INDOOR WORK OUTLINED AT MEETING YESTERDAY

Nye Re-elected Captain by Cross-Country Team—Coach Kanaly Spoke.

Yesterday afternoon, in the Union, a very interesting meeting was held, at which Coach Kanaly and Captain Nye remain of the track team were the speakers. Among other announcements was that of the re-election of F. Nye, '14, as captain of the cross-country team. The election was held Tuesday and was unanimous.

As planned by Coach Kanaly, the meets to be entered will begin with the Coast Artillery meet at the Irvington Street Armory on Saturday, January 25. Individual entries will be made in this meet. All those making sufficiently good showing in practice will be entered in the B. A. A. meet, which will be held February 8th. A relay team, each man to run 390 yards, will also be entered in this meet. About February 15th, at New York, will be held the University of Columbia indoor meet, at which one of both teams will be started, according to the form shown. Two years ago the team won in the Intercollegiate Indoor Championship in this meet, and Coach Kanaly hopes to regain its honor. At Providence, probably on the 22nd of February, the one and a half mile teams will compete against Harvard. If this meet is not held a team will be sent to run at Troy, N. Y.; while if a sufficient number of good men come out a third team will be sent to Troy, even if the first team goes to Providence. The season will be concluded with a race between the Technology and Dartmouth two-mile teams, which will probably be held on March 4th, at Hartford, Conn.

A vote was held and a majority of those present were in favor of having Wednesday as a regular training day instead of Tuesday. Beginning Wednesday of this week the candidates will be required to come out for practice every Monday, Wednesday, Thursday and Saturday. On every Monday the work will be held outdoors off the Irvington Oval. As the days will often be extremely cold and windy, it is essential that all men should come prepared so that no illness will result. Everyone should be provided with long drawers, a heavy sweater and gloves. Coach Kanaly hopes to gain better results by having some of the practice outdoors than by having it all in the gym. Training will be continued until the Christmas vacation, when the team will be given a complete layoff. In previous years the men have had keep in training during the vacation, which detracted somewhat from their enjoyment of it, and in addition results were not as good as it is hoped will be obtained under the new way. During the entire indoor season scrub meets will be held on Monday afternoons. These meets will be similar to those which were held this fall at Tech Field, and the first one will be held either the 14th or the 21st of this month in the Gym. Every man comes out these meets should be successful.

Immediately after the Christmas vacation the training will start anew, on January 4th will be held the relay meet for the relay team, on which one man will run 390 yards. The relay team for the two-mile team, each

(Continued to Page 2.)

1914 DINNER TONIGHT—EXCELLENT PROGRAM

Good Speakers to Be Present—Election Returns Will Be Announced.

This evening the Junior class will hold its annual banquet. It is earnestly hoped that every 1914 man will show his loyalty to his class and be present. An excellent time is assured for all, and each man should do his share and make the dinner a success.

Several of the Institute's best speakers, Professor Russell, Bursar Rand and Dean Barton, will be present, and each will give a talk. These men will have something interesting to say to all Juniors which will be worth while to hear. Steward Colton will have an excellent menu, and the dinner will undoubtedly be a most enjoyable one. Another interesting feature of the evening, especially to all '14 men, will be the returns which the Junior Prom Election Committee promises to have ready. This banquet is the one exclusive function for 1914, and not one of its men can fail to be present.

RELAY TEAM PROSPECTS

Several Fast Men in Quarter-Mile and Two-Mile Squads.

While discussing the prospects of the track team for the indoor season, Captain Eddie Germain expressed himself as being quite pleased with the outlook for the relay teams. Several of the old men are back and they will help to form several fast squads.

For the quarter-mile team Coach Kanaly will have as experienced men to work with three stars from last year's squad—Guething, Bolton and Thompson. There are also other men in the Institute of well known ability in this short distance, among them being: Johnny O'Brien, Munch, Crankshaw and Barry. In the Freshman class there are several men who look promising and will probably give the three regulars mentioned some hard work to keep their positions on the team. In addition to these men the fast runners on the half mile will be given trials at the quarter in order to have the strongest possible team for the B. A. A. race.

In Bylund, Palmer, Guething and Germain, the two-mile team will have a good nucleus around which to build a championship four. In addition to these men the squad will have some excellent reserve material with Huff, Stubbs, Gangnon and young Guething. From among these eight runners Coach Kanaly should be able to pick a team that will be able to take care of all the big college teams that it will have a chance to come up against.

The Institute will be represented in indoor events at varsity meets by two fast sprinters in that happy pair, Wilson and Wilkins. The former was held up last year owing to a pulled tendon, but is now showing signs of regaining all his former strength and speed.

In Benson, Guething and Adams the Freshman Class will furnish three good men for the track squad.

NEW RIFLE CLUB MEN TO ORGANIZE TEAM

Will Meet Harvard Freshmen Soon—Practice Daily at Armory.

Next week, on one of the practice days of the Rifle Club, the new men will be organized into a team, and at some date in the near future this team will hold a match with the Freshman Rifle Club of Harvard. The Rifle Club has just recently joined the Indoor Intercollegiate League and has scheduled about twenty matches, to begin shortly after Christmas. The men have made good records and the club has, in the minds of the officers, the best show for success it has ever had. There are at present between thirty and forty members, but there is still room for many more, and it is hoped that the membership will be increased to about seventy-five.

Practice is held every Monday, Wednesday and Friday afternoons, from 4 o'clock on, in the First Corps of Cadets Armory, on Columbus avenue. The facilities for practice are such that five men can practice at the same time, and since a man does not care to shoot for over half an hour at a time, twenty men get a chance to practice on one night. The competition is keen and there is always something doing, although many of the members get in only once or twice a week.

All men who are interested in rifle practice are invited to come over and look over the place. The dues are one dollar, which includes everything, rifles, ammunition and targets. Recently the Winchester Arms Company sent down five thousand paper targets for the use of the Rifle Club.

POST GRADUATE COURSE.

The Secretary of the Navy announces the establishment in connection with the Annapolis Naval Academy of a post-graduate course separate from the academic departments, and independent of the Academic Board. The length of the post-graduate course is to be two years, but in special cases may be longer. The first two terms of four months each are to be spent at Annapolis. After that student officers may elect to continue their studies in special institutions. Officers will be selected for post-graduate courses on the recommendation of the various navy bureaus, provided they have completed not less than three years' sea service and qualified for promotion to lieutenant, junior grade.

E. I. WILLIAMS CHOSEN.

Position Left Open by Resignation of A. H. Cox Filled.

Edgar I. Williams, '08, who graduated from the Architectural Course at the Institute, has been appointed to fill the vacancy caused by the resignation of Allen H. Cox as instructor in Design, and will spend full time here, while Mr. Cox spent only part. Mr. Williams has been studying in the American Institute in Rome, and is well fitted to fill the position. The department heads feel that it has lost a valuable man in Mr. Cox, who has had to leave on account of the increasing demands of his practice upon his time, but also feel that they have a competent successor in Mr. Williams.

CHESS TOURNAMENT NOW BEING HELD

Seventeen Men Will Play in the First Round—Outlook Splendid.

Seventeen men entered in the Chess tournament which is now under way, and matches can be played at any time in the Union. The club owns its own boards and chess men, which may be obtained by applying at the Cage. Two out of three games will decide each match except in the case of a tie, when another game will have to be played. The time limit of the first round is December 14. One week will be allowed for each succeeding round, but matches not played within the time limit are defaulted. The results of all matches must be sent promptly to W. E. Merrill, '13, at the Cage.

The preliminary round will be a game between H. T. Chandler, '14, and W. E. Merrill, '13. The winner of this match will play E. A. Weaver, '14. The drawings for the first round are: R. D. Brown, '14, and P. L. Alger, '15; D. C. Dunning, '15, and H. J. Baker, '14; P. Smith, '16, and M. B. Kaufman, '15; C. E. Norwood, '14, and L. B. Hoyt, '13; R. C. Reese, '16, and D. E. Woodbridge, '16; W. W. Drumme, '16, and C. J. Johnson, '16; and T. R. Johnson, '15, and M. Paris, '14. After this the tournament will be finished in the usual way.

FIRST HOCKEY GAME.

Last Practice For Seven Before Game With Pilgrim A. A.

Hockey practice was held at the Arena on Saturday and Monday, when a number of men showed up. It was noticed that the old men are getting into fine shape, and of the new men, Ecote, Stern, Warren and Tapley, all showed promising style.

On Wednesday night, at 8 o'clock, all the men of the squad will be given a tryout in the game with the Pilgrim A. A. All men who have attended a previous practice should turn up at seven-thirty punctually. The admission for the public will be fifty cents, and after the game skating will take place, as usual. Manager Hurlbutt informs us that the schedule is coming along in good shape and will be printed in THE TECH in the near future. It is hoped that a large number of men will be on hand Wednesday night to give the team good support in this, their opening game.

Have you seen the new Freshman drill uniforms? Some class.

MILITARY SCIENCE.

There will be no lectures in Military Science this week, but will begin regularly next week unless further notice is given in THE TECH.

LOOK PLEASANT.

Did you ever see the man who goes about silently, without a word for anyone or even a pleasant look? When we speak to him we feel as if we had been dropped through a hole in the ice. He sometimes speaks, but not often. He generally gives a stiff little jerk of his head as if he is wondering why you made it necessary for him to speak. He never enters into conversation, but buries himself in a book during his spare hours and, even when he is addressed, is most reticent.

This is a man whose point of view must be a very strange one. He is evidently very self-satisfied although he may not know it, for in the analysis of such a condition it is not difficult to see that his reticence comes from a feeling of superiority in his own make-up or a failure to recognize the terms of democracy. We need not be effusive but we must be broad. We must recognize the right of every man to live and enjoy. Let us help him at least in the easiest way that we can, namely, by meeting him pleasantly.

THE RESPLENDANT FRESHMAN.

How gorgeous and wonderful are many of the Freshmen when arrayed in all their childlike things and bursting with baby's rattles. We see their school insignia on all sides, great letters staring at us from some sweater breast, various and sundry class and society pins displayed boldly on coat or waistcoat, and at the same time their mouths teeming with stories of their prowess at "prep" school.

Can more than half of this term have been spent without bringing clearly to the minds of every Freshman that a college is by no means the place to wear his school jewelry, display the representatives of honor that he has won, and tell us of his school days? It certainly seems to be so. Come, Teddies, you are no longer babes; you are in a man's school. Show yourselves in your true light and let that so shine that we may see your good works here and now.

FRESHMAN BASKETBALL TEAM STARTS WORK

Several Good Men Have Reported—First Game Comes Next Saturday.

Yesterday was the second day of practice for the Freshman basketball squad. A considerable number of men have reported for duty, and everyone is given a chance to make good in the position that he is trying for. The material is of the most promising kind, and judging by the showing that the men are making several good players will be produced. After the preliminary practice yesterday the Freshmen had a scrimmage with the Juniors but were easily out-classed by their opponents, due to a large extent to the superior team work of the Juniors, who have been practicing steadily for several weeks. Practice is held every Monday, Tuesday and Friday, from 5 to 6 o'clock. Once or twice a week a scrimmage practice is held with the 1914 team, which is playing a great game and ought to give the Freshmen plenty of good, hard practice.

This year the basketball takes the place of the usual Gym work. Any man who practices basketball three times a week is excused from the two hours of Gym.

Manager Lenehan is hard at work on a schedule. The first game is with the Revere High School team next Saturday. Several other games are under consideration, and a good schedule is expected. The following men are coming out for practice: J. J. Ziner, J. C. Merritt, C. F. Lewis, R. G. Reycroft, W. R. Willetts, H. F. Dewson, W. A. Wylde, E. L. Harriman and P. J. Lenehan, manager.

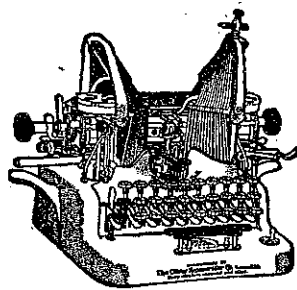

TRACK MEET.

(Continued from Page 1.)
man of which will run one-half a mile, will be held on January 8, 1913. These are only the preliminary trials, and the finals will be held later, those of the 390-yard relay on the 18th, and those of the two-mile relay on the 22nd of January. The idea in holding these trials so early is to leave the minds of the fellows free for their studies during examination week. However, all the men who make the team will be expected to do some work during exam. period, if only to come over to the Gym and jog a little every day. These men will also be expected to stay in or near Boston during the mid-year vacation and do track work every day, and observe training rules. In the meet in the Irvington Armory only individual entries will be made in order not to interfere with the studies of the candidates.

The annual indoor inter-class meet will be held on February 10th. This is scheduled for one week later than usual, in order to give more time for practice after the Christmas vacation. On February 15th will be held the annual meet between the Freshman and Sophomore classes. Both of these classes are also endeavoring to arrange a series of dual meets with teams from the various schools near-by Boston. This offers a fine opportunity for members and candidates for the class teams.

The competition this year will be keener than ever before, and hard work will be necessary to make one of the teams. The candidates may choose whatever event they wish, and if they desire it, may train themselves. But Coach Kanaly desires that those being trained by him give him their entire confidence, and do the work assigned to them unless they are sick or injured. He also desires that they do not become discouraged if they fail to make any of the teams the first year, as there are very few who do well enough at first to place them on the team. One of the great faults with the athletics at

**WIRELESS SOCIETY
TO MEET THURSDAY**

**Requirements of New Wireless
Law to Be Explained to
Members.**

On Thursday afternoon, at 4.15, the Wireless Society will hold a meeting in Room 11, Engineering B. This meeting will be held for the purpose of explaining to the members the requirements for obtaining amateurs' operating licenses. The new wireless law goes into effect December 13, and in accordance with it all amateurs are required to hold licenses. All candidates must pass an examination, and application blanks can be obtained of the society.

Even amateur wireless stations must comply with this new law, and accordingly the Institute station has already been remodelled. The transmitting station has been changed somewhat and the aerial will be shortened to meet the requirements. The wave-length of amateur stations is limited to 200 meters. At this meeting all the particulars of the new law will be explained and the meeting will be of considerable interest to the members.

TRACK MEET.

(Continued from Page 2.)

Technology, he says, is the fact that after the teams are picked those not winning a place on them stop work until the next year, instead of preparing for the future. When the men learn to do this the calibre of the teams will be greatly improved. Also, he recommends that they do gymnastic work at least once a week, and every morning take a short setting up exercise. However, he wishes it understood that no one will be allowed to use any of the apparatus while one of the Gym classes is on the floor. One of the great troubles in the past has also been the fear new men have of the time trials and races, which causes them to run below their real ability.

Another feature of the work will be a squad team composed of those unable to make the teams, and of those whom Coach Kanaly considers to need strengthening. This squad will be in charge of Captain A. F. Nye of the cross-country team. They will take long runs and do work such as the cross-country team does. This will strengthen them greatly and be a great help to them next year. Also any one on this squad who improves very rapidly will be given a trial for the relay team.

Captain Germain then spoke a few words to the gathering. He said the signs of a good runner were more in the face than in the body, because the men with brains would use them in athletics as well as in their studies. They watch better runners, endeavor to profit by the knowledge thus gained, and when they see their faults are very quick to remove them. He also remarked upon the hard work necessary to obtain success, and cited the case of Coach Kanaly, who worked in a gym every night for four years before he won the success which he now has received. Captain Germain also requested the fellows to punish themselves more in their trials, and said that in the first trials of the Freshman cross-country this Fall the cause of the slow time was the fact that the runners failed to run to the limit of their strength.

The meeting was attended by about sixty fellows, and all showed great interest in the speeches. Marceau, of last year's relay team, was to have spoken but was unable to attend.

Write Ideas for Moving Picture Plays!

YOU CAN WRITE PHOTO PLAYS AND EARN \$25. OR MORE WEEKLY
We Will Show You How!

If you have ideas---if you can *think*---we will show you the secrets of this fascinating new profession. Positively no experience or literary excellence necessary. No "flowery language" is wanted.

The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100, and more, for single scenarios, or written ideas.

We have received many letters from the film manufacturers, such as VITAGRAPH, EDISON, ESSANAY, LUBIN, SOLAX, IMP, REX, RELIANCE, CHAMPION, COMET, MELIES, ETC., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are selling photoplays written by people who "never before wrote a line for publication."

YOU WILL EARN \$100 MONTHLY FOR SPARE TIME WORK.

FREE SEND YOUR NAME AND ADDRESS AT ONCE FOR FREE COPY OF OUR ILLUSTRATED BOOK, "MOVING PICTURE PLAYWRITING"

Don't hesitate. Don't argue. Write **now** and learn what this new profession may mean for you and your future.
