Show, which were representative of artists of the Institute.

Club, will be held in the Union from that time, who always took a profound interest in its aims. The object of the club at this time was the promotion of general education in the institute and the giving of short plays. With the advent of the Linnet Show, followed by the Tech Show, which were representative of the entire school, the dramatic part was discontinued. However, the members not wishing the club to die out, decided to make it honorary one and to elect men from all courses who showed an appreciation of a broad education for an engineer. The members held a dinner about once a month, at which several informal talks of a non-professional nature are given and good fellowship is furthered. In addition to these an annual function given by the Tech Show, not only as a this work and thereby increase the artists of the Institute.

LOLLITA AND RAND, "CASTLES IN SPAIN."

The dinner last Saturday was the best attended that was ever held at the Institute with the exception of the "All-Technology" dinner of last year. There were 150 men present at this year's Kennedy's dinner as compared with 149 last year.

General Manager Works of the Tech Show presided and introduced the various speakers. After a few remarks about the Show as a whole, and especially about the Orchestra, which rendered excellent music throughout the dinner, he called on Dean Burton for a short talk. The Dean enumerated a number of the advantages of the Show, not only as a training in dramatic art, but also as a social feature of the Institute. He showed that it drew the fellows to gather in a democratic way, and it enabled especially upon the point to be used on special occasions like the Kennedy's dinner.

Shivered by the Dean's words the tone present went in singing the Stella Song to the accompaniment of the Show Orchestra in a way that really

The next talk was given by Pro- fessor Havard, who was greatly in favor of the proposed project for making the Show an entire student organization. Hereinof it has been the custom to have professional fagots and makeup men, but this year it is proposed to have students do all this work and thereby increase the profits as well as giving a chance for a greater number of men to have some part in the performance. One bit of advice which he gave to us

I. C. A. A. A. RACE

WON BY HARVARD

Cornell Takes Second Place With Technology in Sixth—Jones Winner.

The American team finished in second, and one man from the Tech team.

Although the Technology Providence finished last in the cross-country race at Andover, considerable glory was won by Captain Woodman, who ran the race. Fully two hundred yards separated him from the second runner whom he broke the tape in the that time of 38 minutes, 34 seconds. Two of the Tech runners were forced to drop out because of a cramp in their legs, and the remaining four were not able to place among the first twenty, and a great loss for the Tech students, however, is the great milling of the show. With no other year's experience and training under such capable leadership, it is

Kanasly he will have a good chance to win the I. C. A. A. A. meet next fall.

The dinner was given by the Dartmouth Foremen, with 65 points, who represented the students of the University of Pennsylvania 1516 team, and by Harvard, 156, with 68 points. Westminster Academy, with 32, and Andover Academy finished with 31. Mr. J. T. Burton, were sixth, the score being 169.

Inkman, the Harvard 25-miler, of whom much was expected, was not able to keep the pace, and finished

COSMOPOLITAN CLUB PREPARES FOR DANCE

To Take Place in Hotel Tulleries—Dance Orders Out Early This Week.

Arrangements are being made by the Dance Committee of the Cosmo-
opoliCn Club for its annual dance, which will take place this year on the 4th of December in the Hotel Tulleries.

Invitations have been sent to many famous foreigners, but the committee announces that no invitations will be sent to foreigners who are not students at the Institute, but through TH'3T, and their respective National Chairmen all are hereby re-
quired to be present. Those who wish to have invitations sent to their lady friends should apply to the National Chairmen, who will arrange the in-
vitations promptly sent out.

The price of the tickets is $2.50 each, and they may be obtained from any member of the committee, which is composed of the following: A. C. Knapp, H. D. Pocker, L. H. Leubrand, T. W. Taylor, E. Hurst and T. Stin-
ner.

The dance orders, which will be out this week, may also be ob-
tained from any of these gentlemen.

Every effort is being made to make the affair a great success, and the committee expect it to surpass all previous ones in decorations, novel features, refreshments, music and at-
trance. There will be many sur-
prises in the line of entertainment, and an effort will be made to per-
suade live Maccabre to be present to provide over the beer table. Dona-
tes, boxers and sixes will be pro-
vided for the entertainment of those who do not dance, and thus every person attending is assured of an excel-
 lent evening.

RELIGION OF TECH MEN.

Congregationals in Majority, Say T. C. A. Statistics.

The statistics of the “religious

piano” taken at the beginning of the year under the auspices of the T. C. A., have been passed on to the secre-
tery of the Association. They are made up from replies given on the book by the students at registration days, copies of the hand-book being in exchange.

As the signing of these cards is not compulsory, the statistics are far from complete. Still about 260 more cards have been signed this year than last year. A total of 1,085 cards has been re-
ceived, exclusive of duplicates, and the cards signed by members of the Faculty who asked for the book and who were requested to put their names on cards, so that those in charge might have a card or voucher to share for each book given out.

As last year, the Congregationalists are far ahead of any other de-
nomination, with 247; the Episcop-
alis are second, as before, having 177 this year. Twenty churches are rep-
presented, but it is probable that among those expressing no prefer-
ence there are representatives of se-
veral religious religions other than Christian.

The complete figures are as fol-
ow:

17 Congregationals; 177 Episcopalian; 117 Roman Catholics; 12 Unitarians; 85 Baptists; 12 Methodists; 66 Presby-
terian; 51 Jewish; 59 Universalists; 40 Christian Scientists; 4 Lutherans; 37 Episcopalians; 5 Quakers; 2 Free Episcopalians; 2 Greek Orthodox; 2 Greek Methodists; 2 Greek ministers that each of the following churches: the Good Advent, Brethren of Christ, United Brethren and Methodists. The T. C. A. has many none of the hand-books and will be able to give

THE TECH BUSINESS MEETING.

Important Meeting of Candidates in Upper Tech Office.

On Tuesday, at 1 o’clock, in the upper TH’3T office, there will be a meeting all the candidates for the Business Staff of THE TECH. Im-
portant business will be discussed. It is only essential that that any new men who wish to enter the competition would report at this time.

Candidates who have not yet re-
served their names must see Wright & Dutton’s at a discount of 20 per cent. by applying to the assistant manager for an order. All candidates are to meet in the Tulleries at 5 o’clock Friday with their shoes and sticks. If practice is not held on the ice a talk will be given by the coach.

HERBERT H. BARNES, Proprietor
the work of his department and an- how as great, if not a greater, suc- position in this department.

is a good opportun- ity for securing three Freshmen. These Freshmen are the present-day Shilows go to play the spending of all money. Two business department. This depart- ment is in the process of getting two afternoon performances. Eugene D. Sanger was now obtained there. Furthermore, instead of these councils.

reason for this was given by the on the work of his board. Mr. Litch- was considered best to create the new received by his audience.

management is endeavoring to secure the numerous illustrations from his own college and possibly one to New York if stlf- the room, and Mr. Hastings responded to this time the two beautiful

of the Business Manager and his assis- tants, and then proceeded to give some information with regard to the prospective trips for this season, which include a trip to Northampton and possibly one to New York if sufficient support for the Show can be obtained there. Furthermore, instead of giving two afternoons performances in Boston, as has been the custom herebefore, because of the inability to set a theatre for an evening, the management is endeavoring to secure the Boston Opera House, which will allow performances to be given in the evening, affording the "tired business man" an opportunity to see the Show which he would not be possible otherwise.

Mr. Keith then registered an earnest plea for more candidates for the Business department. This depart- ment has plenty of courses and the spending of all money. Two Sophomores are the present-day Shilows and three Freshmen. The Freshmen are considered best to have at least one member of the committee, which has charge of the show. The next speaker was the Publicity Manager, Mr. Whitwell. He told of the work of his department and announced that the poster competition would begin December 15th. Details will be published in THE TECH later. Mr. Whitwell had a letter from Mr. Rosan, the athletic council, in which he expressed the hope that Mr. Whitwell’s letter would be a success and that the Show would also prove profitable as the athletic department is in need of funds.

Mr. Fiske, the stage manager of the Tech Show, followed Mr. Whitwell and enlarged on the proposition of using students as light men and makeup artists. The stage properties department of which he is the head, has charge of the selection of the coat, the book, the lyrics, etc. In connection with this Mr. Fiske added that the music competition would probably begin in about a week. A number of announcements were made in THE TECH at a later date.

The Treasurer, Mr. Price, was now called upon and responded with a short summary of the work of the Finance Office. He then stated that an innovation of this year is the entrance ticket, which many students have been responsible for the institu-

The business of the Tech Show has increased so much that this year it was considered best to create the office of treasurer to take over the financial work which formerly was involved in the business manager. This position was given by Mr. Whitwell to the Business Manager, Mr. Walter R. Keith. He spoke of the many duties of the Business Manager and his assistants, and then proceeded to give some information with regard to the prospective trips for this season, which include a trip to Northampton and possibly one to New York if sufficient support for the Show can be obtained there. Furthermore, instead of giving two afternoons performances in Boston, as has been the custom herebefore, because of the inability to set a theatre for an evening, the management is endeavoring to secure the Boston Opera House, which will allow performances to be given in the evening, affording the "tired business man" an opportunity to see the Show which he would not be possible otherwise.
