calver, Mandolin Club, C. E. Society; Donald Crowell, Tech Electoral; Robert C. Doremus, tug-of-war, manager of the Glee Club; L. B. Duff, basketball; Charles E. Fox, M. I. T. A. A., football and basketball; David Gould, tug-of-war; A. D. Hiller, Tech Show, Tech Electoral; Frederick L. Hurlbutt, vice-president of his class, hockey and relay teams; Thomas Huff, track team; Thomas J. Duffield, football; Fred M. Mackentepe, football, swimming team and member of the Catholic Club Executive Committee; Henry F. Merrill, football; John C. Morse, tug-of-war and Tech Electoral; Eric W. Mason, Tech Show; Earl M. Newlin, cross-country; Phillip A. Russell, C. E. Society, Tech Show, Brookline H. S. Club; John H. Stone, Tech Electoral; Angus V. Swift, tug-of-war, baseball.

C. E. SOCIETY MEETS.

W. A. Adams of Civil Service Speaks Tuesday.

Mr. W. A. Adams, I. '08, will speak before the Civil Engineering Society on next Tuesday afternoon, November 26, at 4.15 P. M. The meeting will take place in Room 11, Engineering B and the society expects that many will take advantage of this opportunity of hearing Mr. Adams' address, which the officers promise to be as interesting to the students as that of Mr. C. P. Gow, whose talk on tunnel construction, given before the society three weeks ago, is still fresh in the minds of many.

Mr. Adams is at present with the Government Insular Civil Service on the Philippine Islands, his chief activities being in connection with the Topographical Bureau. His talk will be largely on the opportunities that exist in the islands for young men.

Members of the society desiring pins or shingles are requested to sign the blanks, posted for this purpose, as soon as possible, because an order will be sent to the manufacturer next week. The pins are sold at eighty cents, with safety clasps twenty cents additional. Blanks are posted on the top floor of Engineering A, one at the head of the stairway, and another on the bulletin board in front of Professor Allen's office.

SATURDAY, NOVEMBER 23, 1912

It was most gratifying to see the goodly number of men that gathered at Trinity Place Station on Thursday evening to give the cross-country team a "send-off."

Although the team were somewhat disheartened from the fact that they have had to surmount so many almost impassable barriers during the present season, they were given a feeling of goodwill and hope which will help to a great extent toward making a name for themselves at Ithaca.

Men of Technology, it is just such evidences of true Technology spirit as this that makes the bond between us all much stronger and the love for Technology much greater.

COMMUNICATION.

To the Editor-in-Chief of THE TECH:

Dear Sir:—During my four years at the Institute I have been on many occasions closely in contact with the Chemical Supply Room in Walker building, and so when your editorial of some weeks since appeared, I could not but be struck by the fair-mindedness and general truth contained therein. For a long time I have been applying myself to the solution of the Chemical Supplies problem, concluding that with the student lies the rectification of Institute wrongs, and that it rests with the undergraduate as to whether their lot is bettered or not. After much premeditation and investigation I have arrived at the conclusion that the excellent manner in which the Physical Chemistry and Industrial supply rooms are managed should be a good model for the Walker building supply rooms. Further, it seems to me that if Mr. A. C. Melcher were placed in charge of chemical supplies at the Institute not only would the methods be improved, but the Institute and students would be saved unnecessary expense and bother. Mr. Melcher is an Institute graduate of the class of 1900, and has been connected with the Department of Physical Chemistry ever since. Trusting that you will be able to spare my suggestions some space in your columns,

Yours truly,
An Interested Chemist.

A new organization at the University of Minnesota, known as the University Senate, and composed of students from all colleges in the university, will have charge of the various student activities. It has the power to pass acts governing the students, subject to the approval or veto of the president of the university.

ATHLETIC ASSOCIATION HOLDS BUSY MEETING

White is Elected Manager of Track Team—Numerals Are Awarded.

A great deal of business interesting to the students was transacted at the meeting of the Athletic Association which was held in the Union at 4.15 yesterday afternoon.

The first action taken was the awarding of numerals to the participants in the Field Day games. A motion was moved and passed that the members of both Freshman and Sophomore football teams, the winning tug-of-war team, and the winning relay team be awarded class numerals.

A recommendation was then made to the Advisory Council on Athletics that H. S. Benson, 1916, be awarded a T. This is according to the present ruling of the Advisory Council, that any member of the cross-country team winning eighth place or better in a N. E. I. C. A. A. meet shall be given his letter. In connection with this a letter from Captain Nye of the cross-country team was read, in which Mr. Nye urged that all men winning twentieth place or better in an N. E. I. C. A. A. meet should be awarded a cTc. After a very spirited discussion by those present it was decided to recommend that the Advisory Council award the cTc to those finishing eighteenth or better in such meets. To conform with this it was also recommended that the Advisory Council award the said letters to Wall and Palmer because of their position in the race of Saturday last.

In the election of members from the Association to the Advisory Council, R. C. Thompson and W. R. Bylund were selected Senior members, with T. H. Guething as the Junior member. The Athletic Association officers were then elected. These officers are: President, E. B. Germain; Vice-President, T. H. Guething, 1914; Secretary and Treasurer, C. E. Fox, 1914. The election of manager and assistant
(Continued to Page 4.)

INSTITUTE COMMITTEE.

(Continued from Page 1.)

Some time was spent in discussion about the Calendar Committee. It was finally decided to appoint a member of THE TECH as a Calendar Committee of one. Greater co-operation between Technology activities and THE TECH as regards announcements and club news is expected by this move.

Mr. Russell reported for the All-Technology Dinner Committee and suggested that the dinner be held in the Union on Founders' Day, December 7th. The committee was instructed by the Institute Committee to hold the dinner on that day. The Athletic Association report was given by Mr. Brewster and accepted. The Technology Athletic Association was empowered to appoint this year a student advertiser, but in following years he is to be chosen by competition. It was decided that the office should be open to only Juniors and Seniors who are members of the Athletic Association and hold no other office. The members of the Advisory Council of Technology were then chosen. Mr. Peck was chosen unanimously as the undergraduate member of the Council; Messrs. Marcy and Sear as the graduate members. The assistant cheer leaders chosen were: Curtis, 1915, relay captain, and Sandburg, 1914.

The committee appointed to look into the relations between THE TECH and the Advisory Council drew up a set of resolutions outlining the duties and relations of the Advisory Council to THE TECH. By this means a closer bond is expected to be established between the Council and THE TECH.

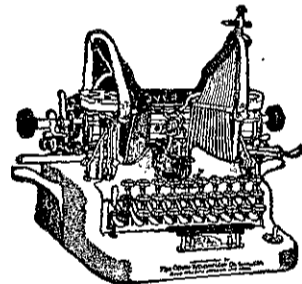

Another Year Ahead of Him
May it be a happy one—may he always have Fatimas.

With each package of Fatimas you get a pennant coupon, 25 of which secure a handsome felt pennant—Colleges, Universities and Fraternal Orders (12x32)—selection of 115

NEW TECHNOLOGY PLANS PROGRESS

Investigation of American Colleges Conducted by J. R. Freeman, '76.

Every Tech man is interested in the New Technology, and all want to know something of the plans that are being made for its buildings. The Institute authorities decided at the outset not to proceed with plans for the New Technology without full knowledge of what has been done at other institutions. With this end in view President MacLaurin devoted a considerable part of the past summer to visiting educational institutions in England and on the Continent. A comprehensive survey of the physical characteristics of American colleges was made during the spring and summer under the direction of an alum-

VARSITY HOCKEY PRACTICE HELD

Manager Finds Promising Material for Coming Winter's Team.

A large number of men turned up at the Arena last night for the first practice of the coming hockey season. There was no team play at this early stage of the training as Captain Ranney and Manager Hurlbutt wish to see what kind of material they have at their disposal before organizing the men into teams. Some clever shooting was displayed by several members of last year's team, and many of the new men distinguished themselves as quick and accurate workers. The time of the next practice will be announced in Monday's issue of THE TECH.

MAP OF THE NEW SITE.

nus, John R. Freeman, '76. He organized a corps of engineers and sent them to thirty-five prominent educational institutions in this country and Canada, to report on all buildings erected by them within the past dozen years. As a typical example of this work the report on one university contains ninety-eight photographs taken by our men in addition to the maps, plans and notes setting forth not only the general arrangement of the buildings, but also special features of lecture rooms and laboratories, together with full details as to light, heat and ventilation.

On the site itself a complete set of borings are now being made under the direction of William O. Crosby, '76. These borings are carried down to, and sometimes into, bed-rock in order that we may determine exactly what is required for foundations. The site is being filled and graded under the direction of James W. Rollins, '78, of the building committee, assisted by John T. Scully, '00.

During the last decade the social side of student life at the Institute has been greatly developed, with such beneficial results that it is now the wish of the Corporation and Faculty, as well as the alumni, that in planning the New Technology this feature be given special consideration. As this is a matter in which the alumni take keen interest and can be of material assistance, the President has appointed a special alumni committee to determine our requirements for buildings and grounds for social and athletic purposes. This committee is now actively at work formulating general plans for the Walker Memorial, dormitories, restaurant, gymnasium, athletic field, etc., and hopes to be in a position to report its conclusions to the building committee of the Corporation at an early date.

CHESS CLUB MEETING.

Arrange Tournament to Select Men for Future Meets.

A small but enthusiastic coterie of chess devotees turned out yesterday afternoon at a meeting held in the Union for the purpose of signing men up for a tournament which will be played in the near future. More men are needed to enter the lists so that the best possible men may be chosen to represent the Institute in the inter-collegiate meets next term. The elimination games will start about December 1st, and the first series must be played by two weeks after that date. Five games will compose each series, the winner being the player winning three out of the five games.

As soon as the list is complete the players will be paired off by lot and the names of those playing in the first round will be announced in THE TECH.

Chess deserves more support than it is receiving at present. It trains the mind for quiet and accurate thinking, which is one of the most striking characteristics of the successful engineer, and one of the qualities which the Institute tries to instill in every student. All men who know anything at all about the game are especially urged to sign up for the coming tournament. Names can be left at the Cage for W. B. Merrill, '13, the secretary of the club, and must be in before November 30th.

Study of bacteria in ice cream is just now engrossing the attention of the dairy bacteriologists of the experimental station at Iowa State College.

Write Ideas for Moving Picture Plays!

YOU CAN WRITE PHOTO PLAYS AND EARN \$25. OR MORE WEEKLY
We Will Show You How!

If you have ideas—if you can *think*—we will show you the secrets of this fascinating new profession. Positively no experience or literary excellence necessary. No "flowery language" is wanted.

The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100, and more, for single scenarios, or written ideas.

We have received many letters from the film manufacturers, such as VITAGRAPH, EDISON, ESSANAY, LUBIN, SOLAX, IMP, REX, RELIANCE, CHAMPION, COMET, MELIES, ETC., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are selling photoplays written by people who "never before wrote a line for publication."

YOU WILL EARN \$100 MONTHLY FOR SPARE TIME WORK.

FREE SEND YOUR NAME AND ADDRESS AT ONCE FOR FREE COPY OF OUR ILLUSTRATED BOOK, "MOVING PICTURE PLAYWRITING"

Don't hesitate. Don't argue. Write **now** and learn what this new profession may mean for you and your future.
