HASTINGS TO MEET WRITERS OF LYRICS
Will Be in Union This Afternoon to Give Discussion—More Songs Needed

WRITERS OF LYRICS

EPISCOPAL DINNER

TENNIS TOURNAMENT

The 1914 Class Directors' picture will be taken this week at 1 o'clock sharp, at Purdy's studio, 145 Tremont street.

CROSS-COUNTRY TEAM HANDS HOLDCAP RACE

Run Over the Wakefield Course Saturday Afternoon From V. M. C. A. Gym

Next Saturday afternoon the annual Fall handicap cross-country race will be held at Wakefield over a course of about seven miles, which is the same as last year, the team run over last year. There is not as hard as the Technological course, the Wakefield course is a good handicap run over all kinds of ground, with very little road running, and will test the men out in good shape.

Three courses have been offered by the Hare and Hound Club, one each for first, second and third for the earliest actual time over the course. In addition to this the first four men taking the teams time course will win their own trophies. During the week the runners will be choosing their location in the sectional book case in the Cage.

Last year the race was won by R. M. Gfroerer, who captured the time prize of $2.00 and is a member of the Wakefield Y. M. C. A. dressing room staff. The following men were appointed to the cross-country team: Adelbert D. Hiller, Thomas H. Huff, W. V. Ridgway, A. Snow, John H. Stone, and Augustus Newlin.

JUNIOR PROM BALLOTS

The Junior Prom Committee ballots are now out and can be obtained at the Cage. No ballots marked for more than five men are valid. They must be signed and class paid, the latter may accompany the ballot, and are due at the cage not later than 1 o'clock Tuesday, December 3rd.

Tickets for Game

M. A. H. S. Men Can Get Them For Dorchester High Game

The Mechanic Arts High School Club held a meeting last Friday night to discuss the prospects of the team. The boys of the Mechanic Arts-Dorchester football team are looking forward to the big game. It is expected that the men who should all have attended will be there and that the team will be in top form. There are only five matches left to the season and those who desire to see Mr. Rasmussen at the Union Hotel between 2:30 and 4 o'clock, and settle up with him.

The following were among those in the men's room for discussion: Daniel J. O'Connor, Philip A. Russell, Donald T. Fobes, William H. Brothers, John C. Clarkson, John C. Mawby, E. S. Noetling, Philip A. Russell, Wirtz, A. Snow, John H. Stone and Augusta N. Stewart.

1913 CLASS PIPES

President Mattson of the Senior Committee has appointed the following men on the Pipe Committee: C. J. Gadd, Chalidron, W. N. Kieno, R. M. Freeman and N. Clark. A representative of the committee will be at the Union Hotel every day this week from 11 to 1 o'clock to take orders for the pipes. The pipes are similar to those sold the Freshman year, and as this is the last chance to get a class pipe all men should place an order for a member of the committee at once.

EPISCOLAL DINNER

Tonight, at 6 o'clock, the Brotherhood of the Trinity House and Trinity Avenue will hold a dinner at the Trinity House, 17 St. James Avenue. This will be the second of a series of dinners by the Brotherhood for the purpose of bringing together all Technology Episcopalians. Dr. Stahl, the rector, will be present to address the assembly. Everybody interested in being invited is cordially invited and a good time is assured. The price of the dinner is fifty cents.

CIVIL ENGINEERS TENNIS TOURNAMENT

The tournament brought out many good freshmen and several, together with the members of last year's team, who will compete with the team. Two doubles played a tie match, but nevertheless it was a very interesting match.

The tournament brought out many good freshmen and several, together with the members of last year's team, who will compete in the singles and doubles and, if they can win, will do much to make a championship tennis team next year.

The usual delay in the singles and doubles was due to the fact that the majority of the games were carried to deuce. The tournament brought out many good freshmen and several, together with the members of last year's team, who will compete with the team. Two doubles played a tie match, but nevertheless it was a very interesting match.

The tournament brought out many good freshmen and several, together with the members of last year's team, who will compete in the singles and doubles and, if they can win, will do much to make a championship tennis team next year.

Weather:

For Boston and vicinity: Fair to brisk to high southwest in west winds.

THAT ARE DIFFERENT

PENALTY AT THE UNION

SOMETHING

NEW CONTINUALLY,

AN APOLOGY.

THE TECH regrets its inability to include the Anglo-American Dance given by the British Empire and American members of the Cosmopolitan Club on Saturday evening of this week in its program. It is hoped, however, that every student at the Institute will be able to attend.

Anglo-American Dance.

The Anglo-American Dance given by the British Empire and American members of the Cosmopolitan Club on Saturday evening of this week is a function which it is hoped everyone will be able to attend.

It should be understood distinctly that the in-camp students at the Institute are the guests of the Anglo-American members or the clubs and are expected to apply to the Dance Committee for invitations to send to the ladies whom they would like to have invited.

MISUSE OF TOWELS.

It is indeed a strange thing that however much we appreciate a new acquisition that has been a decided benefit, we are never quite appreciative enough, but that there is some misuse or over use which takes away somewhat from the pleasure of having the thing whatever it may be.

This is more than true with the new individual towels that every man has, at least, been most thankful for and convivial, which has expressed himself in no small manner. It was not long after they were handled, however, until many of the men's hands, which began their missions which have gone on almost ever since the first week of the term. The tellers are used for cleaning away, wiping fountain pens, scrubbing drawing boards, wiping glasses from the hands and many other things that are decidedly not what they are intended for. The whole situation is disgraceful and avoids the attention of every Institute man, whether he be an offender or not. We should at least show some appreciation in a little more considerate way.

Sheffield Scientific has recently adopted the honor system for examinations. On all papers written in class the word "Pledge" is signed at the top of the paper, and the entire pledge is written and signed at the end of every examination paper written in class. The pledge is as follows: "I hereby pledge my word of honor that I have neither seen nor read the said and during this examination."

Mr. Richards Honored.

Women of Country Will Celebrate Home Economics Day.

In honor of the late Mrs. Ellen H. Richards, for twenty-five years President of Science Chemistry at the Institute, the women of the country will receive her memory on December 7 by celebrating a Home Economics Day. She was probably one of the /women scientists working in social and economic circles.

An effort will be made to complete the raising of the $100,000 fund to help memory on that day, or to have it wholly subscribed by January 1. This fund will be used to further the work she began during her lifetime. Our Home Economics Day women's clinics, colleges and schools will recall her achievements by special programs. It was Mrs. Richards who developed the domestic science platform with great success. Since her death, in March 1911, this movement has gained strength, but it still needs the support of extra funds to reach its full growth.

At a speed of 150 revolutions per minute the turbine engine will pump thirty million gallons of water every twenty-four hours, raising the water from the river level to the city reservoir, located on Crescent Hill. Both the old pumps working together could pump more than twice as much water in the same length of time.

A DOLLAR GOES TO THE MAN

with the highest candle pin score each day.

Come and Get it.

Trinity Court Bowling Alleys

Right Across from the union. Come in after lunch, after dinner, anytime.
The Most Enjoyable Smoke in the World

EVERY man knows that pipe smoking is the ideal form in which to use tobacco. Only by smoking a pipe, can you get the full benefit and enjoyment from tobacco.

And yet—thousands of men reluctantly deny themselves the pleasure of the pipe—because fancy "mixtures" and ordinary tobaccos bite the tongue, dry the throat and upset the nerves.

It is not necessary longer to forego the pleasure a pipe can give you.

Tuxedo
The Perfect Tobacco for Pipe and Cigarette

Tuxedo cannot bite the tongue or irritate the throat. The reason for this is that Tuxedo is made of only the mildest, choicest leaves of the highest grade, perfectly aged, Burley tobacco, by the famous "Tuxedo process."

The "Tuxedo process" is a secret, known only to its manufacturers.

It was discovered by Dr. R. A. Patterson, the founder of the R. A. Patterson Tobacco Co., after many years of experiment. Its popularity has never been artificially forced by sensational advertising. The demand has grown naturally and steadily until now nearly eighty million packages are sold yearly.

You can smoke Tuxedo in the office, on the street, and at home. It cannot make you nervous; its aroma is delightful and it cannot smell up lace curtains or your clothes.

YOU CAN BUY TUXEDO EVERYWHERE

Convenient pouch, inner-lined with moisture-proof paper 5c
